EXPLANATION

We are requesting to contract with the Student Conservation Association, Inc. (SCA) on a SOLE SOURCE basis because of the organizational expertise, technical skills, and knowledge they bring through their national reach, as well as for the additional funding they bring to the program, the 24-year relationship with the Division, and the services they are able to provide the Division's other partners in the state. The partnership between the SCA and the Division provides a well-established unique combination of leadership development, elementary and high school programming, state park interpretative services and field operations to improve the condition of our state parks. For these reasons, and in order to continue this important partnership, the Division respectfully requests sole source approval of this contract.

This contract is part of an entire service learning program based at Bear Brook State Park. The Student Conservation Association's (SCA) New Hampshire AmeriCorps program is a residential community of emerging leaders who devote 10 months to full-time educational and conservation service. Each year 30 college aged members come from across the U.S. to provide over 50,000 hours of direct service to the natural resources and people of New Hampshire. From January through April, SCA NH members mentor local youth through in-school and after-school environmental education programs in the Manchester, Hooksett, Deerfield, and Allenstown school districts. From May through October, SCA NH members then serve in one of two positions within the

program: Interpretive Rangers providing environmental education programming in NH State Parks, or as Conservation Stewards, carrying out significant natural resource protection, conservation projects and recreational improvement projects throughout the state for towns, non-profit organizations, federal agencies and the State Park System.

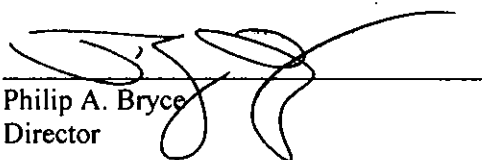

The funding requested is specifically for Interpretive Rangers and Conservation Stewards operating in NH State Parks. The program includes recruitment, training, and supervision of Corps members. The interpretive services, the Discover the Power of Parks Program, will educate more than 35,000 visitors at sixteen (16) park locations. Programs focus on connecting participants with nature and building appreciation for New Hampshire's unmatched natural heritage. Free fall nature programming is offered after Labor Day at selected State Parks or at community locations for scout groups, classrooms, after school programs, senior centers, and libraries.

In 2018, SCA NH celebrated its 24th year of AmeriCorps programming, having managed nearly 700 AmeriCorps members that have served over one million hours since 1994 out of Bear Brook State Park. During these years, SCA has proven its organizational ability to successfully administer youth corps programs, developing and annually reviewing tools, policies, and procedures including the development of a comprehensive Policies and Procedures Manual to effectively monitor programmatic and financial systems.

The Attorney General's office has approved this contract to form, substance and execution.

Respectfully Submitted,

Concurred,

Philip A. Bryce
