2. Providers must require a notary using their service to have a digital certificate. Will you:

Require the digital certificate provider to be accredited by Direct Trust; or

Require the digital certificate provider to meet industry standards that comply with the law (attach explanation documenting that your requirements satisfy the law).

3. New Hampshire law requires that an audio-visual recording of a remote notarization and a journal be created and preserved for ten years. Will you create and preserve the recording and journal as an element of your services?

Yes  No  If you answer no, we recommend that your contract with the notary explicitly provide

that the notary has these responsibilities.

4. Describe the plan for disposition, including but not limited to the retention, storage of documents, or transfer to the Secretary of State of journals and recordings in the event ten years have not passed since the notarization and the Provider no longer provides the storage for any reason.

After the Remote online notarization process has been completed, the Notary Public will have the ability to download their notary journal and video recordings for their own personal records. Our RON platform stores all vital transaction information within our document and video storage system (eVault) for a minimum of 10 years or longer per lender or client request.
