His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House

REQUESTED ACTION

Authorize the Department of Transportation to award a grant to the Pease Development Authority (PDA) (Vendor Code 156846), AIP-66, for Phase II to expand the airport terminal building to enable a more efficient movement of passengers through the terminal at the Portsmouth International Airport at Pease, Portsmouth, NH. State and Federal participation in the amount of \$2,111,111.11 is effective upon Governor and Council approval through July 16, 2023. 95% Federal Funds, 5% General Funds.

Funding is available as follows:

FY 2020

04-96-96-960030-7537

FAA Projects

034-500153 Expansion of Buildings

\$2,111,111.11

EXPLANATION

A Federal Aviation Administration (FAA) grant has been awarded for \$2,000,000.00 (copy attached), which represents 90% of the funding for AIP-66, for Phase II (of FAA funding) to expand the terminal building to enable a more efficient movement of passengers through the terminal (approximate 12,000 sf) at the Portsmouth International Airport at Pease, Portsmouth, NH.

The PDA undertook a Terminal Area Study to identify existing deficiencies in the terminal building, determine a preferred medium-term expansion alternative and explore long-term requirements, including opportunities for expansion for an ultimate build-out. Present terminal needs demanded that the medium-term needs be addressed in the short term. The existing deficiencies include the following affected areas:

- Check-in/ticketing
- Outbound baggage screening and make-up
- Passenger security screening checkpoint
- Passenger lounges/hold rooms
- Vertical and horizontal passenger circulation

The full build out of the terminal building expansion project is estimated at \$19M. Phase I of FAA's funding of this project (AIP-62) was approved by Governor and Council on September 20, 2018, Item #27 (attached). The Phase I project scope included the purchase of a passenger boarding bridge and electrical work. The PDA had to limit the amount of work in Phase I of the project due to the lack of available FAA funding. The scope of the FAA's funding, Phase II (AIP-66), was limited to focusing on the three prioritized areas: expanded passenger security screening capabilities, expanded secure passenger space and enhanced vertical circulations.

Phase II of this FAA funding for the airport terminal expansion project will include the site work, foundation, slab and structural steel construction, and will also include the installation of the plumbing and fire protection systems. A portion of the work in Phase II exceeds FAA's ability to fund; therefore, the PDA will pay these additional costs (\$40,887.78).

The PDA will continue to request additional FAA funding for this project as it becomes available. It is unknown if FAA will fund the remaining work to complete this project. In the absence of FAA funding, the PDA will bond the remaining funds necessary to complete the full build out of the terminal building expansion project. Should future FAA funds be granted, Governor and Council letter(s) will be submitted for approval to reimburse the PDA for federally eligible portions of this project.

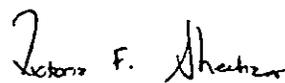

The Department of Transportation accepts the Federal Funds for this project as a pass through to the PDA in accordance with RSA 422:15. State participation, on eligible work, in the amount of \$111,111.11 (5% of this project) is also requested. The PDA will participate in the amount of \$151,988.89 (5% of this project plus unfunded additional costs in the amount of \$40,887.78). The total cost of this airport improvement project is \$2,263,100.00.

In the event that the Federal Funds are no longer available, General Funds will not be requested to support this program.

In accordance with the FAA Grant Assurances C - Sponsor Certifications, Responsibility and Authority of the Sponsor, the grant funds must be immediately available for the project to execute the grant offer; therefore all funding for this project is encumbered in the first fiscal year.

Please note that the State Funds are from the General Fund and have been previously approved in HB25, 2015, 220:1, XVI- A1.

Sincerely,

Victoria F. Sheehan  
Commissioner

Unless the FAA authorizes a written extension, the sponsor must submit all project closeout documentation and liquidate (pay off) all obligations incurred under this award no later than 90 calendar days after the end date of the period of performance (2 CFR § 200.343). The period of performance end date does not relieve or reduce Sponsor obligations and assurances that extend beyond the closeout of a grant agreement.
3. **Ineligible or Unallowable Costs.** The Sponsor must not include any costs in the project that the FAA has determined to be ineligible or unallowable.
4. **Indirect Costs - Sponsor.** Sponsor may charge indirect costs under this award by applying the indirect cost rate identified in the project application as accepted by the FAA, to allowable costs for Sponsor direct salaries and wages.
5. **Determining the Final Federal Share of Costs.** The United States' share of allowable project costs will be made in accordance with the Consolidated Appropriations Act, 2018 (Public Law Number 115-141), regulations, policies, and procedures of the Secretary. 6. **Completing the Project Without Delay and In Conformance with Requirements.** The Sponsor must carry out and complete the project without undue delays and in accordance with this agreement, and the regulations, policies, and procedures of the Secretary. Per 2 CFR § 200.308, the Sponsor agrees to report to the FAA any disengagement from performing the project that exceeds three months. The report must include a reason for the project stoppage. The Sponsor also agrees to comply with the assurances, which are part of this agreement.
7. **Amendments or Withdrawals before Grant Acceptance.** The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.
8. **Offer Expiration Date.** This offer will expire and the United States will not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor **on or before August 20, 2019**, or such subsequent date as may be prescribed in writing by the FAA.

9. **Improper Use of Federal Funds.** The Sponsor must take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner for any project upon which Federal funds have been expended. For the purposes of this grant agreement, the term "Federal funds" means funds however used or dispersed by the Sponsor, that were originally paid pursuant to this or any other Federal grant agreement. The Sponsor must obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. The Sponsor must return the recovered Federal share, including funds recovered by settlement, order, or judgment, to the Secretary. The Sponsor must furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. 11. **System for Award Management (SAM) Registration And Universal Identifier.**
- A. Requirement for System for Award Management (SAM): Unless the Sponsor is exempted from this requirement under 2 CFR 25.110, the Sponsor must maintain the currency of its information in the SAM until the Sponsor submits the final financial report required under this grant, or receives the final payment, whichever is later. This requires that the Sponsor review and update the information at least annually after the initial registration and more frequently if required by changes in information or another award term. Additional information about registration procedures may be found at the SAM website (currently at <http://www.sam.gov>).
  - B. Data Universal Numbering System: DUNS number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D & B) to uniquely identify business entities. A DUNS number may be obtained from D & B by telephone (currently 866- 705- 5771) or on the web (currently at <http://fedgov.dnb.com/webform>).
12. **Electronic Grant Payment(s).** Unless otherwise directed by the FAA, the Sponsor must make each payment request under this agreement electronically via the Delphi Invoicing System for Department of Transportation (DOT) Financial Assistance Awardees.
13. **Informal Letter Amendment of Supplemental Appropriation Projects.** If, during the life of the project, the FAA determines that the maximum grant obligation of the United States exceeds the expected needs of the Sponsor by \$25,000 or five percent (5%), whichever is greater, the FAA can issue a letter amendment to the Sponsor unilaterally reducing the maximum obligation. The supplemental appropriation funds will be available until September 20, 2020.
- The FAA can also issue a letter to the Sponsor increasing the maximum obligation if there is an overrun in the total actual eligible and allowable project costs to cover the amount of the overrun provided it will not exceed the statutory limitations for grant amendments. The FAA's authority to increase the maximum obligation does not apply to the "planning" component of condition No. 1.
- The FAA can also issue an informal letter amendment that modifies the grant description to correct administrative errors or to delete work items if the FAA finds it advantageous and in the best interests of the United States.
- An informal letter amendment has the same force and effect as a formal grant amendment.
14. **Air and Water Quality.** The Sponsor is required to comply with all applicable air and water quality standards for all projects in this grant. If the Sponsor fails to comply with this requirement, the FAA may suspend, cancel, or terminate this agreement.

- 15. Financial Reporting and Payment Requirements.** The Sponsor will comply with all federal financial reporting requirements and payment requirements, including submittal of timely and accurate reports.
- 16. Buy American.** Unless otherwise approved in advance by the FAA, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for which funds are provided under this grant. The Sponsor will include a provision implementing Buy American in every contract.
- 17. Maximum Obligation Increase For Primary Airports.** In accordance with 49 U.S.C. § 47108(b), as amended, the maximum obligation of the United States, as stated in Condition No. 1 of this Grant Offer:

Provide one copy of the completed audit to the FAA if requested.
- 19. Suspension or Debarment.** When entering into a "covered transaction" as defined by 2 CFR §180.200, the Sponsor must:

The Pease Development Authority undertook a Terminal Area Study to identify existing deficiencies in the terminal building, determine a preferred medium-term expansion alternative and explore long term requirements, including opportunities for expansion for an ultimate build-out. This project scope will address a portion of the deficiencies listed above. The Pease Development Authority had to limit the amount of work to be completed as part of this Phase (1) of the project due to the lack of available FAA funding. The scope of this project is limited to focusing on three prioritized areas: expanded passenger security screening capabilities, expanded secure passenger space and enhanced vertical circulations. The full build out of the airport terminal expansion project is estimated at over \$14,000,000.00. It is expected that future phases of this airport terminal expansion project will be funded with future FAA grants. The FAA issued the grant for this portion of the construction project based on estimates and bids. The Airport placed out to bid the purchase and installation of a passenger boarding bridge, bid tabulation is attached. The remaining construction work on this phase would not proceed until bids are obtained.

The breakdown of the project (Phase I) is as follows:

Construction (Grant issued based on estimates)	\$ 1,076,941.18
Equipment and Installation (Thyssenkrupp Airport Systems, Inc.)	\$ <u>743,843.26</u>
Total Project Cost	\$ 1,820,784.44

The Department of Transportation accepts the Federal Funds for this project as a pass through to the Pease Development Authority in accordance with RSA 422:15. State participation in the amount of \$91,039.72 (5% of this project) is also requested. The Pease Development Authority will participate in the amount of \$91,039.72 (5% of this project). The total cost of this airport improvement project is \$1,820,784.44.

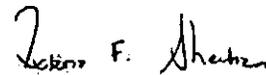

In the event that the Federal Funds are no longer available, General Funds will not be requested to support this program.

In accordance with the FAA Grant Assurances C - Sponsor Certifications, Responsibility and Authority of the Sponsor, the grant funds must be immediately available for the project to execute the grant offer; therefore all funding for this project is encumbered in the first fiscal year.

The Sponsor's Attorney will execute the grant offer after the approval of Governor and Council.

8. **Offer Expiration Date.** This offer will expire and the United States will not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor on or before September 14, 2018, or such subsequent date as may be prescribed in writing by the FAA.
9. **Improper Use of Federal Funds.** The Sponsor must take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner for any project upon which Federal funds have been expended. For the purposes of this grant

agreement, the term "Federal funds" means funds however used or dispersed by the Sponsor, that were originally paid pursuant to this or any other Federal grant agreement. The Sponsor must obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. The Sponsor must return the recovered Federal share, including funds recovered by settlement, order, or judgment, to the Secretary. The Sponsor must furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. This requires that the Sponsor review and update the information at least annually after the initial registration and more frequently if required by changes in information or another award term. Additional information about registration procedures may be found at the SAM website (currently at <http://www.sam.gov>).

The FAA can also issue a letter to the Sponsor increasing the maximum obligation if there is an overrun in the total actual eligible and allowable project costs to cover the amount of the overrun provided it will not exceed the statutory limitations for grant amendments. The FAA's authority to increase the maximum obligation does not apply to the "planning" component of condition No. 1.

An informal letter amendment has the same force and effect as a formal grant amendment.
