REQUESTED ACTION

Approve Patrick and Sarah Hourihane's request for a five year permit time extension, in accordance with RSA 482-A:3, XIV-a, to perform the following work on the Bellamy River, in Dover. File # 2013-00392. This project will not have significant impact on or adversely affect the values of the Bellamy River.

The NH Department of Environmental Services (NHDES) finds that the applicant has demonstrated all of the following:

1. The permit for which the extension is being sought has not been revoked or suspended without reinstatement.
2. The extension will not violate a condition of law or rule.
3. The project is proceeding toward completion in accordance with the plans and other documentation referenced in the permit dated May 20, 2013.
4. The applicant proposes reasonable mitigation measures to protect the public waters of the state from deterioration during the period of extension.

The New Hampshire Department of Environmental Services (NHDES) imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by McEaney Survey Associates, Inc. dated May 2003, with revisions dated February 1, 2013, as received by the NHDES on February 5, 2013.
2. Construction of the dock shall occur from a barge and crane to reduce impacts to the saltmarsh.
3. The decking of the dock shall have a minimum of 4 feet of clearance from the surface of the tidal marsh and shall have 3/4-inch spacing between the decking planks.
4. Appropriate siltation/erosion/turbidity controls shall be in place prior to construction, shall be maintained during construction, and shall remain in place until the area is stabilized.
5. Any future work in jurisdiction as specified in RSA 482-A on this property will require a new application and approval by the NHDES Wetlands Bureau.
6. This permit shall not be effective until recorded at the Strafford County Registry of Deeds office by the permittee. A copy of the recorded permit shall be submitted to the NHDES Wetlands Bureau prior to construction.
7. Within three days of final grading or temporary suspension of work in an area that is in or adjacent to wetlands or surface waters, all exposed soil areas shall be stabilized by seeding and mulching during the growing season, or if not within the growing season, by mulching with tack or netting and pinning on slopes steeper than 3:1.

TDD Access: Relay NH 1 (800) 735-2964

8. Construction of this tidal docking structure consisting of a 4 foot x 4 foot access ramp within the developed upland tidal buffer zone, to a 4 foot x 50 foot permanent pier, to a 3 foot x 40 foot ramp connecting to a 10 foot x 14 foot float, providing one slip on 137 feet of frontage on the Bellamy River, shall be the only dock structure on this water frontage.
9. Work shall be done during low tide.
10. Work shall be conducted in a manner so as to minimize turbidity and sedimentation to surface waters and wetlands.
11. Work shall be conducted in a manner that avoids excessive discharges of sediments to fish spawning areas.
12. The float shall be constructed with skids to prevent it from resting directly on the mudflat at low tide.

Application file documents are being forwarded to the Governor and Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully submit this request for your consideration.

TOWN CLERK SUBMITTAL & MAILING DIRECTIONS:

Per RSA 482-A:3,1(d):

1. For applications where "Expedited Review" is checked on page 1, only accept the application if the Conservation Commission's signature has been obtained (Standard Review Applications do NOT require the Conservation Commission's signature);
2. Collect from the applicant the postal receipts demonstrating that all abutters and the Local Advisory Committee were sent proper notice;
3. Collect any administrative fees, not to exceed \$10 plus the cost of postage by certified mail (RSA 482-A:3,1).
4. Immediately sign the original application and four copies in the signature space provided in the space above;
5. Retain one copy of the application form and all attachments that will remain with the town/city clerk and will be made reasonably accessible to the public;
6. Immediately distribute a copy of the application with attachments to the municipal Conservation Commission, the local governing body (Board of Selectmen or Town/City Council), and the Planning Board in accordance with RSA 482-A:3, 1; and
7. **IMMEDIATELY** send (DO NOT HOLD FOR OTHER MUNICIPAL REVIEWS) the original application materials and filing fee, by **CERTIFIED MAIL** to the NHDES Wetlands Bureau at the address indicated on the front of this application.

7. **CONSERVATION COMMISSION SIGNATURE FOR EXPEDITED REVIEW ONLY:**

ONLY Expedited Review applications require that the Conservation Commission signature is obtained prior to submittal the final application to the Town/City Clerk for signature and mailing to the NHDES Wetlands Bureau. The Conservation Commission may refuse to sign. If the Conservation Commission does not sign this statement for any reason, then the application is not eligible for expedited review and the "Standard Review" box should be checked on page 1. The application shall be reviewed in the standard review time.

The signature below certifies that the municipal conservation commission has reviewed this application, and: 1) waives its right to intervene per RSA 482-A:11; 2) believes that the application and submitted plans accurately represent the proposed project; and 3) has no objection to permitting the proposed work.

9. **PROJECT DESCRIPTION:** Provide a brief description of the project, outlining the scope of work to be performed, including the area of impact (square feet) of permanent impacts, temporary impacts (impacts that are not intended to remain after the project is completed), and after-the-fact impacts (work completed prior to receipt of this application by DES) to each jurisdictional area that will be impacted (wetlands, streams, rivers, lakes/ponds, prime wetland/buffer, tidal waters, salt marsh, sand dune, [upland] tidal buffer zone & docking structures). Docking structures provide the square footage of seasonal docking structures and permanent docking structures. **Please provide only a brief project description as instructed above and attach additional sheets to provide other information requirements, but DO NOT reply "See Attached" in the space provided below.**

Construct a 4'x50' fixed pier with a 3'x40' aluminum ramp landing on a 10'x14' landing float. The total permanent impact will be 200 sf. The total seasonal impact will be 260 sf.

The proposed fixed pier will have 8 pilings and the underside of the longitudinal supports will maintain a minimum of 4' over the vegetated surface. The deck boards will be spaced 3/4" to allow sufficient sunlight to pass through to vegetation below. The proposed float will make use of float skids versus a float stop due to its location and potential for ice damage during the winter. Please see attached for additional information.

10. **APPLICATION REQUIREMENTS:** *This application will be returned to you if items outlined in A – J.1 are not provided.* If applicable items outlined in J.2 - L are not provided, you may receive a letter requesting the outstanding information. Please note that a DES request letter is a courtesy and applications that do not include the required information may be denied. Copy links to your web browser.

Project Description: We are looking to obtain approvals for a permanent dock.

The NH Natural Heritage database has been checked by staff of the NH Natural Heritage Bureau and/or the NH Nongame and Endangered Species Program for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government.

It was determined that, although there was a NHB record (e.g., rare wildlife, plant, and/or natural community) present in the vicinity, we do not expect that it will be impacted by the proposed project. This determination was made based on the project information submitted via the NHB Datacheck Tool on 8/23/2012, and cannot be used for any other project.
