Victoria F. Sheehan
Commissioner

William Cass, P.E.
Assistant Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
December 7, 2017

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Sargent Corporation (Vendor 273743) of Stillwater, ME on the basis of a low bid of \$14,752,626.75 for roadway reconstruction and widening NH Route 12, from the intersection of Main Street in North Walpole north approximately 2.75 miles to the intersection of NH Route 12A in Charlestown, from the date of Governor and Council approval through August 28, 2020 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2018 and 2019 and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2020 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Table with 4 columns: Funding description, FY 2018, FY 2019, FY 2020. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid. Row 2: 400-500870 Highway Contract Payments with values 4,752,626.75, \$8,000,000.00, \$2,000,000.00.

2. Further authorize that a contingency in the amount of \$737,631.34 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Table with 4 columns: Funding description, FY 2018, FY 2019, FY 2020. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid. Row 2: 400-500870 Highway Contract Payments with values \$637,631.34, \$100,000.00.

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan. This project will reconstruct and widen NH Route 12, from the intersection of Main Street in North Walpole extending north approximately 2.75 miles to the intersection of NH Route 12A in Charlestown. The work includes full box reconstruction to widen the roadway towards the Connecticut River, which will provide 11 foot lanes and 4 to 5 foot wide shoulders. Impacts to the Connecticut River, in the northern and southern segments of the project, and Meanys Cove, in the middle of the project, are proposed as a result of the widening. The proposed bank treatment includes an armored slope with reestablished vegetation, including native plant species. Other work includes upgraded drainage and stormwater management, substantial utility relocation and guardrail installation, as well as limited encroachment and coordination with the New England Central Railroad, which runs parallel to NH Route 12 for the length of the project.

NH 12 is a rural minor arterial roadway linking Keene and Claremont, bordered by the New England Central Railroad on the east and the Connecticut River on the west. The highway is approximately 22' to 24' wide with

little or no formal shoulders. This reach of the Connecticut River is dam-controlled; the combination of fluctuations in the river's water level and the poor soil conditions underlying the highway have led to instability and occasional slope failures along the riverbank adjacent to the highway. The proposed improvements will improve the safety of motor vehicles, bicyclists and pedestrians while stabilizing riverbank slopes adjacent to NH 12.

The proposed contingency amount is 5% of the contract amount. This is a three season rural contract with a narrow ROW locating the project limits between the Connecticut River and the New England Central Railroad (NECR) which is an active railroad with 6 to 8 trains daily. Due to the proximity of the Connecticut River, this project will require higher than above average efforts to control sediment. This project will also require schedule impacting coordination with the NECR for the approval of construction working drawings. This project will also build the State's first underneath the roadway water quality BMP. Moreover, due to the length of the project, future fuel and asphalt prices may increase.

Although the bid costs exceeded the Department's estimate by 5.05%, the low bid of 4 bids received is felt to be reasonable for the work involved. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

 for

Victoria F. Sheehan
Commissioner

VFS/md

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project will reconstruct and widen NH Route 12, from the intersection of Main Street in North Walpole extending north approximately 2.75 miles to the intersection of NH Route 12A in Charlestown. The work includes full box reconstruction to widen the roadway towards the Connecticut River, which will provide 11 foot lanes and 4 to 5 foot wide shoulders. Impacts to the Connecticut River, in the northern and southern segments of the project, and Meanys Cove, in the middle of the project, are proposed as a result of the widening. The proposed bank treatment includes an armored slope with reestablished vegetation, including native plant species. Other work includes upgraded drainage and stormwater management, substantial utility relocation and guardrail installation, as well as limited encroachment and coordination with the New England Central Railroad, which runs parallel to NH Route 12 for the length of the project.

FEDERAL FUNDING: 80% Federal Funding, 20% Turnpike Toll Credit

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This is a three season rural contract with a narrow ROW locating the project limits between the Connecticut River and the New England Central Railroad (NECR) which is an active railroad with 6 to 8 trains daily. Due to the proximity of the Connecticut River, this project will require higher than average efforts to control sediment. This project will also require schedule impacting coordination with the NECR for the approval of construction working drawings. This project will also build the State's first underneath the roadway water quality BMP. Moreover, due to the length of the project, future fuel and asphalt prices may increase.

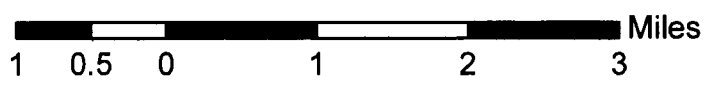

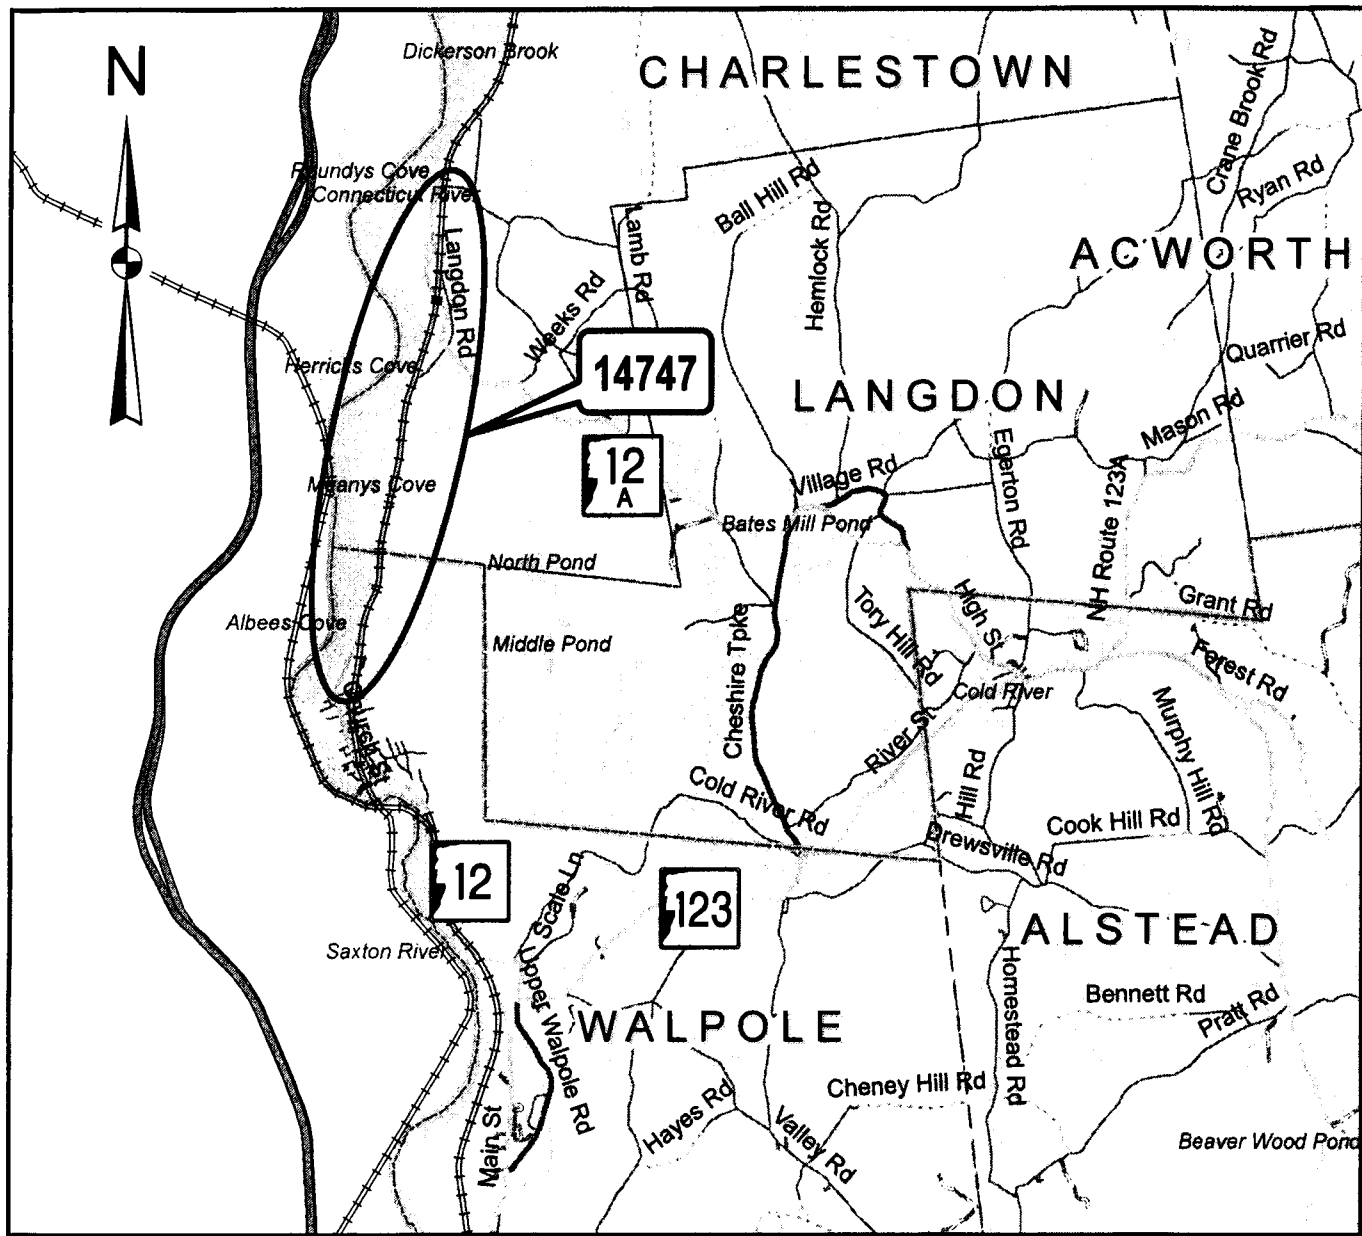

PROJECT INITIATED: State 10-Year Transportation Improvement Process.

PROJECT EXPLANATION: NH 12 is a rural minor arterial roadway linking Keene and Claremont, bordered by the New England Central Railroad on the east and the Connecticut River on the west. The highway is approximately 22' to 24' wide with little or no formal shoulders. This reach of the Connecticut River is dam-controlled; the combination of fluctuations in the river's water level and the poor soil conditions underlying the highway have led to instability and occasional slope failures along the riverbank adjacent to the highway. The proposed improvements will improve the safety of motor vehicles, bicyclists and pedestrians while stabilizing riverbank slopes adjacent to NH 12.

TRAFFIC IMPLICATION: Traffic impacts are expected to be predominantly daily lane closures requiring one-lane, alternating two-way traffic patterns with a return to two-lane, two-way traffic patterns during non-work hours. Use of longer term one-lane, alternating two-way traffic with temporary signals may be required to install deep and large drainage structures during Season 1. Use of longer term one-lane, alternating two-way traffic with temporary signals may be required to complete some of the proposed roadwork during Season 2.

FINAL COMPLETION DATE: August 28, 2020.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
12/11/2017

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
