EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission (Advisory Commission) was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On June 21, 2021 the Advisory Commission voted to authorize \$400,000 as a grant to the Town of Londonderry to address per- and polyfluoroalkyl substances (PFAS) contamination in private residential wells in the vicinity of Lancaster Drive in Londonderry, NH. The project is a partnership between the Town and the potentially responsible party to extend Pennichuck East Utility, Inc. water service (PWS ID #1391010) to the impacted residents. The total project cost is \$578,854 and will be paid using the Drinking Water and Groundwater Trust Fund grant funds not to exceed \$400,000 combined with funding from the potentially responsible party.

In the event that grant funds become no longer available, General funds will not be requested to support this program. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.
