EXPLANATION

This request is **Sole Source** because the Contractor has the ability to quickly respond to the immediate needs of coordinating and monitoring surge staffing for the State of New Hampshire's long-term care facilities as a result of the COVID-19 pandemic.

The purpose of this request is to hire, maintain and provide properly licensed temporary relief staffing to long-term care facilities to serve patients from throughout the State. Long-term care facilities are experiencing staffing shortages and outbreaks of COVID-19 that result in their decreased ability to admit patients currently awaiting discharge from hospitals. Many patients have been medically cleared for discharge from hospitals pending their ability to safely be discharged to a long-term care facility. The Contractor has experience in emergency response and working with sub-recipients including long term care facilities, hospitals and staffing agencies. The Contractor will immediately work with several staffing agencies to provide clinical teams to

rapidly deploy to long-term care facilities. Increased staffing capacity at long term care facilities will expedite discharges of patients from hospitals. The resulting open beds at hospitals will be then become available for acute care needs within the hospital.

The Department will monitor services by:

- Reviewing the total hours worked by the temporary staff.
- Monitoring the number of temporary staff placed each month.
- Analyzing the turnover rate of the temporary staff.

In addition, the Department will monitor the percent of open hospital beds and number of patients who are able access an acute care hospital bed as a result of this contract.

As referenced in Exhibit A of the attached agreement, the parties have the option to extend the agreement for up two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request long-term care facilities will not have the staff required to accept discharged patients from acute care hospitals. Hospitals that are unable to discharge patients to long-term care facilities may not have sufficient human and physical resources to care for patients with acute medical needs.

Area served: Statewide

Source of Federal Funds: CFDA #21.027, FAIN #4516DRNHP00000001

In the event that the Federal or Other Funds become no longer available, General Funds will not be requested to support this program.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

FINANCIAL STATEMENTS

December 31, 2020 and 2019

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Foundation for Healthy Communities

We have audited the accompanying financial statements of Foundation for Healthy Communities (Foundation), which comprise the statements of financial position as of December 31, 2020 and 2019, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2020 and 2019

Organization

Foundation for Healthy Communities (Foundation) was organized to conduct various activities relating to healthcare delivery process improvement, health policy, and the creation of healthy communities. The Foundation is controlled by New Hampshire Hospital Association (Association) whose purpose is to assist its members in improving the health status of the people receiving healthcare in New Hampshire.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on existence or absence of donor-imposed restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Foundation. These net assets may be used at the discretion of the Foundation's management and the Board of Trustees.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity. Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities and changes in net assets. At December 31, 2020 and 2019, the Foundation did not have any funds to be maintained in perpetuity.

Cash and Cash Equivalents

For purposes of reporting in the statements of cash flows, the Foundation considers all bank deposits with an original maturity of three months or less to be cash equivalents.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2020 and 2019

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management believes all accounts receivable are collectible. Credit is extended without collateral.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statements of financial position. Interest and dividends and realized and unrealized gains and losses are included in the changes in net assets from operations.

Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful lives of each class of depreciable asset and is computed using the straight-line method.

Employee Fringe Benefits

The Foundation has an "earned time" plan under which each employee earns paid leave for each period worked. These hours of paid leave may be used for vacation or illnesses. Hours earned but not used are vested with the employee and may not exceed 30 days at year-end. The Foundation accrues a liability for such paid leave as it is earned.

Grants and Contributions

Grants awarded and contributions received in advance of expenditures are reported as support with donor restrictions if they are received with stipulations that limit the use of the grants or contributions. When a grant or contribution restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as "net assets released from restrictions". If there are unused grant funds at the time the grant restrictions expire, management seeks authorization from the grantor to retain the unused grant funds to be used for other unspecified projects. If the Foundation receives authorization from the grantor, then the Board of Trustees or management internally designates the use of those funds for future projects. These amounts are released from net assets with donor restrictions to internally designated net assets without donor restrictions and reported in the statement of activities and changes in net assets as "net assets released from restrictions".

Grant funds conditional upon submission of documentation of qualifying expenditures or matching requirements are deemed to be earned and reported as revenues when the Foundation has met the grant conditions.

The amount of such funds the Foundation will ultimately receive depends on the actual scope of each program, as well as the availability of funds. The ultimate disposition of grant funds is subject to audit by the awarding agencies.

Grant funds awarded of which restrictions have been met in the year of award are reported in the consolidated statement of activities and changes in net assets in program services revenues and expenses.

Contributions of long-lived assets are reported as support for net assets without donor restrictions unless donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. Absent explicit donor stipulations about how long these long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Income Taxes

The Foundation is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code.

Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, the Foundation has considered transactions or events occurring through June 10, 2021, which was the date that the financial statements were available to be issued.

2. Availability and Liquidity of Financial Assets

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize the investment of its available funds.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Foundation considers all expenditures related to its ongoing activities and general and administration, as well as the conduct of services undertaken to support those activities to be general expenditures.

In addition to financial assets available to meet general expenditures over the next 12 months, the Foundation operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

As of December 31, 2020, the Organization has working capital of \$801,680 and average days (based on normal expenditures) cash on hand of 78, which includes cash and cash equivalents and investments, net of restricted funds.

The following financial assets could readily be available within one year of the statements of financial position date to meet general expenditure at December 31:

	<u>2020</u>	<u>2019</u>

Cash and cash equivalents	\$ 345,201	\$ 593,892

During 2016, the Foundation was awarded a grant from the State of New Hampshire in an amount not to exceed \$1,800,000 to facilitate the expansion of New Hampshire's addiction identification and overdose prevention activities. Since the original award, the State of New Hampshire has amended the award amount increasing the grant to an amount not to exceed \$4,575,824 as of December 31, 2020. Receipt of the grant and recognition of the related revenue is conditional upon incurring qualifying expenditures. 7. Retirement Plan

The Foundation participates in the Association's 401(k) profit-sharing plan, which covers substantially all employees and allows for employee contributions of up to the maximum allowed under Internal Revenue Service regulations. Employer contributions are discretionary and are determined annually by the Foundation. Retirement plan expense for 2020 and 2019 was \$48,803 and \$45,109, respectively.

8. Functional Expenses

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses allocated to the general and administrative function include salaries and related taxes, allocated based on the estimated time utilized on programs, and insurance and depreciation, allocated using bases estimating the proportional allocation of total building square footage.

Expenses related to services provided for the public interest are as follows:

9. Concentrations of Credit Risk

From time-to-time, the Foundation's total cash deposits exceed the federally insured limit. The Foundation has not incurred any losses and does not expect any in the future.

10. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and expands disclosures about fair value measurements.

FASB ASC Topic 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Foundation's investments are measured at fair value on a recurring basis and are considered Level 1.

11. Coronavirus Disease

In response to the Coronavirus Disease (COVID-19), local, U.S., and world governments have encouraged self-isolation to curtail the spread of the global pandemic by mandating the temporary shut-down of business in many sectors and imposing limitations on travel and the size and duration of group meetings. Most sectors are experiencing disruption to business operations and may feel further impacts related to delayed government reimbursement, volatility in investment returns, and reduced philanthropic support. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any further government actions to mitigate them. Accordingly, while management cannot quantify the financial and other impacts to the Foundation as of June 10, 2021, management believes that a material impact on the Foundation's financial position and results of future operations is reasonably possible.

Notes to Financial Statements

December 31, 2020 and 2019

The Foundation has entered into a five year cooperative agreement with the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response (ASPR) to provide disbursement support, based on an allocation methodology using hospital types of specialty hospitals, critical access hospitals and prospective payment system hospitals and tertiary hospital. The ASPR funds are passed through the Foundation to hospitals in supporting expenses related to their response to COVID-19 in New Hampshire. Allocations vary based on the type of hospital. A total of 25 Association member hospitals have accepted the allocations as subrecipients.
