EXPLANATION

Funds in this agreement will be used to administer a statewide network of subcontracted sites that will provide breast and cervical cancer screening through the New Hampshire Breast and Cervical Cancer Program. The purpose of this agreement is to provide access to regular breast and cervical cancer screening and diagnostic services to program eligible women. To be eligible for the New Hampshire Breast and Cervical Cancer Program a woman must be between the ages of 21-64, low income, uninsured or underinsured and living at or below 250% of the federal poverty level. Priority for breast and cervical cancer screening shall be women age 50-64, and priority for cervical cancer screening shall be women who have never had a Pap test or have not had one in over five years. Women who receive abnormal test results will receive additional coverage for diagnostic work-up and case management through initiation of treatment, as needed, at primary care facilities and hospitals statewide. The contractor offers clinical expertise and will oversee quality assurance of data collection and clinical services and partnership building at all subcontracted sites.

According to the Centers for Disease Control and Prevention, breast cancer is the most frequently diagnosed cancer among women in New Hampshire and in the United States. In the years 2004-2008, there were 5,060 breast cancer cases diagnosed in New Hampshire and 902 deaths reported. In the years 2004-2008, there were 1,010,435 cases of breast cancer in the United States and 204,779 deaths. Cervical cancer is one of the most preventable cancers when precancerous cells are detected through a Pap test. During the years 2004-2008, there were 215 cases of cervical cancer and 84 deaths in New Hampshire. In the years 2004-2008, there were 62,577 cases of cervical cancer in the United States and 19,779 deaths.

Should the Governor and Executive Council not authorize this request, the Breast and Cervical Cancer Program will be unable to enroll 1,300 women in a timely and efficient manner into the program for regular breast and cervical cancer screening services.

Trustees of Dartmouth College was selected for this project through a competitive bid process. A Request for Proposals was posted on the Department of Health and Human Services' web site from December 21, 2012 through January 21, 2013. In addition, a bidder's conference was held on January 9, 2013.

There was one response to the request for proposals. Three reviewers evaluate the proposal, including two internal reviewers from the Department of Health and Human Services and one external reviewer. Each reviewer has between one and ten years experience in cancer prevention, public health, comprehensive cancer and breast and cervical cancer. Areas of specific expertise include breast and cervical cancer programs; cancer surveillance; and epidemiology. The strengths and weaknesses of the proposal were discussed and reviewers recommended that the application be funded. The Bid Summary is attached.

As referenced in the Request for Proposals, Renewals Section, this competitively procured Agreement has the option to renew for two additional year(s), contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Council. These services were contracted previously with this agency in SFY 2012 in the amount of \$288,000.00 and SFY 2013 in the amount of \$288,000.00. This represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement.

- 75% of all mammograms will be provided to program eligible women age 50-64 at all sites; and
- 25% of all mammograms will be provided to women under age 50 at all screening sites.

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
April 3, 2013
Page 3

- 20% of newly enrolled women for Pap tests have never had a Pap test or not had a Pap test in over five years at all screening sites.
- Provide screening services to a minimum of 325 eligible women per quarter for an annual total of 1,300 women.
- Provide a minimum of two population-based outreach activities, promoting nationally accepted breast and cervical cancer screening guidelines.

Area served: Statewide excluding Manchester because this geographic area will be served by a separate contract due to the density of the eligible population in Manchester.

Source of Funds: 41% Federal Funds from Centers for Disease Control and Prevention and 59% General Funds.

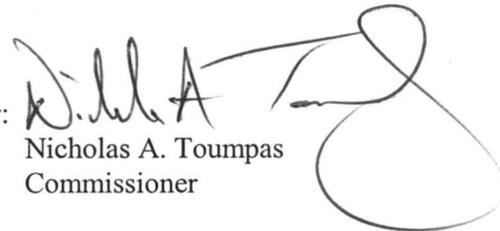

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

José Thier Montero, MD

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

- c. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- d. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section (3)b and (3)k herein. The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard provision #13 of this Agreement for the purpose of use and disclosure of protected health information.
- e. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- f. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- g. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

- i. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- k. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to standard provision #10 of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, and the HITECH Act as amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule and the HITECH Act.
- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section 3 k, the defense and indemnification provisions of section 3 d and standard contract provision #13, shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

Independent Auditors' Report

The Board of Trustees
Dartmouth College:

We have audited the accompanying statement of financial position of Dartmouth College (the College) as of June 30, 2012, and the related statements of activities, operating expenses, and cash flows for the year then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the College's 2011 financial statements and, in our report dated November 7, 2011, because we were unable to examine evidence regarding the fair value of certain unrecognized trust interests, we expressed a qualified opinion on those financial statements.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in note L, assets and changes in net assets do not include the College's interests in certain third-party charitable trusts for which current fair values are not available. Accordingly, we were unable to apply adequate procedures to satisfy ourselves as to such fair values, and the effects of this departure from U.S. generally accepted accounting principles on the College's financial position and changes in net assets cannot be determined.

In our opinion, except for the effects of such adjustments deemed necessary had we examined evidence regarding the fair value of the unrecognized trust interests discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of Dartmouth College as of June 30, 2012, and the changes in its net assets and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Dartmouth is committed to providing the best undergraduate liberal arts experience and to providing outstanding graduate programs in the Dartmouth Medical School (founded 1797), the Thayer School of Engineering (1867), the Tuck School of Business (1900), and the graduate programs in the Arts and Sciences. Together they constitute an exceptional and rich learning environment. Dartmouth faculty and student research contributes substantially to the expansion of human understanding.

The College provides a comprehensive out-of-classroom experience, including service opportunities, engagement in the arts, and competitive athletic, recreational, and outdoor programs. Pioneering programs in computation and international education are hallmarks of the College. Dartmouth graduates are marked by an understanding of the importance of teamwork, a capacity for leadership, and their keen enjoyment of a vibrant community. PART II: Research and Teaching Contributions

A. Narrative Report

- The major focus of my research is the cause of human infertility. We have R01 funding to conduct a prospective study on the role of nutrition and oxidative stress in conception. I am co-investigator for two NIH-funded randomized clinical trials to identify optimal treatment strategies for infertility. In the first of these, the efficacy and cost-effectiveness of conventional stepwise infertility therapy was compared to an accelerated treatment arm that proceeded directly from three cycles of ovulation induction with clomiphene citrate and intrauterine insemination to IVF. The second trial compares the effectiveness of three treatment strategies (clomiphene/IUI to IVF, FSH/IUI to IVF, direct to IVF) in couples where the female partner is 38-43 years of age.
- I have a long-standing interest in cancer epidemiology, particularly the carcinogenic consequences of exposure to diagnostic or therapeutic ionizing radiation and cancer screening.
- Concerns about risk and the search for policies or interventions that protect patient safety are nowhere more acute than in obstetrics, a high-risk clinical environment. With funding from AHRQ, we conducted a risk assessment planning project to identify and evaluate the impact of system factors that contribute to variations in the process of obstetric care. We conducted a cluster-randomized controlled trial to evaluate the role of teamwork in reducing adverse outcomes and improving process measures and satisfaction in obstetrics. This national cluster trial was conducted at fifteen hospitals randomized to either a control or an intervention site. In addition to designing and supervising the conduct of the trial, I participated in the development of outcome and process measures to capture the occurrence of adverse events and the timeliness of care.
- I conceived and edited a comprehensive reference text for researchers, teaching faculty, and clinicians that explicitly recognized the role of gender in understanding disease occurrence, diagnosis, treatment, and priority setting in health care. The resultant textbook, *Women and Health*, included 100 chapters on the biological, occupational, environmental, and social determinants of health and was published in 2000. The book received the Award of Excellence in Medical Science from the Association of American Publishers during its debut year. We have just completed preparing the second edition which will contain 105 chapters and is expected to appear in Fall, 2012.
- I have had extensive teaching and mentoring experience. I developed a concentration in reproductive epidemiology in the Department of Epidemiology at Harvard School of Public Health. Responsibilities included admissions, advising, and mentoring students, and teaching a highly-rated course for eight years. I taught an international course in women's health at the Institute for Social and Preventive Medicine, University of Basel, Switzerland for eight years. At Dartmouth I facilitate the research training for the OB/GYN residents.
