The grant award from the Federal Fiscal Year 2015 Homeland Security Grant Program to the Department of Health and Human Services will be used for MMRS planning conducted in a pass-through to the City of Franklin to administer the MMRS Program on behalf of DHHS. MMRS functions as a coordinating and training resource in responding to the health and medical consequences of a weapon of mass destruction attack. In the early years of this federal preparedness initiative, this grant had been awarded and contracted directly to Dartmouth College by the United States Department of Homeland Security (US DHS) to coordinate preparedness for emergency medical response in the region encompassing Maine, New Hampshire and Vermont. Starting in Federal Fiscal Year 2010, State oversight of the MMRS Program has been conducted by the Department of Health and Human Services (DHHS) under a sub-award agreement with the Department of Safety to better coordinate activities with other public health initiatives.

29. **Suspension or Termination of Funding:** DOS may suspend, in whole or in part, and/or terminate funding for or impose another sanction on a subrecipient for any of the following reasons:

31. **Utilization of Minority Businesses:** Subrecipients are encouraged to utilize qualified minority firms where cost and performance of major contract work will not conflict with funding or time schedules.
32. **Written Approval of Changes:** Any mutually agreed upon changes to this sub grant must be approved, in writing, by DOS prior to implementation or obligation and shall be incorporated in written amendments to this grant. This procedure for changes to the approved sub grant is not limited to budgetary changes, but also includes changes of substance in project activities and changes in the project director or key professional personnel identified in the approved application.

Reporting Requirement: Typing of Equipment and Training:

Ongoing HSGP Guidance, FOA, and NOFAs require that all where applicable grantees report equipment purchases and the typed capability the equipment supports (where such typing guidance exists); the number of people trained in a given capability to support a reported number of defined resource typed teams (e.g., 63 responders were trained in structural collapse to support 23 Type 2 USAR Teams); and the total number of a defined type of resource and capabilities built utilizing the resources of this grant. Grantees will specify the number of resources, capability supported, whether it is a NIMS or State/local typed resource, the cost, and whether the resource sustains current capabilities or adds new capabilities. The resources should be reported only

after equipment is delivered or after training has occurred and the corresponding grant funds have been expended. GMU will advise further on format for reporting upon grant award.

As a condition of the receipt of these funds:

Funding may be suspended or terminated for filing a false certification in this application or other reports or document as part of this program.

Tracking of Equipment:

Upkeep, maintenance, and training of and for equipment procured as part of the Homeland Security grant program is a local and/or grantee responsibility. The inventory of this equipment is a local responsibility and the recipient of such understands that inspections, auditing, and inventory accounting of this equipment may occur as a condition of this grant either from Federal, State or other appropriate level agency and agent.

Equipment valued over \$5,000:

To comply with OMB 2 CFR 200 equipment valued at this level must inventoried and tracked locally and be reported to the State Department of Safety (DOS) – Grants Management Unit for 2 years or until the item carries a depreciated value of less than \$250 or in the case of State Agency will follow the policy as well for NH State Agencies. The disposition of the equipment must be reported. DOS recommends consulting with GMU and the property control managers at your Agency for compliance and disposition rules governing equipment procured with Federal funds.

Non-Supplanting Certification: This certification, which is a required component of the New Hampshire application, affirms that federal Homeland Security grant funds will be used to **supplement** (add to) existing funds, and will not **supplant** (replace) funds that have been locally appropriated for the same purpose. Potential supplanting will be addressed in the application review as well as in the pre-award review, post award monitoring, and the audit. DHS/FEMA I.B. 379 allows as well as FP-205-402-125-1 which apply to maintenance and sustainment of grant or in some cases non- grant acquired capabilities with specific definitions. Applicants and/or grantees will be/may be required to supply documentation certifying that a reduction in non-federal resources occurred for reasons OTHER than the receipt or expected receipt of federal Homeland Security grant funds. Supplanting funds is loosely defined (for these purposes) as using federal grant money to “replace” or “take the place of” existing local funding for equipment or programs. The funds are intended to provide local entities with **increased or in 2015 sustained capabilities** or to build capacity to address CBRNE/WMD terrorist incidents.
