This agreement is between the State and the sub-recipient to delineate responsibilities for providing services necessary to plan, layout, design, and/or provide oversight supervision for this Federal Aid project.

The purpose of the State Aid Bridge program (RSA 234) is to provide funding for construction or reconstruction of bridge structures on Class IV and Class V highways, as well as municipally-maintained bridges on Class II highways. The purpose of the Federal Bridge Aid Program is to provide federal funding for improvements to bridges with spans greater than 20 feet in length.

This project will replace the Western Avenue Bridge (Bridge #095/100) over the Contoocook River in the town of Henniker. This bridge is currently closed for structural deficiencies based on recent inspection, and the current federal sufficiency rating is 30 percent.

State Aid Bridge funds (80% State and 20% City) will be used for the Preliminary Engineering services. Federal Bridge Aid funds (80% Federal and 20% City) will be used for Construction services. FY 2013 through FY 2015 State Aid Bridge funds will be used to design the project and actual construction is planned FY 2015. For reference, the following table shows the funding allocations:

Authorization is requested to allow the Department to enter into this agreement with the sub-recipient to ensure compliance with Federal Aid requirements and to permit State personnel to supervise the project and the Department to expend Federal funds.

Expenses incurred will be charged against the designated project account number and reimbursement for costs shall be borne by the Federal Aid Highway Fund (Federal Aid Bridge Program) in the amount of \$4,312,760; and by State Highway funds (State Aid Bridge Program) in the amount of \$400,000.

Sincerely,

Christopher D. Clement, Sr.
Commissioner
