

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

15
Belmont

VICTORIA F. SHEEHAN
COMMISSIONER

WILLIAM CASS, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
March 24, 2016

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Transportation to enter into a contract with Pike Industries, Inc. (Vendor 177300) of Belmont, NH on the basis of a low bid of \$3,891,872.81 for resurfacing of approximately 10.1 miles of mainline and ramps on the Spaulding Turnpike in the town of Milton, from the date of Governor and Council approval through September 9, 2016 unless extended by the Department in accordance with the Standard Specifications. 100% Turnpike funds.

Funding is available as follows:	<u>FY 2016</u>	<u>FY 2017</u>
04-96-96-961017-7025		
Turnpike Renewal & Replacement		
400-500870 Highway Contract Payments	\$500,000.00	\$3,391,872.81

EXPLANATION

This project is included in the State's Ten Year Transportation Improvement Plan and involves pavement preservation work as part of the annual Turnpike Renewal and Replacement Program. This project involves pavement preservation work and resurfacing of approximately 10.1 miles of the mainline on the Spaulding Turnpike in the town of Milton. The two sections are as follows:

Spaulding Turnpike NB and SB Rochester to Milton

- Cold plane all lanes to 1' outside the travel way to a depth of 2 inches and place 2-inch binder course pavement (Mile Marker 23.3 to 28.0). Place 1-1/2 inch overlay for the entire width of the roadway. All centerline and shoulder rumble stripes will be replaced.

Spaulding Turnpike NB and SB in Milton

- Place 1-1/2 inch overlay full width (Mile Marker 28.0 to Mile Marker 33.4). All centerline and shoulder rumble stripes will be replaced.

The pavement preservation and resurfacing work will preserve and extend the life of the highway riding surface and protect the subsurface base course materials.

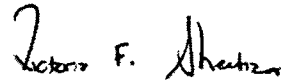

Page 2

Although the bid costs slightly exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved as there were 2 bids submitted for this project. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate:	\$3,886,286.81
Contract Amount:	<u>\$3,891,872.81</u>
Over Estimate:	\$ 5,586.00

Date: January 22, 2016

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project consists of resurfacing approximately 10.1 miles (23.4 lane miles) of mainline on the Eastern Turnpike. Resurfacing sections are as follows:

Section T-01: Spaulding Turnpike NB and SB Rochester to Milton

- Cold plane all lanes to 1' outside the travel way to a depth of 2 inches and place 2-inch binder course pavement from Mile Marker 23.3 to Mile Marker 28.0. Place 1-1/2 inch overlay for the entire width of the roadway. All centerline and shoulder rumble stripes will be replaced.

Section T-02: Spaulding Turnpike NB and SB in Milton

- Place 1-1/2 inch overlay full width from Mile Marker 28 to Mile Marker 33.4. All centerline and shoulder rumble stripes will be replaced.

FEDERAL FUNDING: 0% (Turnpike Funded from the Renewal and Replacement Program)

CONTINGENCY: No contingency is requested given the nature of the project and the short duration of improvements.

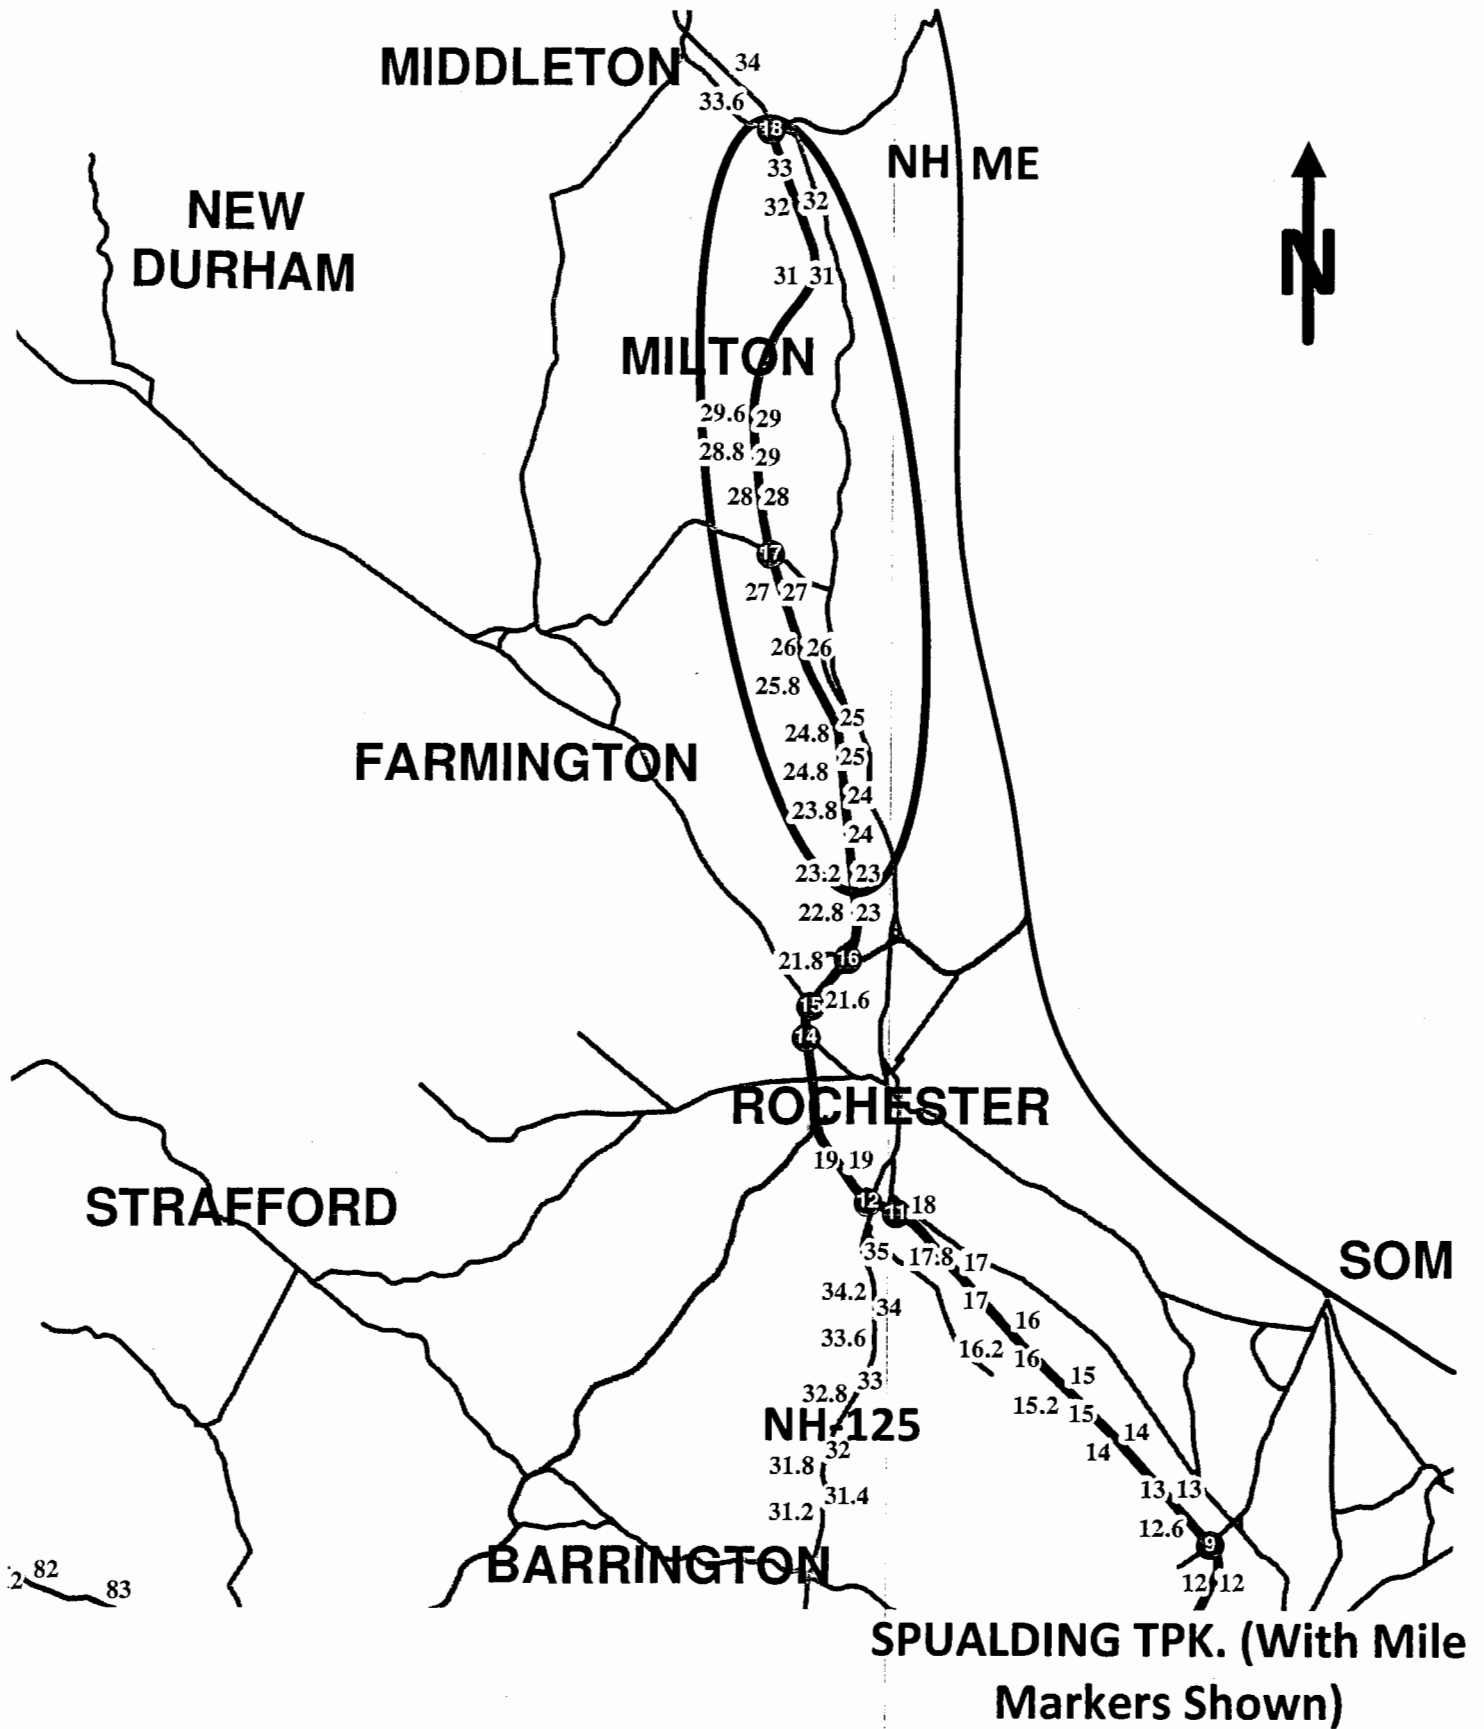

PROJECT INITIATED: Bureau of Turnpikes Renewal and Replacement Program

EXPLANATION: The Rochester and Milton segments under section T-01 were last paved in 1 mile segments from 2007-2011 with 1 inch inlay. This was due to fatigue and transverse cracking through all layers of pavement and spots areas of delamination. The T-02 sections were paved in 2012 with 2 inch binder due to fatigue and transverse cracking. These resurfacing approaches were as a result of constrained funding in the Renewal and Replacement program. The proposed resurfacing treatments will address the current deterioration and complete the improvements for this overall segment. The proposed improvements will extend the life of this asset avoiding more costly repair in the future.

TRAFFIC IMPLICATIONS: Lane closures will be permitted during the following timeframes from Sunday through Thursday 8:00 pm through 5:00 am, except Sunday night work cannot start before 9:00 pm. No work Friday or Saturday day or nights.
