<p><b>Closing Opportunity Gaps through Early Education</b></p> <p>Tuesday, Jul. 31   10:45 am-12:00 pm Convention Center 153 ABC</p> <p>Summary: Research demonstrates that, on average, minority and low-income children enter kindergarten trailing their white and higher-income peers in math and reading. This is mostly due to opportunity gaps, or when some students have fewer opportunities to learn and develop before entering school. Opportunity gaps lead to achievement gaps, which can later create social and economic consequences for families and states. Join us to explore strategies to close these gaps and discuss preschool to third grade policy options under ESSA.</p> <p>Presiding: Representative Bob Behning, Indiana, Co-Chair, Education Standing Committee Moderator: Matt Weyer, NCSL Panelist: Gary Orfield, UCLA Graduate School of Education, California Panelist: Katharine Stevens, American Enterprise Institute, Washington, D.C.
