

Thomas S. Burack, Commissioner

January 29, 2015

Her Excellency, Governor Margaret Wood Hassan
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve Jeffrey and Vicki Kaufman's request for a permit time extension to perform the following work on Lake Winnepesaukee, in Gilford. File # 2009-03005. This project will not have significant impact on or adversely affect the values of Lake Winnepesaukee.

Remove rock from 133 sq. ft. of breakwater and reset remaining rocks to repair an existing 70 ft. "L" shaped breakwater and bring it into compliance with originally permitted dimensions. Dredge 9.7 cu. yds. from 199 sq. ft. of lakebed, remove crib remnants from 96 sq. ft. of lakebed, retain a 4 ft. x 28 ft. 6 in. piling pier, construct a 6 ft. x 25 ft. piling pier, install 2 seasonal personal watercraft lifts, and replace an existing seasonal canopy with a new 30 ft. x 30 ft. seasonal canopy on an average of 152 ft. of frontage on Governor's Island, on Lake Winnepesaukee.

The Department imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by Watermark Marine Construction dated November 12, 2009, as received by DES on December 21, 2009.
2. This permit shall not be effective until it has been recorded with the Belknap County Registry of Deeds office by the Permittee. A copy of the recorded permit shall be submitted to the DES Wetlands Bureau, by certified mail, return receipt requested, prior to construction.
3. Those portions of the breakwater reaching above elevation 504.32 ft. and located more than 50 ft. from the normal highwater line shall be removed prior to the construction of any new structure on the frontage.
4. No portion of breakwater as measured at normal full lake shall extend more than 50 ft. from normal full lake shoreline.
5. The breakwater shall not exceed 3 ft. in height (Elev. 507.32 ft.) over the normal high water line (Elev. 504.32 ft.).
6. The width as measured at the top of the breakwater (Elev. 507.32 ft.) shall not exceed 3 ft.
7. Appropriate turbidity controls shall be installed prior to construction, shall be maintained during construction such that no turbidity escapes the immediate dredge area, and shall remain in place until suspended particles have settled and the water at the work site has returned to normal clarity.
8. All dredged material and construction related debris shall be placed outside of the jurisdiction of the DES Wetlands Bureau.

DES Web site: www.des.nh.gov

P.O. Box 95, 29 Hazen Drive, Concord, New Hampshire 03302-0095

Telephone: (603) 271-3503 • Fax: (603) 271-2867 • TDD Access: Relay NH 1-800-735-2964

9. Work authorized shall be carried out such that discharges in spawning or nursery areas during spawning seasons shall be avoided, and impacts to such areas shall be avoided or minimized to the maximum extent practicable during all times of the year.
10. Work shall be carried out in a time and manner such that disturbance to migratory waterfowl breeding areas and spawning areas shall be avoided.
11. Canopies shall be of seasonal construction type with a flexible fabric cover. The seasonal support frame shall be designed to be removed for the non-boating season. The flexible fabric cover shall be removed during all seasons of non-use.
12. Seasonal watercraft lifts shall be removed for the non-boating season.
13. All activities shall be in accordance with the Shoreland Water Quality Protection Act, RSA 483-B. The owner is responsible for obtaining any Shoreland Permit that may be required per RSA 483-B, for construction, excavation or fill that will occur within the Protected Shoreland.

EXPLANATION

The DES Wetlands Bureau approved this time extension request on January 29, 2015. DES supported its decision with the following findings:

1. The owner, authorized agent or applicant certifies that this permit qualifies for a permit extension in accordance with RSA 482-A:3, XIV-a, and Env-Wt 502.01.
2. This permit has been extended in accordance with RSA 482-A:3, XIV-a and Env-Wt 502.01.

Application file documents are being forwarded to the Governor and Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully submit this request for your consideration.

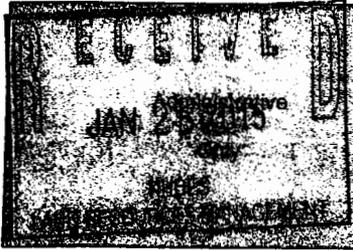

Thomas S. Burack

WETLANDS & SHORELAND REQUEST FOR PERMIT TIME EXTENSION

	Administrative Use Only	Permit Not to Extend Beyond New Permit Expiration Date: ____/____/____ Authorized By: _____ Printed Name: _____ Date: _____
---	-------------------------------	---

Under Wetlands and Shoreland statutes RSA 482-A:3 XIV-a and RSA 483-B:5-b VI, respectively, an applicant may request a permit time extension if the conditions in Section B. are met. This request must be submitted no sooner than 90 days prior to, but before the Wetland or Shoreland permit expires. Once the permit expires, it is no longer eligible for a permit time extension. The blank space at the top of this page is for the Registry of Deeds use.

PROJECT INFORMATION

2. INFORMATION REQUIRED FOR REQUEST ACCEPTANCE

If your request includes all the required materials, initials and signature demonstrating that the following conditions have been met, your request will be granted, and you will receive this page, signed and annotated with the new permit expiration date as evidence of your extension. If your request package does not include all the required materials, initials and signature, it will be returned to you with this page annotated with the missing/non-compliant items indicated. Initial each box below to accept the conditions.

<input checked="" type="checkbox"/>	RSA 482-A:3, XIV-a, (a), and RSA 483-B:5-b VI, (b)	The permit for which extension is sought has not been revoked or suspended without reinstatement.
<input checked="" type="checkbox"/>	RSA 482-A:3, XIV-a, (b) and RSA 483-B:5-b VI, (b)	Extension would not violate a condition of law or rule.
<input checked="" type="checkbox"/>	RSA 482-A:3, XIV-a, (c) and RSA 483-B:5-b VI, (c)	The project is proceeding towards completion in accordance with plans and other documentation referenced by the permit.
<input checked="" type="checkbox"/>	RSA 482-A:3, XIV-a (e) and Env-Wq 1406.19	There are no amendments or changes to the permit description, conditions or approved plans that would require an amendment or a new application.
<input checked="" type="checkbox"/> N/A	For Wetlands Permits Only: RSA 482-A:3, XIV-a, (d)	The applicant proposes reasonable mitigation measures to protect the public waters of the state from deterioration during the period of extension. Check N/A if this is a Shoreland Permit.
<input checked="" type="checkbox"/> N/A	For Shoreland Permits Only: RSA 483-B:5-b VI, (d)	The applicant proposes reasonable mitigation measures to protect the shorelands and public waters of the state from deterioration during the period of extension. Check N/A if this is a Wetlands Permit.

3. REQUESTER CERTIFICATIONS

Initial each box below to accept the conditions.

<input checked="" type="checkbox"/>	I understand that this Request qualifies as the single allowable Permit Time Extension (of up to 5 additional years) and further extensions for this permit are not allowed in accordance with RSA 482-A:3, XIV-a, RSA 483-B:5-b VI, Env-Wq 502.01 and Env-Wq 1406.19, as applicable.
<input checked="" type="checkbox"/>	I understand that any Request for Permit Time Extension accepted by DES does not relieve the Owner, Authorized Agent or Applicant from the obligation to comply with other local, state or federal laws or rules as may be required.
<input checked="" type="checkbox"/>	I understand that any Request for Permit Time Extension accepted by DES, based on false, incomplete, or misleading information on the application, plans or attachments shall be subject to enforcement action.
<input checked="" type="checkbox"/>	I understand that this Request for Permit Time Extension does not request any redesign of the project to meet any rule requirements that are more stringent than the rules in effect when the permit was issued.
<input checked="" type="checkbox"/>	I understand that work must be completed in accordance with the description and conditions of the approved permit.

APPROVED G & C

DATE 12/3/14
ITEM # 70

Her Excellency, Governor Margaret Wood Hassan
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve the ownership transfer from Leonard & Lisa D'Orlando to Jeffrey A. & Vicki L. Kaufman. The approval allows their request to perform the following work on Lake Winnepesaukee, in Gilford. File # 2009-03005. This project will not have significant impact on or adversely affect the values of Lake Winnepesaukee.

Remove rock from 133 sq. ft. of breakwater and reset remaining rocks to repair an existing 70 ft. "L" shaped breakwater and bring it into compliance with originally permitted dimensions. Dredge 9.7 cu. yds. from 199 sq. ft. of lakebed, remove crib remnants from 96 sq. ft. of lakebed, retain a 4 ft. x 28 ft. 6 in. piling pier, construct a 6 ft. x 25 ft. piling pier, install 2 seasonal personal watercraft lifts, and replace an existing seasonal canopy with a new 30 ft. x 30 ft. seasonal canopy on an average of 152 ft. of frontage on Governor's Island, on Lake Winnepesaukee.

The Department imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by Watermark Marine Construction dated November 12, 2009, as received by DES on December 21, 2009.
2. This permit shall not be effective until it has been recorded with the county Belknap County Registry of Deeds Office by the Permittee. A copy of the recorded permit shall be submitted to the DES Wetlands Bureau, by certified mail, return receipt requested, prior to construction.
3. Those portions of the breakwater reaching above the elevation of 504.32 ft. and located more than 50 ft. from the normal highwater line shall be removed prior to the construction of any new structure on the frontage.
4. No portion of breakwater as measured at normal full lake shall extend more than 50 ft. from normal full lake shoreline.
5. The breakwater shall not exceed 3 ft. in height (Elev. 507.32 ft.) over the normal high water line (Elev. 504.32 ft.).
6. The width as measured at the top of the breakwater (Elev. 507.32 ft.) shall not exceed 3 ft.
7. Appropriate turbidity controls shall be installed prior to construction, shall be maintained during construction such that no turbidity escapes the immediate dredge area, and shall remain in place until suspended particles have settled and the water at the work site has returned to normal clarity.
8. All dredged material and construction related debris shall be placed outside of the jurisdiction of the DES Wetlands Bureau.

Telephone: (603) 271-3503 • Fax: (603) 271-6588 • TDD Access: Relay NH 1-800-735-2964

9. Work authorized shall be carried out such that discharges in spawning or nursery areas during spawning seasons shall be avoided, and impacts to such areas shall be avoided or minimized to the maximum extent practicable during all times of the year.
10. Work shall be carried out in a time and manner such that disturbance to migratory waterfowl breeding areas and spawning areas shall be avoided.
11. Canopies shall be of seasonal construction type with a flexible fabric cover. The seasonal support frame shall be designed to be removed for the non-boating season. The flexible fabric cover shall be removed during all seasons of non-use.
12. Seasonal watercraft lifts shall be removed for the non-boating season.
13. All activities shall be in accordance with the Shoreland Water Quality Protection Act, RSA 483-B. The owner is responsible for obtaining any Shoreland Permit that may be required per RSA 483-B, for construction, excavation or fill that will occur within the Protected Shoreland.

EXPLANATION

The DES Wetlands Bureau approved this ownership change on October 28, 2014. DES supported its decision with the following findings:

1. This permit transfer is issued in accordance with NH Administrative Rule Env-Wt 502.02 (b).

Application file documents are being forwarded to the Governor and Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

Standard Dredge and Fill Application Form

The Standard Dredge and Fill application package to be submitted to DES consists of:

- 1. Application form (this document).
2. Checklist(s) with required information attached. ("Checklist for Submission of your Standard Dredge and Fill Application," and if appropriate, "Compensatory Mitigation Information and Checklist").

Type or print clearly -- missing information may result in your application review being delayed if it is considered administratively incomplete. If you are completing this as a Word version on your computer, use your tab key to move through the document to enter data in the appropriate areas.

If you have questions about any terms used, check the Definitions section of the Instructions.

Form with sections 1-5 containing fields for landowner, applicant, agent, and project location information.

6.	<p>Based on information obtained from the Natural Heritage Bureau (NHB), are there any state or federal threatened or endangered species or exemplary natural communities on the subject property? Provide the NHB file number: <input type="text" value="NHB09-1823"/> and attach the documentation (letter/memo & map) Natural Heritage information can be obtained at www.nhnaturalheritage.org. Click on "Services" for links to: 1) the DataCheck web tool, or 2) a hard copy form to obtain the required letter and map from NHB. If you do not have Internet access, you may contact NHB directly at (603) 271-2215 x 323 for information about obtaining the required documentation.</p>	<p>Circle one: Yes</p>
----	---	---------------------------------

7.	<p>If there are any state or federal threatened or endangered species or exemplary natural communities located on the subject property, please provide a letter from NHB stating that the applicant has consulted with NHB. The letter should indicate either there is no impact, or include NHB guidelines for preventing or mitigating impacts.</p>
----	---

8.	<p>Jurisdictional areas(s) where work is proposed; check box(es) below. Check the definitions in the instructions for additional information. (If your resource type is not listed, contact DES for guidance):</p>
----	---

Nontidal wetland: swamp, wet meadow, etc.		Bank of surface water body		Intermittent (seasonal) stream	Name of water body from USGS topographic map: Lake Winnepesaukee
Vernal pool		Lake or pond	X	Perennial stream or river	Tributary to:
Upland tidal buffer zone		Sand dune		Tidal wetland	Prime Wetland Buffer (within 100 feet of prime wetland)
Freshwater marsh		Bog/fen (peatland)		Atlantic Ocean	Municipally designated prime wetland

9.	<p>Provide a brief description of all proposed work including: 1) the size of the impact area (square feet) in the resource, 2) the size (in acres) of the entire parcel(s), and 3) the compensatory mitigation proposed, if applicable, per Env-Wt 302.03(c). Attach a separate page if you are not completing this using a computer. See attached</p>
----	--

10.	<p>Does the project require compensatory mitigation to offset unavoidable impacts to wetlands? If Yes, attach a copy of the completed Mitigation Checklist.</p>	No
-----	--	----

11.	<p>Have you requested a waiver of any wetland rules per Env-Wt 204? If Yes, attach your waiver request to this application.</p>	No
-----	---	----

12.	<p>Is there any DES emergency authorization associated with this property? Are you aware of any DES enforcement issues related to this property? If Yes, provide the file number(s): _____</p>	No
-----	--	----

13.	<p>Explain why it is necessary to impact a wetland or other jurisdictional area to construct your project. See attached</p>
-----	--

14.	<p>Explain why your project design proposes less environmental impact on areas in DES Wetlands jurisdiction than other alternatives. What other alternatives were considered? (Attach a separate page if you are not completing this expandable box on a computer) See attached</p>
-----	--

16. Calculate and provide length of shoreline frontage.

Shoreline frontage is the average of two distances, 1) the actual natural navigable shoreline footage, and 2) a straight line drawn between property lines, both of which are measured at the normal high water line.

(a) Pin to pin distance (linear feet)	(b) Actual natural navigable shoreline (from pin to pin)	$\frac{(a) + (b)}{2}$	Shoreline frontage (linear feet)
150.30	154 +/-		152 +/-

17. Enter the information below if you are proposing any docking structures. Your plans must show proposed and existing docking structures.

Docking structures (proposed)	Square Feet
Surface area of all permanent structures:	172 sq ft
Surface area of all seasonal structures:	900 sq ft

18. Other DES Permitting Requirements

N/A Have you addressed requirements of Comprehensive Shoreland Protection Act (CSPA), RSA 483-B?

If your property is in the "protected shoreland" -- the area that is within 250 feet of a fourth order stream, a designated river, a lake or pond 10 acres or greater in size (on the DES *Official List of Public Waters*), or tidal water, you will need to comply with the requirements of the Comprehensive Shoreland Protection Act (CSPA).

What is considered "protected shoreland"? To determine if your property is located in "protected shoreland," go to www.des.nh.gov/cspa or the following websites:

- A "fourth order" or larger stream or river (www.des.nh.gov/cspa).
- Any river or river segment designated as protected under the N.H. Designated Rivers Program, RSA 483 (www.des.nh.gov/rivers/).
- Public waters (www.des.nh.gov/Dam/)
- Tidal waters.

As of July 1, 2008, projects that involve construction, excavation, or filling within the protected shoreland, require a DES Shoreland Permit, unless the work is specifically permitted under a Wetlands Permit, OR exempted under Rule Env-Wq 1406.03 or Env-Wq 1406.04 (see des.nh.gov/rules/desadmin_list.htm#env-wq1400), and a DES Alteration of Terrain permit 50,000 square feet if any part of disturbance is within the protected shoreland. For more information: www.des.nh.gov/AOT/ and RSA 485-A:17.

NO Does this project require a DES Alteration of Terrain (AoT) permit? If yes, does this application and the other application reflect the same project area in its entirety?

Date of submittal to DES: _____

DES AoT File number: _____

NO Does this project require a DES Subdivision or Subsurface Disposal System permit(s)? If yes, does this application and the other application reflect the same project area in its entirety?

Date of Subsurface/Subdivision application submittal to DES: _____

DES Subsurface/Subdivision File number: _____

20. **FILING FEE:** A check or money order payable to the NH DES Wetlands Bureau must accompany this application. The minimum fee is \$200. Minor and major impact projects are charged at the rate of: \$0.20 per square foot of requested impact (if less than 1,000 square feet of impact is proposed, the minimum fee of \$200 applies). All applications for shoreline structures shall include a base fee of \$200. In addition, minor and major impact shoreline projects shall include fees charged at the rate of: \$0.20 per square foot for requested dredge or fill impacts; \$1 per square foot for requested seasonal docking structure; and \$2 per square foot for requested permanent docking structure. The application will be considered administratively incomplete until the required fee is paid in full. Attach the appropriate fee calculation worksheet(s).

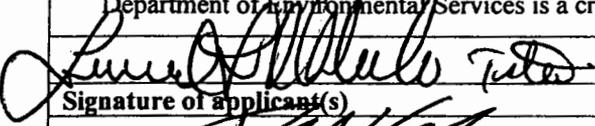

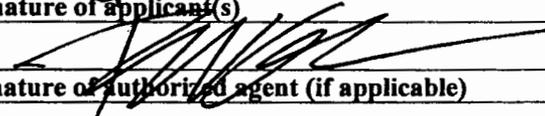

21. **APPLICANT SIGNATURE.** By signing this application, I am certifying that:

- 1) All abutters have been identified in accordance with the definition given in the instructions and I or my agent have/has sent notices to those abutters by Certified Mail.
- 2) I have read and provided the required information outlined in Env-Wt 302.04 and listed on the "Checklist for Submission of Your Standard Dredge and Fill Application," dated June 2008.
- 3) I have read and understand Env-Wt 302.03 and have chosen the least impacting alternative.
- 4) I have reviewed the information being submitted and that to my knowledge the information is true and accurate.
- 5) I have submitted a copy of the application materials to the NH State Historic Preservation Office.
- 6) Authorize the municipal conservation commission to inspect the site of the proposed project.
- 7) I understand that the willful submission of falsified or misrepresented information to the New Hampshire Department of Environmental Services is a criminal act, which may result in legal action.

The U.S. Army Corps of Engineers has reissued its New Hampshire Programmatic General Permit (PGP) effective June 28, 2007. The Corps is requiring the submission of a new Corps Secondary Impacts Checklist to be submitted with the DES wetland application. The Corps will review this information to assess direct, indirect (secondary impacts) and cumulative impacts. The Corps **Secondary Impacts Checklist**, Appendix B to the New Hampshire PGP, is attached to this DES wetland application. The PGP does not impose any obligation on DES to assess secondary impacts that does not already exist in state law.

Project type: Shoreland Construction/Alteration:
Breakwater/dock, etc.

Town: Gilford

Location: Tax Maps: 218-12

cc: Kim Tuttle

As requested, I have searched our database for records of rare species and exemplary natural communities, with the following results.

Comments:

Vertebrate species

Bald Eagle (*Haliaeetus leucocephalus*) T M Contact the NH Fish & Game Dept (see below).

¹Codes: "E" = Endangered, "T" = Threatened, "-" = an exemplary natural community, or a rare species tracked by NH Natural Heritage that has not yet been added to the official state list. An asterisk (*) indicates that the most recent report for that occurrence was more than 20 years ago.

Contact for all animal reviews: Kim Tuttle, NH F&G, (603) 271-6544.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. For some purposes, including legal requirements for state wetland permits, the fact that no species of concern are known to be present is sufficient. However, an on-site survey would provide better information on what species and communities are indeed present.

Size: 3924.8 acres

USGS quad(s): Laconia (4307154)
Lat, Long: 432656N, 0711209W
Elevation: 600 feet

Precision: Within (but not necessarily restricted to) the area indicated on the map.

Directions: North end of Paugus Bay and southwest shore of Lake Winnepesaukee. Sightings on southwest shore of Lake Winnepesaukee: Governor's Island, Locke's Island, Sleeper Island. Also along Merrymeeting River, Merrymeeting Brook in Alton and New Durham, and along Hunkins Road in Sanbornton. Also seen roosting at the north end of Paugus Bay (Weirs Beach area). Winnepesaukee area is only active as long as there is open water (1993). Eagles often seen perching on west side of Paugus Bay, just south of route 3 (1991).

Dates documented

First reported: 198? Last reported: 1993

Deluca, Diane. Audubon Society of New Hampshire. 1993. Results of Annual Eagle Wintering Surveys.
