EXPLANATION

Funds in this agreement will be used to provide consultant and planning services to improve New Hampshire's Ebola preparedness and emerging infectious disease readiness in hospitals and the healthcare system statewide. The collaborative work will inform the development of a tiered network of hospitals within the state that is capable of providing Ebola (and other emerging infectious disease pathogens) care and enhancing infection control practice and competency across the healthcare delivery system.

Collaboration by many public health and healthcare system partners is essential to improving readiness and response capacity to Ebola and other emergent infectious disease pathogens that may pose a threat to the health of New Hampshire's population. New Hampshire does not have a designated treatment hospital, but is committed to work with Massachusetts General Hospital in Boston, Massachusetts, the designated Ebola treatment center for New Hampshire and the region. All 26 acute care hospitals in New Hampshire, including critical access hospitals, are identified as frontline hospitals. Every hospital must be informed of, and be prepared to, assess, triage and coordinate care and transport of a suspect or actual case of Ebola to an assessment hospital or the designated Ebola treatment center.

During the Ebola response in December 2014, a query of hospitals revealed that very few hospitals identified themselves with the capacity to serve as an Ebola assessment hospital. Several Public Health site visits were conducted during the Ebola response by Division of Public Health Services staff to gain a better understanding of capacity, and potentially limiting factors, to meeting federal criteria for Ebola and other infection disease pathogen readiness levels.

As of December 2014, only 13 of New Hampshire's 26 hospitals had conducted an Ebola exercise/tabletop to test readiness for management of a suspect or actual Ebola patient. Limiting factors such as lack of equipment, limited staffing, and need for additional guidance or planning, were identified through the exercises/tabletops conducted. Because the query reflects a single point-in-time, gaps in information exist from each hospital. As such, a more comprehensive and current assessment is needed – not only for Ebola but to assess infectious disease readiness for novel or emerging infectious disease threats to come. Furthermore, a current assessment will identify infection control strengths as well as gaps, which will target infection control training strategies aimed at building proficiency among healthcare system providers and assuring sustainable infection control training programs statewide.

These services will help ensure New Hampshire has the capability to effectively respond to Ebola and bolster healthcare infectious disease readiness across healthcare systems. The services provided will foster coordination between the healthcare system partners referenced above, and will support the development of stronger hospital and healthcare system infection control programs.

Should Governor and Executive Council not authorize this Request, New Hampshire may not have the capacity to effectively respond to Ebola and other emerging infectious disease pathogens.

JSI Research & Training Institute, Inc., dba Community Health Institute was selected for this project through a competitive bid process. A Request for Proposals was posted on The Department of Health and Human Services' web site from August 28, 2015 through September 28, 2015.

One proposal was received in response to the Request for Proposals. Three reviewers who work internal to the Department reviewed the proposals. The reviewers represent seasoned public health administrators and managers who have extensive experience managing agreements with vendors for various public health programs. Each reviewer was selected for the specific skill set they possess and their experience. Their decision followed a thorough discussion of the strengths and weaknesses to the proposal. The final decision was made through consensus scoring. The Bid Summary is attached.

The following performance measures will be used to measure the effectiveness of the agreement:

- Assess and report findings to the Department, of current Ebola and other infectious disease readiness capacity of 100% of hospitals statewide;
- Conduct a multiagency tabletop on Isolation and Quarantine of an infectious disease patient by March 31, 2016;
- Conduct a multiagency tabletop on Ebola Concept of Operations by May 31, 2016;
- Report the proportion of acute care hospitals with identified staff trained to assess, triage and coordinate care and transport of a suspect Ebola case. Goal – 100%.

Area served: Statewide.

Source of Funds: 100% Federal Funds from Centers for Disease Control and Prevention.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

(4) Obligations of Covered Entity

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit I

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) l, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
JSI Research and Training Institute, Inc. and Affiliate

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of JSI Research and Training Institute, Inc. and Affiliate (both non-profit organizations), which comprise the consolidated statement of financial position as of September 30, 2013, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk

assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of JSI Research and Training Institute, Inc. and Affiliate as of September 30, 2013, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated March 17, 2014, on our consideration of JSI Research and Training Institute, Inc. and its affiliate's internal control over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. JSI Research and Training Institute, Inc. is the sole member of World Education, Inc. (Affiliate) with such powers as are typically accorded to a sole member including the power of appointment and removal of the World Education, Inc. board of trustees, the right to approve amendments to the bylaws and certificate of incorporation of World Education, Inc., and the right to approve any merger, consolidation, dissolution or transfer of substantial assets of World Education, Inc.

JSI Research and Training Institute, Inc. was incorporated in the Commonwealth of Massachusetts on April 11, 1979. JSI Research and Training Institute, Inc. provides education and research primarily to non-profit health and human service agencies both in the United States and abroad. Current funding is principally from the United States Agency for International Development and the United States Department of Health and Human Services (HHS).

World Education, Inc. (Affiliate) was founded in 1951 and incorporated in the state of New Jersey. Working in partnership with community, national, and international agencies in Asia, Africa, and the United States, it provides professional assistance in the design and implementation of non-formal adult education programs. These programs integrate functional education with relevant problem-solving aspects of individual growth and national development such as health, nutrition, family planning, childcare, refugee education, agricultural practices, literacy, and income generation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of JSI Research and Training Institute, Inc. and World Education, Inc., its affiliate, (collectively referred to as the Organization). Significant intra-entity accounts and transactions have been eliminated in consolidation.

Basis of Accounting

The consolidated financial statements of the Organization have been prepared utilizing the accrual basis of accounting and include the accounts of JSI Research and Training Institute, Inc. and its affiliate in conformity with accounting principles generally accepted in the United States of America.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value

The Organization values its qualifying assets and liabilities under a fair value hierarchy that prioritizes the inputs and assumptions used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Organization uses appropriate valuation techniques based on the available inputs to measure the fair value of its assets and liabilities. When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Cash and Cash Equivalents

The Organization considers all monies in banks and highly liquid investments with maturity dates of three months or less to be cash equivalents. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities (marketable investments) are measured at fair values based on quoted market prices in the consolidated statement of financial position. Unrealized gains and losses are included in the statement of activities.

Property and Equipment

Property and equipment is reported on the basis of cost less accumulated depreciation. Acquisitions of property and equipment in excess of \$1,500 are capitalized. Depreciation is computed using the straight-line method calculated to extinguish the book value of the respective assets over their estimated useful lives (5 - 7 years) of the related assets.

Revenue Recognition

Unrestricted and restricted contributions are recognized as revenue at the date the pledge is made or the gift is received, whichever is earlier. Revenue from cost reimbursement contracts and grants is recorded as the related expenditures are incurred.

JSI Research and Training Institute, Inc. and Affiliate
NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. Contributions are reported as temporarily restricted support and are then reclassified to unrestricted net assets upon expiration of the time restriction. Temporarily restricted support, whose restrictions are met in the same reporting period, is shown as unrestricted support.

Donated Materials and Services

Donated materials and services are recorded as in kind project contributions at their estimated fair market value as of the date of receipt and as an expense in the accompanying consolidated statement of activities. Donated services are recognized if the services received create or enhance non-financial assets or require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

Income Taxes

The Organization is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and is not a private foundation as described in Section 509. Accordingly, no provision for income taxes is included in the accompanying consolidated financial statements.

The Organization has evaluated its tax positions and believes that there would be no material changes to the results of its operations or financial position as a result of an audit by the applicable taxing authorities, federal or state. The Organization has filed all of its known and required returns in a timely manner including as permitted allowed extensions. Following administrative practice of the taxing authorities, the tax years 2010, 2011, 2012 and 2013, remain open years subject to examination and review.

JSI Research and Training Institute, Inc. and World Education, Inc. (Affiliate) file separate unconsolidated tax returns. JSI Research and Training Institute, Inc. files tax returns based on a September 30th year end and its affiliate files tax returns based on a June 30th year end.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the consolidated statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Financial Statement Presentation

In accordance with accounting principles generally accepted in the United States of America, the Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets based upon the existence or absence of donor imposed restrictions. For the

year ended September 30, 2013 there was no activity in temporarily restricted or permanently restricted net assets.

NOTE 3 – CONCENTRATION OF CREDIT RISK

The Organization maintains demand deposits and money market funds at financial institutions. At times, certain balances held in these accounts may not be fully guaranteed by the United States Government. The uninsured portions of cash and money market accounts are backed solely by the assets of the financial institution. Therefore, the failure of a financial institution could result in a financial loss to the Organization. However, the Organization has not experienced losses on these accounts in the past and management believes the risk of loss, if any, to be minimal.

NOTE 4 – INVESTMENTS

Fair Value

In accordance with accounting principles generally accepted in the United States of America, the Organization values its qualifying assets and liabilities under a fair value hierarchy that prioritizes the inputs and assumptions used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 – Observable inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 – Inputs other than quoted prices in active markets that are observable for the asset either directly or indirectly, including inputs from markets that are not considered to be active.
- Level 3 – Unobservable inputs which reflect the Organization's assessment of the assumptions that market participants would use in pricing the asset or liability including assumptions about risk.

A qualifying asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement.

The allowance for doubtful accounts at September 30, 2013 was \$0.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors
JSI Research and Training Institute, Inc. and Affiliate

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of JSI Research and Training Institute, Inc. and Affiliate ("Organization"), which comprise the consolidated statement of financial position as of September 30, 2013, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated March 17, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered JSI Research and Training Institute, Inc. and its affiliate's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of JSI Research and Training Institute, Inc. and its affiliates' s internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses. We did not identify or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether JSI Research and Training Institute, Inc. and its affiliate's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN REQUIRED BY OMB CIRCULAR A-133**

To the Board of Directors
JSI Research and Training Institute, Inc. and Affiliate

Report on Compliance for Each Major Federal Program

We have audited JSI Research and Training Institute, Inc.'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of JSI Research and Training Institute, Inc.'s major federal programs for the year ended September 30, 2013. JSI Research and Training Institute, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of JSI Research and Training Institute, Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about JSI Research and Training Institute, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of JSI Research and Training Institute, Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, JSI Research and Training Institute, Inc. complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2013.

Report on Internal Control Over Compliance

Management of JSI Research and Training Institute, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered JSI Research and Training Institute, Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of JSI Research and Training Institute, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

World Education, Inc. (Affiliate) maintains a different fiscal year (June 30) and has its own stand alone audit performed in accordance with the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. However, the

consolidated financial statements contain the combined activity of JSI Research and Training, Institute and World Education, Inc.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
