EXPLANATION

The purpose of this request is for the Contractor to continue providing external quality reviews of the healthcare services provided to New Hampshire's 238,795 Medicaid beneficiaries, as of May 2, 2022, enrolled in the Medicaid Care Management (MCM) program to preserve the Department's federal authority to operate an MCM program.

The Department is federally mandated by 42 CFR 438, Sub-part E, to have a Centers for Medicare and Medicaid Services (CMS) certified External Quality Review Organization to ensure all three (3) Medicaid Managed Care Organizations (MCOs) are reviewed, audited, and evaluated annually. Federally mandated activities include an annual contract compliance audit, validation of the MCOs' performance improvement projects, and validation of the MCOs' provider networks. Additionally, the Contractor must validate that the MCOs adhere to CMS' external quality review protocols. The Contractor is required to be independent of the Department and the MCOs.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

While CMS mandates the external quality review activities defined within the contract, expenses from the contract receive an enhanced match of 75% federal funds.

The Department will continue monitoring services to ensure:

- All activities stated in Exhibit A Scope of Services are completed within the specified timeframes.
- The Annual External Quality Review Technical Report is accepted by CMS upon initial submission by the Department.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, of the original agreement, the parties have the option to extend the agreement for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the four (4) years available.

Should the Governor and Council not authorize this request, the Department will not have the federal authority to operate an MCM program to comply with regulations established through 42 CFR 438, Sub-part E, which will also limit the Department's capacity to complete third-party statistically rigorous assessments of the MCM program.

Area served: Statewide

Source of Federal Funds: CFDA #93.778, FAIN 2205NH5ADM

In the event that the Federal or Other Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
