## INDEPENDENT AUDITORS' REPORT

To the Board of Directors of  
Greater Nashua Council on Alcoholism

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Greater Nashua Council on Alcoholism, which comprise the statement of financial position as of June 30, 2016, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk

assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Greater Nashua Council on Alcoholism, Inc. as of June 30, 2016, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Report on Summarized Comparative Information**

We have previously audited Greater Nashua Council on Alcoholism, Inc.'s fiscal year June 30, 2015 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 10, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015 is consistent, in all material respects, with the audited financial statements from which it has been derived.

### **Other Matters**

#### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2016 on our consideration of the Greater Nashua Council on Alcoholism's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Greater Nashua Council on Alcoholism's internal control over financial reporting and compliance.

## GREATER NASHUA COUNCIL ON ALCOHOLISM

### Notes to the Financial Statements

1. **Organization:**

Greater Nashua Council on Alcoholism (the Organization) is a nonprofit organization providing recovery support services which are evidence-based, gender-specific, and culturally competent. The programs include residential, transitional housing, outpatient, intensive outpatient, family-based substance abuse services, pregnant and parenting women and children, and offender re-entry services initiative.

2. **Summary of Significant Accounting Policies:**

The following is a summary of significant accounting policies of the Organization used in preparing and presenting the accompanying financial statements.

Accounting for Contributions and Financial Statement Presentation

The Organization follows *Accounting for Contributions Received and Contributions Made* and *Financial Statements of Not-for-Profit Organizations* as required by the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC). Under these guidelines, the Organization is required to distinguish between contributions that increase permanently restricted net assets, temporarily restricted net assets, and unrestricted net assets. It also requires recognition of contributions, including contributed services, meeting certain criteria at fair values. These reporting standards establish standards for financial statements of not-for-profit organizations and require a Statement of Financial Position, a Statement of Activities, a Statement of Functional Expenses, and a Statement of Cash Flows.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting. Under this basis, revenues, other than contributions, and expenses are reported when incurred, without regard to the date of receipt or payment of cash. Contributions are reported in accordance with FASB ASC *Accounting for Contributions Received and Contributions Made*.

### Restricted and Unrestricted Revenue

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

### Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

### Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended June 30, 2016, management has taken into account a variety of factors.

### Property, Equipment and Depreciation

Property and equipment is recorded at cost or, if donated, at estimated fair market value at the date of donation. Major additions and improvements are capitalized, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Assets not in service are not depreciated.

### Functional Expenses

The costs of providing various programs and activities have been summarized on a functional basis in the Statement of Activities and in the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

### Donated Services

The Organization receives donated services from a variety of unpaid volunteers assisting the Organization in its programs. No amounts have been recognized in the accompanying Statement of Activities because the criteria for recognition of such volunteer effort under generally accepted accounting principles have not been satisfied.

Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual amounts could differ from those estimates.

### Tax Status

Greater Nashua Council on Alcoholism is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) is subject to examination by the IRS, generally for three years after they were filed.

The Organization recognizes interest related to unrecognized tax benefits in interest expense and penalties that are included within reported expenses. During the year ended June 30, 2016, the Organization had no interest or penalties accrued related to unrecognized tax benefits.

### Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

Certain covenants apply related to eligibility and use of the mortgaged property. The balance of these notes at June 30, 2016 is as follows:

- Federal Home Loan Bank of Boston – Affordable Housing Program \$385,000
- New Hampshire Housing Finance Authority \$1,500,000

**12. Transactions with Related Parties:**

The Organization offers counseling services to the clients of related organizations. These services are provided whenever requested.

The Organization receives janitorial and maintenance services performed by clients of Harbor Homes, Inc., a related organization. The Organization also receives payroll services from the related organization.

The Organization rents space from Harbor Homes, Inc., a related organization. Rent expense for the year under this agreement was approximately \$17,000.

The Organization is considered a commonly controlled organization with several related entities by way of its common board of directors. However, management feels that the principal prerequisites for preparing combined financial statements are not met, and therefore more meaningful separate statements have been prepared.

**13. Net Assets Released from Restriction:**

There were no restricted net assets during the year ended June 30, 2016 and, as a result, no net assets were released from restrictions.

**14. Retirement Plan:**

After one year of continuous service with the Organization, employees may contribute a portion of their wages to a Section 403(b) retirement plan. The Organization matches a percentage of the employee contribution based on years of service. Total matching contributions paid by the Organization for the years ended June 30, 2016 and 2015 were \$40,736 and \$39,674, respectively.

**15. Concentration of Risk:**

A material part of the Organization's revenue is dependent upon support from the State of New Hampshire and Medicaid, the loss of which would have a materially adverse effect on the Organization. During the year ended June 30, 2016, the State of New Hampshire accounted for 44% and Medicaid accounted for 39% of total revenues.

## 16. Fair Value Measurements:

FASB ASC, *Fair Value Measurements*, provides guidance for using fair value to measure assets and liabilities. *Fair Value Measurements* applies whenever other standards require or permit assets or liabilities to be measured at their fair market value. The standard does not expand the use of fair value in any new circumstances. Under *Fair Value Measurements*, fair value refers to the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. *Fair Value Measurements* clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions.

Under *Fair Value Measurements*, the Organization categorizes its fair value estimates based on a hierarchical framework associated with three levels of price transparency utilized in measuring financial instruments at fair value. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The three levels are as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of financial instruments included in Level 1 are highly liquid instruments with quoted prices;
- Level 2 - Inputs from active markets, other than quoted prices for identical instruments, are used to model fair value. Significant inputs are directly observable from active markets for substantially the full term of the asset or liability being valued; and
- Level 3 - Pricing inputs significant to the valuation are unobservable. Inputs are developed based on the best information available; however, significant judgment is required by management in developing the inputs.

The estimated fair value of the Organization's financial instruments is presented in the following table:

	Carrying Value	Fair Value	Level One	Level Two	Level Three
Line of credit	\$ 182,402	\$ 182,402	\$ -	\$ 182,402	\$ -
Bonds payable	3,828,314	3,828,314	-	3,828,314	-
Mortgages payable, deferred	1,885,000	1,885,000	-	1,885,000	-
Due to related organizations	<u>125,152</u>	<u>125,152</u>	<u>-</u>	<u>-</u>	<u>125,152</u>
Total liabilities	\$ <u>6,020,868</u>	\$ <u>6,020,868</u>	\$ <u>-</u>	\$ <u>5,895,716</u>	\$ <u>125,152</u>

The carrying amounts of cash and cash equivalents approximate fair value because of the short maturity of those financial instruments.

	Fair Value Measurements Using Significant Unobservable Inputs Level Three
	<u>Due to related organization</u>
Beginning balance June 30, 2015	\$ 183,625
Advances	298,021
Reductions	<u>(356,494)</u>
Ending balance June 30, 2016	\$ <u>125,152</u>

**17. Subsequent Events:**

In accordance with the provisions set forth by FASB ASC, Subsequent Events, events and transactions from July 1, 2016 through November 2, 2016, the date the financial statements were available to be issued, have been evaluated by management for disclosure. Management has determined that there were no material events that would require disclosure in the Organization's financial statements through this date.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Katja S. Fox

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

#### EXPLANATION

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Kathleen A. Dunn

Today the criteria have become the most widely used and comprehensive set of guidelines for placement, continued stay and transfer/discharge of patients with addiction and co-occurring conditions. ASAM's criteria are required in over 30 states. More information can be found at: <http://www.asam.org/publications/the-asam-criteria>

States may allocate Block Grant funds to faith-based treatment and recovery support services programs that maintain their religious character and hire people of their same faith, who also meet state requirements for licensing or certification of substance abuse treatment and recovery support services programs and staff. **Contractors Obligations:** The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
  - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. ## **Resume of Dr. Michael Krause**

**Michael D. Krause, Ph.D**

Dr. Michael Krause is soldier, leader, educator and trainer.

In his recent capacity as dean of Valley Forge Military College, he instituted a Leadership Development program for the entire College. The program consisted three interactive forums: College Formations held monthly with the entire cadet corps and staff and faculty; Senior Leadership Forum conducted quarterly with invited Senior Leaders from government, military and private industry to discuss integrity and character building issues; and, Leadership Staff Rides to Gettysburg and Valley Forge battlefields and encampments; all to utilize the past, guide understanding of the present and create vision for future leaders by on site application of decision making under stress. The action mantra was: To build leaders of character for the future.

At the National War College and Industrial College of the Armed Forces in Washington, DC, Professor Krause taught the Art of War and Commanders and Campaigns for future senior leaders. He integrated use of such applicatory techniques as simulation, staff rides and practicum to improve understanding of leadership traits. Each medium held to requirements for decision making from leaders of the past, for leaders of the present and future. Both Colleges are still using these programs today.

In industry Dr. Krause innovated the use of experiential based education and training using simulation technology for leaders in the energy and power generation fields. Working with industry leaders he formulated university based development programs using simulation based education and training for mid-level managers and leaders. In partnership with industry, he established "education through simulation" centers at various academic institutions; notably the Emirates Simulation Academy, Higher Colleges of Technology, Abu Dhabi, UAE; Strathclyde University, Glasgow Scotland, UK; and Georgia Institute of Technology, Atlanta, GA. These centers assist in educating engineers to fully comprehend the requirements of each team member's sector of responsibility.

Acting as an agent for change for the Defense Department, Dr. Krause organized a series of leadership programs – dubbed "Wise Person" seminars. This three-day senior leader development program brought together leaders of industry, government and the military focused upon specific issues. Normally these seminars were conducted at the Army's Center for Strategic Leadership, Carlisle Barracks, PA. Additionally, Dr. Krause conducted a series of leader development seminars for the Department of the Army major commands. These leadership seminars focused upon the conduct of recent joint operations. He instituted a "whole-of-government" organizational approach to deal with a crisis environment. He developed a leader's framework for utilization by participants to aid their understanding of crisis decision-making in recent past humanitarian or military crisis.

For the last thirty years, Dr. Krause taught at every level from undergraduate school to graduate level. At the United States Military Academy, West Point, NY, he mentored and counseled cadets for over four years. As teacher in civilian universities, University of Kentucky, at Fort Knox; University of Maryland, at Frankfurt, Germany; Saigon, Vietnam; and, Chapman College, Fort Ord, CA; he individually counseled and mentored students; at graduate level he advised, mentored and taught senior level students at the National War College, Washington, DC; the Naval War College Continuing Education Program, Newport, RI; and the American Military University; in all institution he continued to advise, educate and mentor students.

In military service, then Colonel Krause instituted leadership mentoring and counseling programs for members of his various commands. In Germany this included leadership responsibilities for military communities that included over 22 military units with a 5,000 civilian dependent population. Inherently, community leadership development in security, safety, maintenance, sports and community action programs were paramount. He innovated leadership programs that sought to increase prevention of alcohol and drug abuse to save community members' and soldiers' lives. He institutionalized programs, which improved unit cohesion and morale of the military community. In Colonel Krause's command, leadership programs were instituted through integrated physical, psychological and professional programs. These programs included physical training and preparation, professional development subject at all levels; and emotional and psychological preparation for higher-level leadership responsibilities. All programs focused on increased readiness for combat.

The original contracts were approved by Governor and Executive Council on March 23, 2016 (Item #6), except for the contract with Goodwin Community Health, which was approved on June 1, 2016 (Item #12). Amendments to the contracts were approved by Governor and Executive Council on June 29, 2016 (Item #25), except for the contract with Tri-County Community Action, Inc., which was amended and approved on June 15, 2016 (Late Item #A1). An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). The source of funds for these actions are: 69% Federal, 17% General, and 14% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 upon the availability and continued appropriation of funds in the future operating budget.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Katja S. Fox

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

**LOWER TIER COVERED TRANSACTIONS**

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

**DHHS INFORMATION SECURITY REQUIREMENTS**

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
  - 2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.

Breach notifications will be sent to the following email addresses:

      - 2.6.1.2. [DHHSInformationSecurityOffice@dhhs.nh.gov](mailto:DHHSInformationSecurityOffice@dhhs.nh.gov)
  - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.

The purpose of the survey is to enable the Department and vendor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the vendor engagement. The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. HEADREST, INC.  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2016 AND 2015

NOTE 1 – NATURE OF ORGANIZATION

Headrest, Inc. ("Headrest") is a New Hampshire nonprofit corporation that provides information and referral, crisis intervention and other related services through the use of a telephone hotline and office visitations. Headrest also provides counseling and emergency shelter to transients, and information to the community relating to drugs and alcohol.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of Headrest is presented to assist in understanding the Organization's financial statements. The financial statements and notes are representations of Headrest's management who is responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The financial statements of Headrest have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below.

Financial statement presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Not-for-Profit Organizations". Under SFAS No. 117, Headrest is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets are comprised of operating revenues and expenses and contributions pledged which are not subject to any donor-imposed restrictions. Headrest, Inc. currently has \$186,769 and \$174,663 unrestricted net assets as of June 30, 2016 and 2015, respectively.

Temporary restricted net assets are comprised of contributions and gifts for which donor-imposed restrictions will be met either by the passage of time or the actions of the Organization. Headrest, Inc. currently has no temporarily restricted net assets as of June 30, 2016 and 2015, respectively.

HEADREST, INC.  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2016 AND 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Permanently restricted net assets include those assets for which donor-imposed restrictions stipulate that the asset be permanently maintained by the Organization. Headrest, Inc. has no permanently restricted net assets as of June 30, 2016 and 2015.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash equivalents – For purposes of the statement of cash flows, Headrest considers all short-term investments with an original maturity of three months or less to be cash equivalents. At June 30, 2016 and 2015 there were no cash equivalents.

Assets limited as to use

Assets Limited as to Use represent board-designated assets for capital expenditures and reserves amounting to \$51,127 and \$132,753 at June 30, 2016 and 2015. Assets limited to use consist of cash and cash equivalents however these amounts have not been included in cash and cash equivalents for cash flow purposes.

Allowance for doubtful accounts – Headrest considers accounts receivable to be fully collectible, accordingly, no allowance for doubtful accounts is required.

Depreciation and fixed assets – Property and equipment are stated at cost if purchased and at fair market value on the date of the donations if donated. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted or temporarily restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, Headrest reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Headrest reclassifies temporarily restricted net assets to unrestricted net assets at that time. Depreciation is computed using straight-line and accelerated methods based on the estimated useful life of each asset. Estimated useful lives used for building and improvements are ten to thirty- nine years and for furniture and fixtures three to seven years.

Public support and revenue – All contributions are considered to be available or unrestricted use unless specifically restricted by the donor.

HEADREST, INC.  
 NOTES TO FINANCIAL STATEMENTS  
 YEARS ENDED JUNE 30, 2016 AND 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes – The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Organization adopted the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles, with no cumulative effect adjustment required. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more –likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization’s financial condition, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at June 30, 2016.

Donated services and materials - Donated supplies and equipment are reflected as contributions in the accompanying financial statements at their estimated fair market values.

Functional expenses – Functional and administrative expenses have been allocated among program services based on an analysis of personnel time and space utilized for the activities.

NOTE 3 – LINE OF CREDIT

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Kathleen A. Dunn

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

ST

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

**PRIMARY COVERED TRANSACTIONS**

  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

**DHHS INFORMATION SECURITY REQUIREMENTS**

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
  - 2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., Laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.  
Breach notifications will be sent to the following email addresses:
      - 2.6.1.1. [DHHSChiefInformationOfficer@dhhs.nh.gov](mailto:DHHSChiefInformationOfficer@dhhs.nh.gov)
      - 2.6.1.2. [DHHSInformationSecurityOffice@dhhs.nh.gov](mailto:DHHSInformationSecurityOffice@dhhs.nh.gov)
  - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.
5. The vendor will work with the Department at its request to complete a survey. The purpose of the survey is to enable the Department and vendor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the vendor engagement. The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. The vendor will not store, knowingly or unknowingly, any State of New Hampshire or Department data offshore or outside the boundaries of the United States unless prior express written consent is obtained from the appropriate authorized data owner or leadership member within the Department.

## INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of  
Horizons Counseling Center, Inc.

We have audited the accompanying financial statements of Horizons Counseling Center, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2014 and 2013, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Horizons Counseling Center, Inc. as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2014 and 2013

Note 1: Organization

Horizons Counseling Center, Inc. is a New Hampshire non-profit organization incorporated March 2, 1990. The Organization is dedicated to providing quality mental health care services for the comprehensive prevention, assessment and treatment of substance abuse and dependence, and related behavioral matters. Services are provided to substance abusers, their families and others affected by the substance abuse. The Organization is dedicated to providing these services to those of limited financial ability, regardless of their ability to pay.

Note 2: Summary of Significant Accounting Policies

Accounting Method

The financial statements have been prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recorded at the time liabilities are incurred.

Net Assets

The Organization reports its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets include the portion of funds that are not restricted by donor or grantor and are available for support of the Organizations' operation.

Temporarily Restricted Net Assets include the portion of funds for which donor or grantor restrictions have not yet been met and for which the ultimate purpose of the proceeds are not permanently restricted.

Permanently Restricted Net Assets include the portion of funds for which donor or grantor imposed restrictions require the funds to be maintained permanently by the Organization.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable is stated at net realizable value and consists of amounts due from clients for services rendered. Service fees are recorded in the year in which the service is performed. Uncollectible amounts, estimated by management based on historical data, are recorded in the period during which the services are provided even though the actual amounts may become known at a later date.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2014 and 2013

Note 2: Summary of Significant Accounting Policies – continued

Accounts Receivable - continued

Under terms of the State grant the Organization receives, no patient may be denied services for an inability to pay, resulting in services that are provided but are never expected to result in cash flows. These services estimated at approximately 54% of billings; do not qualify for recognition as receivables or revenue.

Property and Equipment

Property and equipment are recorded at cost or, if donated, at their fair market value at the date of donation. Maintenance and repairs are charged to operations when incurred; major purchases and improvements are capitalized. Fixed assets, consisting of computer and telephone equipment are being depreciated over a five year period using the straight line method.

Grants

The State of New Hampshire, in accordance with a grant contract with the Organization, allows any surplus of revenues over expenses to be used on activities approved by the grant contract with the State of New Hampshire, Department of Health and Human Services – Bureau of Drug and Alcohol Services (BDAS) to cover Medicaid shortfalls or to be expended at HCC's discretion to increase or improve service delivery within the programs specified by the contract except that such expenditures shall not increase the annualized operating cost of such programs without the prior written approval of BDAS. (See Note 5)

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. When a restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has chosen to record restricted contributions whose restrictions are met in the same reporting period as unrestricted contributions.

Schedules of Functional Expenses

The costs of providing various program and management services have been summarized on a functional basis in the Statement of Functional Expenses. Accordingly, certain costs have been allocated amongst the program services and management services benefited based on actual costs and analysis of personnel time.

Notes to Financial Statements  
June 30, 2014 and 2013

Note 2: Summary of Significant Accounting Policies – continued

Use of Estimates

Preparation of the Organizations' financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could vary from these estimates.

In-Kind Contributions

In-kind contributions are recorded at fair market value and recognized as revenue in the accounting period in which they are received. During the years ended June 30, 2014 and 2013, donated professional services of 7,680 and \$6,400 were received and recorded in the financial statements.

The Organization rents from a related party (see note). The rent paid in the fiscal year ended June 30, 2014 was determined to be below market value. The donated amount would approximate \$7,700.

Volunteers, mainly board members, donate time to the Organization's program services. These services have not been included in donated materials and services because their value has not been determined.

Federally Insured Limits

The Organization maintains its cash account at one financial institution, which is secured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 in aggregate. The Organization has not exceeded this limit for the years ending June 30, 2014 and 2013.

Tax Status

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and did not conduct unrelated business activities. Therefore, there is no provision for federal income taxes in the accompanying financial statements. In addition, the Organization has been determined by the IRS not to be a private foundation within the meaning of Section 590(a) of the Internal Revenue Code.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2014 and 2013

Note 3: Leased Facilities and Related Party

The Organization rents the Gilford office from a related party, the spouse of the Executive Director. The rental agreement is unwritten, but annual rental payments are approved each year by the Board of Directors. For the years ended June 30, 2014 and 2013 the total rent paid to the related party was \$10,233 and \$14,406, respectively.

For the years ended June 30, 2014 and 2013, the Organization also rented space in Plymouth, New Hampshire. A 24 month lease agreement was entered into on January 1, 2012, which calls for monthly rent payments of \$475. This amount was reduced for the last six months of 2013 to \$325. A 12 month lease agreement was entered into on January 1, 2014, which calls for monthly rent payments of \$325. The total rent for the Plymouth office for the June 30, 2014 and 2013 was \$3,900 and \$5,550, respectively.

Effective August 6, 2012, the Organization rented space in Gilford, New Hampshire. The lease is for one year, which calls for monthly rent payments of \$900. Total rent paid for the year ended June 30, 2014 was \$10,800 and \$9,900.

Note 4: Concentration of Risk

The Organization grants credit to its patients, most of whom are local residents and some of whom are insured under third party payer agreements. Based upon factors surrounding the credit risk of specific patients, historical trends, and other information, the Organization has estimated the collectible balances for patient receivables. No collateral or other security to support patient receivables is required.

The Organization receives the majority of its support from the New Hampshire Department of Health and Human Services. In the event that this support were to be eliminated, it is likely that the Organization would need to reduce its current operations.

Note 5: Grant Revenue and Support

The Organization receives substantial funding in the form of grants from the New Hampshire Department of Health and Human Services - Bureau of Drug and Alcohol Services (BDAS). The Organization reports the grant funding as income for the period in which services are rendered and costs are incurred.

Under the terms of the grant, no patient may be denied services due to an inability to pay for such services. Consequently, all patients are billed on a sliding fee scale based upon their financial resources. The difference between the established rates and the amount collectible and the difference between the established rates and third-party payments are deducted from gross service revenue.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2014 and 2013

Note 6: Related Party

During the year ended June 30, 2014, the Organization received donations totaling \$200 from relatives of the Executive Director.

The Organization also received a \$15,000 loan from the Executive Director. This is a demand loan and interest will be paid using the applicable federal blended rate for 2014 of .28%.

During the year ended June 30, 2013, the Organization received donations totaling \$10,500 from relatives of the executive director.

Note 7: Subsequent Events

Management has evaluated subsequent events through July 13, 2016, which is the date the financial statements were available to be issued.

The original contracts were approved by Governor and Executive Council on March 23, 2016 (Item #6), except for the contract with Goodwin Community Health, which was approved on June 1, 2016 (Item #12). Amendments to the contracts were approved by Governor and Executive Council on June 29, 2016 (Item #25), except for the contract with Tri-County Community Action, Inc., which was amended and approved on June 15, 2016 (Late Item #A1). An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). The source of funds for these actions are: 69% Federal, 17% General, and 14% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 upon the availability and continued appropriation of funds in the future operating budget.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
  - 2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.

Breach notifications will be sent to the following email addresses:

  - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.

The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. ## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2016 and 2015, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors  
Easter Seals New Hampshire, Inc. and Subsidiaries

***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2016 and 2015, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

As discussed in note 1, effective August 31, 2016, Easter Seals NH transferred its sole member interest in Easter Seals Rhode Island, Inc. to Fedcap Rehabilitation Services, Inc. As a result, these consolidated financial statements do not include the financial position of Easter Seals Rhode Island, Inc. at August 31, 2016, while the results of operations of Easter Seals Rhode Island, Inc. are included for the year then ended.

Also, as discussed in note 1, effective August 31, 2015, Easter Seals NH transferred its sole member interest in Easter Seals New York, Inc. to Fedcap Rehabilitation Services, Inc. As a result, these consolidated financial statements do not include the financial position of Easter Seals New York, Inc. at August 31, 2015, while the results of operations of Easter Seals New York, Inc. are included for the year then ended.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2016 on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2016 and 2015

#### 1. Corporate Organization and Purpose

Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH) consists of various separate nonprofit entities: Easter Seals New Hampshire, Inc. (parent and service corporation); Easter Seals Maine, Inc. (Easter Seals ME); Agency Realty, Inc. (real estate corporation); The Harbor Schools Incorporated (Harbor Schools); Manchester Alcoholism Rehabilitation Center; and Easter Seals Vermont, Inc. (Easter Seals VT). Easter Seals New Hampshire, Inc. is the sole member of each subsidiary. Easter Seals NH is affiliated with Easter Seals, Inc. (the national headquarters for the organization).

On August 31, 2016, Easter Seals NH entered into an agreement with Fedcap Rehabilitation Services, Inc. (Fedcap), an unrelated entity, whereby Easter Seals NH agreed to transfer its sole member interest in Easter Seals RI to Fedcap for no consideration. Further, on August 31, 2015, Easter Seals NH entered into an agreement with Fedcap whereby Easter Seals NH agreed to transfer its sole member interest in Easter Seals NY to Fedcap for no consideration. See also note 12. The accompanying consolidated statements of activities include the results of operations of Easter Seals RI and Easter Seals NY through the date Easter Seals NH's sole member interest was transferred. Finally, effective October 26, 2016, Agency Realty, Inc. was dissolved and all properties were transferred to Easter Seals New Hampshire, Inc.

Easter Seals NH's purpose is to provide (1) programs and services for people with disabilities and other special needs, (2) assistance to people with disabilities and their families, (3) assistance to communities in identifying and developing needed services for residents, and (4) a climate of acceptance for people with disabilities and other special needs which will enable them to contribute to the well-being of the community. Easter Seals NH operates programs throughout New Hampshire, Maine, Massachusetts (prior to the closure of Harbor Schools, see note 13), Rhode Island (prior to deconsolidation), and Vermont.

#### 2. Summary of Significant Accounting Policies

##### Principles of Consolidation

The consolidated financial statements include the accounts of Easter Seals New Hampshire, Inc. and the subsidiaries of which it is the sole member as described in note 1. Significant intercompany accounts and transactions have been eliminated in consolidation.

##### Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2016 and 2015

#### 2. Summary of Significant Accounting Policies (Continued)

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. As of August 31, 2016 and 2015, approximately \$1,262,000 and \$2,811,000, respectively, of cash and cash equivalents, and approximately \$2,749,000 and \$1,322,000, respectively, of investments were on-hand under this practice.

##### Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other nonoperating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

##### Beneficial Interest in Trusts

Easter Seals NH is the beneficiary of a trust held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trust and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other nonoperating expenses, gains and losses as permanently restricted activity.

##### Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets. Leasehold improvements and the carrying value of equipment financed by capital leases are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 5.

Property held for sale is recorded at the lower of net realizable value or carrying value. No impairment losses were recognized in 2016 or 2015.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2016 and 2015

#### 2. Summary of Significant Accounting Policies (Continued)

##### Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment. Intangible assets at August 31, 2016 and 2015 consist of a patient list obtained in the acquisition of Webster Place in 2012 (in May 2013, Webster Place was merged with Manchester Alcoholism Rehabilitation Center).

Expected amortization of intangible assets through the end of their useful lives is as follows:

2017	\$ 33,130
2018	33,130
2019	33,130
2020	33,130
2021	<u>33,132</u>
	<u>\$165,652</u>

Amortization expense recognized for the patient list in 2016 and 2015 totaled \$33,130.

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believes that no long-lived assets were impaired at August 31, 2016 and 2015.

##### Bond Issuance Costs

Bond issuance costs are being amortized by the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Amortization expense recognized during 2016 and 2015 was \$3,072 and \$9,638 respectively.

##### Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known. Easter Seals NY recognized additional revenue of approximately \$17,000 in 2015 due to favorable rate adjustments approved by the State of New York. There were no such adjustments to revenues recognized in 2016.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2016 and 2015

#### 2. Summary of Significant Accounting Policies (Continued)

A third-party payor for three Easter Seals NY programs charged a facility tax assessment on a monthly basis in 2015. The charges are a part of Easter Seals NY's reimbursement contract with the payor. The facility tax assessment is based on approved rates. As of August 31, 2015, the facility tax assessment due by Easter Seals NY was approximately \$95,000. See also note 12 regarding the deconsolidation of Easter Seals NY on August 31, 2015.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectibility of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2016 and 2015 totaled \$984,511 and \$1,350,516 respectively, and is recorded against fees and grants from governmental agencies and contributions. The decrease in bad debt provision in 2016 was due to services provided by Manchester Alcoholism Rehabilitation Center being covered by third-party payors, resulting in lower bad debt write-offs.

Easter Seals NH has agreements with third-party payors that provide for payment at amounts different from its established rates. Payment arrangements include discounted charges and prospectively determined payments. Contractual allowances for program and other accounts receivable at August 31, 2016 and 2015 were \$7,372,700 and \$1,896,800, respectively. The total contractual adjustments provided in 2016 and 2015 totaled \$22,618,087 and \$12,959,603, respectively, and are recorded against fees and grants from governmental agencies. The increase in contractual adjustments in 2016 is primarily due to an increase in volume of services provided by Manchester Alcoholism Rehabilitation Center and an increase in these services being covered by third-party payors.

Unconditional contributions are recognized when pledged.

#### Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

#### Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

#### Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately \$5,611,000 and \$6,262,000 for the years ended August 31, 2016 and 2015, respectively.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2016 and 2015

#### 2. Summary of Significant Accounting Policies (Continued)

##### Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals ME, Easter Seals VT, Easter Seals RI (see note 1), Harbor Schools and Manchester Alcoholism Rehabilitation Center are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. Agency Realty, Inc. received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the “more-likely-than-not” threshold, based upon the technical merits of the position.

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements.

##### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

##### Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreement described in note 8. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreement (not the notional amount) in the event of nonperformance of the other party to the swap agreement. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2016 and 2015, Easter Seals NH had recognized a liability of \$3,487,979 and \$2,819,967, respectively, as a result of the interest rate swap agreements discussed in note 8. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized decreases in net assets of \$668,012 and \$227,568, respectively, for the years ended August 31, 2016 and 2015 in the accompanying consolidated statements of activity and changes in net assets.

#### 2. Summary of Significant Accounting Policies (Continued)

##### Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase in net assets from operations. The primary transactions reported as other nonoperating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the change in the fair value of beneficial interest in trusts held by others, gains and losses on sales and disposals of fixed assets, and net realized and unrealized gains and losses on investments.

##### Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360)*. The amendments change the criteria for reporting discontinued operations, while enhancing disclosures in this area. Those amendments also address sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in accounting principles generally accepted in the United States. Under the new guidance, only disposals representing a strategic shift in operations are presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. Easter Seals NH adopted ASU 2014-08 for the year-ending August 31, 2016 on a prospective basis. The adoption of ASU 2014-08 did not significantly impact Easter Seals NH's consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, *Interest – Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). ASU 2015-03 simplifies the presentation of debt issuance costs and requires that the debt issuance costs related to a recognized debt liability be presented in the statement of financial position as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 is effective for Easter Seals NH's fiscal year ending August 31, 2017, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-03 on Easter Seals NH's consolidated financial statements.

In May 2014, the FASB issued No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which Easter Seals NH expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance when it becomes effective. ASU 2014-09 is effective for Easter Seals NH on September 1, 2019. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. Management is currently evaluating the impact that ASU 2014-09 will have on Easter Seals NH's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which requires that lease arrangements longer than twelve months result in an entity recognizing an asset and liability. The pronouncement is effective for Easter Seals NH beginning September 1, 2020, with early adoption permitted. The guidance may be adopted retrospectively. Management is currently evaluating the impact this guidance will have on Easter Seals NH's consolidated financial statements.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2016 and 2015

#### 2. Summary of Significant Accounting Policies (Continued)

In August 2016, the FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities* (ASU 2016-14). Under ASU 2016-14, there is a change in presentation and disclosure requirements for not-for-profit entities to provide more relevant information about their resources (and the changes in those resources) to donors, grantors, creditors, and other users. These include qualitative and quantitative requirements in net asset classes, investment return, expenses, liquidity and availability of resources and presentation of operating cash flows. ASU 2016-14 is effective for Easter Seals NH on September 1, 2018, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2016-14 on Easter Seals NH's consolidated financial statements.

#### Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 12, 2016, the date these consolidated financial statements were available to be issued.

#### 3. Classification of Net Assets

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2016 or 2015.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

In establishing this policy, Easter Seals NH considered the objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to, so long as it would not detract from Easter Seals NH's critical goals and initiatives, provide additional real growth through new gifts and investment return.

#### 11. Fair Value of Financial Instruments

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimizes the use of unobservable factors.

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trust, investments and the interest rate swap, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

#### 11. Fair Value of Financial Instruments (Continued)

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2016 and 2015.

##### Investments and Assets Limited as to Use

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, and mutual funds that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain government and agency securities and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

##### Beneficial Interest in Trust Held by Others

The beneficial interest in trust held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trust. The fair values of marketable equity securities, money market and mutual funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities and mutual funds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

##### Interest Rate Swap Agreement

The fair value for the interest rate swap liability is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

**Please see attached financial details.**

### **EXPLANATION**

The table above in the Requested Action represents a total of fifteen Vendors that provide substance use disorder treatment and recovery support services statewide and were presented to Governor and Executive Council as a group in previous actions. This Requested Action only is for two of the fifteen Vendors.

This is a **sole source** request because the Department is increasing the two Vendors' price limitations in State Fiscal Year 2017 without an additional procurement. This additional funding will assist these two Vendors in meeting the needs of clients entering their substance use disorder treatment and recovery support programs through Safe Stations initiatives in Manchester, NH. These initiatives are showing great success in helping individuals with substance use disorders to engage in treatment services. This engagement will reduce the impact of social, health, and behavioral consequences of substance misuse on both the individuals and the State of New Hampshire as a whole.

Additionally, approval of these two (2) Amendments will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016.

The Department will be submitting an additional thirteen amendments to continue substance use disorder and recovery support services for an additional three months. The Department issued a Request for Proposals on April 3, 2017. The Department intends to issue new contracts prior to the expiration of these extensions.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015 there were 33 drug overdose deaths per 100,000 in New Hampshire. In 2016 this number is anticipated to rise to 35.33 per 100,000 with 9 cases still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
