**DHHS INFORMATION SECURITY REQUIREMENTS**

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
  - 2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.  
Breach notifications will be sent to the following email addresses:

      - 2.6.1.2. [DHHSInformationSecurityOffice@dhhs.nh.gov](mailto:DHHSInformationSecurityOffice@dhhs.nh.gov)
  - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.
5. The vendor will work with the Department at its request to complete a survey. The purpose of the survey is to enable the Department and vendor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the vendor engagement. The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. The vendor will not store, knowingly or unknowingly, any State of New Hampshire or Department data offshore or outside the boundaries of the United States unless prior express written consent is obtained from the appropriate authorized data owner or leadership member within the Department.

**INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors of  
**Serenity Place**  
**National Council on Alcoholism and Drug Dependence Affiliate**  
Manchester, New Hampshire

We have audited the accompanying financial statements of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate (a nonprofit organization), which comprise the statements of financial position as of June 30, 2016 and 2015, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate as of June 30, 2016 and 2015, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Notes to the Financial Statements**  
**June 30, 2016 and 2015**

**Nature of Organization & Activities:**

Serenity Place, a National Council on Alcoholism and Drug Dependence Affiliate (the "Organization"), is a non-profit organization formed under the laws of the State of New Hampshire in 1979 for the purpose of providing opportunities for the chemically dependent person to become free of those dependencies, to maintain that freedom and to return to the community as a contributing member.

**Note 1 - Summary of Significant Accounting Principles:**

**A. Method of Accounting**

The accompanying financial statements have been prepared using the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

**B. Basis of Presentation**

The Organization presents its financial statements following the Not-For-Profit Entities topic of the FASB Accounting Standards Codification with respect to financial statement presentation. Under this topic, the Organization is required to report information regarding its financial position and activities according to the three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. In addition, the Institute is required to present a statement of cash flows. The financial statements are presented using the three classes of net assets and are as follows:

**Unrestricted Net Assets:**

The portion of net assets of a not-for-profit Organization that is neither permanently restricted nor temporarily restricted by donor imposed stipulations.

**Temporarily Restricted Net Assets:**

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) for reclassifications to or from other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillments and removal by actions of the Organization pursuant to those stipulations. Temporarily Restricted Net Assets at June 30, 2016 and 2015 were \$80,775 and \$21,711, respectively.

**Note 1 - Summary of Significant Accounting Principles - Continued:**

**B. Basis of Presentation - Continued**

**Permanently Restricted Net Assets:**

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by actions of the Organizations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from or to other classes of net assets as a consequence of donor-imposed stipulations. There are no Permanently Restricted Net Assets at June 30, 2016 and 2015.

**C. Cash and Cash Equivalents**

For purposes of the statement of cash flows, the Organization considers all highly liquid deposits with maturity of three months or less to be cash and/or cash equivalents.

**D. Use of Estimates in the Preparation of Financial Statements**

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

**E. Income Taxes**

The Organization is exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. There are no state income taxes due to the fact that the State of New Hampshire recognizes Section 501(c)(3) for exemption of organizations that are organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes. The Organization's evaluation on June 30, 2016 and 2015 revealed no uncertain tax positions that would have a material impact of the financial statements.

The Organization's information returns are subject to possible examination by the taxing authorities. For federal purposes the returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

**June 30, 2016 and 2015**

**Note 1 - Summary of Significant Accounting Principles - Continued:**

**F. Fixed Assets**

Property and equipment are carried at cost and donations of property and equipment are recorded as support at fair value at the time of the gift. Acquisitions of property and equipment in excess of \$5,000 that meet the capitalization requirements are capitalized. Depreciation is computed using the straight-line method based on the assets' estimated useful lives. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized. The cost of maintenance and repairs is charged to operations as incurred; significant renewals and betterments are capitalized. The breakdown of assets relevant to useful life is as follows:

<u>Description</u>	<u>Method</u>	<u>Life</u>
Furniture and Fixtures	Straight-Line	5-7 years
Equipment	Straight-Line	3-5 years
Vehicles	Straight-Line	5 years
Buildings and Improvements	Straight-Line	5-39 years

**G. Accounts Receivable**

Accounts receivable are reported at net realizable value. Net realizable value is equal to the gross amount of receivables less an estimated allowance for uncollectible accounts. Historically, the Organization has not experienced material write offs, and therefore has not established an allowance account.

**H. Donor-Restricted Contributions**

The Organization's policy is to report donor-restricted contributions whose restrictions are met in the same reporting period, as unrestricted support, as there is no effect to reported restricted net assets.

**I. Investments**

The Organization follows the FASB Accounting Standards Codification with respect to investments. Under this subtopic, investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. See Note No. 7.

**Note 1 - Summary of Significant Accounting Principles - Continued:**

**J. Fair Value of Financial Instruments**

Current accounting standards require the Organization to disclose estimated fair value for its financial instruments. The carrying amounts of cash, other receivables, prepaid expenses, accounts payable, accrued expenses and refundable advances approximate fair value because of the short maturity of those instruments.

**K. Advertising**

The Organization follows the policy of charging the costs of advertising to expense as they are incurred. Advertising expenses were \$1,515 and \$2,834 for the years ended June 30, 2016 and 2015, respectively.

**L. Functional Allocation of Expenses**

The costs of providing the various program services have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

**Note 2 - Notes Payable:**

At June 30, 2016 and 2015, notes payable were as follows:

<b>Total</b>	<b>\$ <u>21,711</u></b>

**Note 4 – Concentration of Credit Risk – Cash in Bank:**

The Organization maintains its bank accounts with commercial banks, which could at times exceed federally insured limits. Management considers this risk minimal.

**Note 5 – Concentration of Revenue and Support Sources:**

The Organization's primary source of revenues are Block Grants for Prevention and Treatment of Substance Abuse passed through by the State of New Hampshire. Revenue is recognized as earned under the terms of the grant contract. Other support originates from charges for private services and miscellaneous income and grants.

**June 30, 2016 and 2015**

**Note 6 – Contributions:**

Donated materials, equipment and essential services are reflected as contributions in the accompanying financial statements at fair market value, at the date of the donation. The Organization also adopted a policy to record an in-kind donation for food procured at a below market rate from another non-profit organization. These transactions have been recorded as follows.

	<u>2016</u>	<u>2015</u>
Donated services, materials, equipment and food	\$ <u>128,553</u>	\$ <u>57,286</u>

**Note 7 – Investments:**

The cost and fair market values of investment securities held are as follows:

<u>Description</u>	<u>Cost</u>	<u>Fair Market Value</u>	<u>Accumulated Holding Gains Or (Losses)</u>
Mutual Funds - 2016	\$ <u>51,004</u>	\$ <u>84,200</u>	\$ <u>0</u>
Mutual Funds – 2015	\$ <u>50,910</u>	\$ <u>85,863</u>	\$ <u>34,953</u>

Current year realized gains were \$33,196 for the year ended June 30, 2016.

Prior year unrealized losses were \$3,329 for the year ended June 30, 2015.

**Note 8 – Fair Value Measurements:**

The Organization utilizes all relevant and available information in measuring fair value of investment assets and liabilities in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*. The fair value hierarchy of ASC 820 prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Quoted prices in active markets for similar assets or markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement and may require the School to develop its own assumptions.

**Notes to the Financial Statements**  
**June 30, 2016 and 2015**

**Note 8 – Fair Value Measurements - Continued:**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Some of the Organization's financial assets are not measured on a recurring basis but nevertheless are recorded at amounts that approximate fair value due to their liquid or short term nature. Such financial assets and liabilities include cash and bank deposits, certificates of deposit, accounts receivable and accounts payable.

The following is a description of the valuation methodologies used for assets measured at fair value:

*Money Market Fund, Mutual Funds and Equity Investments:* Valued at the net asset value (NAV) of shares held by the Organization at year end as reported by the investment management firm.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, although the Organization believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value as of June 30, 2016;

	Level 1	Level 2	Level 3	Total
Corporate Equity Mutual Funds	\$0	\$0	\$0	\$0

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value as of June 30, 2015;

	Level 1	Level 2	Level 3	Total
Corporate Equity Mutual Funds	\$85,863	\$0	\$0	\$85,863

As of June 30, 2016 and June 30, 2015, there was a \$100,000 line of credit available through a commercial bank. The line of credit carries an interest rate of 4.00%. At June 30, 2016 and June 30, 2015 there was \$88,505 outstanding on this credit line.

**Note 10 – Involuntary Conversion:**

In 2015, the Organization became aware of a loss of funds that occurred over years ending June 30, 2015 and 2014. The loss was isolated to the transitional living program for adult men. The amount of the loss was estimated to be \$20,667 and \$18,696 for the years ending June 30, 2015 and 2014.

The amount of the loss estimated is covered by insurance and an insurance claim was filed to recover the loss. A receivable for the total amount of the loss of \$39,363 was established at June 30, 2015. At June 30, 2016, the Organization collected on the receivable claim.

**Note 11 – Abandonment of Project:**

The Organization has chosen to capitalize legal, consulting and feasibility costs related to the search and construction of a new premise of additional space for the expansion of the Organization. The capitalized costs related to such activities are expensed when the Organization deems that the space under consideration will not meet the needs of the Organization. The costs associated with the abandoned projects as of June 30, 2015 are \$45,446. The Organization is continuing the search for suitable additional space.

**Note 12 – Subsequent Events:**

The Organization has evaluated subsequent events thru January 17, 2017, which is the date the financial statements were available to be issued. Management asserts that there are no events which meet the criteria for disclosure.

**Please see attached financial details.**

### **EXPLANATION**

The table above in the Requested Action represents a total of fifteen Vendors that provide substance use disorder treatment and recovery support services statewide and were presented to Governor and Executive Council as a group in previous actions. This Requested Action only is for two of the fifteen Vendors.

This is a **sole source** request because the Department is increasing the two Vendors' price limitations in State Fiscal Year 2017 without an additional procurement. This additional funding will assist these two Vendors in meeting the needs of clients entering their substance use disorder treatment and recovery support programs through Safe Stations initiatives in Manchester, NH. These initiatives are showing great success in helping individuals with substance use disorders to engage in treatment services. This engagement will reduce the impact of social, health, and behavioral consequences of substance misuse on both the individuals and the State of New Hampshire as a whole.

Additionally, approval of these two (2) Amendments will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016.

The Department will be submitting an additional thirteen amendments to continue substance use disorder and recovery support services for an additional three months. The Department issued a Request for Proposals on April 3, 2017. The Department intends to issue new contracts prior to the expiration of these extensions.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015 there were 33 drug overdose deaths per 100,000 in New Hampshire. In 2016 this number is anticipated to rise to 35.33 per 100,000 with 9 cases still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

#### EXPLANATION

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Kathleen A. Dunn  
Associate Commissioner

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

## REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of  
**Phoenix Houses of New England, Inc.:**

We have audited the accompanying financial statements of Phoenix Houses of New England, Inc. ("PH New England"), which comprise the statements of financial position as of June 30, 2016 and 2015, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

### **Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to PH New England's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PH New England's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Phoenix Houses of New England, Inc. as of June 30, 2016 and 2015, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Supplementary Information**

Our audits were conducted for the purposes of forming an opinion on the financial statements of PH New England as of and for the years ended June 30, 2016 and 2015, taken as a whole. The supplementary information included on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Presentation**

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). Accordingly, the net assets of PH New England and changes therein are classified and reported based upon the existence or absence of donor-imposed restrictions as follows:

- Unrestricted net assets represent expendable resources that are used to carry out PH New England's operations and are not subject to donor-imposed stipulations.
- Temporarily restricted net assets represent resources that contain donor-imposed restrictions that permit PH New England to use or expend such resources only as or when specified. Restrictions are satisfied either by the passage of time or by actions of PH New England.

# PHOENIX HOUSES OF NEW ENGLAND, INC.

## Notes to Financial Statements

June 30, 2016 and 2015

---

- Permanently restricted net assets contain donor-imposed restrictions that stipulate that such resources be maintained permanently. PH New England had no permanently restricted net assets at June 30, 2016 and 2015.

### Cash and Cash Equivalents

PH New England considers all highly liquid financial instruments, which principally consist of money market funds, with original maturities of three months or less from the date of purchase to be cash equivalents.

### Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The allowance for doubtful accounts on receivables, the useful lives assigned to fixed assets and the fair value of donated goods represent significant accounting estimates reflected in the accompanying financial statements. Actual results could differ from those estimates.

### Donated Goods

Donated goods are recorded as revenues and assets (at fair value when received) and expenses (when used) on the statement of operations and changes in net assets. Food stamps are recorded at face amount, which is the same as fair value, as revenues and assets and are charged to resident sustenance when expended.

### Property and Equipment

Property and equipment are stated at cost, if purchased, or if donated, at fair value at the date of gift, less accumulated depreciation and amortization. PH New England capitalizes assets acquired for greater than \$1,000 and with useful lives greater than three years. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	4 - 40 years
Furniture, fixtures and equipment	3 - 7 years
Computer equipment and vehicles	3 - 5 years

Furniture, fixtures and equipment acquired under capital lease arrangements are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

### Statement of Operations and Changes in Net Assets

PH New England's operating income includes all unrestricted revenues and expenses. Other items include depreciation on non-operational assets and losses on disposals of capital assets. The statement of operations and changes in net assets also includes the caption "deficiency in (excess of) revenues and support over expenses and other items," which is the performance indicator. Other changes in net assets, which are excluded from the performance indicator, consistent with industry practice, include capital contributions (including assets acquired using contributions which by donor restriction are to be used for the purposes of acquiring such assets).

## Notes to Financial Statements

June 30, 2016 and 2015

---

### Revenue and Support

Contributions (including unconditional promises to give) are recorded at fair value when received. Revenues relative to special events are recognized upon occurrence of the respective event. Contributions received with donor stipulations that limit the use of the donated assets are reported as either temporarily or permanently restricted support. Unconditional promises to give, with payments due in future years, are reported as either temporarily restricted or permanently restricted support and discounted to present value. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported on the statement of operations and changes in net assets as net assets released from restrictions. Contributions restricted by donors for the acquisition of property and equipment are released from their restrictions when the respective assets are acquired or constructed and placed into service. Such contributions and related releases are reported below the performance indicator.

### Special Events Revenue

Special events revenue consists of proceeds from fundraising events, reported net of direct donor benefits, if any. Revenue and related expenses are recognized upon occurrence of the respective event to which they pertain. For the years ended June 30, 2016 and 2015, direct benefits to donors totaled approximately \$6,000 and \$14,000, respectively.

### Government Contract Revenue

PH New England's contracts and other program funding arrangements with government agencies are classified as part of operating activities within the unrestricted net asset category and revenue is recognized when earned. PH New England operates under various contracts with government agencies which generally cover a one-year period, subject to annual renewal. The terms of these contracts allow the grantors the right to audit the costs incurred thereunder and adjust contract funding based upon, among other things, the amount of program income received. Any costs disallowed by the grantor would be absorbed by PH New England and any adjustments by grantors would be recorded when amounts are known; however, it is the opinion of management that disallowances, if any, would not be material to the accompanying financial statements.

### Client and Third-Party Revenue

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based on pre-determined rates. Medicaid and managed Medicaid approximated 62% and 56% of total client and third-party revenue for the years ended June 30, 2016 and 2015, respectively. Contracts have been entered into with commercial insurance carriers and reimbursement is based on contracted rates.

Laws and regulations governing healthcare programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. Noncompliance with such laws and regulations could result in fines, penalties, and exclusion from such programs. The federal government and many states have aggressively increased enforcement under Medicaid antifraud and abuse legislation. PH New England believes that it is in compliance, in all material respects, with all applicable laws and regulations and, is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation.

## PHOENIX HOUSES OF NEW ENGLAND, INC.

### Notes to Financial Statements

June 30, 2016 and 2015

---

Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties and exclusion from the Medicaid program.

#### Concentration of Credit Risk

Financial instruments that potentially subject PH New England to concentrations of credit risk consist principally of cash and cash equivalents. PH New England maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. PH New England's cash and cash equivalents have been placed with high credit quality financial institutions at June 30, 2016 and 2015, and PH New England believes the risk of nonperformance by these financial institutions to be remote.

PH New England provides drug and alcohol rehabilitation services through its inpatient and outpatient care facilities. PH New England grants credit without collateral to clients, however, it routinely obtains assignment of (or is otherwise entitled to receive) clients' benefits payable under their respective health insurance programs, plans, or policies (e.g., Medicaid and commercial insurance providers).

Amounts due from government agencies and other receivables by financial class as a percentage of total accounts receivable at June 30, 2016 and 2015, are as follows:

	<u>2016</u>	<u>2015</u>
Medicaid/Managed Medicaid	47 %	63 %
Commercial insurance	49	27
Other third-party payors	<u>4</u>	<u>10</u>
	<u>100 %</u>	<u>100 %</u>

#### Income Taxes

Guidance in the area of "Accounting for Uncertainty in Income Taxes," under the Financial Accounting Standards Board ("FASB") Accounting Standard Codification, clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This standard provides that the tax effects from an uncertain tax position can be recognized in the financial statements only if the position is "more-likely-than-not" to be sustained if the position were to be challenged by a taxing authority. The standard also provides guidance on measurement, classification, interest and penalties, and disclosure. The adoption of this standard by PH New England did not have an impact on its financial statements. The tax years ended June 30, 2013, 2014, 2015 and 2016 are still open to audit for both federal and state purposes. PH New England has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and, to identify and evaluate other matters that may be considered tax positions. PH New England has determined that there are no material uncertain tax positions that require recognition or disclosure in the accompanying financial statements.

#### Subsequent Events

PH New England evaluated its subsequent events through December 15, 2016, the date these financial statements were available to be issued.

## Notes to Financial Statements

June 30, 2016 and 2015

### 3. RELATED PARTY TRANSACTIONS

PH New England is charged for administrative services provided by its Parent based upon a cost allocation plan. The administrative expenses charged by the Parent approximate the federally approved indirect cost rate for the Parent and its affiliates on a consolidated basis, adjusted to reflect PH New England's own administrative expenses. For each of the years ended June 30, 2016 and 2015, such allocated charges totaled \$519,200, and are included as part of administrative charges from Parent on the accompanying statements of operations and changes in net assets.

The Parent has adopted a cash management strategy with the principal goal of pooling its cash balances with those of its affiliates to maximize returns and reduce short-term borrowings and to pay for certain costs on behalf of the respective affiliates on a reimbursable basis. As a result of this strategy, certain affiliates participating in the cash management program will have corresponding amounts due to/(from) the Parent as of the reporting date. Amounts reflected as due to Parent on the accompanying statements of financial position of approximately \$3,633,000 and \$4,620,000 as of June 30, 2016 and 2015, respectively, relate to costs incurred by PH New England, but paid for by the Parent.

### 4. CONTRIBUTIONS RECEIVABLE, NET

At June 30, 2016 and 2015, PH New England's contributions receivable, net, consists approximately of the following:

	2016	2015
Amounts expected to be collected:		
In less than one year	\$ 23,400	\$ 43,900
In one to two years	-	15,000
	<u>23,400</u>	<u>58,900</u>
Less: Discount to present value (at a rate of 4.01%)	-	(1,400)
	<u>\$ 23,400</u>	<u>\$ 57,500</u>

Multi-year pledges received are recorded at the present value of their expected future cash flows using a credit adjusted discount rate which articulates with the collection period of the respective pledge. Discount rates assigned to multi-year pledges in the year of origination are not subsequently revised.

### 5. NOTES RECEIVABLE

During May 2012, PH New England entered into a lease, with no stated rental payments due, and a promissory agreement with Central Vermont Community Land Trust ("CVCLT"), a non-profit corporation existing under the laws of the State of Vermont. In conjunction with a new program, PH New England agreed to lease a facility from CVCLT for twenty years. As part of the lease agreement, PH New England entered into a non-interest bearing note of \$100,000 payable by CVCLT and secured by a mortgage of and security interest in the property in Barre, Vermont. The principal of this note does not bear interest nor will any principal be due at any time during which the lease between PH New England and CVCLT is in effect and for a period beginning on the date of termination of the lease and ending on the last day of the twelfth calendar month after such date. The principal due shall be reduced by \$5,000 each year for the initial

twenty year term of the lease, beginning with the commencement of the new program, beginning July 1, 2013. In the event the lease is in effect throughout the entire initial 20 year term, the note shall be deemed paid in full upon the conclusion of such term. In the event the lease terminates prior to the conclusion of the initial lease term, then the remaining principal shall be due and payable on the last day of the twelfth full calendar month following termination of the lease. Interest shall begin to accrue on such remaining principal balance beginning on the first day of the first month following the due date at a rate equal to the U.S. Department of the Treasury One Year Treasury Bill Rate in effect on the due date. At June 30, 2016 and 2015, the balance of this note receivable was \$85,000 and \$90,000, respectively. Use of this facility is received free of charge, however, is cancellable by any party to the lease agreement. Given the immaterial amount of the free rent received, the fair value for the right to use this space has not been quantified and recognized in the accompanying financial statements.

During July 2010, PH New England entered into a lease and promissory agreement with Burlington Housing Authority ("BHA"), a housing authority existing under the laws of the State of Vermont and the City of Burlington. In conjunction with a new program, PH New England agreed to lease a facility from BHA for twenty-five years. As part of the lease agreement, PH New England entered into a non-interest bearing note of \$75,000 due and payable by BHA on the last day of the twelfth full calendar month immediately following the termination of the lease. Interest accrues on the principal balance of this note, beginning on the first day of the first month following the Due Date, at a rate equal to the One Year Treasury Bill rate in effect on that date. At June 30, 2016 and 2015, the balance of this note receivable was \$75,000. Total rent expense associated with the lease for this space totaled approximately \$52,000 for each of the years ended June 30, 2016 and 2015.

The State of Rhode Island had provided PH New England with \$100,000 to fund these interest-free loans. The revolving loan fund account increases with interest earned on funds on deposit and decreases as a result of uncollectible loans. The loan fund assets are recorded within cash and cash equivalents and prepaid expenses and other current assets with a corresponding liability on the accompanying statements of financial position. #### EXPLANATION

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

## **Southeastern NH Alcohol & Drug Abuse Services**

### Mission

To provide the highest possible quality addiction treatment to help persons who are in need of these services.

### Philosophy

Southeastern NH Services recognizes that many addicted persons who are most in need of addiction treatment services are very limited in their financial means. As a charitable organization, the Agency will subsidize the cost of non-reimbursed services through contributions so that services will be available to all in need regardless of ability to pay. Therefore, the Agency will seek funding from a variety of resources both public and private.

To promote the availability of services, to champion practices which help prevent chemical dependency, to overcome myths and misconceptions commonly held about addicted persons who are detrimental to the welfare and independence of addicted persons, and to provide advocacy on their behalf, the Agency is committed to an ongoing program of prevention and education activities.

The Agency is dedicated to continuing its historic practice of responding to the emerging needs of the addicted population. It is committed to pro-actively encouraging all forms of free access and to maintaining the highest quality and availability of services. Accordingly, the Agency will continue to advocate for and work cooperatively toward mutual goals with appropriate existing private, voluntary, and tax-supported programs, as well as groups, such as AA, NA and Al-Anon.

The Agency believes that it is essential to preserve its integrity, independence and identity as an organization dedicated to providing a variety of treatment services for addicted people. Our good name and the good will of the agency's contributors, who make our programs possible, mandate our very best efforts to preserve accountability, provide prudent, effective services, management of contributed resources, and to carry out fundraising in accordance with accepted ethical standards.

### **INDEPENDENT AUDITORS' REPORT**

We have audited the accompanying consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2016 and 2015, and the related consolidated statements of activities, cash flows and functional expenses for the years then ended, and the related consolidated notes to the financial statements.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and the fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate as of June 30, 2016 and 2015, and the changes in its consolidated net assets, and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**SOUTHEASTERN NEW HAMPSHIRE ALCOHOL & DRUG ABUSE SERVICES  
AND AFFILIATE**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEARS ENDED JUNE 30, 2016 AND 2015**

**NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**General**

Southeastern New Hampshire Alcohol & Drug Abuse Services (the Organization) is a New Hampshire nonprofit organization providing treatment, rehabilitation and intervention services to alcoholics, narcotic addicts, and alcohol and drug abusers, substantially all of whom are residents of New Hampshire. A majority of revenue is derived from contracts with the State of New Hampshire.

Southeastern New Hampshire Alcohol & Drug Abuse Services Foundation (the Affiliate) is also a New Hampshire nonprofit organization that was established to raise funds for the Organization. A majority of the revenue is derived from direct public support.

**Basis of Accounting**

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles general accepted in the United States of America, as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

**Principles of Consolidation**

The accompanying consolidated financial statements have been prepared for the Organization and the Affiliate due to the Organization being the sole beneficiary of the Affiliate. All material intercompany transactions have been eliminated.

**Basis of Presentation**

Financial statement presentation follows the recommendations of the FASB ASC No. 958-210 *Financial Statements of Not-for-Profit Organizations*. Under FASB ASC 958-210, the Organization and the Affiliate (as consolidated) are required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions. As of June 30, 2016 and 2015, the Organization had no permanently or temporarily restricted net assets.

**Use of Estimates**

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

**Cash Equivalents**

Cash equivalents include all highly liquid investments with an original maturity date of three months or less. There were no cash equivalents at June 30, 2016 and 2015.

**Accounts Receivable**

Accounts receivable is stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual receivables from grants, contracts, and others. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the applicable accounts receivable. At June 30, 2016, there is an allowance of \$15,000 and at June 30, 2015, no allowance was deemed necessary.

**Property and Equipment**

Purchases of property and equipment are recorded at cost. Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Costs for repairs and maintenance are charged against operations. Renewals and betterments, which materially extend the life of the assets, are capitalized. Depreciation is provided for using the straight line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Leasehold improvements	15 - 39 years
Equipment and furniture	3 - 7 years

Property and equipment at June 30, 2016 and 2015 consisted of the following:

	<u>2016</u>	<u>2015</u>
Leasehold improvements	\$ 407,730	\$ 407,730
Construction in process	371,401	22,454
Equipment and furniture	<u>249,509</u>	<u>228,259</u>
	1,028,640	658,443
Less accumulated depreciation	<u>566,865</u>	<u>544,191</u>
Property and equipment, net	<u>\$ 461,775</u>	<u>\$ 114,252</u>

**Costs Incurred – Construction in Process**

Property and equipment include costs for construction in process. These costs were incurred to bring the facility up to ADA (American with Disabilities Act) standards. The construction is substantially complete as of the report date.

### **Accrued Vacation**

The Organization has accrued liabilities for future compensated leave time that its employees have earned and which is vested with the employees. The amounts totaled \$35,197 and \$28,306, at June 30, 2016 and 2015, respectively.

### **Refundable Advances**

Revenues received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are provided or costs are incurred.

### **Contributed Support**

Contributed support is reported as unrestricted or as restricted depending on the existence of donor or time stipulations that limit the use of the support. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support.

### **Income Taxes**

The Organization and the Affiliate are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service (IRS) has determined them to be other than private foundations.

Management has reviewed the tax positions for the Organization under ASC No. 740, "Accounting for Income Taxes" and determined that the application of FASB ASC No. 740 did not have a material impact on the consolidated financial statements. FASB ASC No. 740 establishes financial accounting and disclosure requirements for recognition and measurement of uncertain tax positions taken or expected to be taken on a U.S. information return. There were no uncertain tax positions as of June 30, 2016 and 2015, and all tax years from 2012 forward are open and subject to examination authorities.

### **Functional Allocation of Expenses**

The costs of providing the various programs and other activities have been summarized in the consolidated statement of activities. Accordingly, certain costs have been allocated among the program services and supporting activities benefited.

### **Advertising**

Advertising costs are expensed as incurred.

### **Concentrations of Risk**

The Organization maintains its cash balances at one financial institution. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. As of June 30, 2016 and 2015, the uninsured balances were \$349,576 and \$464,082, respectively.

A majority of the Organization's services are derived from services performed for New Hampshire citizens. The main source of revenue for the Organization is derived from contracts with the State of New Hampshire. These contracts

represent 57% and 73%, respectively, of the Organization's public support and revenue for the fiscal years ended June 30, 2016 and 2015. The accounts receivable related to these contracts totaled \$94,584 and \$195,644 at June 30, 2016 and 2015, respectively. The Organization does not require collateral or other security to support these financial instruments.

**Fair Value of Financial Instruments**

Unless otherwise indicated, fair values of all reported assets and liabilities that are financial instruments approximate the carrying values of such amounts.

**NOTE 2. BOARD DESIGNATED UNRESTRICTED NET ASSETS**

The Board of Directors designated \$25,000, of unrestricted net assets for each of the fiscal years ended June 30, 2016 and 2015. The designation was established to provide for pension contributions for the fiscal years ending June 30, 2017 and 2016, respectively.

Total rent expense was \$59,465 and \$57,721 for the years ended June 30, 2016 and 2015, respectively.

**NOTE 4. CONTINGENCIES**

The Organization receives funds from various funding sources. Under the terms of the agreements, the Organization is required to use the funds for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Organization might be required to repay the funds. No provisions have been made for this contingency because specific amounts, if any, have not been determined or assessed by government audits as of June 30, 2016 and 2015.

**NOTE 5. RETIREMENT PLAN**

The Organization maintains a tax sheltered annuity plan qualified under Section 403(b) of the Internal Revenue Code. The plan covers substantially all full-time employees of the Organization. The Organization makes matching contributions up to 3% of gross salaries for qualified employees. Employees may make contributions to the plan up to the maximum amount allowed by the Internal Revenue Code. An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). The source of funds for these actions are: 69% Federal, 17% General, and 14% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 upon the availability and continued appropriation of funds in the future operating budget.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

Funds to support this request are available in State Fiscal Years 2016 and 2017 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified, without approval of the Governor and Executive Council.

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**2. Definitions**

- 2.1. Adolescents: Adolescents are individuals under the age of 18.

More information can be found at: <http://www.asam.org/>
- 2.3. American Society of Addiction Medicine Criteria: ASAM's criteria, formerly known as the ASAM patient placement criteria, is the result of a collaboration that began in the 1980s to define one national set of criteria for providing outcome-orientated and results-based care in the treatment of addiction. Today the criteria have become the most widely used and comprehensive set of guidelines for placement, continued stay and transfer/discharge of patients with addiction and co-occurring conditions. ASAM's criteria are required in over 30 states. More information can be found at: <http://www.asam.org/publications/the-asam-criteria>
- 2.4. Charitable Choice: Charitable Choice is Public Law 102-321, 102d Congress and amended in 1992 and again in 2000 (Children's Health Services Act). Charitable Choice is a federal legislative provision designed to remove barriers to faith-based organizations receiving certain Federal funds. States may allocate Block Grant funds to faith-based treatment and recovery support services programs that maintain their religious character and hire people of their same faith, who also meet state requirements for licensing or certification of substance abuse treatment and recovery support services programs and staff. The Charitable Choice final rules were published in the Federal Register on September 30, 2003.
- 2.5. Clinical Evaluation: A Clinical Evaluation is a biopsychosocial evaluation completed in accordance with Technical Assistance Publication (TAP) 21: Addiction Counseling Competencies, available at <http://store.samhsa.gov/product/TAP-21-Addiction-Counseling-Competencies/SMA15-4171>.

- 2.6. Days: Days in this Exhibit A and Exhibit B refers to calendar days, unless otherwise noted.
- 2.7. Evidence-Based Practice: Evidence-Based Practice is applying the best available research results (evidence) when making decisions about health care. - 2.7.1. The service shall be included as an evidence-based mental health and substance abuse intervention on the SAMHSA National Registry of Evidence-Based Programs and Practices (NREPP), <http://www.nrepp.samhsa.gov/ViewAll.aspx>

- 2.11. Resiliency and Recovery Oriented Systems of Care (RROSC): RROSC are networks of organizations, agencies, and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In New Hampshire, this is operationalized by the Continuum of Care model.
- 2.12. Screening Positive for Substance Use Disorder: Screening positive for a Substance Use Disorder means that the individual is likely to meet the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM 5) criteria for a Substance Use Disorder. Please see Attachment A for fiscal details.

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

**DHHS INFORMATION SECURITY REQUIREMENTS**

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
  - 2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.  
Breach notifications will be sent to the following email addresses:
      - 2.6.1.1. [DHHSChiefInformationOfficer@dhhs.nh.gov](mailto:DHHSChiefInformationOfficer@dhhs.nh.gov)
      - 2.6.1.2. [DHHSInformationSecurityOffice@dhhs.nh.gov](mailto:DHHSInformationSecurityOffice@dhhs.nh.gov)
  - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
  4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.
  5. The vendor will work with the Department at its request to complete a survey. The purpose of the survey is to enable the Department and vendor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the vendor engagement. The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. The vendor will not store, knowingly or unknowingly, any State of New Hampshire or Department data offshore or outside the boundaries of the United States unless prior express written consent is obtained from the appropriate authorized data owner or leadership member within the Department.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Nature of Activities

The Agency provides counseling, diversion programs, and onsite services designed to strengthen families, improve decision-making skills, and reduce involvement with the legal system for children, teens, and families struggling with abuse, neglect, substance abuse, behavioral difficulties, and parenting stress. Additional services provided to third parties relating to drug programs and counseling to various schools and organizations.

Accounting Method

Support, revenue and expenses are recorded on the accrual basis of accounting. Contract revenue is recognized when services are rendered. Donations are recorded when unconditionally pledged. Expenses are recorded when the obligation has been incurred.

Contributions of donated non-cash assets are recorded at their fair value in the period received. Contributions of donated services that create or enhance non-financial assets or that require specialized skills, which are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Promises to Give

Contributions are recognized when the donor makes a promise to give to the Agency that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Financial Statement Presentation

The Agency reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, and temporarily and permanently restricted net assets.

Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations. All contributions are considered to be available for unrestricted use unless specifically restricted by donor.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Temporarily and permanently restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Agency or the passage of time, or are permanent in nature. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Accounts Receivable

The Agency utilizes the reserve method of accounting for bad debts. Management determines the allowance based on its historical information and a review of the individual balances. A reserve of \$500 was required as of June 30, 2016.

Property, Equipment and Depreciation

Property and equipment is recorded at cost (or fair market value if donated) and is depreciated using the straight-line method over estimated useful lives as follows:

<u>Description</u>	<u>Life</u>
Building	30 years
Furniture & fixtures	3-7 years
Building improvements	7-31.5 years

Other Assets

Loan fees are being amortized on the straight line basis over ten years. Amortization expense for the year ended June 30, 2016, was \$478.

Cash Flows

For purposes of the statement of cash flows, the Agency considers all short-term securities purchased with a maturity of three months or less to be cash equivalents.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Youth Council, Inc. is generally exempt from income taxes pursuant to the Internal Revenue Code Section 501(c)(3). However, income from certain activities not directly related to the Organization's tax-exempt purpose is subject to taxation as unrelated business income.

The current year unrelated business income tax is zero.

The Agency's income tax filings are subject to audit by various taxing authorities. As of June 30, 2016, the Agency's open audit periods included years ending June 30, 2013 through 2016. The Agency believes it has met all the requirements to maintain its not-for-profit status.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the programs and supporting services benefited.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

The Agency adopted a qualified 403(b) retirement plan for employees who are at least 21 years of age, working at least 30 hours per week, and have completed 30 days of employment. The plan allows for employee contributions in accordance with the Internal Revenue Code. There is no provision for a contribution by the Agency.

**NOTE G. RESTRICTED NET ASSETS**

Temporarily restricted assets result from funding, which has either a time or usage restriction placed on it by the funding source. The balance consists of the following amounts allocated to the following year:

City of Nashua	<u>36,500</u>

**NOTE H. MANAGEMENT SERVICES AFFILIATE**

The Agency was engaged by an unrelated party to provide bookkeeping services. Service fees totaling \$4,404 were recorded as a reduction of administrative staff payroll in the accompanying Statement of Functional Expenses.

**NOTE I. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying amounts of financial instruments including cash, accounts receivable, accounts payable and short-term debt approximated fair value as of June 30, 2016, because of the relatively short maturity of these instruments. The recorded values of notes payable and long-term debt approximate their fair values, as interest approximates market rates.

An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). The source of funds for these actions are: 69% Federal, 17% General, and 14% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 upon the availability and continued appropriation of funds in the future operating budget.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

Funds to support this request are available in State Fiscal Years 2016 and 2017 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified, without approval of the Governor and Executive Council.

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. **INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of  
North Country Health Consortium, Inc. and Subsidiary  
Littleton, New Hampshire

### Report on the Financial Statements

We have audited the accompanying consolidated financial statements of North Country Health Consortium, Inc. (a nonprofit organization) and Subsidiary, which comprise the consolidated statements of financial position as of September 30, 2016 and 2015, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

***Other Matters***

***Other Information***

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 10, 2017 on our consideration of North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting and compliance.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### Note 1. Nature of Activities and Summary of Significant Accounting Policies

#### Nature of activities

North Country Health Consortium, Inc. and Subsidiary (NCHC) (the Organization) is a not-for-profit health center chartered under the laws of the State of New Hampshire. The Organization's mission is to lead innovative collaboration to improve the health status of the region. NCHC is engaged in promoting and facilitating access to services and programs that improve the health status of the area population, provide health training and educational opportunities for healthcare purposes, and provide region-wide dental services for an underserved and uninsured residents.

The Organization's wholly owned subsidiary, North Country ACO (the ACO), is a non-profit 501(c)(3) charitable corporation formed in December 2011. This entity was formed as an accountable care organization (ACO) with its purpose to support the programs and activities of the ACO participants to improve the overall health of their respective populations and communities. North Country ACO members participate in the Medicare Shared Savings Program to pay for services to Medicare beneficiaries. North Country ACO performs administration and manages the distribution of funds to participants using a patient based model.

Medicare payments to North Country ACO have ceased. The Organization did not submit an application to reapply to the Medicare Shared Savings Program. As a result, North Country ACO was issued a status of non-renewal, and its participation agreement with the Shared Savings Program has been terminated. Substantially all funds have been distributed to participants. A nominal cash balance remained to fund closing activities and completion of the required notifications to participants. After these activities have been completed, it is the intent of the Organization to dissolve North Country ACO.

The Organization's primary programs are as follows:

*Network and Workforce Activities* – To provide workforce education programs and promote oral health initiatives for the Organization's dental services.

*Public Health and CSAP* – To conduct community substance abuse prevention activities, coordination of public health networks, and promote community emergency response plan.

*Dental Services and Molar* – To sustain a program offering oral health services for children and low income adults in Northern New Hampshire.

Following is a summary of the significant accounting policies used in the preparation of these consolidated financial statements.

#### Principles of consolidation

The accompanying consolidated financial statements include the accounts of North Country Health Consortium, Inc. and its wholly owned subsidiary, North Country ACO. All significant inter-company transactions and balances have been eliminated in consolidation.

## **Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)**

### **Use of estimates**

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **Concentration of risk**

The Organization's operations are affected by various risk factors, including credit risk and risk from geographic concentration and concentrations of funding sources. Management attempts to manage risk by obtaining and maintaining revenue funding from a variety of sources. A substantial portion of the Organization's activities are funded through grants and contracts with private and federal and state agencies. As a result, the Organization may be vulnerable to the consequences of change in the availability of funding sources and economic policies at the agency level. The Organization generally does not require collateral to secure its receivables.

### **Revenue recognition**

Below are the revenue recognition policies of the Organization:

#### *Dental Patient Revenue*

Dental services are recorded as revenue within the fiscal year related to the service period.

#### *Grant and Contract Revenue*

Grants and contracts are recorded as revenue in the period they are earned by satisfaction of grant or contract requirements.

#### *Fees for Programs and Services*

Fees for programs and services are recorded as revenue in the period the related services were performed.

### **Cash and cash equivalents**

For purposes of the statement of cash flows, the Organization considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

### **Restricted cash - ACO**

Restricted cash – ACO consists of advanced funding received from Medicare to be used for the development of systems to improve care coordination, technical improvements, data collection coordination, and promote cost saving. For the years ending September 30, 2016 and 2015, these amounts were \$0 and \$76,701, respectively.

**Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)**

**Restricted cash - IDN**

Restricted cash – IDN consists of advanced funding received from The State of New Hampshire Department of Health and Human Services. Of the total advance of funds, \$2,000,000 of the cash is to be used to fund the Organization’s cost of administering the Integrated Delivery Network over a period of five years. The remaining balance of \$413,235 is to be distributed to participants. For the years ending September 30, 2016 and 2015, these amounts were \$2,413,235 and \$0, respectively.

**Accounts receivable**

The Organization has receivable balances due from dental services provided to individuals and from grants and contracts received from federal, state, and private agencies. Management reviews the receivable balances for collectability and records an allowance for doubtful accounts based on historical information, estimated contractual adjustments, and current economic trends. Management considers the individual circumstance when determining the collectability of past due amounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to earnings and a credit to accounts receivable. Any collection fees or related costs are expensed in the year incurred. The Organization recorded an allowance for doubtful accounts for dental service of \$7,776 and \$8,752 as of September 30, 2016 and 2015, and an allowance for doubtful accounts for grants and contracts of \$0 as of September 30, 2016 and 2015. The Organization does not charge interest on its past due accounts, and collateral is generally not required.

**Certificates of deposit**

The Organization has three certificates of deposit with one financial institution. These certificates carry original terms of 12 months to 24 months, have interest rates ranging from .40% to .55%, and mature at various dates through February 2018. All certificates are fully insured by the FDIC.

**Property and equipment**

Property and equipment is stated at cost less accumulated depreciation. The Organization generally capitalizes property and equipment with an estimated useful life in excess of one year and amounts over \$2,500. Lesser amounts are generally expensed. Purchased property and equipment is capitalized at cost.

Property and equipment are depreciated using the straight-line method using the following ranges of estimated useful lives:

Computers and Equipment	3-7 years
Dental equipment	5-7 years
Furniture and fixtures	5-7 years
Vehicles	5 years

Depreciation expense totaled \$15,721 and \$17,084 for the years ended September 30, 2016 and 2015, respectively.

## **Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)**

### **Deferred revenue**

Deferred revenue is related to advance payments on grants or advance billings relative to anticipated expenses or events in future periods. The revenue is realized when the expenses are incurred or as services are provided in the period earned.

### **Net assets**

The Organization is required to report information regarding its financial position and activity according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

*Unrestricted net assets* – consist of unrestricted amounts that are available for use in carrying out the mission of the Organization.

*Temporarily restricted net assets* – consist of those amounts that are donor restricted for a specific purpose. When a donor restriction expires, either by the passage of a stipulated time restriction or by the accomplishment of a specific purpose restriction, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has elected, however, to show those restricted contributions whose restrictions are met in the same reporting period as they are received as unrestricted support. The Organization had no temporarily restricted net assets at September 30, 2016 and 2015.

*Permanently restricted net assets* – result from contributions from donors who place restrictions on the use of donated funds mandating that the original principal remain invested in perpetuity. The Organization had no permanently restricted net assets at September 30, 2016 and 2015.

### **Income taxes**

The Organization and the ACO are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and are not classified as private foundations. FASB ASC 740-10 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Organization is not aware of any such uncertain tax positions. The tax years ending September 30, 2013 through 2016 are still open to audit.

### **Functional expenses**

The costs of providing the various programs and activities have been summarized on a functional basis in the Statement of Activities. Expenses are charged to programs based on direct expenses incurred and certain costs, including salaries and fringe benefits, are allocated to the programs and supporting services based upon related utilization and benefit.

### **Reclassification**

Certain amounts in the 2015 financial statements have been reclassified to conform to the current year presentation.

**Note 2. Cash Concentrations**

The Organization maintains bank account balances which, at times, may exceed federally insured limits. The Organization has not experienced any losses with these accounts, and management believes the Organization is not exposed to significant credit risk on cash as of September 30, 2016 and 2015.

The Organization attempts to manage credit risk relative to cash concentrations by utilizing "sweep" accounts. The Organization maintains ICS Sweep accounts that invest cash balances in other financial institutions at amounts that do not exceed FDIC insurable limits. All cash at these institutions is held in interest-bearing money market accounts. Interest rates on these balances ranged from .10% to .15% as of September 30, 2016.

**Note 3. Donated Services**

For the year ending September 30, 2015, the subsidiary recorded contribution revenue totaling \$9,113 as a result of donated legal services. The contribution revenue was recorded at fair market value.

**Note 4. Operating Leases**

The Organization leases office space in Littleton, NH under a three year operating lease that expires in April 2017. The Organization has the option to renew the lease for two additional years.

Future minimum rental payments under lease commitments are as follows:

Year Ended September 30,

2017	\$	34,218
Thereafter		-
	\$	<u>34,218</u>

Lease expense for the aforementioned leases was \$59,105 and \$60,777 for the years ended September 30, 2016 and 2015, respectively.

**Note 5. Deferred Revenue**

The summary of the components of deferred revenue as of September 30, are as follows:

	2016	2015
Deferred Revenue- IDN	\$ 2,392,816	\$ -
Deferred Revenue- ACO	-	74,810
Deferred Revenue- Other	187,053	212,362
Total	<u>\$ 2,579,869</u>	<u>\$ 287,172</u>

## **Note 5. Deferred Revenue (Continued)**

### **Deferred revenue - IDN**

Under the terms of an agreement between CMS and the State of New Hampshire Department of Health and Human Services, various Integrated Delivery Networks (IDN) are to be established within geographic regions across the state to develop programs to transform New Hampshire's behavioral health delivery system by strengthening community-based mental health and substance use disorder services and programs to combat the opioid crisis. The Organization has been designated to be the administrative lead of one of these IDNs.

In September 2016, the Organization was awarded a five-year grant from the Centers for Medicare and Medicaid Services (CMS), passed through the State of New Hampshire Department of Health and Human Services. At that date, the Organization was advanced \$2,413,256 upon fulfillment of the condition of successful submission and state approval of an IDN Project Plan. Of that amount, \$2,000,000 will be retained by the Organization as administrative fees for five years and the remaining funds will be disbursed to participants. For years two through five, The IDNs will continue to earn performance-based incentive funding by achieving defined targets and any funds received will be passed through to the participants.

### **Deferred revenue - ACO**

Deferred revenue - ACO consists of monies received from Medicare that are applicable to initial funding that are to be used for the purpose of the ACO infrastructure and administration. Revenue is to be recognized as qualified costs are incurred.

## **Note 6. Related Party Transactions**

A majority of the Organization's members and the Organization are also members of a Limited Liability Company. There were no transactions between the Limited Liability Company and the Organization's members in 2016 and 2015.

The Organization contracts various services from other organizations of which members of management of these other organizations may also be board members of North Country Health Consortium, Inc. and Subsidiary. Amounts paid to these organizations were \$121,264 and \$144,561 for the years ended September 30, 2016 and 2015, respectively. Outstanding amounts due to these organizations as of September 30, 2016 and 2015 amounted to \$0 and \$3,200, respectively. Outstanding amounts due from these organizations as of September 30, 2016 and 2015 amounted to \$1,380 and \$5,844, respectively.

## **Note 7. Retirement Plan**

The Organization offers a defined contribution savings and investment plan (the Plan) under section 403(b) of the Internal Revenue Code. The Plan is available to all employees who are 21 years of age or older. There is no service requirement to participate in the Plan. Employee contributions are permitted and are subject to IRS limitations. Monthly employer contributions are \$50 for each part-time employee and \$100 for each full-time employee. Employer contributions for the years ended September 30, 2016 and 2015 were \$16,725 and \$14,570, respectively.

**Note 8. Commitment and Contingencies**

In September 2016, the Organization entered into an agreement with a vendor for the purchase of a server and related hardware for approximately \$40,000. The Organization paid \$20,000 on the contract in September 2016, of which \$19,125 is included in prepaid expenses and \$875 in labor costs, is recorded in property and equipment. The remaining balance on the contract is substantially due upon completion of the project. At that time, the remaining cost of the server and hardware will be transferred to property and equipment and will be depreciated.

The Organization receives a significant portion of its support from various funding sources. Expenditure of these funds requires compliance with terms and conditions specified in the related contracts and agreements. These expenditures are subject to audit by the contracting agencies. Any disallowed expenditures would become a liability of the Organization requiring repayment to the funding sources. Liabilities resulting from these audits, if any, will be recorded in the period in which the liability is ascertained.

**Note 9. Federal Reports**

Additional reports, required by *Government Auditing Standards* and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, including the Schedule of Expenditures of Federal Awards, are included in the supplements to this report.

**Note 10. Subsequent Events**

The Organization has evaluated subsequent events through March 10, 2017, the date the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors of  
North Country Health Consortium, Inc. and Subsidiary  
Littleton, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of North Country Health Consortium, Inc. and Subsidiary (the Organization) (a New Hampshire nonprofit organization), which comprise the consolidated statement of financial position as of September 30, 2016, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated March 10, 2017.

**Internal Control over Financial Reporting**

In planning and performing our audit of the consolidated financial statements, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether North Country Health Consortium, Inc. and Subsidiary's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR  
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Directors of  
North Country Health Consortium, Inc. and Subsidiary  
Littleton, New Hampshire

**Report on Compliance for Each Major Federal Program**

We have audited North Country Health Consortium, Inc. and Subsidiary's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of North Country Health Consortium, Inc. and Subsidiary's major federal programs for the year ended September 30, 2016. North Country Health Consortium, Inc. and Subsidiary's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of North Country Health Consortium, Inc. and Subsidiary's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about North Country Health Consortium, Inc. and Subsidiary's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of North Country Health Consortium, Inc. and Subsidiary's compliance.

***Opinion on Each Major Federal Program***

In our opinion, North Country Health Consortium, Inc. and Subsidiary complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2016.

**Report on Internal Control Over Compliance**

Management of North Country Health Consortium, Inc. and Subsidiary is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
