Amendments to the contracts were approved by Governor and Executive Council on June 29, 2016 (Item #25), except for the contract with Tri-County Community Action, Inc., which was amended and approved on June 15, 2016 (Late Item #A1). An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). An additional amendment to the contracts with Manchester Alcoholism Rehabilitation Center and National Council on Alcoholism and Drug Dependency/Greater Manchester was approved on June 7, 2017 (Item #19A) and additional amendments with the remaining contracts approved on June 21, 2017 (Item #43). The source of funds for these actions is 62% Federal Funds, 16% General Funds, and 22% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2018.

**Please see attached financial details.**

**EXPLANATION**

The table above in the Requested Action (1) represents a total of fifteen Vendors that provide substance use disorder treatment and recovery support services statewide and were presented to Governor and Executive Council as a group in previous actions. This Requested Action (1) is for fourteen of the fifteen Vendors to amend and extend the contracts for an additional six months and increase the price limitation.

Approval of the amendments in Requested Action (1) will allow the Contractors to continue to provide substance use disorder treatment and recovery support services. Additionally, this will allow Greater Nashua Council on Alcoholism, Inc., to continue to operate the New Hampshire statewide 24/7 Addiction Crisis Line. In consideration of slightly less than level funding of the contracts under this amendment, the scope of enhanced services has been reduced.

These contractors were selected through a competitive bid process.

Approval of the new agreement with North Country Health Consortium in Requested Action (2) will allow the Contractor to provide substance use disorder treatment and recovery support services in the North Country. This Agreement is sole source because these services are currently provided

through a contract with Tri-County Community Action Program, Inc.; however, that agency is in the process of transitioning all of their substance misuse services to the North Country Health Consortium effective October 1, 2017. Entering into a sole source contract with the North Country Health Consortium will help streamline the transition of services.

These agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. These amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional six months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The Department released a Request for Proposals for these services leading to contracts that were intended to be in place for October 1, 2017. The RFP was issued on April 3, 2017 and closed on May 15, 2017 with the Department receiving eighteen proposals; however, proposal responses to that request exceeded budget appropriations and, in part, largely fell short of the desired service array. The Department is working towards developing a new RFP that better meets the needs for these services while remaining committed to ensuring the continued availability of substance use disorder treatment services during this process. As a result, the most efficient course of action is to extend the current contracts. The new RFP will be published with a timeline that anticipates awarding new contracts prior to the expiration of these extensions.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, and completing site visits and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising six (6) months of the twenty-one (21) months remaining on the two year renewal.

A scanned copy of these Amendments, including the Governor and Executive Council letters and accompanying documentation from the original agreement and subsequent amendments will be available on-line, once posted to the meeting agenda for the Governor and Executive Council, at <http://sos.nh.gov/GC2.aspx>.

Should the Governor and Executive Council not approve these requests, Substance Use Disorder Treatment and Recovery Support Services may not be available to individuals uninterrupted statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 62% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 16% General Funds, and 22% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.

  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations.       - 2.6.1.2. [DHHSInformationSecurityOffice@dhhs.nh.gov](mailto:DHHSInformationSecurityOffice@dhhs.nh.gov)
- 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.

## INDEPENDENT AUDITORS' REPORT

The Board of Trustees  
Concord Hospital, Inc.

We have audited the accompanying consolidated financial statements of Concord Hospital, Inc. and Subsidiaries (the System), which comprise the consolidated balance sheets as of September 30, 2016 and 2015, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the System as of September 30, 2016 and 2015, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 1. Description of Organization and Summary of Significant Accounting Policies

##### Organization

Concord Hospital, Inc., (the Hospital) located in Concord, New Hampshire, is a not-for-profit acute care hospital. The Hospital provides inpatient, outpatient, emergency care and physician services for residents within its geographic region. Admitting physicians are primarily practitioners in the local area. The Hospital is controlled by Capital Region Health Care Corporation (CRHC).

In 1985, the then Concord Hospital underwent a corporate reorganization in which it was renamed and became CRHC. At the same time, the Hospital was formed as a new entity. All assets and liabilities of the former hospital, now CRHC, with the exception of its endowments and restricted funds, were conveyed to the new Hospital. The endowments were held by CRHC for the benefit of the Hospital, which is the true party in interest. Effective October 1, 1999, CRHC transferred these funds to the Hospital.

In March 2009, Concord Hospital created The Concord Hospital Trust (the Trust), a separately incorporated, not-for-profit organization to serve as the Hospital's philanthropic arm. In establishing the Trust, the Hospital transferred philanthropic permanent and temporarily restricted funds, including board designated funds, endowments, indigent care funds and specific purpose funds, to the newly formed organization together with the stewardship responsibility to direct monies available to support the Hospital's charitable mission and reflect the specific intentions of the donors who made these gifts. Concord Hospital and the Trust constitute the Obligated Group at September 30, 2016 and 2015 to certain debt described in Note 6.

Subsidiaries of the Hospital include:

Capital Region Health Care Development Corporation (CRHCDC) is a not-for-profit real estate corporation that owns and operates medical office buildings and other properties.

Capital Region Health Ventures Corporation (CRHVC) is a not-for-profit corporation that engages in health care delivery partnerships and joint ventures. It operates ambulatory surgery and diagnostic facilities in cooperation with other entities.

CH/DHC, Inc. d/b/a Dartmouth-Hitchcock-Concord (CH/DHC) is a not-for-profit corporation that provides clinical medical services through a multi-specialty group practice. CH/DHC was formed under a joint agreement between the Hospital and DH-Concord. The joint agreement terminated effective September 30, 2015.

The Hospital, its subsidiaries and the Trust are collectively referred to as the System. The consolidated financial statements include the accounts of the Hospital, the Trust, CRHCDC, CRHVC and CH/DHC. All significant intercompany balances and transactions have been eliminated in consolidation.

1. **Description of Organization and Summary of Significant Accounting Policies (Continued)**

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Concentration of Credit Risk*

Financial instruments which subject the Hospital to credit risk consist primarily of cash equivalents, accounts receivable and investments. The risk with respect to cash equivalents is minimized by the Hospital's policy of investing in financial instruments with short-term maturities issued by highly rated financial institutions. The Hospital's accounts receivable are primarily due from third-party payors and amounts are presented net of expected contractual allowances and uncollectible amounts, including estimated uncollectible amounts from uninsured patients. The Hospital's investment portfolio consists of diversified investments, which are subject to market risk. The Hospital's investment in one fund, the Vanguard Institutional Index Fund, exceeded 10% of total Hospital investments as of September 30, 2016. The Hospital's investment in one fund, the State Street S&P 500 CTF, exceeded 10% of total Hospital investments as of September 30, 2015.

*Cash and Cash Equivalents*

Cash and cash equivalents include money market funds and secured repurchase agreements with original maturities of three months or less, excluding assets whose use is limited or restricted.

The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses on such accounts.

*Supplies*

Supplies are carried at the lower of cost, determined on a weighted-average method, or net realizable value.

*Assets Whose Use is Limited or Restricted*

Assets whose use is limited or restricted include assets held by trustees under workers' compensation reserves and self-insurance escrows, designated assets set aside by the Board of Trustees, over which the Board retains control and may, at its discretion, subsequently use for other purposes, and donor-restricted investments.

#### 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

##### Investments and Investment Income

Investments are carried at fair value in the accompanying consolidated balance sheets. Investment income (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues and nonoperating income over expenses unless the income is restricted by donor or law. Gains and losses on investments are computed on a specific identification basis. Unrealized gains and losses on investments are excluded from the excess of revenues and nonoperating income over expenses unless the investments are classified as trading securities or losses are considered other-than-temporary. Periodically, management reviews investments for which the market value has fallen significantly below cost and recognizes impairment losses where they believe the declines are other-than-temporary.

##### Beneficial Interest in Perpetual Trusts

The System has an irrevocable right to receive income earned on certain trust assets established for its benefit. Distributions received by the System are unrestricted. The System's interest in the fair value of the trust assets is included in assets whose use is limited and as permanently restricted net assets. Changes in the fair value of beneficial trust assets are reported as increases or decreases to permanently restricted net assets.

##### Investment Policies

The System's investment policies provide guidance for the prudent and skillful management of invested assets with the objective of preserving capital and maximizing returns. The invested assets include endowment, specific purpose and board designated (unrestricted) funds.

Endowment funds are identified as permanent in nature, intended to provide support for current or future operations and other purposes identified by the donor. These funds are managed with disciplined longer-term investment objectives and strategies designed to accommodate relevant, reasonable, or probable events.

Temporarily restricted funds are temporary in nature, restricted as to time or purpose as identified by the donor or grantor. These funds have various intermediate/long-term time horizons associated with specific identified spending objectives.

Board designated funds have various intermediate/long-term time horizons associated with specific spending objectives as determined by the Board of Trustees.

Management of these assets is designed to increase, with minimum risk, the inflation adjusted principal and income of the endowment funds over the long term. The System targets a diversified asset allocation that places emphasis on achieving its long-term return objectives within prudent risk constraints.

**1. Description of Organization and Summary of Significant Accounting Policies (Continued)**

**Spending Policy for Appropriation of Assets for Expenditure**

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

Spending policies may be adopted by the System, from time to time, to provide a stream of funding for the support of key programs. The spending policies are structured in a manner to ensure that the purchasing power of the assets is maintained while providing the desired level of annual funding to the programs. The System has a current spending policy on various funds currently equivalent to 5% of twelve-quarter moving average of the funds' total market value.

**Accounts Receivable and the Allowance for Doubtful Accounts**

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the System analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for doubtful accounts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for doubtful accounts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the System records a provision for doubtful accounts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The System's allowance for doubtful accounts for self-pay patients represented 70% and 68% of self-pay accounts receivable at September 30, 2016 and 2015, respectively. The total provision for the allowance for doubtful accounts was \$17,251 and \$16,839 for the years ended September 30, 2016 and 2015, respectively. The System also allocates a portion of the allowance and provision for doubtful accounts to charity care, which is not recorded as revenue. The System's self-pay bad debt writeoffs increased \$614, from \$21,518 in 2015 to \$22,132 in 2016. The increase in bad debt writeoffs between 2016 and 2015 was primarily a result of certain shifts in payor mix.

#### 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

##### Property and Equipment

Property and equipment is stated at cost at time of purchase, or at fair value at time of donation for assets contributed, less any reductions in carrying value for impairment and less accumulated depreciation. The System's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the lives of the related assets. Depreciation is computed using the straight-line method in a manner intended to amortize the cost of the related assets over their estimated useful lives. For the years ended September 30, 2016 and 2015, depreciation expense was \$24,535 and \$24,437, respectively.

The System has also capitalized certain costs associated with property and equipment not yet in service. Construction in progress includes amounts incurred related to major construction projects, other renovations, and other capital equipment purchased but not yet placed in service. During 2016, the Hospital entered into various construction contracts totaling approximately \$9,600 for the construction of a new parking garage. Construction began in September 2016 and is expected to be completed in the spring of 2017. There was no interest capitalized during 2016 and 2015.

Gifts of long-lived assets such as land, buildings or equipment are reported as unrestricted support, and are excluded from the excess of revenues and nonoperating income over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

##### Federal Grant Revenue and Expenditures

Revenues and expenses under federal grant programs are recognized as the grant expenditures are incurred.

##### Bond Issuance Costs/Original Issue Discount or Premium

Bond issuance costs incurred to obtain financing for construction and renovation projects and the original issue discount or premium are amortized to interest expense using the straight-line method, which approximates the effective interest method, over the life of the respective bonds. The original issue discount or premium and bond issuance costs are presented as a component of bonds payable.

##### Charity Care

The System provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates (Note 11). Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The System determines the costs associated with providing charity care by calculating a ratio of cost to gross charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. Funds received from gifts and grants to subsidize charity services provided for the years ended September 30, 2016 and 2015 were approximately \$330 and \$473, respectively.

#### 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

##### Temporarily and Permanently Restricted Net Assets

Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported as either net assets released from restrictions for operations (for noncapital related items) or as net assets released from restrictions used for purchases of property and equipment (capital related items). Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

##### Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, per diem payments and fee schedules. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Changes in these estimates are reflected in the financial statements in the year in which they occur. For the years ended September 30, 2016 and 2015, net patient service revenue in the accompanying consolidated statements of operations decreased by approximately \$500 and \$3,106, respectively, due to actual settlements and changes in assumptions underlying estimated future third-party settlements.

Revenues from the Medicare and Medicaid programs accounted for approximately 31% and 6% and 31% and 4% of the Hospital's net patient service revenue for the years ended September 30, 2016 and 2015, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation.

The Hospital recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients, the Hospital provides a discount approximately equal to that of its largest private insurance payors. On the basis of historical experience, a significant portion of the Hospital's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Hospital records a significant provision for doubtful accounts related to uninsured patients in the period the services are provided.

##### Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and intentions to give are reported at fair value at the date the condition is met. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets.

##### Excess of Revenues and Nonoperating Income Over Expenses

The System has deemed all activities as ongoing, major or central to the provision of health care services and, accordingly, they are reported as operating revenue and expenses, except for unrestricted contributions and pledges, the related philanthropy expenses and investment income which are recorded as nonoperating income.

The consolidated statements of operations also include excess of revenues and nonoperating income over expenses. Changes in unrestricted net assets which are excluded from excess of revenues and nonoperating income over expenses, consistent with industry practice, include the change in net unrealized gains and losses on investments other than trading securities or losses considered other than temporary, permanent transfers of assets to and from affiliates for other than goods and services, pension liability adjustments and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

##### Estimated Workers' Compensation and Health Care Claims

The provision for estimated workers' compensation and health care claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

##### Income Taxes

The Hospital, CRHCDC, CRHVC, CH/DHC and the Trust are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code, and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Management evaluated the System's tax positions and concluded the System has maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements.

##### Advertising Costs

The System expenses advertising costs as incurred, and such costs totaled approximately \$200 and \$214 for the years ended September 30, 2016 and 2015, respectively.

#### Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the System expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. ASU 2014-09 is effective for the System on October 1, 2018. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. The System is evaluating the impact that ASU 2014-09 will have on its consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-03, *Interest – Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). ASU 2015-03 simplifies the presentation of debt issuance costs and requires that the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 is effective for the System's fiscal year ending September 30, 2017 with early adoption permitted. The System has elected to implement ASU 2015-03 in its 2016 consolidated financial statements (with retroactive application to 2015) which is allowed under the pronouncement. The adoption of this pronouncement did not materially affect the consolidated financial statements. See Note 6.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* (ASU 2016-02). Under ASU 2016-02, at the commencement of a long-term lease, lessees will recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. ASU 2016-02 is effective for the System on October 1, 2019, with early adoption permitted. Lessees (for capital and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. The System is currently evaluating the impact of the pending adoption of ASU 2016-02 on the System's consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *Presentation of Financial Statements for Not-for-Profit Entities (Topic 958)* (ASU 2016-14). Under ASU 2016-14, the existing three-category classification of net assets (i.e., unrestricted, temporarily restricted and permanently restricted) will be replaced with a simplified model that combines temporarily restricted and permanently restricted into a single category called "net assets with donor restrictions". ASU 2016-14 also enhances certain disclosures regarding board designations, donor restrictions and qualitative information regarding management of liquid resources. In addition to reporting expenses by functional classifications, ASU 2016-14 will also require the financial statements to provide information about expenses by their nature, along with enhanced disclosures about the methods used to allocate costs among program and support functions. ASU 2016-14 is effective for the System's fiscal year ending September 30, 2019, with early adoption permitted. The System is currently evaluating the impact of the pending adoption of ASU 2016-14 on the System's consolidated financial statements.

#### Reclassifications

Certain 2015 amounts have been reclassified to permit comparison with the 2016 consolidated financial statements presentation format.

#### Subsequent Events

Management of the System evaluated events occurring between the end of the System's fiscal year and January 6, 2017, the date the consolidated financial statements were available to be issued.

### 2. Transactions With Affiliates

The System provides funds to CRHC and its affiliates which are used for a variety of purposes. The System records the transfer of funds to CRHC and the other affiliates as either receivables or directly against net assets, depending on the intended use and repayment requirements of the funds. Generally, funds transferred for start-up costs of new ventures or capital related expenditures are recorded as charges against net assets. For the years ended September 30, 2016 and 2015, transfers made to CRHC were \$(129) and \$(77), respectively, and transfers received from Capital Region Health Services Corporation (CRHSC) were \$318 and \$449, respectively.

A brief description of affiliated entities is as follows:

- CRHSC is a for-profit provider of health care services, including an eye surgery center and assisted living facility.
- Concord Regional Visiting Nurse Association, Inc. and Subsidiary (CRVNA) provides home health care services.
- Riverbend, Inc. provides behavioral health services.

Amounts due the System, primarily from joint ventures, totaled \$1,885 and \$2,326 at September 30, 2016 and 2015, respectively. Amounts have been classified as current or long-term depending on the intentions of the parties involved. Beginning in 1999, the Hospital began charging interest on a portion of the receivables (\$851 and \$892 at September 30, 2016 and 2015, respectively) with principal and interest (6.75% at September 30, 2016) payments due monthly. Interest income amounted to \$59 and \$62 for the years ended September 30, 2016 and 2015, respectively.

Contributions to affiliates and other community organizations from temporarily restricted net assets were \$184 and \$140 in 2016 and 2015, respectively.

In evaluating whether investments have suffered an other-than-temporary decline, based on input from outside investment advisors, management evaluated the amount of the decline compared to cost, the length of time and extent to which fair value has been less than cost, the underlying creditworthiness of the issuer, the fair values exhibited during the year, estimated future fair values and the System's intent and ability to hold the security until a recovery in fair value or maturity. Based on evaluations of the underlying issuers' financial condition, current trends and economic conditions, management believes there are no securities that have suffered an other-than-temporary decline in value at September 30, 2016 and 2015.

**4. Defined Benefit Pension Plan**

The System has a noncontributory defined benefit pension plan (the Plan), covering all eligible employees of the System and subsidiaries. The Plan provides benefits based on an employee's years of service, age and the employee's compensation over those years. The System's funding policy is to contribute annually the amount needed to meet or exceed actuarially determined minimum funding requirements of the *Employee Retirement Income Security Act of 1974* (ERISA).

The System accounts for its defined benefit pension plan under ASC 715, *Compensation Retirement Benefits*. This Statement requires entities to recognize an asset or liability for the overfunded or underfunded status of their benefit plans in their financial statements.

The following table summarizes the Plan's funded status at September 30, 2016 and 2015:

	<u>2016</u>	<u>2015</u>

Funded status and amount recognized in noncurrent liabilities at September 30	<u>\$(85,130)</u>	<u>\$(64,835)</u>

Amounts recognized as a change in unrestricted net assets during the years ended September 30, 2016 and 2015 consist of:

	<u>2016</u>	<u>2015</u>
Net actuarial loss	\$30,715	\$39,736

In June 2015, the plan was amended effective January 1, 2016 to change the factors used to convert a cash balance account into a monthly annuity, expand eligibility for the lump payment option and modify eligibility for an annual cash balance pay credit. These changes were reflected within the projected benefit obligation at September 30, 2015. Also in 2015, the System began to use the RP-2015 mortality tables, which in general have longer life expectancies than the older tables used, which had an impact on the projected benefit obligation.

4. **Defined Benefit Pension Plan (Continued)**

The funds-of-funds are invested with twelve investment managers and have various restrictions on redemptions. Five of the managers holding amounts totaling approximately \$38 million at September 30, 2016 allow for monthly redemptions, with notices ranging from 6 to 15 days. Five managers holding amounts totaling approximately \$33 million at September 30, 2016 allow for quarterly redemptions, with notices ranging from 45 to 65 days. One of the managers holding amounts of approximately \$5 million at September 30, 2016 allows for annual redemptions, with a notice of 90 days. One of the managers holding amounts of approximately \$4 million at September 30, 2016 allows for redemptions on a three year rolling basis, with a notice of 60 days. There is also a special redemption provision that allows 10% of the investment to be redeemed annually on March 1, with a notice of 30 days. Certain funds also may include a fee estimated to be equal to the cost the fund incurs in converting investments to cash (ranging from 0.5% to 1.5%) or are subject to certain lock periods.

The System considers various factors in estimating the expected long-term rate of return on plan assets. Among the factors considered include the historical long-term returns on plan assets, the current and expected allocation of plan assets, input from the System's actuaries and investment consultants, and long-term inflation assumptions. The System's expected allocation of plan assets is based on a diversified portfolio consisting of domestic and international equity securities, fixed income securities, and real estate.

The System's investment policy for its pension plan is to balance risk and returns using a diversified portfolio consisting primarily of high quality equity and fixed income securities. To accomplish this goal, plan assets are actively managed by outside investment managers with the objective of optimizing long-term return while maintaining a high standard of portfolio quality and proper diversification. The System monitors the maturities of fixed income securities so that there is sufficient liquidity to meet current benefit payment obligations. The System's Investment Committee provides oversight of the plan investments and the performance of the investment managers.

Amounts included in expense during fiscal 2016 and 2015 consist of:

**4. Defined Benefit Pension Plan (Continued)**

The accumulated benefit obligations for the plan at September 30, 2016 and 2015 were \$259,477 and \$217,825, respectively.

	<u>2016</u>	<u>2015</u>
Weighted average assumptions to determine benefit obligation:		
Discount rate	4.03%	4.78%

Discount rate	4.78%	4.78%
Expected return on plan assets	7.75	8.00
Cash balance credit rate	5.00	5.00
Rate of compensation increase	2.00	2.00

In selecting the long-term rate of return on plan assets, the System considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefits of the plan. This included considering the plan's asset allocation and the expected returns likely to be earned over the life of the plan, as well as the historical returns on the types of assets held and the current economic environment.

The loss and prior service credit amount expected to be recognized in net periodic benefit cost in 2017 are as follows:

Actuarial loss	\$ 8,457
Prior service credit	<u>(276)</u>
	<u>\$ 8,181</u>

The System funds the pension plan and no contributions are made by employees. The System funds the plan annually by making a contribution of at least the minimum amount required by applicable regulations and as recommended by the System's actuary. However, the System may also fund the plan in excess of the minimum required amount.

Cash contributions in subsequent years will depend on a number of factors including performance of plan assets. However, the System expects to fund \$16,000 in cash contributions to the plan for the 2017 plan year.

Benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

<u>Year Ended September 30</u>	<u>Pension Benefits</u>
2017	\$ 11,924
2018	12,703
2019	13,727

**5. Estimated Third-Party Payor Settlements**

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare

Inpatient and outpatient services rendered to Medicare program beneficiaries are primarily paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical diagnosis and other factors. In addition to this, the System is also reimbursed for medical education and other items which require cost settlement and retrospective review by the fiscal intermediary. Accordingly, the System files an annual cost report with the Medicare program after the completion of each fiscal year to report activity applicable to the Medicare program and to determine any final settlements.

The physician practices are reimbursed on a fee screen basis.

Medicaid Enhancement Tax and Disproportionate Share Payment

Under the State of New Hampshire's (the State) tax code, the State imposes a Medicaid Enhancement Tax (MET) equal to 5.45% of net patient service revenues in State fiscal year 2016 and 5.5% of net patient service revenues in State fiscal year 2015, with certain exclusions. The amount of tax incurred by the System for 2016 and 2015 was \$19,679 and \$12,800, respectively.

In the fall of 2010, in order to remain in compliance with stated federal regulations, the State of New Hampshire adopted a new approach related to Medicaid disproportionate share funding (DSH) retroactive to July 1, 2010. Unlike the former funding method, the State's approach led to a payment that was not directly based on, and did not equate to, the level of tax imposed. As a result, the legislation created some level of losses at certain New Hampshire hospitals, while other hospitals realized gains. DSH payments from the State are recorded within unrestricted revenue and other support and amounted to \$7,800 in 2016 and \$3,497 in 2015, net of reserves referenced below.

The Centers for Medicare and Medicaid Services (CMS) has completed audits of the State's program and the disproportionate share payments made by the State in 2011 and 2012, the first years that those payments reflected the amount of uncompensated care provided by New Hampshire hospitals. It is possible that subsequent years will also be audited by CMS. The System has recorded reserves to address its potential exposure based on the audit results to date.

Medicaid

Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under fee schedules and cost reimbursement methodologies subject to various limitations or discounts. The Hospital is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicaid program.

The physician practices are reimbursed on a fee screen basis.

**5. Estimated Third-Party Payor Settlements (Continued)**

*Other*

The System has also entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined rates.

The accrual for estimated third-party payor settlements reflected on the accompanying consolidated balance sheets represents the estimated net amounts to be paid under reimbursement contracts with the Centers for Medicare and Medicaid Services (Medicare), the New Hampshire Department of Welfare (Medicaid) and any commercial payors with settlement provision. Settlements for the Hospital have been finalized through 2013 for Medicare and Medicaid.

**6. Long-Term Debt and Notes Payable (Continued)**

In March 2011, \$49,795 of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2011, were issued to assist in the funding of a significant facility improvement project and pay off the Series 1996 Revenue Bonds. The project included expansion and renovation of various Hospital departments, infrastructure upgrades, and acquisition of capital equipment.

Substantially all the property and equipment relating to the aforementioned construction and renovation projects, as well as subsequent property and equipment additions thereto, and a mortgage lien on the facility, are pledged as collateral for the Series 2011 and 2013A and B Revenue Bonds. In addition, the gross receipts of the Hospital are pledged as collateral for the Series 2011 and 2013A and B Revenue Bonds. The most restrictive financial covenants require a 1.10 to 1.0 ratio of aggregate income available for debt service to total annual debt service and a day's cash on hand ratio of 75 days. The Hospital was in compliance with its debt covenants at September 30, 2016 and 2015.

The obligations of the Hospital under the Series 2013A and B and Series 2011 Revenue Bond Indentures are not guaranteed by any of the subsidiaries or affiliated entities.

Interest paid on long-term debt amounted to \$3,731 and \$3,934 for the years ended September 30, 2016 and 2015, respectively.

The aggregate principal payments on long-term debt for the next five fiscal years ending September 30 and thereafter are as follows:

**7. Commitments and Contingencies**

*Malpractice Loss Contingencies*

Prior to February 1, 2011, the System was insured against malpractice loss contingencies under claims-made insurance policies. A claims-made policy provides specific coverage for claims made during the policy period. The System maintained excess professional and general liability insurance policies to cover claims in excess of liability retention levels. The System has established reserves to cover professional liability exposures for incurred but unpaid or unreported claims. The amounts of the reserves total \$1,911 and \$2,033 at September 30, 2016 and 2015, respectively, and are reflected in the accompanying consolidated balance sheets within accrued pension and other long-term liabilities. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the System.

#### 7. Commitments and Contingencies (Continued)

Effective February 1, 2011, the System insures its medical malpractice risks through a multiprovider captive insurance company under a claims-made insurance policy. Premiums paid are based upon actuarially determined amounts to adequately fund for expected losses. At September 30, 2016, there were no known malpractice claims outstanding for the System which, in the opinion of management, will be settled for amounts in excess of insurance coverage, nor were there any unasserted claims or incidents which required loss accruals. The captive retains and funds up to actuarial expected loss amounts, and obtains reinsurance at various attachment points for individual and aggregate claims in excess of funding in accordance with industry practices. At September 30, 2016, the System's interest in the captive represents approximately 58% of the captive. The System accounts for its investments in the captive under the equity method since control of the captive is shared equally between the participating hospitals. The System has recorded its interest in the captive's equity, totaling approximately \$3,100 and \$427 at September 30, 2016 and 2015, respectively, in other noncurrent assets on the accompanying consolidated balance sheets. Changes in the System's interest are included in nonoperating income on the accompanying consolidated statements of operations.

In accordance with ASU No. 2010-24, "Health Care Entities" (Topic 954): *Presentation of Insurance Claims and Related Insurance Recoveries*, at September 30, 2016 and 2015, the Hospital recorded a liability of approximately \$3,100 and \$7,700, respectively, related to estimated professional liability losses. At September 30, 2016 and 2015, the Hospital also recorded a receivable of \$3,100 and \$7,700, respectively, related to estimated recoveries under insurance coverage for recoveries of the potential losses. These amounts are included in accrued pension and other long-term liabilities and other assets, respectively, on the consolidated balance sheets.

#### Workers' Compensation

The Hospital maintains workers' compensation insurance under a self-insurance plan. The plan offers, among other provisions, certain specific and aggregate stop-loss coverage to protect the Hospital against excessive losses. The Hospital has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses of \$2,447 and \$2,202 at September 30, 2016 and 2015, respectively, have been discounted at 3% (both years) and, in management's opinion, provide an adequate reserve for loss contingencies. A trustee held fund has been established as a reserve under the plan. Assets held in trust totaled \$4,024 and \$3,803 at September 30, 2016 and 2015, respectively, and is included in assets whose use is limited or restricted in the accompanying consolidated balance sheets.

#### Litigation

The System is involved in litigation and regulatory investigations arising in the ordinary course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the System's financial position, results of operations or cash flows.

*Health Insurance*

The System has a self-funded health insurance plan. The plan is administered by an insurance company which assists in determining the current funding requirements of participants under the terms of the plan and the liability for claims and assessments that would be payable at any given point in time. The System recognizes revenue for services provided to employees of the System during the year. The System is insured above a stop-loss amount of \$440 on individual claims. Estimated unpaid claims, and those claims incurred but not reported at September 30, 2016 and 2015, have been recorded as a liability of \$8,174 and \$6,508, respectively, and are reflected in the accompanying consolidated balance sheets within accounts payable and accrued expenses.

**Electronic Health Records Incentive Payments**

The CMS Electronic Health Records (EHR) incentive programs provide a financial incentive for the "meaningful use" of certified EHR technology to achieve health and efficiency goals. To qualify for incentive payments, eligible organizations must successfully demonstrate meaningful use of certified EHR technology through various stages defined by CMS. Revenue totaling \$99 and \$1,258 associated with these meaningful use attestations was recorded as other revenue for the years ended September 30, 2016 and 2015, respectively. In addition, a receivable amount of \$526 was recorded within prepaid expenses and other current assets at September 30, 2015. There were no outstanding receivables at September 30, 2016.

**14. Fair Value Measurements**

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the System uses various methods including market, income and cost approaches. Based on these approaches, the System often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the System is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In determining the appropriate levels, the System performs a detailed analysis of the assets and liabilities. There have been no changes in the methodologies used at September 30, 2016 and 2015. In accordance with ASU 2015-07, certain investments that are measured using the net value per share practical expedient have not been classified in the fair value hierarchy.

The following presents the balances of assets measured at fair value on a recurring basis at September 30:

Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. As such, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated balance sheets and statements of operations.

A reconciliation of the fair value measurements using significant unobservable inputs (Level 3) is as follows for 2016 and 2015:

	<u>Trust Funds Administered by Others</u>
Balance at September 30, 2014	\$ 11,070
Net realized and unrealized losses	<u>(581)</u>
Balance at September 30, 2015	10,489
Net realized and unrealized gains	<u>118</u>
Balance at September 30, 2016	<u>\$10,607</u>

The table below sets forth additional disclosures for investment funds (other than mutual funds) valued based on net asset value to further understand the nature and risk of the investments by category:

Investment Strategies

Fixed Income Securities

The primary purpose of fixed income investments is to provide a highly predictable and dependable source of income, preserve capital, and reduce the volatility of the total portfolio and hedge against the risk of deflation or protracted economic contraction.

Marketable Equity and Other Securities

The primary purpose of marketable equity investments is to provide appreciation of principal and growth of income with the recognition that this requires the assumption of greater market volatility and risk of loss. The total marketable equity portion of the portfolio will be broadly diversified according to economic sector, industry, number of holdings and other characteristics including style and capitalization. The System may employ multiple equity investment managers, each of whom may have distinct investment styles. Accordingly, while each manager's portfolio may not be fully diversified, it is expected that the combined equity portfolio will be broadly diversified.

The System invests in other securities that are considered alternative investments that consist of limited partnership interests in investment funds, which, in turn, invest in diversified portfolios predominantly comprised of equity and fixed income securities, as well as options, futures contracts, and some other less liquid investments. Management has approved procedures pursuant to the methods in which the System values these investments at fair value, which ordinarily will be the amount equal to the pro-rata interest in the net assets of the limited partnership, as such value is supplied by, or on behalf of, each investment from time to time, usually monthly and/or quarterly by the investment manager.

System management is responsible for the fair value measurements of investments reported in the consolidated financial statements. Such amounts are generally determined using audited financial statements of the funds and/or recently settled transactions and is estimated using the net asset value per share of the fund. Because of inherent uncertainty of valuation of certain alternative investments, the estimate of the fund manager or general partner may differ from actual values, and differences could be significant. Management believes that reported fair values of its alternative investments at the balance sheet dates are reasonable.

Inflation-Protected Securities

The primary purpose of inflation-protected securities is to provide protection against the negative effects of inflation.

*Fair Value of Other Financial Instruments*

Other financial instruments consist of accounts and pledges receivable, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt and notes payable. The fair value of all financial instruments other than long-term debt and notes payable approximates their relative book values as these financial instruments have short-term maturities or are recorded at amounts that approximate fair value. The fair value of the System's long-term debt and notes payable is estimated using discounted cash flow analyses, based on the System's current incremental borrowing rates for similar types of borrowing arrangements. The carrying value and fair value of the System's long-term debt and notes payable amounted to \$94,877 and \$112,762, respectively, at September 30, 2016, and \$103,355 and \$121,963, respectively, at September 30, 2015.

The original contracts were approved by Governor and Executive Council on March 23, 2016 (Item #6), except for the contract with Goodwin Community Health, which was approved on June 1, 2016 (Item #12). Amendments to the contracts were approved by Governor and Executive Council on June 29, 2016 (Item #25), except for the contract with Tri-County Community Action, Inc., which was amended and approved on June 15, 2016 (Late Item #A1). An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). The source of funds for these actions are: 69% Federal, 17% General, and 14% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 upon the availability and continued appropriation of funds in the future operating budget.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

Please see Attachment A for fiscal details.

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Kathleen A. Dunn

  - 14.3. The Contractor agrees to the Charitable Choice federal statutory provisions as follows:
    - 14.3.1. Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. 6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

**(5) Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. 1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.

  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process.   - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. FINANCIAL STATEMENTS

June 30, 2016 and 2015

With Independent Auditor's Report

## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Families First of the Greater Seacoast

We have audited the accompanying financial statements of Families First of the Greater Seacoast, which comprise the balance sheets as of June 30, 2016 and 2015, and the related statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Families First of the Greater Seacoast as of June 30, 2016 and 2015, and the results of its operations, changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

# FAMILIES FIRST OF THE GREATER SEACOAST

## Notes to Financial Statements

June 30, 2016 and 2015

### 1. Summary of Significant Accounting Policies

#### Organization

Families First of the Greater Seacoast (Organization) is a non-stock, not-for-profit corporation organized in New Hampshire. The Organization is a Federally Qualified Health Center (FQHC) which provides comprehensive medical and family support services, including primary care, dental, well child care, substance abuse counseling, parenting education, and home visitation programs to residents of the Seacoast region (New Hampshire and Maine).

#### Income Taxes

The Organization is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Organization is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds and exclude amounts whose use is limited by Board designation or donor-imposed restrictions.

#### Allowance for Uncollectible Accounts

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectibility of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts.

## Notes to Financial Statements

June 30, 2016 and 2015

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	<u>2016</u>	<u>2015</u>
Balance, beginning of year	\$ 54,489	\$ 51,984
Provision	63,508	37,705
Write-offs	<u>(55,842)</u>	<u>(35,200)</u>
Balance, end of year	<u>\$ 62,155</u>	<u>\$ 54,489</u>

The increase in provision is primarily due to an increase in patient balances over 120 days old.

### Grants Receivable

Grants receivable are stated at the amount management expects to collect from outstanding balances. All such amounts are considered collectible.

### Investments

The Organization reports investments at fair value, and has elected to report all gains and losses in the excess (deficiency) of revenues over expenses to simplify the presentation of these amounts in the statement of operations. Investments include donor endowment funds and board-designated assets. Accordingly, investments have been classified as non-current assets on the accompanying balance sheet regardless of maturity or liquidity. The Organization has established policies governing long-term investments, which are held within several investment accounts, based on the purposes for those investment accounts and their earnings.

Investment income and the change in fair value are included in the excess of revenue over expenses, unless otherwise stipulated by the donor or State Law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets.

### Investment in Limited Liability Company

The Organization is one of eight partners who have each made a capital contribution of \$500 to Primary Health Care Partners, LLC (PHCP) during 2015. The Organization's investment in PHCP is reported using the equity method and the investment amounted to \$16,204 and \$- at June 30, 2016 and 2015, respectively.

### Assets Limited As To Use

Assets limited as to use include assets designated by the Board of Directors for future use and donor-restricted contributions to be held in perpetuity.

# FAMILIES FIRST OF THE GREATER SEACOAST

## Notes to Financial Statements

June 30, 2016 and 2015

### **Property and Equipment**

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted net assets and excluded from the excess of revenues over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

### **Temporarily and Permanently Restricted Net Assets**

Temporarily restricted net assets include contributions and grants for which donor-imposed restrictions have not been met. Assets are released from restrictions as expenditures are made in line with restrictions called for under the terms of the donor.

Permanently restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity, the income of which is primarily available for operations.

### **Patient Service Revenue**

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

### **Charity Care**

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

### **Donated Goods and Services**

Various program help and support for the daily operations of the Organization's programs were provided by the general public of the communities served by the Organization. Donated supplies and services are recorded at their estimated fair values on the date of receipt. Donated supplies and services amounted to \$294,007 and \$147,044 for the years ended June 30, 2016 and 2015, respectively.

# FAMILIES FIRST OF THE GREATER SEACOAST

## Notes to Financial Statements

June 30, 2016 and 2015

### Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

### Promises to Give

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. Given the short term nature of the pledges, they are not discounted and no reserve for uncollectible pledges has been established. Conditional promises to give are not included as support until the conditions are substantially met.

### Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	<u>2016</u>	<u>2015</u>
Program services	\$ 5,202,419	\$ 4,706,160
Administrative and general	621,430	574,957
Fundraising	<u>156,959</u>	<u>139,268</u>
Total	<u>\$ 5,980,808</u>	<u>\$ 5,420,385</u>

### Excess of Revenue Over Expenses

The statements of operations reflect the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the excess of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

### Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through November 9, 2016, the date that the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

**Fair Value of Financial Instruments**

Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value:

	<b>Investments at Fair Value as of June 30, 2016</b>

### 8. Endowments

#### Interpretation of Relevant Law

There were no board-designated endowments. The Organization's endowments primarily consist of an investment portfolio managed by the Investment Sub-Committee. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund, if any, is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund;
- (2) The purposes of the Organization and the donor-restricted endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation and deflation;
- (5) The expected total return from income and the appreciation of investments;
- (6) Other resources of the Organization; and
- (7) The investment policies of the Organization.

#### Spending Policy

The Organization has a policy of appropriating for expenditure an amount equal to 5% of the endowment fund's average fair market value over the prior 20 quarters. The earnings on the endowment fund are to be used for operations.

#### Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Organization to retain as a fund of perpetual duration. There were no such deficiencies as of June 30, 2016 and 2015.

**FAMILIES FIRST OF THE GREATER SEACOAST**

**Notes to Financial Statements**

**June 30, 2016 and 2015**

**Return Objectives and Risk Parameters**

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed or meet designated benchmarks while incurring a reasonable and prudent level of investment risk.

**Strategies Employed for Achieving Objectives**

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a balanced emphasis on equity-based and income-based investments to achieve its long-term return objectives within prudent risk constraints.

**Endowment Net Asset Composition by Type of Fund**

The endowment net asset composition by type of fund is as follows:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
<b><u>2016</u></b>				
Donor-restricted endowment funds	\$ <u>          </u> -	\$ <u>  176,247</u>	\$ <u> 1,200,687</u>	\$ <u> 1,376,934</u>

**9. Patient Service Revenue**

Patient service revenue follows:

	<u>2016</u>	<u>2015</u>
Medicare	\$ 267,336	\$ 215,538
Medicaid	1,595,264	1,307,387

Total patient service revenue	<u>\$ 2,627,125</u>	<u>\$ 2,152,348</u>

The Organization has agreements with the Centers for Medicare and Medicaid Services (Medicare and New Hampshire and Maine Medicaid). Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Organization believes that it is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

**Medicare**

Effective July 1, 2015, the Organization began to be reimbursed for the care of qualified patients on a prospective basis, with retroactive settlements related to vaccine costs only. The prospective payment is based on a geographically-adjusted rate determined by federal guidelines. Prior to July 1, 2015, the Organization was reimbursed at specified interim contractual rates during the year. Differences between the Medicare interim contractual rate and the cost of care as defined by the Principles of Reimbursement governing the program were determined and settled on a retrospective basis. Overall, reimbursement was and continues to be subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2014.

## Notes to Financial Statements

### Medicaid and Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively-determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per-member, per-month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to approximately \$1,222,000 and \$1,661,100 for the years ended June 30, 2016 and 2015, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

### 10. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that covers substantially all employees. Employer discretionary contributions are funded at a percentage of eligible employees' salaries. The Organization contributed \$94,241 for the year ended June 30, 2016. The Organization did not incur expenses under the plan for the years ended June 30, 2015.

### 11. Concentration of Risk

The Organization grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. The mix of medical patient service revenue receivables from patients and third-party payers was as follows as of June 30:

	<u>2016</u>	<u>2015</u>
Medicare	15 %	11 %
Medicaid	45 %	42 %
Other	<u>40 %</u>	<u>47 %</u>
	<u>100 %</u>	<u>100 %</u>

**Notes to Financial Statements**

**June 30, 2016 and 2015**

**12. Commitments and Contingencies**

**Medical Malpractice Insurance**

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of the year ended June 30, 2016, there were no known malpractice claims outstanding which, in the opinion of management, will be settled for amounts in excess of both FTCA and additional medical malpractice insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

**Leases**

The Organization leases office space and certain other office equipment under noncancelable operating leases. Future minimum lease payments under these leases are as follows:

2017	\$ 159,973
2018	86,659
2019	<u>7,848</u>
Total	<u>\$ 254,480</u>

Rental expense amounted to \$142,017 and \$133,381 for the years ended June 30, 2016 and 2015, respectively. Rent expense includes a charge per square foot for utilities and housekeeping services.

An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). The source of funds for these actions are: 69% Federal, 17% General, and 14% Other Funds.

Funds are available in the following accounts in State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 upon the availability and continued appropriation of funds in the future operating budget.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Kathleen A. Dunn

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
  - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
  - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. **DHHS INFORMATION SECURITY REQUIREMENTS**

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department's Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and or other sensitive and confidential information.
2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:
  - 2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).
  - 2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.
  - 2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.
  - 2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.
  - 2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information
  - 2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department's contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.
    - 2.6.1. "Breach" shall have the same meaning as the term "Breach" in section 164.402 of Title 45, Code of Federal Regulations. "Computer Security Incident" shall have the same meaning "Computer Security Incident" in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce.

Breach notifications will be sent to the following email addresses:

  - 2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure

deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

- 2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.
3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.
4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.

The survey will be completed annually, or an alternate time frame at the Departments discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. ## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Families in Transition, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Families in Transition, Inc. and Subsidiaries (the Organization), which comprise the consolidated statement of financial position as of December 31, 2016 and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

### ***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Organization as of December 31, 2016, and the consolidated changes in their net assets and their consolidated cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

***Report on Summarized Comparative Information***

We have previously audited the Organization's 2015 consolidated financial statements and, in our report dated March 22, 2016, expressed an unmodified opinion on those audited consolidated financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

***Other Matter***

*Supplementary Information*

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information, which consists of the consolidating statement of financial position as of December 31, 2016, and the related consolidating statements of activities and functional expenses for the year then ended, is presented for purposes of additional analysis, rather than to present the financial position and changes in net assets of the individual entities, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

#### **Organization**

Families in Transition, Inc. (FIT or the Organization) is a New Hampshire nonprofit, incorporated on May 13, 1994, to provide housing and comprehensive social services to individuals and families who are homeless or at risk of becoming homeless in certain areas of southern New Hampshire, including Manchester, Concord and Dover.

The Organization directly owns and operates housing programs in facilities located on Amherst Street, Spruce Street, Lake Avenue and Douglas Street in Manchester, New Hampshire. Additional housing facilities are owned and operated by several limited partnerships of which the Organization is the sole general partner. These limited partnerships include Millyard Families II Limited Partnership (Millyard II), located on Market Street in Manchester, New Hampshire; Bicentennial Families Concord Limited Partnership (Bicentennial), located at Bicentennial Square in Concord, New Hampshire; Family Bridge Limited Partnership (Family Bridge), located on Second Street in Manchester, New Hampshire; and Family Willows Limited Partnership (Family Willows), located on South Beech Street in Manchester, New Hampshire (collectively referred to as the Limited Partnerships).

In 2008, the Organization created a Community Development Housing Organization, Housing Benefits, Inc. (Housing Benefits). Housing Benefits identifies and develops new housing units and refurbishes existing units to meet the persistent need of combating homelessness. Completed housing units are located on School & Third Streets, Lowell Street, Belmont Street, Market Street (Millyard Families I), Spruce Street and Hayward Street, in Manchester, New Hampshire as well as an additional housing unit located on Central Avenue in Dover, New Hampshire (Dover).

In 2012, the Organization became the sole member of Manchester Emergency Housing, Inc. (MEH), a New Hampshire nonprofit corporation providing immediate shelter to homeless families in the Manchester, New Hampshire area. MEH is the only family shelter in Manchester, New Hampshire.

The Organization also owns 100% of Family OutFITters, LLC (OutFITters), a limited liability corporation. OutFITters operates independent thrift stores in Concord and Manchester, New Hampshire with the sole purpose of generating an alternate funding stream for the Organization.

The Organization has several wholly-owned corporations which include Brick Mill House Families II, Inc. (Brick Mill), Bicentennial Families Concord, Inc. (Bicentennial Families), Second Street Family Mill, Inc. (Family Mill), and Big Shady Tree, Inc. (Big Shady Tree) (collectively referred to as the General Partners), all of which are New Hampshire corporations. These wholly-owned corporations represent the .01% sole general partners in the Limited Partnerships, whereby Brick Mill is a general partner of Millyard II, Bicentennial Families is a general partner of Bicentennial, Family Mill is a general partner of Family Bridge and Big Shady Tree is a general partner of Family Willows.

In 2012, the Organization became the sole member of The New Hampshire Coalition to End Homelessness, a statewide entity, whose mission is to "eliminate the causes for homelessness through research, education and advocacy". The activity of this entity is not deemed material and has not been included in the consolidated financial statements.

## Notes to Consolidated Financial Statements

December 31, 2016

(With Comparative Totals for December 31, 2015)

### 1. Summary of Significant Accounting Policies

#### Principles of Consolidation

Since the General Partners have control in the Limited Partnerships, in accordance with Financial Accounting Standards Board *Accounting Standards Codification* Topic 810-20-25, *Consolidation*, the financial statements of each of the Limited Partnerships' are required to be consolidated with the Organization's consolidated financial statements. The limited partners' ownership interest is reported in the consolidated statements of financial position as noncontrolling interest.

The consolidated financial statements include the net assets of the Organization, the Limited Partnerships, the General Partners, Housing Benefits, MEH and OutFITters. All significant inter-entity balances and transactions are eliminated in the accompanying consolidated financial statements.

#### Comparative Information

The consolidated financial statements include certain prior year summarized comparative information in total, but not by net asset classification. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Accordingly, such information should be read in conjunction with the Organization's December 31, 2015 consolidated financial statements, from which the summarized information was derived.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(With Comparative Totals for December 31, 2015)

### **Basis of Presentation**

Net assets and revenues, expenses, gains, and losses are classified as follows based on the existence or absence of donor imposed restrictions.

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met by actions of the Organization and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to donor imposed stipulations that they be maintained permanently by the Organization. The donors of these assets permit the Organization to use all or part of the income earned on related contributions for general or specific purposes. The Organization had no permanently restricted net assets as of December 31, 2016 and 2015.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support in the year of the gift.

The Organization reports contributions of land, buildings or equipment as unrestricted support, unless a donor places explicit restriction on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support and reclassified to unrestricted net assets when the assets are acquired and placed in service.

### **Cash and Cash Equivalents**

The Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents. The Organization maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits. Management regularly monitors the financial institutions, together with their respective cash balances, and attempts to maintain the potential risk at a minimum. The Organization has not experienced any losses in such accounts and management believes it is not exposed to any significant risk on these accounts.

Restricted deposits are those deposits of cash and cash equivalents not generally available for operating costs, but restricted to particular uses including operating and replacement reserves for rental properties as well as certain other social services and programs.

### **Notes to Consolidated Financial Statements**

**December 31, 2016**

**(With Comparative Totals for December 31, 2015)**

#### **Property and Equipment**

Property and equipment are recorded at cost or, if donated, at estimated fair market value at the date of donation less accumulated depreciation. The Organization's capitalization policy requires the capitalization of capital expenditures greater than \$1,000, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets, ranging from 5 to 30 years. Assets not in service are not depreciated.

#### **Volunteer Services**

A number of volunteers have donated their time to the Organization's various programs and administrative services. The value of these services has not been included in the accompanying consolidated financial statements since the volunteers' time does not meet criteria for recognition. The estimated value of donated time for the years ended December 31, 2016 and 2015 is approximately \$995,000 and \$870,000, respectively.

#### **Functional Expense Allocation**

The costs of providing various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

#### **Income Taxes**

The Organization is a tax-exempt Section 170(b)(1)(A)(vi) public charity as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes has been reflected in these financial statements.

The standards for accounting for uncertainty in income taxes require the Organization to report any uncertain tax positions and to adjust its financial statements for the impact thereof. As of December 31, 2016 and 2015, the Organization determined that it had no tax positions that did not meet the more-likely-than-not threshold of being sustained by the applicable tax authority. The Organization files an informational return in the United States. This return is generally subject to examination by the federal government for up to three years.

No provision for taxes on income is made in the Limited Partnerships' financial statements since, as a partnership, all taxable income and losses are allocated to the partners for inclusion in their respective tax returns.

#### 3. Development in Process

In December 2015, the Organization completed the construction on its Family Place Resource Center and Shelter through funding received from New Hampshire Housing Finance Authority (NHHFA), Community Development Finance Authority funds and donations. The Organization began providing services to individuals in January 2016 and placed the facility in service. The facility houses an expanded family shelter as well as a comprehensive resource center designed to meet the needs of homeless families and children. The shelter consists of 11 emergency housing units for families in immediate need of shelter. The services provided at the facility include, but are not limited to, centralized assessment and referral, hot meals, access to an onsite food pantry, onsite medical care and therapeutic preschool programming for children. At the time of completion the Organization had invested approximately \$1.8 million in the facility.

In September 2014, a three-family building and land located on Spruce Street in Manchester, New Hampshire was donated to FIT by the City of Manchester. The property was transferred from FIT to Housing Benefits. Housing Benefits rehabilitated the project into rental housing for low-income households. The construction incorporated energy efficiencies to reduce operating costs and help ensure long-term affordability. In July 2016, this facility was placed into service. At the time of completion the Organization had invested approximately \$595,000 in the facility.

**Millyard II**

During 2016, Millyard II reached the end of the initial 15-year low-income housing tax credit compliance period. As a result, Community Capital 2000 (the limited partner) indicated it has decided to withdraw from Millyard II and is expected to do so in the first quarter of 2017. It is management's plan to have Housing Benefits acquire the remaining assets of Millyard II.

**Wilson Street Development**

The Organization is currently in the process of developing the Manchester Treatment and Recovery Center (the Center) on the second and third floors of 267 Wilson Street in Manchester, New Hampshire. Management plans to use the second floor of the building to expand the Organization's Family Willows Intensive Outpatient Treatment Program and to also provide sober and recovery housing. This additional space is anticipated to allow the Organization to double the number of people served with evidence based substance use disorder treatment services. The Organization plans to rehabilitate the third floor of the building to create substance free recovery housing for single women who are in the early stages of recovery. Consistent with recent evidence regarding successful recovery housing programs, women in these units will share living space with other women in the early stages of their recovery, thereby providing peer support and accountability to mitigate chances of relapse. Cost of development of the Center is estimated to range from \$3.6 million to \$4 million and is expected to be funded from the City of Manchester, NHHFA, CDFA funds, other grants and donations and additional long-term borrowings.

An additional amendment to the contract with Families in Transition was approved on September 21, 2016 (Item #5A). #### EXPLANATION

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Katja S. Fox

**REQUESTED ACTION**

Authorize the Department of Health and Human Services, Bureau of Drug and Alcohol Services, to amend an existing agreement with Families in Transition, 122 Market Street, Manchester, NH, 03101 (Vendor #157730 B001) by adjusting amounts within the Service and Fee Table items to meet program needs with no increase to the price limitation of \$357,600 and no change to the contract completion date of June 30, 2017, effective upon Governor and Executive Council approval. The original Contract was approved by Governor and Executive Council on March 23, 2016 (Item #6), and Amended on June 29, 2016 (Late Item #25). 75% Federal, 25% General.

Funds to support this request are available in State Fiscal Year 2017 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified, without approval of the Governor and Executive Council.

**05-95-49-491510-2989 HEALTH AND SOCIAL SERVICES, HEALTH AND HUMAN SVCS DEPT OF, HHS: DIV OF COMM BASED CARE SVC, BUREAU OF DRUG & ALCOHOL SVCS, GOVERNOR COMMISSION FUNDS**

State Fiscal Year	Class/Account	Title	Budget Amount	Increase/Decrease	Revised Modified Budget
2016	102-500734	Contracts for Prog Svc	\$71,520	\$0	\$71,520
2017	102-500734	Contracts for Prog Svc	\$286,080	\$0	\$286,080
<b>Total</b>			<b>\$357,600</b>	<b>\$0</b>	<b>\$357,600</b>

**EXPLANATION**

The purpose of this request is to re-align funding in the vendor's budget to provide additional Enhanced Services. The Vendor has been able to seek reimbursement for substance use disorder treatments services through payer sources, other than from this Agreement, such as Medicaid, New Hampshire Health Protection, or Private Insurance. The Vendor has requested \$150,000 allocated for substance use disorder treatment services listed in the Service and Fee Table be reallocated to offer additional Enhanced Services.

This Amendment allows the Vendor to continue providing Enhanced services such as transportation and child care services to clients receiving treatment so that those clients may attend treatment services as well as address other areas of their treatment plans, such as attending doctors

appointments and other behavioral health services. In addition, this amendment will allow the Vendor to provide motivational enhancement interventions, another type of Enhanced service, to residents of their housing units who are misusing substances, increasing the likelihood of these individuals entering treatment services, many of whom are women who are the primary care-givers for or working towards reunification with their children.

Motivational enhancement intervention services help individuals more accurately perceive problems in their life as they relate to their use of substances. The individuals' inability to accurately assess the problems in their life as they relate to their use, acts as a barrier to treatment and makes the client less likely to access treatment options.

These services fit into the Department's overall strategy for the treatment of substance use disorders by ensuring that various funding streams are utilized in the most efficient way possible to reach as many people with substance use disorders as possible. In addition, by increasing the likelihood that individuals will enter substance use disorders treatment, these services may help reduce collateral costs of substance misuse in areas such as healthcare, criminal justice, and utilization of public support programs.

The Department supports this request because expanding motivational enhancement services to residents of living in low income housing will increase the chances of these individuals entering treatment and achieving recovery; thereby increasing the client's health and well-being and reducing the medical, legal, social, and other costs to the community and state associated with on-going substance misuse.

This Contractor was selected through a competitive bid process.

Should the Governor and Executive Council determine to not authorize this Request, the cost effectiveness of this funding would be reduced and individuals in need of services would not receive these services.

Area served: Statewide.

Source of Funds: 75% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 25% General Funds.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Tri-County Community Action Program, Inc., Berlin	\$368,400
The Youth Council, Nashua	\$103,000
<b>Total</b>	<b>\$11,451,100</b>

Funds to support this request are available in State Fiscal Years 2016 and 2017 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified, without approval of the Governor and Executive Council.

Please see Attachment A for fiscal details.

#### **EXPLANATION**

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Goodwin Community Health and Subsidiary

### **Report on Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of Goodwin Community Health and Subsidiary (the Organization), which comprise the consolidated balance sheets as of June 30, 2016 and 2015, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Goodwin Community Health and Subsidiary as of June 30, 2016 and 2015, and the results of their operations, changes in their net assets and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

***Other Matter***

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2016 on our consideration of Goodwin Community Health and Subsidiary's internal control over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Goodwin Community Health and Subsidiary's internal control over financial reporting and compliance.

## Notes to Consolidated Financial Statements

June 30, 2016 and 2015

### Organization

Goodwin Community Health (GCH) is a non-stock, not-for-profit corporation organized in New Hampshire. GCH is a Federally Qualified Health Center (FQHC) which provides prenatal care, social support, and public health services to low-income persons.

### Subsidiary

Great Bay Mental Health Associates, Inc. (GBMHA), a wholly-owned, for-profit subsidiary, is engaged in providing mental health services in the Strafford County, New Hampshire community through its employees and independent contractors who are qualified and licensed to practice in the State of New Hampshire.

## 1. Summary of Significant Accounting Policies

### Principles of Consolidation

The consolidated financial statements include the accounts of GCH and its subsidiary, GBMHA (collectively, the Organization). All significant intercompany balances and transactions have been eliminated in consolidation.

### Discontinued Operations

On December 31, 2015, the Organization sold GBMHA's name and phone numbers, furniture and equipment, and medical and business supplies to Wentworth-Douglass Physician Corporation, a New Hampshire not-for-profit corporation, for \$164,738. The Organization maintained GBMHA's cash and cash equivalents, insurance claims, federal tax identification number, tax refunds, accounts receivable, goodwill, and the business books and records.

The Organization's consolidated financial statements reflect GBMHA's assets, revenues, gain, losses and expenses and cash flows as discontinued operations as of and for the years ended June 30, 2016 and 2015.

### Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Notes to Consolidated Financial Statements

June 30, 2016 and 2015

### Income Taxes

GCH is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, GCH is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. GBMHA is a non-exempt organization and files applicable Form 1120 (corporate return). No provision for income taxes was necessary for the years ended June 30, 2016 and 2015.

Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the consolidated financial statements. The Organization is subject to U.S. federal and state examinations by tax authorities for the years ended June 30, 2012 through June 30, 2016.

### Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds.

### Allowance for Uncollectible Accounts

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts during 2016 or 2015.

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	<u>2016</u>	<u>2015</u>
Balance, beginning of year	\$ 81,378	\$ 88,420
Provision	331,787	255,044
Write-offs	<u>(284,170)</u>	<u>(262,086)</u>
Balance, end of year	<u>\$ 128,995</u>	<u>\$ 81,378</u>

The increase in the allowance is primarily due to an increase in the amount due from patients with commercial insurance as a result of increased deductibles and co-pays.

### Grants Receivable

Grants receivable are stated at the amount management expects to collect from outstanding balances. All such amounts are considered collectible.

### Notes to Consolidated Financial Statements

June 30, 2016 and 2015

#### Inventory

Inventory consisting of pharmaceutical drugs is valued using the retail method and is measured at the lower of cost or market.

#### Investments

Investments consist of certificates of deposit with a maturity in excess of one year.

#### Investment in Limited Liability Company

The Organization is one of eight partners who have each made a capital contribution of \$500 to Primary Health Care Partners, LLC (PHCP) during 2015. The Organization's investment in PHCP is reported using the equity method and the investment amounted to \$16,203 at June 30, 2016.

#### Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted net assets and excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

#### Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

#### Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

## Notes to Consolidated Financial Statements

June 30, 2016 and 2015

### 340B Drug Pricing Program

The Organization, as an FQHC, is eligible to participate in the 340B Drug Pricing Program. The program requires drug manufacturers to provide outpatient drugs to FQHC's and other identified entities at a reduced price. The Organization operates a pharmacy and also contracts with local pharmacies under this program. The local pharmacies dispense drugs to eligible patients of the Organization and bill Medicare and commercial insurances on behalf of the Organization. Reimbursement received by the contracted pharmacies is remitted to the Organization, less dispensing and administrative fees. Gross revenue generated from the program is included in patient service revenue. Contracted expenses and drug costs incurred related to the program are included in other operating expenses. Expenses related to the operation of the Organization's pharmacy are categorized in the applicable operating expense classifications.

### Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying consolidated financial statements.

### Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	<u>2016</u>	<u>2015</u>
Program services	\$ 7,042,192	\$ 6,377,552
Administrative and general	1,301,950	1,160,709
Fundraising	<u>259,101</u>	<u>180,836</u>
Total	<u>\$ 8,603,243</u>	<u>\$ 7,719,097</u>

### Excess of Revenue Over Expenses

The consolidated statements of operations reflect the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the excess of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

### Subsequent Events

For purposes of the preparation of these consolidated financial statements, management has considered transactions or events occurring through December 13, 2016, the date that the consolidated financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the consolidated financial statements.

Property and equipment, net	<u>\$ 6,063,645</u>	<u>\$ 6,147,683</u>

The Organization's facility was built and renovated with federal grant funding under the ARRA - Capital Improvement Program and ACA - Capital Development Program. In accordance with the grant agreements, a Notice of Federal Interest (NFI) was required to be filed in the appropriate official records of the jurisdiction in which the property is located. The NFI is designed to notify any prospective buyer or creditor that the Federal Government has a financial interest in the real property acquired under the aforementioned grant; that the property may not be used for any purpose inconsistent with that authorized by the grant program statute and applicable regulations; that the property may not be mortgaged or otherwise used as collateral without the written permission of the Associate Administrator of the Office of Federal Assistance Management, Health Resources and Services Administration (OFAM, HRSA); and that the property may not be sold or transferred to another party without the written permission of the Associate Administrator of OFAM and HRSA.

Upon obtaining the mortgage included in Note 4 below on the Organization's facility, the Organization received the required written permission from OFAM and HRSA where by HRSA subordinated its Federal Interest in the property to the bank.

The Organization has agreements with the Centers for Medicare & Medicaid Services (Medicare) and New Hampshire Medicaid. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Management believes that the Organization is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

## GOODWIN COMMUNITY HEALTH AND SUBSIDIARY

### Notes to Consolidated Financial Statements

June 30, 2016 and 2015

#### Medicare

Effective July 1, 2015, the Organization began to be reimbursed for the care of qualified patients on a prospective basis, with retroactive settlements related to vaccine costs only. The prospective payment is based on a geographically adjusted rate determined by federal guidelines. Prior to July 1, 2015, the Organization was reimbursed at specified interim contractual rates during the year. Differences between the Medicare interim contractual rate and the cost of care as defined by the Principles of Reimbursement governing the program were determined and settled on a retrospective basis. Overall, reimbursement was and continues to be subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2015.

#### Medicaid and Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively-determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per-member, per-month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to approximately \$485,000 and \$486,000 for the years ended June 30, 2016 and 2015, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

#### **6. Retirement Plan**

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that covers substantially all employees. In 2011, the Organization temporarily suspended the employer match. During 2016, the match was reinstated and contributions amounted to \$22,668.

#### **7. WIC Food Vouchers**

The Organization acts as a conduit for the State of New Hampshire's Special Supplemental Food Program for Women, Infants and Children (WIC). This program is funded by the U.S. Department of Agriculture (Code of Federal Domestic Assistance #10.565). The value of food vouchers distributed by the Organization was \$1,463,583 and \$1,570,536 for the years ended June 30, 2016 and 2015, respectively. These amounts are not included in the accompanying consolidated financial statements as they are not part of the contract the Organization has with the State of New Hampshire for the WIC program.

## GOODWIN COMMUNITY HEALTH AND SUBSIDIARY

### Notes to Consolidated Financial Statements

June 30, 2016 and 2015

#### 8. Concentration of Risk

The Organization has cash deposits in major financial institutions which exceed federal depository insurance limits. The financial institutions have a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Organization grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. At June 30, 2016 and 2015, New Hampshire Medicaid represented 29% and 31%, respectively, and Medicare represented 18% and 9%, respectively, of gross accounts receivable. No other individual payer source exceeded 10% of the gross accounts receivable balance.

#### 9. Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of June 30, 2016, there were no known malpractice claims outstanding which, in the opinion of management, will be settled for amounts in excess of both FTCA and insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

**GOODWIN COMMUNITY HEALTH AND SUBSIDIARY**  
**Notes to Schedule of Expenditures of Federal Awards**  
**Year Ended June 30, 2016**

**1. Basis of Presentation**

The schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Goodwin Community Health and Subsidiary. The information in this schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Organization, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Goodwin Community Health and Subsidiary.

**2. Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available. Goodwin Community Health and Subsidiary has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Goodwin Community Health and Subsidiary

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Goodwin Community Health and Subsidiary (the Organization), which comprise the balance sheet as of June 30, 2016, and the related statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 13, 2016.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the consolidated financial statements, we considered the Organization's internal control over financial reporting (internal control) to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's consolidated financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors  
Goodwin Community Health and Subsidiary

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Organization's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL  
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Directors  
Goodwin Community Health and Subsidiary

**Report on Compliance for the Major Federal Program**

We have audited Goodwin Community Health and Subsidiary's (the Organization) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on its major federal program for the year ended June 30, 2016. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for the Organization's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Organization's compliance.

***Opinion on the Major Federal Program***

In our opinion, Goodwin Community Health and Subsidiary complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2016.

## Report on Internal Control Over Compliance

Management of the Organization is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the Organization's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Please see attached financial details.**

**EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

### **EXPLANATION**

This Agreement represents the last of fifteen (15) agreements with a combined price limitation of \$11,940,600. On March 23, 2016 (Item #6), Governor and Executive Council approved 14 Agreements with a combined price limitation of \$11,451,100.

This Agreement will allow Contractor to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

This Agreement is part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 431 as of March 28, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of this Vendor by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request, the Contractor would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders, the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted

Director

Exhibit B

---

16.3.1. Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. ## INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners  
County of Grafton, New Hampshire

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the County of Grafton, New Hampshire, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the County of Grafton, New Hampshire's basic financial statements as listed in the Table of Contents.

### **Management's Responsibility for the Financial Statements**

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the County of Grafton, New Hampshire, as of June 30, 2016, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, Schedule of OPEB Funding Progress, the Schedule of Proportionate Share of the Net Pension Liability, and the Schedule of Pension Contributions to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures

do not provide us with evidence sufficient to express an opinion or provide any assurance.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 21, 2016 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Grafton, New Hampshire (the County), we offer readers this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2016.

### **A. OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation and sick leave).

The governmental activities include general government, public safety, corrections, county farm, human services, cooperative extension, economic development and nursing home.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available

at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The governmental fund financial statements provide separate information for the General Fund, which is considered to be a major fund.

An annual appropriated budget is adopted for the General Fund. A budgetary comparison statement has been provided in order to demonstrate compliance with this budget.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

**Notes to financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.

Net position - end of year	<u>\$ (7,832,196)</u>	<u>\$ (6,699,079)</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net position was \$(7,832,196), a change of \$(1,133,117) from the prior year.

The largest portion of net position, \$18,886,289, reflects our investment in capital assets (e.g., land, land improvements, buildings and improvements, and equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the

investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net position, \$116,352, represents resources that are subject to external restrictions on how they may be used.

**Governmental activities.** Governmental activities for the year resulted in a change in net position of \$(1,133,117). Key elements of this change are as follows:

<u>Operating Results:</u>	
General fund	\$ (1,473,828)
Nonmajor governmental funds	<u>(145,104)</u>
Subtotal operating results	(1,618,932)

Change in deferred outflows of resources	(89,969)
Change in deferred inflows of resources	<u>1,462,162</u>
Total	<u>\$ (1,133,117)</u>

#### **D. FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

As noted earlier, fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources.

Such information is useful in assessing financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$3,290,741, a change of \$(1,618,932) in comparison to the prior year. Key elements of this change are as follows:

General fund expenditures in excess of revenues and other financing sources	\$ (1,473,828)
Nonmajor governmental funds expenditures in excess of revenues	<u>(145,104)</u>
Total	<u>\$ (1,618,932)</u>

The General Fund is the chief operating fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$999,047, while total fund balance was \$3,174,389. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total budgeted expenditures. Refer to the table below.

<u>General Fund</u>	<u>6/30/16</u>	<u>6/30/15</u>	<u>Change</u>	<u>Percentage of Total Budgeted Expenditures</u>
Unassigned fund balance	\$ 999,047	\$ 302,565	\$ 696,482	2.5%
Total fund balance	\$ 3,174,389	\$ 4,648,217	\$ (1,473,828)	8.0%

The total fund balance of all funds changed by \$(1,618,932) during the current fiscal year. Key factors in this change are as follows:

Revenues in excess of budget	\$ 644,015
Expenditures less than appropriations	1,515,337
Use of fund balance - reduce taxes	(3,000,000)
Use of fund balance - prior year reserves	(242,970)
Nonmajor governmental funds operating results	(145,104)
Use of reserve funds	<u>(390,210)</u>
Total all funds	<u>\$ (1,618,932)</u>

Included in the General Fund are the County's Delegation voted reserve funds with the following balances:

	<u>6/30/16</u>	<u>6/30/15</u>	<u>Change</u>
Nursing Home Reserve	\$ 236,026	\$ 327,518	\$ (91,492)
Deeds Surcharge Reserve	157,395	145,417	11,978
Dispatch Capital Reserve	<u>115,908</u>	<u>84,542</u>	<u>31,366</u>
Total	<u>\$ 509,329</u>	<u>\$ 557,477</u>	<u>\$ (48,148)</u>

## **E. BUDGETARY HIGHLIGHTS**

Differences between the original budget and the final amended budget resulted in an overall change in appropriations of \$242,970. This change relates to a use of prior year reserves (fund balance) for various purposes.

## **F. CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital assets.** Total investment in capital assets for governmental activities at year-end amounted to \$49,806,828 (net of accumulated depreciation), a change of \$(1,004,700) from the prior year. This investment in capital assets includes land, land improvements, buildings and improvements, and equipment and vehicles.

Additional information on capital assets can be found in the notes to financial statements.

**Long-term debt.** At the end of the current fiscal year, total bonded debt outstanding was \$30,885,000, all of which was backed by the full faith and credit of the County.

Additional information on long-term debt can be found in the notes to financial statements.

## Notes to Financial Statements

### 1. Summary of Significant Accounting Policies

The accounting policies of the County of Grafton, New Hampshire (the County) conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies:

#### A. Reporting Entity

The County is a municipal corporation governed by an elected Board of Commissioners. As required by generally accepted accounting principles, these financial statements present the County and applicable component units for which the County is considered to be financially accountable. In fiscal year 2016, it was determined that no entities met the required GASB 14 (as amended) criteria of component units.

#### B. Government-wide and Fund Financial Statements

##### Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

##### Fund Financial Statements

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Generally, all other revenue items are considered to be measurable and available only when cash is received by the County. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County reports the following major governmental fund:

- ☐ The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the government, except those required to be accounted for in another fund.

*Agency Funds* are used to account for funds held by the County on behalf of others (e.g., inmate funds and patient funds).

D. Cash and Short-Term Investments

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash balances are invested to the extent available, and interest earnings are recognized in the general fund. Certain special revenue and fiduciary funds segregate cash, and investment earnings become a part of those funds.

Deposits with financial institutions consist primarily of demand deposits, certificates of deposits, and savings accounts. A cash and investment pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and short-term investments". The interest earnings attributable to each fund type are included under investment income.

*E. Inventory*

Inventory is valued at cost using the first-in/first-out (FIFO) method.

*F. Capital Assets*

Capital assets, which include land, land improvements, buildings and improvements, and equipment and vehicles, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$500 for assets acquired for use in the Nursing Home, and \$5,000 for all other assets, and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	8 - 50
Buildings and improvements	8 - 50
Equipment and vehicles	3 - 20

*G. Compensated Absences*

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vested sick and vacation pay is accrued when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### H. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position.

#### I. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund Balance - Generally, fund balance represents the difference between current assets and current liabilities. The County reserves those portions of fund balance that are legally segregated for a specific future use or which do not represent available, spendable resources and, therefore, are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

The County's fund balance classification policies and procedures are as follows:

- 1) Nonspendable funds are either unspendable in the current form (i.e., inventory) or can never be spent.
- 2) Restricted funds are used solely for the purpose in which the fund was established. In the case of special revenue funds, these funds are created by statute or otherwise have external constraints on how the funds can be expended.
- 3) Committed funds are reported and expended as a result of motions passed by the highest decision making authority in the County (i.e., the County Delegation).
- 4) Assigned funds are used for specific purposes as established by management. These funds, which include encumbrances, have been assigned for specific goods and services ordered but not yet paid for. This account also includes fund balance voted to be used in the subsequent fiscal year.
- 5) Unassigned funds are available to be spent in future periods.

When an expenditure is incurred that would qualify for payment from multiple fund balance types, the County uses the following order to liquidate liabilities: restricted, committed, assigned, and unassigned.

Net Position - Net position represents the difference between assets/deferred outflows and liabilities/deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation,

reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining net position is reported as unrestricted.

*J. Fund Balance Policy*

There is no rule or law in New Hampshire that governs the level of fund balance for counties. However, by looking at other guidelines that exist and by comparing the County to other counties in the state and in other states, the County arrived at a policy that fits the County's needs and standards:

- 1) The NH Department of Revenue Administration recommends that municipalities maintain a fund balance that represents between 5% and 10% of its total annual appropriations, including municipal, school, and county obligations.
  
- 2) The Government Finance Officer Association recommends as a best practice that "general-purpose governments, regardless of size, maintain unrestricted fund balance in their general fund of no less than two months of regular general fund operating revenues or regular general fund operating expenditures. Furthermore, a government's particular situation often may require a level of unrestricted fund balance in the general fund significantly in excess of this recommended minimum level. In any case, such measures should be applied within the context of long-term forecasting, thereby avoiding the risk of placing too much emphasis upon the level of unrestricted fund balance in the general fund at any one time". Two months of operating revenues for operations funded by the General Fund for the County is approximately \$6 million, which is about 15% of the budgeted appropriations.

Through this fund balance policy, the County will endeavor to achieve and maintain an undesignated fund balance that is between 7% and 14% of its annual budgeted appropriations, which represents one to two months of operations.

*K. Use of Estimates*

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and

expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

## 2. **Stewardship, Compliance, and Accountability**

### A. Budgetary Information

The County follows the following procedures for establishing the budgetary data reflected in the basic financial statements:

- ☐ Prior to May 1st, the County departments submit to the County Commissioners a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- ☐ Hearings are conducted by the County Commissioners prior to the County's budget meeting to discuss the proposed budget.
- ☐ The budget is legally enacted by the County Delegation prior to September 1st.
- ☐ Appropriations for certain projects and specific items not fully expended at the fiscal year-end are carried forward as continued appropriations to the new fiscal year in which they supplement the appropriations of that year.
- ☐ The budgets for all departments and operations of the County are prepared under the direction of the County Commissioners. Original appropriations are acted upon by the County Delegation vote.
- ☐ A copy of the budget is published in the Annual Report of the County of Grafton, New Hampshire.

### B. Budgetary Basis

The final appropriation appearing on the "Budget and Actual" page of the fund financial statements represents the final amended budget after all reserve fund and line item transfers.

### C. Budget/GAAP Reconciliation

The budgetary data for the general fund is based upon accounting principles that differ from generally accepted accounting principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations are presented in accordance with budgetary accounting principles to provide a meaningful comparison to budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

<u>General Fund</u>	<u>Revenues and Other Financing Sources</u>	<u>Expenditures and Other Financing Uses</u>

Budgetary Basis	<u>\$ 37,994,002</u>	<u>\$ 39,077,620</u>

### 3. Cash and Short-Term Investments

*Custodial Credit Risk - Deposits.* Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. RSA 29:1 limits "deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus." The County does not have a deposit policy for custodial credit risk.

As of June 30, 2016, \$1,087,980 of the County's bank balance was exposed to custodial credit risk as uninsured or uncollateralized.

### 4. Restricted Cash

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. Within the General Fund, the restricted cash amount of \$522,252 is composed of amounts from the Nursing Home Capital Reserve, the Registry of Deeds Surcharge Fund, the Dispatch Capital Reserve, and the Pandemic Fund.

### 5. Allowance for Doubtful Accounts and Contractual Allowances

The allowance for doubtful accounts for Nursing Home receivables has been estimated at approximately \$94,000 at June 30, 2016. Nursing Home receivables are also reported net of contractual allowances.

## 6. Capital Assets

### 14. Restricted Net Position

The accompanying entity-wide financial statements report restricted net position when external constraints from grantors or contributors are placed on net position.

**15. Post-Employment Healthcare Insurance Benefits**

GASB Statement 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Position over time.

*A. Plan Description*

The County provides post-employment healthcare benefits for certain eligible retirees.

*B. Benefits Provided*

The County provides medical benefits to its eligible retirees. The benefits are provided through HealthTrust.

*C. Funding Policy*

The County pays 100% of the retiree's medical benefits. Eligible retirees of the County also receive a subsidy from the New Hampshire State Retirement System that is used to offset OPEB.

The County does not contribute towards the cost of retiree spouses' medical coverage. Spouses desiring to remain covered under the County plan pay 100%.

The spouse is required to pay 100% of the cost of benefits following the death of the retired employee.

*D. Annual OPEB Costs and Net OPEB Obligation*

The County's fiscal year 2016 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of thirty years. The following table shows the components of the County's annual OPEB cost for the year ending June 30, 2016, the amount actually contributed to the plan, and the change in the County's net OPEB obligation based on an actuarial valuation as of July 1, 2014.

Annual Required Contribution (ARC)	\$ 1,723,010
Interest on net OPEB obligation	313,658
Adjustment to ARC	<u>(444,666)</u>
Annual OPEB cost	1,592,002
Contributions made	<u>(370,734)</u>
Increase in net OPEB obligation	1,221,268
Net OPEB obligation - beginning of year	<u>7,841,459</u>
Net OPEB obligation - end of year	<u>\$ 9,062,727</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2016	\$ 1,592,002	23%	\$ 9,062,727
2015	\$ 1,496,680	24%	\$ 7,841,459
2014	\$ 1,605,856	24%	\$ 6,708,188
2013	\$ 1,508,956	25%	\$ 5,484,369
2012	\$ 1,524,307	21%	\$ 4,348,433
2011	\$ 1,482,995	18%	\$ 3,136,699
2010	\$ 1,199,261	20%	\$ 1,925,406

*E. Funded Status and Funding Progress*

The funded status of the plan as of July 1, 2014, the date of the most recent actuarial valuation, was as follows:

Actuarial accrued liability (AAL)	\$ 14,141,964
Actuarial value of plan assets	<u>-</u>
Unfunded actuarial accrued liability (UAAL)	<u>\$ 14,141,964</u>
Funded ratio (actuarial value of plan assets/AAL)	<u>0%</u>
Covered payroll (active plan members)	<u>\$ 12,540,379</u>
UAAL as a percentage of covered payroll	<u>113%</u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amount and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future

employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The Schedule of OPEB Funding Progress, presented as required supplementary information following the Notes to Financial Statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

*F. Actuarial Methods and Assumptions*

Projections of benefits for financial reporting purposes are based on the plan as understood by the County and the plan members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the County and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit cost method was used. The actuarial value of assets was not determined, as the County has not advanced funded its obligation. The actuarial assumptions included a 4.0% investment rate of return and an initial annual healthcare cost trend rate of 9%, which decreases to a 5% long-term rate for all healthcare benefits after five years. The amortization costs for the initial UAAL is a level percentage of payroll for a period of 30 years, on a closed basis.

**16. New Hampshire Retirement System**

The County follows the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, with respect to the State of New Hampshire Retirement System (NHRS).

*A. Plan Description*

Full-time employees participate in the State of New Hampshire Retirement System, a cost-sharing multiple-employer defined benefit contributory pension plan and trust established in 1967 by RSA 100-A:2 and qualified as a tax-exempt organization under Section 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death, and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters,

and permanent police officers within the State of New Hampshire are eligible and required to participate in the system. Full-time employees of political subdivisions, including counties, municipalities, and school districts are also eligible to participate as a group if the governing body of the political subdivision has elected participation.

The New Hampshire Retirement System, a Public Employees Retirement System (PERS), is divided into two membership groups. State or local employees and teachers belong to Group I. Police officers and firefighters belong to Group II. All assets are held in a single trust and are available to each group. Additional information is disclosed in the NHRS' annual report publicly available from the New Hampshire Retirement System located at 54 Regional Drive, Concord, New Hampshire 03301-8507.

***B. Benefits Provided***

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is  $1/60$  or 1.667% of average final compensation (AFC), multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at  $1/66$  or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have a nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the benefit commencement date precedes the month after which the member attains 52.5 years of age by  $1/4$  of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earned compensation and/or service.

C. Contributions

Plan members are required to contribute a percentage of their gross earnings to the pension plan, for which the contribution rates are 7% for employees and 11.55% for sheriff's deputies and correctional officers. The County makes annual contributions to the pension plan equal to the amount required by Revised Statutes Annotated 100-A:16, and range from 11.17% to 29.16% of covered compensation. The County's contribution to NHRS for the year ended June 30, 2016 was \$1,810,593, which was equal to its annual required contribution.

D. Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the NHRS and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

E. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the County reported a liability of \$20,211,810 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2014, the County's proportion was .50926609 percent.

At June 30, 2015, the County's proportion was .51020249 percent, which was an increase of .00093640% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the County recognized pension expense of \$1,386,614. In addition, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 443,528
Net difference between projected and actual earnings on pension plan investments	-	540,185
Changes in proportion and differences between contributions and proportionate share of contributions	296,850	-
Contributions subsequent to the measurement date (fiscal year 2016)	<u>1,810,593</u>	<u>-</u>
Total	<u>\$ 2,107,443</u>	<u>\$ 983,713</u>

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30:</u>	
2016	\$ (1,502,144)
2018	308,449
2019	308,449
2020	(275,366)
2021	<u>36,882</u>
Total	<u>\$ (1,123,730)</u>

Actuarial assumptions: The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent per year
Salary increases	3.75 - 5.8 percent average, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 mortality table, projected to 2020 with Scale AA. The table includes a margin of 15% for men and 17% for woman for mortality improvements.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2005 - June 30, 2010.

The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation Percentage	Weighted Average Average Long-Term Expected Real Rate of Return
Large Cap Equities	22.50 %	3.00%
Small/Mid Cap Equities	7.50	3.00%
Total domestic equities	30.00	
Int'l Equities (unhedged)	13.00	4.00%
Emerging Int'l Equities	7.00	6.00%
Total international equities	20.00	
Core Bonds	4.50	-0.70%
Short Duration	2.50	-1.00%
Global Multi-Sector Fixed Income	11.00	0.28%
Unconstrained Fixed Income	7.00	0.16%
Total fixed income	25.00	
Private equity	5.00	5.50%
Private debt	5.00	4.50%
Real estate	10.00	3.50%
Opportunistic	5.00	2.75%
Total alternative investments	25.00	
Total	100.00 %	

Discount Rate: The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined

contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the pension plan's actuarial funding policy and as required by RSA 100-A:16. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate: The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.75%) or one percentage-point higher (8.75%) than the current rate:

<u>Fiscal Year Ended</u>	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
June 30, 2015	\$ 26,606,221	\$ 20,211,810	\$ 14,760,537

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued NHRS financial report.

**17. Risk Management**

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

**18. Commitments and Contingencies**

Outstanding Legal Issues - There are several pending legal issues in which the County is involved. The County's management is of the opinion that the potential future settlement of such claims would not materially affect its financial statements taken as a whole.

Grants - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

**Please see attached financial details.**

#### **EXPLANATION**

The tables provided in the three Requested Actions represent a total of fifteen contracts with fifteen vendors that provide substance use disorder treatment and recovery support services statewide. These Requested Actions, if approved, amend and extend thirteen of the fifteen contracts for an additional three month period. Similar amendments, for the contracts with the Manchester Alcoholism Rehabilitation Center and the National Council on Alcoholism and Drug Dependency/Greater Manchester, have been approved by Governor and Executive Council on June 7, 2017 (Item # 19A).

In Requested Action (2), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services. The current agreement anticipated a different level of service utilization than what was actually experienced. The agreement includes a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor has provided services within its existing contract price limitation; the adjustments requested retroactive to April 1, 2017 will support reallocation within the services that were actually delivered and in the quantity delivered.

In Requested Action (3), approval to **retroactively** amend the contract is requested to ensure the vendor is appropriately compensated for the services it delivered to individuals who sought and received substance use disorder treatment and recovery support services, and for the expenses incurred by the vendor to facilitate the Safe Station operation in Nashua. The current agreement anticipated a different level of service utilization than what was actually experienced. Due to the success of the Safe Station operation, more individuals experiencing a Substance Use Disorder sought and received crisis services and entered treatment. As noted above, these agreements include a fee-for-service structure in which several services include limits that were projected based on anticipated utilization. This vendor provided critical services to individuals but the unanticipated high utilization levels depleted funding levels for some services beginning in December 2016. Additionally, the scope of services associated with facilitating the Safe Station program requires that additional provisions be incorporated into the agreement. It is for this reason that **sole source** has been identified as part of the Requested Action.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2015, New Hampshire experienced 439 deaths from drug overdoses; in 2016 that number rose to 478. The amendments, if approved, will allow the Contractors to continue to provide substance use disorder treatment and recovery support services for an additional three months, by exercising a renewal option that was included in the original contracts approved by Governor and Executive Council on March 23, 2016. The statewide experience in providing these critically needed services since contract inception demonstrates the complexities of anticipating and delivering services needed at the local level while facing the opioid epidemic and incorporating the many service options involved in treatment and recovery. This experience has informed the future direction of providing substance use disorder treatment and recovery services and as a result, the Department issued a new Request for Proposals for these services on April 3, 2017. The Department intends to issue new contracts resulting from this new procurement prior to the expiration of these extensions.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the vendors by reviewing monthly reports, such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

These Amendments include language that provides, notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2017, and the Department shall not be liable for any payments for services provided after June 30, 2017, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2018-2019 biennium.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval. The Department is exercising three months of the two year renewal.

Should the Governor and Executive Council not approve this request, Substance Use Disorder Treatment and Recovery Support Services would not be available to individuals statewide. The inability to access these services will negatively impact an individual's ability to achieve and/or maintain recovery from substance use disorders.

Area served: Statewide.

Source of Funds: 69% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035, and 17% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Funds to support this request are available in State Fiscal Years 2016 and 2017 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified, without approval of the Governor and Executive Council.

**Please see attached financial details.**

**EXPLANATION**

The attached amendments represent the final fourteen (14) of a total of fifteen (15) amendments with a total combined price limitation of \$12,032,600. On June 15, 2016 (Late Item #A1), Governor and Executive Council approved an amendment with Tri-County Community Action Program, Inc. to allow the Contractor to be reimbursed for services at increased rates, to modify the personnel supervision, and to provide planning activities for new construction or renovations for residential substance use disorder treatment services.

The current substance use disorders treatment workforce in New Hampshire is inadequate to meet the needs of individuals, families and communities across the state. Many factors contribute to this workforce shortage; two factors are low compensation and an insufficient pool of qualified supervisors.

Approval of these fourteen (14) Amendments will allow the Contractors to be reimbursed for services at increased rates and modify the personnel supervision requirements. The higher rates will increase the compensation for direct service staff providing substance use disorder treatment and recovery support services to clients. In addition, these Amendments allow the Contractor's qualified supervisors to provide clinical supervision to a larger number of clinicians to better leverage the available pool of qualified supervisors.

Approval of South Eastern New Hampshire Services' Amendment will allow the Contractor to expand the array of substance use disorder treatment services available in the greater Dover area. The Contractor will add partial hospitalization services, transitional living services, and withdrawal management to their scope of services. Historically, this array has been somewhat limited; however, changes within the organization have led to a request to expand the available service array to include services that are critically needed in the area.

The Department is not seeking an increase to the price limitations to these Agreements because the Contractors have been billing other public and private insurance sources as more and more New Hampshire citizens have health insurance that covers these services. The Contractors' seek reimbursement from the Department for only those services that are not covered by any public or private insurance. Not increasing the price limitation allows the Department to utilize available funding for other types of services such as substance misuse prevention, early intervention and recovery support services. The Department will monitor the utilization and spending of the Contractors. If needed, the Department will submit future amendments to increase the Agreements' price limitations to ensure services are available to citizens of New Hampshire.

These amendments are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 326 drug overdose

deaths in New Hampshire, in 2015 there were 431. This number is expected to increase as cases are still pending analysis.

These contractors were selected through a competitive bid process.

The Department will monitor the performance of the Vendors by reviewing monthly reports such as the number of clients admitted to and discharged from the substance use disorder treatment programs and post-discharge follow up, quarterly usage of the number of clients and services being provided by the Contractors, completing site visits, and reviewing client records. In addition, the Department is piloting a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request; the additional critical components in the Department's workforce development to provide substance use disorder services would not be addressed, which could result in exacerbating workforce attrition and shortages.

Area served: Statewide.

Source of Funds: 64.50% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-15, and 21.5% General Funds, and 14% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox  
Director

### EXPLANATION

The attached agreements represent fourteen (14) of a total fifteen (15) agreements with a combined price limitation of \$11,451,100 of a total \$11,940,600 that will allow the Contractors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. (See attached Summary of Contracted Services by Vendor). Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluations based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. The final contract will be presented to the Governor and Executive Council at an upcoming meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. In 2014 there were 325 drug overdose deaths in New Hampshire with the death toll for 2015 at 385 as of January 8, 2016; however, the 2015 statistics are expected to increase as cases are still pending analysis.

The Department published a Request for Proposals for Substance Use Disorder Treatment and Recovery Support Services (RFP #16-DHHS-DCBCS-BDAS-03) on the Department of Health and Humans Services website November 3, 2015 to December 15, 2015. The Department received fifteen proposals. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected all the Vendors to provide these services (See attached Summary Score Sheet).

Some of the Vendors' proposals scored lower than anticipated; however, it was determined that losing substance use disorder treatment and recovery support services in the midst of an Opioid Crisis would be detrimental to the individuals, families, and communities of New Hampshire. In order to ensure effective delivery of services, the Department has strengthened language in the Vendors' contracts.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist, to ensure clients have faster access to services by maintaining and monitoring a waitlist on an agency and statewide level, to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis, and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors by monitoring monthly reports, quarterly utilization, completing site visits, and reviewing client records. In addition, the Department is developing a Quality Monitoring and Improvement Plan to manage the performance of these contracts.

The attached Contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

The Contract for Greater Nashua Council on Alcoholism, Inc. includes language in Exhibit B, Paragraph 8.4 that allows the Department to amend the contract by adjusting amounts between budget line items for statewide Crisis Services, within the price limitation, upon written agreement of both parties without Governor and Executive Council approval, if needed and justified.

The Contract for National Council on Alcoholism and Drug Dependency/Greater Manchester includes language in Exhibit A, Section 25, for the use of the Tirrell House, a State owned building, for residential substance use disorder treatment services for up to 14 individuals. The Contract includes up to \$286,000 for repairs/replacement of the fire alarm system, fire suppression system, upgrade the kitchen, and other miscellaneous repairs as required by the joint inspection of the State of New Hampshire Fire Marshall, City of Manchester, and the Department's Health Facilities Administration.

Should the Governor and Executive Council determine to not authorize this Request, the Contractors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment services could result in the loss of Federal Block Grant funds made available for these services.

Area served: Statewide.

Source of Funds: 56.1% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 29.4% General Funds and 14.5% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Kathleen A. Dunn

Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

#### **14. INSURANCE.**

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

- 1.1. The Contractor will submit a detailed description of the language assistance services they will provide to persons with limited English proficiency to ensure meaningful access to their programs and/or services within ten (10) days of the contract effective date.
- 1.2. **2. Definitions**

- 2.1. Adolescents: Adolescents are individuals under the age of 18.
- 2.2. American Society of Addiction Medicine (ASAM): ASAM is a professional society representing over 3,500 physicians, clinicians and associated professionals in the field of addiction medicine. ASAM is dedicated to increasing access and improving the quality of addiction treatment, educating physicians and the public, supporting research and prevention, and promoting the appropriate role of physicians in the care of patients with addiction. More information can be found at: <http://www.asam.org/>
- 2.3. American Society of Addiction Medicine Criteria: ASAM's criteria, formerly known as the ASAM patient placement criteria, is the result of a collaboration that began in the 1980s to define one national set of criteria for providing outcome-orientated and results-based care in the treatment of addiction. Today the criteria have become the most widely used and comprehensive set of guidelines for placement, continued stay and transfer/discharge of patients with addiction and co-occurring conditions. ASAM's criteria are required in over 30 states. More information can be found at: <http://www.asam.org/publications/the-asam-criteria>
- 2.4. Charitable Choice: Charitable Choice is Public Law 102-321, 102d Congress and amended in 1992 and again in 2000 (Children's Health Services Act). 4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

**PRIMARY COVERED TRANSACTIONS**

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
  - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
  - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (11)(b) of this certification; and
  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

**LOWER TIER COVERED TRANSACTIONS**

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
  - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
  - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

**(5) Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I.
