JEFF BRILLHART, P.E.
ACTING COMMISSIONER

Bureau of Construction
February 22, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Continental Paving, Inc. (Vendor 155350) of Londonderry, NH on the basis of a low bid of \$3,715,817.50 for 7.4 miles of pavement resurfacing on US Route 3 in Whitefield and Lancaster, from the date of Governor and Council approval through July 15, 2016 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows for FY 2015 and is contingent upon the availability and continued appropriation of FY 2016 funds.

Table with 3 columns: Description, FY 2015, FY 2016. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments \$1,715,817.50 \$2,000,000.00

2. Further authorize that a contingency in the amount of \$185,790.88 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Table with 2 columns: Description, FY 2015. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments \$185,790.88

EXPLANATION

This project is part of the annual Federal Resurfacing Program. The work involves a spot, 2 inch inlay along approximately one mile in the worst condition with a full width leveling course and 1" overlay over the entire length. The work also involves replacement of approximately 25 culverts of various size and depths, guardrail rehabilitation, and installation of Road Weather Information Stations (RWIS) at Weeks State Park. The pavement is in fair condition exhibiting thermal and longitudinal cracking and rutting. The drainage culverts, mostly metal, are in very poor condition. Drainage structures of similar vintage and condition have experienced problems and failures on other roadways in the region. The

purpose of this project is to preserve and extend the life of the existing pavement, replace deteriorating drainage structures, and rehabilitate guardrail to meet current safety standards.

The contingency amount is proposed to be 5% of the contract amount. This is a two season contract, with fixed limits, being constructed during a time frame of fluctuating fuel prices. The drainage work and culvert replacements also have some inherent uncertainty. Adjusting limits to offset quantity overruns is not practical and potential fuel and asphalt adjustments need to be considered.

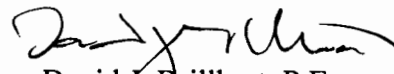

Although the bid costs exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved. In analyzing the bids, the majority of the exceedance is associated with the drainage work. It is attributed to the spread out, site specific nature of the individual culvert installations, some of which are fairly deep. The costs are comparable to other roadways in the region that have dealt with similar repairs. The work is necessary and readvertising this project would not result, in our opinion, in lower prices, and would prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and that the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

David J. Brillhart, P.E.
Acting Commissioner

DJB/md

Department Estimate: \$3,112,935.00
Contract Amount: \$3,715,817.50
Over Estimate: \$ 602,882.50

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is part of the Federal Resurfacing program and involves 7.4 miles of pavement resurfacing on US Route 3 in Whitefield and Lancaster. Work begins on US Route 3 at a pavement joint located approximately 350' north of Prospect Street in Whitefield, and continues north to a pavement joint just north of the US Route 3 intersection with Mary Elizabeth Lane in Lancaster.

Pavement work involves approximately one mile of 2" spot inlay, followed by a full-width leveling course to fill in wheel ruts, and a 1" wearing course overlay. Additional work involves drainage improvements, shoulder widening at Regional Road, and guardrail rehabilitation. The work also includes the installation of an Intelligent Transportation System (ITS), Road and Weather Information Station (RWIS) across from the Weeks State Park access road.

FEDERAL FUNDING: 80% (Federal Resurfacing) with anticipated utilization of Turnpike Toll Credits for the State's 20% match.

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This is a two season contract, with fixed limits, being constructed during a time of fluctuating fuel prices. Adjusting limits to offset quantity overruns is not practical, and potential fuel and asphalt adjustments need to be considered.

PROJECT INITIATED: This project was initiated through the Federal Resurfacing Program.

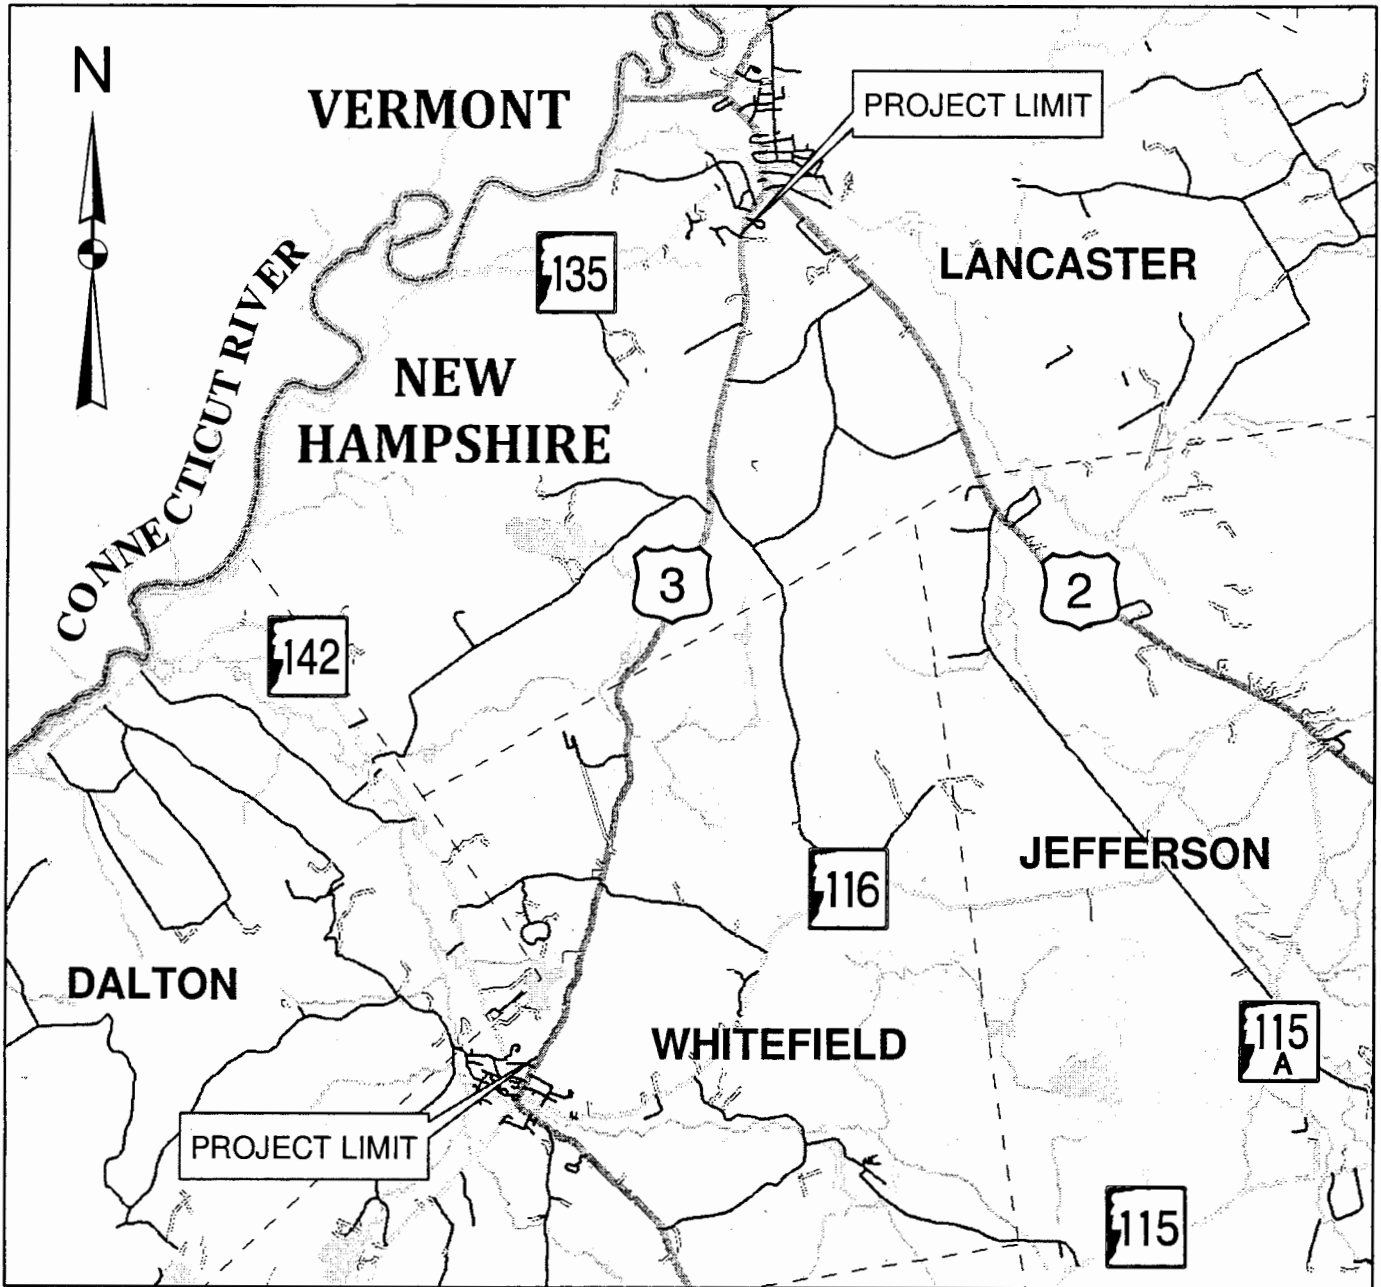

PROJECT EXPLANATION: Based on a 2013 report, the pavement is in fair condition exhibiting thermal and longitudinal cracking and rutting. The purpose of this project is to preserve and extend the life of the existing pavement, replace deteriorating drainage structures, and rehabilitate guardrail to meet current safety standards.

This section of US 3 was constructed in 3 segments. The Whitefield segment between Prospect Street and the Lancaster town line was reconstructed in 1973 with 12" sand, 12" gravel, and 1½" HBP and received a 1" overlay in 1975. The second segment from the Whitefield/Lancaster Town line to Weeks State Park was reconstructed in 1975 with 16" gravel, 8" crushed gravel, and 2½" of HBP and included a NB truck climbing lane. The last segment from Weeks State Park to Mary Elizabeth Lane was reconstructed in 1992 with 18" sand, 6" gravel, 10½" crushed gravel, and 4" of HBP and included a SB truck climbing lane. A 2005 project added a 1 ½" overlay from Prospect Street to Stebbins Hill Road and a 1 ½" inlay from Stebbins Hill to Mary Elizabeth Lane. In 2009, the entire project length was crack sealed.

TRAFFIC IMPLICATION: Construction activities will require temporary lane closures and short term use of one lane, alternating two-way traffic supplemented with flaggers. During non-construction hours traffic will be returned to two-way traffic. Four deep culvert replacements will require temporary widenings and one lane, alternating two-way traffic with the use of temporary signals for a period of time, up to 10 days at each location. This is a NETC route, therefore the available roadway width will not be reduced to less than a 16' minimum clear lane width through any lane closure area, and will be accompanied by an advisory speed reduction.

FINAL COMPLETION DATE: July 15, 2016.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
2/19/2015

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
