Three (3) X-Lite guardrail end units will be replaced. The Contractor will be responsible for striping. All impacted towns and utilities will be notified.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer’s estimate in accordance with State procedures. Copies of the fully executed contract are on file at the Secretary of State’s Office and the Department of Administrative Service’s Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

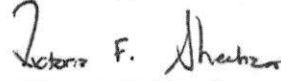

This project funding is: 8.41% General Funds and 91.59% Other Funds (59.91% Betterment and 31.68% SB367).

FEDERAL FUNDING: 0% (59.92% BETTERMENT, 31.68% SB-367, 8.41% HB2)

CONTINGENCY: There is no contingency proposed for this project.

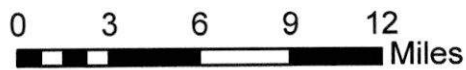

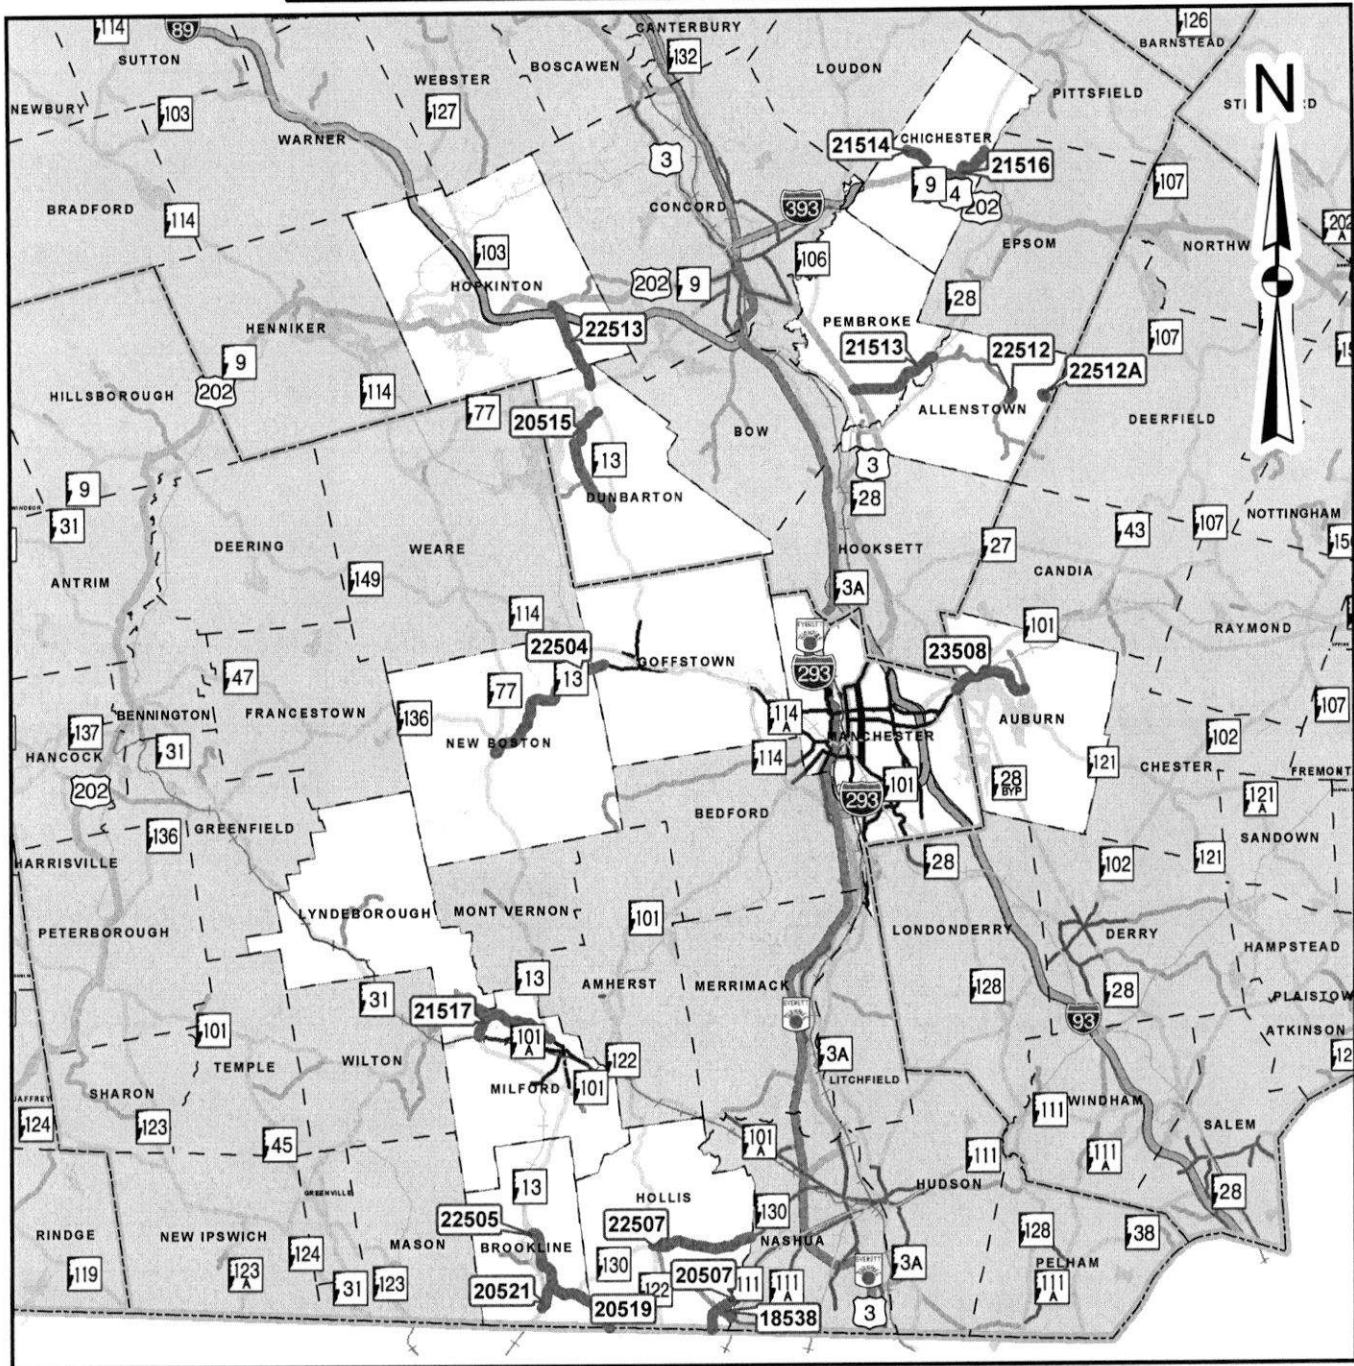

PROJECT INITIATED: The project is part of the calendar year 2022 state funded Tier 2, 3, and 4 resurfacing program (Pave-T2-Resurf & Pave-T3/4-Resurf). The Pavement Management Section reviewed the road segments included in this project and identified fourteen (14) sections for Light Capital Paving totaling 36.3 miles and two (2) sections identified as Roughness totaling 0.5 miles.

PROJECT EXPLANATION: This project will extend the quality life of the pavement, improve guardrail, curb ramps, and drainage; and delay costlier improvements. The sections will be resurfaced via paver shim overlay, full width high strength inlay, and winter binder overlay. Twenty-Four (24) sidewalk curb ramps will be upgraded to comply with ADA guidelines. Three (3) X-Lite guardrail end units will be replaced. The Contractor will be responsible for striping. All impacted towns and utilities will be notified.

TRAFFIC IMPLICATION: Only one section will be paved at a time. One-lane, alternating two-way traffic will be required in order to complete the work. Unless otherwise noted in segment specific requirements, lane closure lengths will be limited to one mile with a two-mile separation required between work zones. Traffic will be restored to normal patterns during non-work hours. Night work will be required on Section 20507 – Hollis, NH 111. Section 22512 – Allenstown, Podunk Road will be closed during paving operations. Work zone significance was determined to be non-significant at the December 17, 2020 TCC Meeting.
