

The State of New Hampshire
DEPARTMENT OF ENVIRONMENTAL SERVICES

Thomas S. Burack, Commissioner

October 20, 2014

Her Excellency, Governor Margaret Wood Hassan
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to award a **SOLE SOURCE** grant to the Blue Ocean Society for Marine Conservation, Inc. (VC #159192), Portsmouth, NH, in the amount of \$25,000.00 to conduct marine debris cleanups, monitoring and education in the NH seacoast, effective upon approval of Governor and Council through December 31, 2015. 100% Federal Funds.

Funding is available in the account as follows:

	<u>FY15</u>
03-44-44-442010-3642-072-500575	\$25,000.00
Dept. Environmental Services, Coastal Zone Management, Grants – Federal	

EXPLANATION

This agreement is **SOLE SOURCE** because the nonprofit Blue Ocean Society for Marine Conservation, Inc. (Blue Ocean) is the only organization in New Hampshire that conducts regular beach cleanups, coordinates the adopt-a-beach program that annually expands the number of clean-up sites, provides marine debris education and public information, and tracks marine debris data for submission to the UNH marine debris database. In addition, Blue Ocean has coordinated the annual International Coastal Cleanup in New Hampshire for the past ten years. These funds were specifically targeted for marine debris cleanup and data collection in the New Hampshire Coastal Program's (NHCP) annual work program to fulfill the NHCP's role under the National Marine Debris Monitoring Program (NMDMP), and to broaden the NHCP's marine debris expertise and outreach to communities throughout the coastal region. Annual grants to Blue Ocean to conduct beach cleanups and collect marine debris data have been part of the overall NOAA approved program and annual work plans for the past ten years.

The purpose of this project is to increase the marine debris collection and monitoring efforts currently being conducted by the NHCP in conjunction with the NMDMP, to include more areas as clean-up sites and increase public awareness of marine conservation issues through improved education and public information efforts. Blue Ocean will recruit and train new volunteers, conduct

monthly cleanups at public beaches, involve local community residents in cleanup events and identify new cleanup sites for the Adopt-a-Beach Program as well as collect, record and analyze data on the type and amount of debris collected. Additionally, Blue Ocean will organize and host a workshop for area educators and naturalists in order to increase awareness of local issues, data and resources. Blue Ocean will also partner with Dr. Gabriella Bradt at NH Sea Grant/UNH Cooperative Extension to study and conduct outreach around microplastics, a pollutant that has not been explored much in New Hampshire to date. Lastly, the project includes funding for Blue Ocean to plan, coordinate and conduct the 2015 International Coastal Cleanup events in New Hampshire.

As noted in Exhibit C the requirements of Paragraph 17.1.2 Insurance and Bond have been reduced from \$2,000,000 to \$1,000,000 in general liability for any one incident. This reduction of liability coverage is due to the hardship that the increased cost would pose for this small nonprofit organization. The reduced insurance coverage is sufficient for the work being undertaken by Blue Ocean under this contractual agreement.

Total project costs are budgeted at \$109,065.00. DES will provide \$25,000.00 of the project costs through a federal grant. Blue Ocean will provide \$84,065.00 in matching funds.

In the event that Federal Funds become no longer available, General Funds will not be requested to support the project.

This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

Thomas S. Burack, Commissioner

1. Recruit and train new volunteers, conduct monthly cleanups at public beaches, involve local community residents in cleanup events and identify new cleanup sites for the Adopt-a-Beach Program.

The samples will be processed, and microplastic pieces will be isolated, categorized, quantified and statistically analyzed to determine the concentration of microplastics at NH beaches. Blue Ocean will work with Dr. Bradt to create and distribute outreach and education materials, such as brochures, blog and website posts and newsletter articles.
6. Outreach: All outreach materials intended for public distribution, including flyers, newsletters, websites, etc., shall include the NOAA, NHCP, and NHDES logos. In addition, a funding credit using the following language shall appear on all products intended for public distribution. “This project was funded in part by a federal grant from NOAA’s Office of Ocean and Coastal Resource Management under the Coastal Zone Management Act in conjunction with the NH Department of Environmental Services Coastal Program.”
