EXPLANATION

This request is **Sole Source** because the vendor is the only vendor able to provide the necessary services. The WICShopper mobile application is proprietary to JPMA, Inc.. Additionally, JPMA makes the WICShopper mobile application available to a consortium of states, including New Hampshire. As previously stated, the original contract was approved by Governor and Council on July 11, 2018, Item #10. It was then subsequently amended with Governor and Council approval on September 18, 2019, Item #22.

The purpose of this request is for JPMA, Inc. continue providing a mobile shopping and nutrition education application to WIC participants. This mobile application is free to WIC participants and can be downloaded on Android and iOS platforms. The WIC program has the ability to customize the NH-approved food list; clinic locations; recipes; nutrition lessons; and available food benefits.

Approximately 12,000 individuals will be served monthly from July 1, 2020 to June 30, 2022.

The vendor will be providing the WICShopper application platform, maintenance and support. The mobile application allows participants to go shopping; receive WIC nutrition education; access healthy recipes; and engage in participant surveys. While at the grocery store, participants can use the mobile application to navigate aisles and find the WIC-approved foods by utilizing the application's scanning capabilities. The mobile application indicates if specific food items are available in the participant's approved package quantities, so the participant can make a list of the foods on the application before going to the store.

The Department will monitor contracted services using the following performance measures:

- Increase access to innovative tools that simplify and make the WIC shopping experience more customer friendly.
- Increase redemption rates of WIC authorized foods among participants.
- Increase retention rates of child participants ages 1- 5 years old..

As referenced in Exhibit C-1 of the original contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the two (2) years available.

Should the Governor and Council not authorize this request, participants enrolled in the WIC Program may not have access their food benefit balance using the WIC Shopper application on their mobile device. Additionally, participants may not receive nutrition education on-line, which is helpful to families when planning meals.

Area served: Statewide

Source of Funds: 100% Federal Funds from United States Department of Agriculture, Cdfa #10.557/FAIN # 194NH703W1003.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

LS Lori A. Shibinette
Commissioner

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, to amend an existing sole source agreement with JPMA, Inc., Vendor # 290447-B001, 3970 Youngfield Street, Wheat Ridge, CO 80033, to enhance services of the free mobile application, known as WICShopper, by increasing the price limitation by \$18,000 from \$43,200 to \$61,200, with no change to the completion date of June 30, 2020, effective upon Governor and Executive Council approval. 100% Federal Funds

This agreement was originally approved by the Governor and Executive Council on July 11, 2018 Item #10.

Funds to support this request are anticipated to be available in the following accounts for State Fiscal Year 2020 upon the availability and continued appropriation of funds in the future operating budget, with authority to adjust amounts within the price limitation and adjust encumbrances between state fiscal years through the Budget Office, if needed and justified.

EXPLANATION

This request is **sole source** because the WICShopper mobile application is owned by JPMA, Inc. and any enhancements made to the application are proprietary and can only be completed by JPMA, Inc. Additionally, JPMA is used by a consortium of states including NH.

The purpose of this request is to enhance the services provided by the mobile application, WIC Shopper, which is a service offered to NH Special Supplemental Nutrition Program for Women, Infants and Children Program (WIC) families. This change order allows the Contractor to receive food benefit balances from New Hampshire's management information system provider, CQuest Inc. Funding is provided through the United States Department of Agriculture (USDA). The enhancement allows WIC participants to retrieve their food balance.

Approximately 12,000 individuals are served monthly by the NH WIC Program and have free access to this mobile application that provides services such as finding WIC clinics, scanning NH WIC approved foods and retrieving available WIC food benefits for the month. During the month of July, the mobile application was used 4,578 times, and more than 7,300 products were scanned to determine if foods were authorized.

The NH WIC Program provides healthy foods each month to more than 12,000 low income pregnant, post-partum, and breastfeeding women as well as preschool children under the age of 5. The approved foods are specifically chosen by Registered Dietitians at the NH WIC Program to provide the utmost nutrition to our most vulnerable population. The WIC shopping experience can be difficult and overwhelming for new and existing participants. A recent survey of NH WIC participants showed that only half of participants are routinely able to find and buy all their WIC foods at the grocery store. Unpleasant experiences in the grocery store can lead participants to not redeem their WIC food benefits, and thus not receive the full nutrition benefit of their food package for optimal health. It also leads to low-income and eligible participants leaving the NH WIC Program (more than a third find shopping for WIC foods to be difficult, and would like an easy way to identify which foods are NH WIC approved).

This mobile application is free to NH WIC participants and has the ability to be downloaded on Android and iOS platforms. The element that makes it useful and helpful to NH WIC participants is the ability for the NH WIC Program to customize the NH approved food list, clinic locations, recipes, nutrition lessons and available food benefits.

The Department will monitor the effectiveness of the Contractor and the delivery of services required under this agreement using the following performance measures:

- Increase access to innovative tools that simplify and make the WIC shopping experience more customer friendly.
- Increase redemption rates of WIC authorized foods among participants.
- Increase retention rates of one (1) year old child participants during a time of food package changes.

Should the Governor and Executive Council not authorize this request participants enrolled on the WIC Program may not be able to access their food benefit balance using the WIC Shopper application on their mobile devices.

Area served: Statewide

Source of Funds: 100% Federal Funds from United States Department of Agriculture

In the event that the Federal (or Other) Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

This request is sole source because the WIC Mobile Application is proprietary to the vendor.

Funds in this agreement will be used by the vendor to provide a mobile shopping and nutrition education application to NH WIC participants. The NH WIC Program provides healthy foods each month to more than 12,000 low income pregnant, post-partum, and breastfeeding women as well as preschool children under the age of 5. The approved foods are specifically chosen by Registered Dietitians at the NH WIC Program to provide the utmost nutrition to our most vulnerable population. The WIC shopping experience can be difficult and overwhelming for new and existing participants. A recent survey of NH WIC participants showed that only half of participants are routinely able to find and buy all their WIC foods at the grocery store. Unpleasant experiences in the grocery store can lead participants to not redeeming their WIC food benefits, and thus not receiving the full nutrition benefit of their food package for optimal health. It also leads to low-income and eligible participants leaving the NH WIC Program, while more than a third find shopping for WIC foods to be difficult, and would like an easy way to indicate which foods is NH WIC approved.

As NH WIC Program prepares to implement electronic benefits delivery (EBT) for NH WIC Program Participants, having a discreet and online application for checking foods and available benefits on a participants phone will remove some of the social stigma associated with receiving public benefits. This mobile application is free to NH WIC participants and able to be downloaded on Android and iOS platforms. The element that makes it useful and helpful to NH WIC participants is the ability for the NH WIC Program to customize the NH approved food list, clinic locations, recipes, nutrition lessons and available food benefits.

This mobile application is already being utilized by more than thirty (30) other WIC Programs in the United States, including our neighboring states of Massachusetts, Vermont, and Connecticut. The WIC participant feedback has been overwhelmingly positive. Removing barriers that contribute to the uncomfortable shopping experience and social stigma of receiving WIC will be partially accomplished through this mobile application. Additional barriers will be removed with the roll-out of EBT for WIC in the fall of 2018.

As referenced in the Exhibit C-1 of this contract, this Agreement has the option to extend for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Council.

The following performance measures/objectives will be used to measure the effectiveness of the agreement:

- To simplify the shopping experience for NH WIC participants.
- To provide NH WIC participants with a tool that results in increased redemption of WIC benefits.
- To retain NH WIC participants to meet their nutritional objectives.

Should Governor and Executive Council not authorize this Request, participants will not have access to innovative tools that make utilizing the WIC Program more discreet and pleasant. The social stigma and complex shopping experience is cited as a reason that many eligible and needy families stop receiving WIC services.

Area Served: Statewide.

Source of Funds: 100% Federal Funds from United States Department of Agriculture.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lisa Morris

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
