His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Your Excellency and Members of the Council:

REQUESTED ACTION

Authorize the New Hampshire Department of Justice (DOJ) to amend a **sole source** contract with CCVC, Inc., Highlands Ranch, CO (Vendor #393784), (previously GENOA Group LLC, of Littleton, CO, (Vendor #173012)), approved on January 27, 2016, item #49, approved on May 2, 2018, item #104, and further approved on March 24, 2021, item #100, by increasing the price limitation by \$17,200 from \$214,200 to \$231,400 and by extending the contract end date from April 30, 2022 to April 30, 2023, for the purpose of providing services to New Hampshire victims of violent crime, upon Governor and Executive Council approval through April 30, 2023. 100% Agency Income.

Funding is available as follows:

02-20-20-200010-8575	<u>FY 2022</u>
Victims Fund	
038-500177, Technology Software	\$17,200

EXPLANATION

This is a **sole source** contract because victims of crime have an ease of applying for financial assistance with a stable victim-friendly software process that has been in place, and steadily enhanced, since 1994. The third amendment, to an existing **sole source contract**, with CCVC Inc. (formerly GENOA Group LLC), is to maintain the current Computerized Crime Victims Compensation system (CCVC) until the Victims' Compensation Unit can review and evaluate possible enhancements to better serve victims.

The New Hampshire Victims' Compensation Program provides financial assistance to crime victims of an eligible misdemeanor or felony crime when there are no other financial resources available. Five dedicated individuals, nominated by the Attorney General, make up the Victims'

Compensation Commission (Commission), whose responsibility is to review claims and award or deny those claims based on administrative rules and/or statutory requirements.

Three DOJ staff members process all applications, gather required data and prepare claims for review. The staff also communicate claim results to victims, answer claim-related calls, and work with mental health experts, hospitals, police departments and other victim service providers. In addition, the Victims' Compensation staff provide an address confidentiality program which allows a victim of crime to protect his/her address from the public for valid safety reasons.

Since 1994, the DOJ has been utilizing CCVC Inc. (formerly Genoa Group, LLC) as the software supplier to manage victim claims. On January 27, 2016, the Governor and Executive Council approved an enhancement to the software by providing an online application for victims of crime. This allowed NH citizens a much more open and accessible system for requesting and obtaining the compensation to which they are entitled by law.

On May 2, 2018, the Governor and Executive Council approved an increase in price limitation to add a new component, which allows survivors of domestic violence, sexual assault, and stalking an opportunity to apply to the address confidentiality program online in order to keep home address information protected from public records. In addition, the address confidentiality module streamlined the program application process to make it more efficient for the applicant.

On March 24, 2021, the Governor and Executive Council approved an increase in price and time extension to allow the DOJ to upgrade the product by adding a Pay Code Enhancement function to the internal processing software. This enhancement has greatly aided the office in complying with administrative rules by flagging claim limits through an improved interface. In addition, the one year extension, from April 30, 2021 to April 30, 2022 lengthened the license term and support term.

This request will extend the license term, support term and maintenance term for the period of April 30, 2022 to April 30, 2023. The Victims Compensation Unit will use the time of the extension to evaluate a new cloud-based online version of the CCVC product which will significantly benefit victims and service providers.

Please let me know if you have any questions concerning this request. Your consideration is greatly appreciated.

Respectfully submitted,

John M. Formella

EXPLANATION

This is an amendment to a **sole source contract** with GENOA Group LLC, to add an address confidentiality component to existing proprietary software the Department of Justice, Victims Compensation Unit is currently using to administer compensation to victims of violent crime.

The existing software system allows victims to submit claims for compensation online. The new component to this software will allow survivors of domestic violence, sexual assault, and stalking an opportunity to apply to the address confidentiality program online in order to keep home address information protected from public records. In addition, the new address confidentiality module will streamline the program application process and make it easier on the applicant.

Funding for this program is supplied by VOCA, a federal grant that funds direct services to victims of crime. In the event that federal funds are no longer available, general funds will not be requested to support this program.

Please let me know if you have any questions concerning this request. Your consideration is greatly appreciated.

Respectfully submitted,

Gordon J. MacDonald

REQUESTED ACTION

Authorize the Department of Justice to enter into a Sole Source contract with GENOA Group LLC, of Littleton, CO, in an amount not to exceed \$160,000.00 to provide for upgraded software and five years of maintenance support for the administration of compensation for victims of violent crime program to be effective upon Governor and Council approval through April 30, 2021. 100% Federal Funds.

Funding is available in accounting unit 02-02-20201510-5890 entitled OVC Vision 21 grant.

<u>FY 16</u>	<u>FY 17</u>	<u>FY 18</u>	<u>FY 19</u>	<u>FY 20</u>	<u>FY 21</u>
\$39,250	\$13,185	\$13,185	\$13,185	\$13,185	\$13,185

EXPLANATION

This is a sole source contract with GENOA Group LLC, to update existing proprietary software the Department of Justice Victims Compensation Unit is currently using to administer compensation to victims of violent crime. The upgrade will allow victims online access to submit claims for compensation.

The Office of Victims Compensation has been awarded a federal grant to institute an on-line web-based program to allow victims of crime to apply for benefits and monitor the status of their claims electronically. The current application process is entirely paper-driven.

The Department of Justice currently administers such compensation claims using a software system that was designed, written and distributed by GENOA Group LLC. Pursuant to the proposed contract attached hereto, GENOA Group LLC will create software which will allow crime victims to visit a website to provide the Department of Justice with notice that a crime has occurred for which compensation may be due and to easily begin the application process. The contract, if approved, will result in the installation of GENOA Group, LLC's most recent major upgrade to the software that the Department of Justice has been using. Because this will be an upgrade to installed software that was originally created and provided by GENOA Group, LLC, this proposal is of necessity a sole source contract.

The goal is not to replace existing systems, but rather to enhance them by establishing a means by which eligible crime victims may contact and communicate with the Department of Justice in a user-friendly and immediate way. When the system is complete and fully implemented, victims of violent crime may file a claim for compensation by visiting the website:

<https://www.crimevictimcompensationclaims.org/index.php?location=NH>

Claim filing information is stored on an Encrypted SQL server, and will remain on this server only until it is submitted to the Department of Justice. All files to be downloaded or uploaded above are encrypted using AES-256 algorithm.

The contract with GENOA Group LLC includes a 5 year maintenance agreement for the entire system.

With the installation and application of this software, New Hampshire citizens who are victims of crime will have a much more open and accessible system for requesting and obtaining the compensation to which they are entitled by law. Accordingly, the Department seeks to enter into a contract with GENOA Group LLC as noted above.

Please let me know if you have any questions and thank you for your consideration of this request.

Respectfully submitted,

for Joseph A. Foster
Attorney General
