REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, to enter into a **sole source** agreement with Cepheid DNA Detection (Vendor #TBD), 904 Caribbean Drive, Sunnyvale, CA 94089, to provide technical support, maintenance and repairs to the GeneXpert System located at the New Hampshire Public Health Laboratories, in an amount not to exceed \$19,528, effective upon Governor and Executive Council approval, through December 31, 2022. 100% General Funds.

Funds are available in the following account for State Fiscal Years 2020 and 2021, and are anticipated to be available in State Fiscal Years 2022 and 2023.

2023	024-500225	Maintenance Other Than Buildings and Grounds	90059000	\$3,255
			Total	\$19,528

EXPLANATION

This request is **sole source** because the GeneXpert System is proprietary to Cepheid DNA Detection. Therefore, the technical support, maintenance and repairs to the system must be performed by Cepheid DNA Detection in order to maintain optimum functionality in accordance with manufacturer standards.

The purpose of this request is for the Department to ensure the GeneXpert System located at the New Hampshire Public Health Laboratories maintains optimum performance. Cepheid DNA Detection provides technical support, maintenance and repairs for the GeneXpert System, which includes all parts, labor and return shipping costs, as applicable. In addition, the Contractor provides annual on-site preventative maintenance and telephone technical support through its Technical Support Call Center.

The New Hampshire Public Health Laboratories utilize the GeneXpert System to perform molecular testing of specimens in order to identify Mycobacterium Tuberculosis Complex. Mycobacterium Tuberculosis Complex is an organism that causes Tuberculosis, a highly contagious deadly disease of approximately two (2) million people worldwide and costs the national health care system millions of dollars in patient care and treatment.

The GeneXpert System allows the Department to quickly identify resistance mechanisms, which are genes that make an organism resistant to Carbapenem. Carbapenem is a broad-spectrum antibiotic used to treat complicated infections. This testing allows the New Hampshire Bureau of Infectious Disease Control, as well as New Hampshire providers, the ability to monitor and treat infected individuals.

The Centers for Disease Control and Prevention provides states with federal funds to assist with combatting Mycobacterium Tuberculosis Complex and to identify organisms with Carbapenem resistance. Carbapenem drug resistance among members of the Enterobacteriaceae family and other organisms is a large concern to area hospitals and communities. In order to secure grant funds, the New Hampshire Public Health Laboratories must comply with the Centers for Disease Control and Prevention's processing times for the molecular identification of Tuberculosis. The GeneXpert System enables the Department to comply with federal regulations.

The GeneXpert System allows the New Hampshire Public Health Laboratories the ability to rapidly diagnose a Tuberculosis infection in one (1) day, rather than weeks using traditional bacterial growth methods, which dramatically limits exposure to the active Tuberculosis disease. Additionally, the ability of the GeneXpert System to identify resistance mechanisms to Carbapenem drugs assists with limiting the spread of antibiotic resistant within the State of New Hampshire.

The Department will monitor the effectiveness and delivery of services required within the agreement using the following performance measures:

- The Contractor ensures an Uptime Guarantee of ninety-eight percent (98%) per quarter.
- The Contractor compensates the Department an additional week of coverage, for a maximum of one (1) week per quarter, for any time the system is down below the Uptime Guarantee, as calculated by the Department at the end of each calendar quarter.

As referenced in the Exhibit C-1, Revisions to Standard Contract Language, of the contract, the parties have the option to extend contract services for up to three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, the New Hampshire Public Health Laboratories' GeneXpert System may not operate at optimum capacity. This would result in the Department having to rely on traditional bacterial growth methods to identify Tuberculosis, which can take two (2) to three (3) weeks. New Hampshire citizens could be at risk of exposure to active Tuberculosis for weeks before the infection is identified.

Lori A. Shibinette
Commissioner

Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

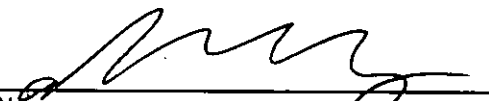

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (11)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).
14. The prospective lower tier participant further agrees by submitting this proposal (contract) that it will include this clause entitled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transactions," without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
