**REQUESTED ACTION**

Authorize the Department of Environmental Services to award a Local Source Water Protection grant to the City of Keene (VC #177417 B002) in the amount of \$20,000 to complete a project to protect public drinking water supplies, effective upon Governor and Council approval through May 31, 2021. 100% Drinking Water State Revolving Fund Loan Management Fee Funds.

Dept. Environmental Services, DWSRF Loan Management, Grants- Non Federal

FY2020  
\$20,000

**EXPLANATION**

The Department of Environmental Services issued a request for proposals for 2020 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Eighteen proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on the available loan management fee funding, the Department determined that it could offer grants to nine source protection planning projects and four source security projects. See Attachment A for the full list of grants awarded and list of reviewers.

The City of Keene will use the source water protection grant funds to enhance the security at Babbidge Reservoir by installing security fencing to limit access to the dam face and intake structures.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that the fee funds are no longer available, General funds will not be requested to support this program.

We respectfully request your approval of this item.

**SCOPE OF WORK**

**City of Keene:**

The City of Keene will use New Hampshire Department of Environmental Services (NHDES) grant funds to enhance security at Babbidge Reservoir by installing a fence limiting access to the dam face and intake structures from recent undesirable access of vehicles and restricted human activities. Best management practices will be performed annually by City staff, as described in the application.

Specifically, the following tasks, as described in the application submitted to NHDES, will be accomplished:

**Task 1. Install Fencing**

Prepare and clear fence line area to provide adequate area for fence installation. City staff to inspect and maintain fencing and evaluate repairs as necessary. Submit photos of the installed fence to NHDES upon completion.

**Deliverables:** A fence limiting access to the dam face and intake structures, photos of the completed fence installation.

**SPECIAL PROVISIONS**

Subparagraph 1.7 of the General Provisions shall not apply to this Agreement. The comprehensive public liability insurance against all claims of bodily injuries, death, or property damage under Subparagraph 17.1.2 of the General Provisions shall be reduced from \$2,000,000 to \$1,000,000 for bodily injury or death in any one incident. A reduction from the State's standard liability coverage is warranted in light of the minimal risk associated with the activities required under this contract.

Changes to the Scope of Work or reallocation of grant funds require NHDES approval in advance.

Work must be completed by the completion date listed on the grant agreement (section 1.6). Requests for payment along with required proof of work must be submitted no later than 90 days after the completion date or the grant will be closed out and funds will no longer be available.

If a deadline extension is requested, the grantee must make that request for approval at least two months before the completion date. Failure to do so may result in lower rankings of future grant applications.
