Requested Action

Authorize the Department of Safety, Division of State Police to exercise the two-year renewal option of the sole source contract with Northeast Scale Company, Inc. (VC#155988-B001), 40 Londonderry Turnpike, Suite 2-E, Hooksett, NH, in an amount not to exceed \$94,037.00, increasing the contract amount from \$138,318.50 to a total amount of \$232,355.50 for the purpose of providing preventative maintenance, certification and repair to the scale systems located at the weigh stations on Interstate 93 in Windham. This contract will become effective upon Governor and Council approval through June 30, 2022. Funding source: 72% Highway Funds/28% General Funds.

Funds are available in the SFY2021 operating budget and contingent upon availability and continued appropriations in SFY2020 with the authority to adjust between fiscal years through the Budget Office if needed and justified.

<u>SFY2021</u>	<u>SFY2022</u>	<u>TOTAL</u>
\$47,018.50	\$47,018.50	\$94,037.00

Explanation

This contract renewal is sole source because Northeast Scale Company, Inc. is the only vendor in the New Hampshire area that is factory trained and qualified to perform preventative maintenance, certification and repair to the scale systems located at the weigh stations on Interstate 93 in Windham. The next closest factory trained company is located in Albany, NY.

The Department of Safety currently operates the weigh station facilities on Interstate 93 (I-93) northbound and southbound in the Town of Windham, NH, as the only fixed location operational weigh station facility in the State. These stations are state of the art facilities with the capabilities of processing a large number of commercial vehicles in a timely manner using Weigh-in-Motion technology, resulting in the trucking industry experiencing minimum delays. Weighing semi-trucks ensures their maximum weight limit is compliant with federal and state laws, which lessens the damage to NH roads and bridges. Ensuring weigh compliance also helps maintain vehicular safety on the NH roadways because an overloaded truck cannot maneuver quickly, is difficult to control going downhill, and needs much more space to come to a complete stop.

Robert L. Quinn
Commissioner of Safety

<u>FY2018</u>	<u>FY2019</u>	<u>FY2020</u>	<u>TOTAL</u>
\$45,650.00	\$45,650.00	\$47,018.50	\$138,318.50

Explanation

This contract is sole source as Northeast Scale Company, Inc. is the only vendor in the New Hampshire area that is factory trained and qualified to perform preventative maintenance, certification and repair to the scale systems located at the weigh stations on Interstate 93 in Windham. The next closest factory trained company is located in Albany, NY. The requested contract amount is an estimate based on previous maintenance activities performed at these sites, as well as known items currently awaiting repair in Fiscal Year 2017.

Recently, State Police contacted Cardinal Scale, Inc., the manufacturer, to obtain a list of vendors qualified to perform this service and were informed that Northeast Scale Company has the only factory trained and qualified personnel in this area to work on these scales. Although there are other vendors, they have not been certified or trained by the manufacturer to perform repairs, maintenance and updates. The next closest factory-trained company is located in Albany, NY.

The Department of Safety currently operates the weigh station facilities on Interstate 93 (I-93) northbound and southbound in the Town of Windham, NH, as the only fixed location operational weigh station facility in the State of New Hampshire. These stations were opened in 2000 to monitor the commercial vehicle traffic utilizing I-93, in both the northbound and southbound directions. These stations are state of the art facilities with the capabilities of processing a large number of commercial vehicles in a timely manner using Weigh-In-Motion technology. This system is advantageous to the trucking industry by imposing only a minimum delay in enforcing the weight and safety requirements of the State of New Hampshire.
