EXPLANATION

This request is **retroactive** as the City of Nashua was not able to return the contract amendment documents in time to meet the last Governor and Council meeting in June due to their lengthy administrative approval processes.

This requested action seeks approval of the last of 13 agreements that represents \$844,960, of a total of \$12,696,418, to be spent statewide to continue the provision of regional public health emergency preparedness, substance use disorders continuum of care, and host a Public Health Advisory Council to coordinate other public health services in a specific geographic area. The Governor and Council have previously approved twelve (12) agreements. Each Public Health Network site serves a defined Public Health Region, with every municipality in the state assigned to a region.

The Regional Public Health Advisory Councils will engage senior-level leaders from throughout these regions to serve in an advisory capacity over the services funded through this agreement. Over time, the Division of Public Health Services and the Bureau of Drug and Alcohol Services expect that the Regional Public Health Advisory Councils will expand this function to other public health and substance use disorders continuum of care services funded by the Department. The long-term goal is for the Regional Public Health Advisory Councils to set regional priorities that are data-driven, evidence-based, responsive to the needs of the region, and to serve in this advisory role over all public health and substance use disorders continuum of care activities occurring in their regions.

The vendor will lead a coordinated effort with regional public health, health care and emergency management partners to develop and exercise regional public health emergency response plans to improve the region's ability to respond to public health emergencies. These regional activities are integral to the State's capacity to respond to public health emergencies.

According to the 2012-2013 National Survey on Drug Use and Health¹, the most recent data available demonstrates that 49% of NH's 18-25 year olds reported binge drinking in the past 30 days. This rate is the third highest in the country and much higher than the national average of 38.7%. For pain reliever abuse, 10.5% of NH young adults reported this behavior in the past year, and 10% of young adults reported illicit drug use other than marijuana. This last prevalence indicator is important for several reasons. First, it is the most accessible data point relative to young adult opioid use because the illicit drug use indicator includes opioids. Secondly, NH's rate of 10% for 18-25 year olds reporting regular illicit drug use is the highest in the country and is 1.5 percentage points higher than the next closest state (Rhode Island, 8.6%) and higher than the national average of 6.9%. Furthermore, there were five times greater the number of heroin-related deaths in NH in 2014 than there were in 2008. Heroin-related Emergency Department visits and administrations of naloxone to prevent death from an overdose have also multiplied exponentially in the last two years. Consequently, alcohol and drug misuse cost NH more than \$1.84 billion in 2012 in lost productivity and earnings, increased expenditures for healthcare, and public safety costs. In addition to economic costs, substance misuse impacts and is influenced by poor mental health. From 2007 to 2011, suicide among those aged 10-24 was the second leading cause of death for NH compared to the third leading cause nationally.

In NH, youth have rates of substance use significantly higher than the national average and the other northeast (NE) states as demonstrated in Table 2.

18-25 year olds	NH	NE	US	Significant differences		
Binge Drinking	49.0%	43.0%	38.7%	NH Higher than NE and US		
Marijuana Use	27.8%	21.0%	18.9%	NH Higher than NE and US		
Nonmedical use of pain relievers	10.5%	8.6%	9.5%	No significant difference		
Dependent/abusing alcohol or illicit						
drugs	23.7%	19.1%	18.1%	NH Higher than NE and US		

Youth and families across NH describe having little access to services and supports for Substance Use Disorder in NH. In fact, according to the National Survey on Drug Use and Health², NH ranks worst among the states in percentage of 18-25 year olds "needing but not receiving treatment" for alcohol or illicit drug use and is also among the bottom states for 12-17 year olds. Additionally, among 12-20 year olds, NH ranks highest and above the overall national average in both underage alcohol use in past month (NH: 35.72%, US: 23.52%) and underage binge alcohol use in past month (NH: 23.21%, US: 14.75%).

Should Governor and Executive Council not authorize this Request, both public health and substance use disorders continuum of care services will be less coordinated and comprehensive in these public health regions. Developing strong, regionally-based infrastructure to convene, coordinate, and facilitate an improved systems-based approach to addressing these health issues will, over time, reduce costs, improve health outcomes, and reduce health disparities.

The original contracts were awarded through a competitive bid. The bid summary is attached.

As referenced in the Request for Proposals and in the Exhibit C-1 of the contract, the Department of Health and Human Services in its sole discretion may decide to offer a two (2) year extension of this competitively procured agreement, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council. The Department is exercising this option.

The attached performance measures will be used to measure the effectiveness of these agreements.

Area served: Statewide.

City of Nashua

Division of Public Health and Community Services 18 Mulberry Street, Nashua, NH 03060

VISION:

An informed, safe, healthy and resilient community where all people can thrive and prosper.

MISSION:

To promote, protect and preserve the health and well-being of the Greater Nashua Region through leadership and community collaboration.

CORE VALUES:

The Strategic Planning Team, comprised of the Division's senior staff members, met in August 2014 to discuss the creation of Value Statements that would reflect the core principles, beliefs and underlying assumptions that guide the Nashua DPHCS. The team reviewed sample value statements of other health departments that were included in the NACCHO planning document "Developing a Local Health Department Strategic Plan: A How-To Guide." In open discussion, the staff agreed the key values of the Nashua DPHCS should reflect our highest commitment to the following areas: Respect, Customer Service, Integrity, Collaboration, Excellence (especially in Science and Innovation) and Communication. Senior staff were asked to write sample value statements, which were then grouped by topic area to be reviewed at the next senior staff meeting. Staff agreed the final statements would show support for the unchanged Vision and Mission. They selected six value statements that were then distributed via survey to all Division staff for additional input, revision, and edits. All Division staff were encouraged to contribute additional value statements as well. Comments were summarized, and updates were made. The resulting six value statements are listed:

- We are a reliable and trusted resource
- We believe our employees and our community contribute to the continuous improvement of our organization
- We deliver high quality, science-based programs and services
- We strive to provide exceptional service and communication
- We value diversity and approach all people with respect and dignity
- We collaborate by sharing resources, expertise, and ideas

EXPLANATION

This requested action seeks approval of 12 agreements that represent \$288,000 to be spent statewide to continue regional public health emergency preparedness and substance misuse prevention services. In the interest of efficiency, the contract amendments are being bundled as they are providing the same services. Because of the size of the resulting Governor and Council submission, the copies provided are abbreviated in the interest of saving resources. The Councilors and the public can view the entire submission package on the Secretary of State's website.

The Division of Public Health Services is providing funding for the development of Community Health Improvement Plans that are aligned with the priorities established in the State Health Improvement Plan published in 2013. Each contractor will work with members of their respective Regional Public Health Advisory Council, which were established under the original contracts, to develop regional goals and objectives to improve the health of their communities. This work will result in a coordinated and focused effort among regional partners to implement complementary activities to address key health problems.

The Bureau of Drug and Alcohol Services, Division of Community Based Care Services is providing funding to convene subject matter experts, consisting of local healthcare providers and other professionals within the continuum of services to form a workgroup to educate members of the Regional Public Health Advisory Council on the impacts of substance use disorders. This work is intended to continue in the next biennium with the development of Resiliency and Recovery Oriented System of Care across the continuum of prevention, treatment, and recovery in each of the designated public health regions.

Her Excellency, Governor Margaret Wood Hassan and the Honorable Council January 8, 2015 Page 3 of 4

All vendors were offered \$10,000 for Community Health Improvement Planning activities and \$15,000 for Substance Disorder and Resiliency and Recovery Oriented Systems activities, for a total of \$25,000 to each vendor. However, the Town of Exeter chose not to accept the funds and instead the Department contracted with the United Way of Greater Seacoast, which was approved at the January 14, 2015 Governor and Council meeting, and Mid-State Health Center requested \$2,000 less than the \$25,000 available. In addition, in this same item, the Department is reducing funding that was dedicated to planning to receive evacuees in the event of a radiological emergency related to the Seabrook Station in Goodwin Community Health's contract by \$7,000, and Cheshire County's contract by \$3,000. The Department has modified its response plan in these two areas, eliminating the need for the specific planning that was originally funded.

Should Governor and Executive Council not authorize this Request, both public health and substance misuse services will be less coordinated and comprehensive in the thirteen public health regions. Developing a strong, regionally-based infrastructure to convene, coordinate, and facilitate an improved systems-based approach to addressing these health issues will, over time, reduce costs, improve health outcomes, and reduce health disparities.

The original contracts were awarded to the Regional Public Health Network agencies through a competitive bid process. The bid scoring summary is attached.

The following performance measures will be used to measure the effectiveness of these agreements.

Community Health Improvement Planning

- Completion and approved work plan within one month of the approved contract.
- Publication of a Community Health Improvement Plan that addresses at least five of the priority health topics identified in the NH State Health Improvement Plan.

Substance Use Disorders and Resiliency and Recovery Oriented Systems of Care

- Completion and approved work plan within one month of the approved contract.
- Number of subject matter experts, from across the continuum of services, recruited and served on the workgroup.
- Number of educational resources related to deliverables listed in 1:2 developed, identified, and disseminated.
- Number of, content and attendance of the following:
 - o Educational meetings related to the impact of substance use disorders;
 - o Resource sharing meetings related to substance use disorders:
 - o Educational meeting on Resiliency and Recovery Oriented System of Care;
 - Education on the continuum care services: environmental strategies, prevention, intervention, treatment and recovery;
 - o The Center of Excellence webinar on "Elements of a comprehensive system to preventing, treating and recovering from substance use disorders".

Her Excellency, Governor Margaret Wood Hassan and the Honorable Council January 8, 2015 Page 4 of 4

- Convene Public Health Advisory Committee and identify what constitutes a comprehensive approach to environmental strategies, prevention, intervention, treatment, and recovery from substance use disorders for your region.
- Submitted documentation for the vision of this comprehensive approach to environmental strategies, prevention, intervention, treatment, and recovery from substance use disorders for your region.

Area served: Statewide.

Source of Funds: 100% Federal Funds from US Centers for Disease Control and Prevention and the Substance Abuse and Mental Health Services Administration.

EXPLANATION

This agreement includes funds that are being awarded through both a sole source and a competitive bid process. The sole source award reflects that as the municipal public health entity, the Health Department provides the infrastructure and legal authority necessary to carry out disease surveillance and investigations; enforce public health laws and regulations; and mitigate public health hazards. These are all core public health functions that are essential to detecting and responding to public health emergencies. The City of Nashua, Division of Public Health and Community Services was specified as the contracted work performer in the federal cooperative agreement application, which was approved and awarded. Retroactive approval is requested because the amount of funds available to support this agreement was not approved by the Centers for Disease Control and Prevention until May 16, 2013.

Funds being awarded through a competitive bid process will be used to allow the City of Nashua, Division of Public Health and Community Services to align a range of public health and substance misuse prevention and related health promotion activities. The City of Nashua, Division of Public Health and Community Services will be one of 13 agencies statewide to host a Regional Public Health Network, which is the organizational structure through which these activities are implemented. Each Public Health Network site serves a defined Public Health Region, with every municipality in the state assigned to a region.

This agreement aligns programs and services within the Department and this contracted partner to increase the effectiveness of services being provided while reducing the administrative burden and, where feasible, costs for both the Department and this partner. To that end, this agreement provides a mechanism for other funds to be directed to Regional Public Health Networks to continue building coordinated regional systems for the delivery of other public health and substance misuse and health promotion services as funding becomes available.

Altogether, this agreement will build municipal and regional capacity in three broad areas: a Regional Public Health Advisory Committee; Municipal and Regional Public Health Preparedness; and Substance Misuse Prevention and Related Health Promotion services. The Regional Public Health Advisory Committee will engage senior-level leaders from throughout this region to serve in an advisory capacity over the services funded through this agreement. Over time, the Division of Public Health Services and the Bureau of Drug and Alcohol Services expect that the Regional Public Health Advisory Committee will expand this function to other public health and substance misuse prevention and related health promotion services funded by the Department. The long-term goal is for the Regional Public Health Advisory Committee to set regional priorities that are data-driven, evidence-based, responsive to the needs of the region, and to serve in this advisory role over all public health and substance misuse and related health promotion activities occurring in the region.

The effectiveness of a regional response structure for public health emergencies was demonstrated during the H1NI pandemic when the Regional Public Health Networks statewide offered 533 clinics that vaccinated more than 46,000 individuals. Also, during 2011 and 2012 the Nashua Division of Public Health and Community Services was activated to assist in the response to a number of weather-related emergencies that included setting up regional shelters and providing leadership on health and medical issues as part of the regional response.

The City of Nashua, Division of Public Health and Community Services will also coordinate substance misuse prevention and related health promotion activities with the primary goal of implementing the three-year regional strategic plan that was developed and completed in June 2012. This strategic plan uses a public health approach that includes Strategic Prevention Framework Model key milestones and products for the evidence-based programs, practices, and policies that will be implemented over the course of the agreement. These efforts

must strategically target all levels of society; seek to influence personal behaviors, family systems and the environment in which individuals "live, work, learn and play".

According to the 2011 National Survey on Drug Use and Health, New Hampshire ranks third in the nation for youth alcohol use (17.04% of 12 to 17 year olds reporting drinking in the past month), third in the nation for alcohol use among young adults (73.22% of 18 to 25 year olds reporting drinking in the past month) and sixth in the nation for alcohol use among adults (64.89% of those 26 and older reporting drinking in the past month). In New Hampshire, the rate of alcohol use and binge drinking (having five or more drinks within a couple of hours) among 12 to 20 year olds is significantly higher than the national average.

New Hampshire also ranks high for marijuana use across a wide range of age categories compared to the rest of the nation. According to the 2011 National Survey on Drug Use and Health, the percentage of young people between the ages of 12 and 17 who report marijuana use in the past month is higher in comparison to all of the other U.S. states and territories. Regular marijuana use (at least once in the past 30 days) is reported by 11.35% of 12-17 year olds. The prevalence of marijuana use among 18 to 25 year olds is fifth in the nation, with 27.03% reporting marijuana use in the past month. The rate of regular marijuana use among adults 26 and older is 5.42%, slightly above the U.S. rate of 4.8%.

Finally, prescription drug misuse is at epidemic proportions in New Hampshire where pain reliever abuse among young adults is the tenth highest in the nation (12.31% of 18 to 25 year olds reported non-medical use of pain relievers in the past year). Perhaps the most telling indicator of New Hampshire's epidemic is the steady increase in total drug-related deaths since 2000, with the majority of the increase attributable to prescription drug overdose. The number of drug-related overdose deaths in the state increased substantially between 2002 and 2010, more than doubling from 80 deaths to 174 over the eight-year period. Prescription opioids are the most prevalent drug of abuse leading to death.

Should Governor and Executive Council not authorize this Request, there will be a reduced ability to quickly activate large-scale vaccination clinics and community-based medical clinics; support individuals with medical needs in emergency shelters; and coordinate overall public health response activities in the city and the region. With respect to substance misuse prevention and related health promotion, the regional prevention system that has been addressing these issues would dissolve, causing a further decline of already limited prevention services as this agreement provides for the continuation, coordination and further development of community based prevention services.

As stated previously, the City of Nashua, Division of Public Health and Community Services was selected for activities that will occur throughout the region through a competitive bid process. A Request for Proposals was posted on the Division of Public Health Services' web site from January 15, 2013 through March 4, 2013. In addition, a bidder's conference was held on January 24 that was attended by more than 80 individuals.

Fifteen Letters of Intent were submitted in response to this statewide competitive bid. Fifteen proposals were received, with the City of Nashua, Division of Public Health and Community Services being the sole bid to provide these services in this region. This bid was reviewed by two Department of Health and Human Services reviewers who have more than 30 years experience in program administration, emergency planning, and substance misuse prevention. The scoring criteria focused on the bidder's capacity to perform the scope of services and alignment of the budget with the required services. The recommendation that this vendor be selected was based on a satisfactory score and agreement among reviewers that the bidder had significant experience and well-qualified staff. The bid-scoring summary is attached.

As referenced in the Request for Proposals, Renewals Section, the Department of Health and Human Services in its sole discretion may decide to offer a two (2) year extension of this agreement, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

The following performance measures will be used to measure the effectiveness of the agreement.
