ASSISTANT COMMISSIONER**

Bureau of Construction  
February 24, 2014

Her Excellency, Governor Margaret Wood Hassan  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with SUR Construction, Inc. (Vendor 156303) of Rochester, NH on the basis of a low bid of \$319,499.35 for upgrading the existing signal system and roadway work at the intersection of NH Route 28 and NH Route 107 in Pittsfield, from the date of Governor and Council approval through August 15, 2014 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows: FY 2014  
04-96-96-963515-3054  
Consolidated Federal Aid  
400-500870 Highway Contract Payments \$319,499.35

2. Further authorize that a contingency in the amount of \$15,974.97 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows: FY 2014  
04-96-96-963515-3054  
Consolidated Federal Aid  
400-500870 Highway Contract Payments \$15,974.97

**EXPLANATION**

The project is part of the annual Highway Safety Improvement Program. This project involves upgrading the existing traffic signals including new cabinet, controller, signal heads, and adding a flashing yellow arrow for left turning traffic to the signal phasing for the NH Route 28 approaches. Associated roadway approach work will involve adjusting the approach geometry and removing excess pavement area. The project will improve operational safety at the intersection.

The contingency amount is proposed to be 5% of the contract amount. This project is being constructed during a time of fluctuating fuel prices, and potential fuel adjustments may need to be considered.

Although the bid costs exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 90% federal funds with 10% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.  
Commissioner

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** This project consists of upgrading the existing signal system at the intersection of NH Route 28 and NH Route 107 in Pittsfield, NH. A new signal cabinet, signal controller, loop detectors, conduit, pull boxes and signal heads will be installed as part of this project. A flashing yellow arrow will be added to the signal phasing for the NH Route 28 approaches. In addition to the signal work, the NH Route 28 northbound and southbound roadway approaches will be adjusted to the east. At its widest point, approximately 10 feet of pavement will be removed from the west side of NH Route 28. This area of pavement removal will be loamed and seeded. The islands on NH Route 107 will have their curb reset and the project area will receive a 1" bituminous overlay.

The project begins on NH Route 28 approximately 1200 ft south of NH Route 107, extending through the intersection north approximately 1400 ft for a total project length of approximately 2600 ft.

**FEDERAL FUNDING:** 90% federal funding (HSIP) with the anticipated utilization of Turnpike Toll Credits for the State's 10% match.

**CONTINGENCY:** The contingency amount is proposed to be 5% of the contract amount. This project is being constructed during a time of fluctuating fuel prices, and potential fuel adjustments may need to be considered.

**PROJECT INITIATED:** HSIP PROGRAM

**PROJECT EXPLANATION:** As part of the Department's safety improvement projects this intersection has been selected to have traffic signals updated which includes adding a flashing yellow arrow for left turning traffic from NH Route 28 to NH Route 107 for both northbound and southbound vehicles.

**TRAFFIC IMPLICATION:** All work shall be completed in such a manner that traffic flow is unimpeded whenever possible. Short term alternating one-way traffic will be allowed with the approval of the Engineer. A minimum 11-foot travel way will be maintained during one-way traffic operations. Restore traffic to a minimum width of 2-11 ft travel lanes and 2-2 ft shoulders during non-work hours. Short duration lane shifts and daytime lane closures shall be subject to the approval of the Engineer.

**COMPLETION DATE:** Friday, August 15, 2014.
