REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to award a grant to the City of Dover, NH (VC# 177380-B006) in the amount not to exceed \$5,188,000 to finance the construction of a new treatment facility for per- and polyfluoroalkyl substances ("PFAS") under provisions of RSA 485-H and N.H. Code of Administrative Rules Env-Dw 1400 et seq., effective upon Governor & Council approval through June 1, 2025. 100% Federal Funds.

Funding is available in the following account:

	\$5,188,000
Dept. Environmental Services, ARPA Program, Grants Federal	
Activity Code: 00FRF602WB4401C	

EXPLANATION

The Per- and Polyfluoroalkyl Substances Remediation Loan Fund (PFAS RLF) was created in 2020, as authorized by RSA 485-H, providing up to \$50 million in low interest loans to certain public water systems and wastewater facilities to address exceedances of per- and polyfluoroalkyl substances (PFAS) standards. The statute was amended in 2021 to further eligibility to municipalities and add a grant element to the program. Grants to eligible applicants are up to the greater of \$1.5 million or 30% of the total eligible cost of the project. The grants are funded through the American Rescue Plan Act (ARPA) of 2021 for up to \$25 million.

ARPA is a \$1.9 trillion economic stimulus bill passed by the 117th United States Congress and signed into law by President Biden on March 11, 2021, to speed up the United States' recovery from the economic health effects of the COVID-19 pandemic and the resultant recession. The Act defines eligible uses of the state and local funding, including responding to public health emergencies, responding to workers performing essential work during the COVID-19 emergency, providing revenue relief to states and making investments in water, sewer, and broadband infrastructure.

On January 12, 2022, the NHDES approved grant funding up to \$5,188,000 for the City of Dover to assist with the construction of a new treatment facility to remediate PFAS, as well as other contaminants within groundwater at the Pudding Hill well field. The project includes design, bidding, construction, and engineering oversight of the construction. This is an allowable use of ARP FRF funds under Section 602 (c)(1)(D) to make necessary investments in water, sewer, or broadband infrastructure.

and the Honorable Council
