EXPLANATION

The purpose of this request is to provide access and visitation services to New Hampshire residents who are in dispute regarding their parental rights and responsibilities, including residential rights and responsibilities for their children, with preference given to unmarried parents without legal representation whose children are receiving public assistance or are potentially at risk of becoming eligible for public assistance.

Access and visitation services serve to increase cooperation between parents while also supporting positive contact between parents and their children.

For over twenty (20) years, the Department has been awarded a federal grant for an access and visitation program that provides services to parents, which addresses parental rights and responsibilities. The increase in parental access in a safe environment directly benefits the psychological, developmental, and financial support of the children. Approximately 3,000 individuals (parents, caregivers and children) will be served from October 1, 2021 to September 30, 2025.

The overall goal of the Access and Visitation program is to assist states with establishing and administering programs that support and facilitate parents with access to and visitation with their children. Collectively, the vendors will provide access and visitation services that include; mediation; development of parenting plans; neutral drop-off and pick-up locations for the exchange of children between the parties; fully and partially supervised visitation; and visitation enforcement.

The Department will monitor Contractor performance through quarterly reporting requirements outlined in the agreements, including complete and accurate data on participants, adherence with domestic violence precautions, and referrals to child support for those not already participating.

The Department selected the contractors through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 1/28/2021 through 3/9/2021. The Department received three (3) responses that were reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions of the attached contracts, the parties have the option to extend the agreements for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, access and visitation services may not be available to families in need of these services, which may result in an increase of noncompliance with child support orders, greater conflict between parents and adverse outcomes for children.

Areas served: Statewide

Source of Funds: CFDA #93.597 FAIN #2101NHSAVP

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Commissioner

INSTRUCTIONS FOR CERTIFICATION

- 1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
- 2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- 3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
- 4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
- 7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- 8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INSTRUCTIONS FOR CERTIFICATION

- 1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
- 2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- 3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- 8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

RE: The State of New Hampshire's Self-Insurance Program and Automobile Liability Insurance Coverage

To Whom It May Concern:

The purpose of this letter is to describe the State of New Hampshire's self-insurance program and automobile liability insurance coverage. This letter may be presented to individuals requesting information about the State's general liability self-insurance program, workers' compensation self-insurance program, or automobile liability insurance coverage.

General Liability Self-Insurance Program

The State of New Hampshire (State) does not maintain liability insurance coverage for the general operations of its agencies. Instead, the State has elected to self-insure for general liability exposures. Any liability or costs incurred by the State arising from loss or damage to a third-party would be handled as a general obligation of the State. Per RSA 541-8:14, I, all claims arising out of any single incident against any agency for damages in tort actions is limited to an award not to exceed \$475,000 per claimant and \$3,750,000 per any single incident.

Workers' Compensation Self-Insurance Program

All State employees are covered under the State's self-funded workers' compensation program. The State's third party administrator for workers' compensation claims is Cross Insurance TPA, Inc., with contract effective through July 1, 2022.

Automobile Liability Insurance Coverage

The State maintains automobile liability coverage through Chubb Insurance. The policy provides liability limits for bodily injury coverage of \$250,000 per person/\$500,000 per accident and property damage coverage of \$100,000 per accident.
