**New Hampshire Homeland Security and Emergency Management (NHHSEM)  
Emergency Management Performance Grant (EMPG) Guidance  
FY 2011**

*(Grant Performance Period: Oct. 1, 2010 – Sept. 30, 2013)*

The purpose of the FY 2011 Emergency Management Performance Grant (EMPG) Program is to assist State and Local Governments and other eligible agencies in preparing for all hazards. EMPG focuses on Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance/Sustainment to enhance and sustain all-hazards emergency management capabilities.

As part of the FY 2011 EMPG Program, DHS-FEMA identified an overarching *priority*:

*Advancing “Whole Community” Security and Emergency Management: “Whole Community” fosters a national emergency management approach and considers all aspects of a community to effectively prepare for, protect against, respond to, recover from, and mitigate against any terrorist attack or natural disaster. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the community’s overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs.*

**Effectiveness Measures:** As part of the EMPG Program administration, grantees are required to provide quarterly reports that provide sufficient detail for NH HSEM to measure the effectiveness of this grant program and the impact it has state-wide.

**Cost Match:** The EMPG Program has a 50 percent (50%) Federal and 50 percent (50%) Local cost match (cash or in-kind) requirement. Unless otherwise authorized by law, Federal funds cannot be matched with other Federal funds. To meet matching requirements, the grantee contributions must be *reasonable, allowable, allocable, and necessary* under the grant program and must comply with all Federal requirements and regulations.

**Allowable Costs:** EMPG funding is available for projects that fall into the categories of – *Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance & Sustainment*. The following list of possible projects and activities is meant to guide you in selecting projects for an EMPG grant submission. This list of suggested projects is not intended to be all-inclusive. Local communities or agencies may have other specific projects and activities that reflect specific local needs based on local capability assessments and local hazards.

***Planning***

FY 2011 EMPG Program funds may be used for a range of emergency management planning activities. Planning provides a methodical way to engage the whole community in thinking through the life cycle of potential crises, determining required capabilities, and establishing a framework for roles and responsibilities. Planning must include participation from all stakeholders in the community who are able to contribute critical perspectives and may have a role in executing the plan. Planning should be flexible enough to address incidents of varying types and magnitudes.

**Planning activities may include, but are not limited to, the following:**

- **Create/update your Local Emergency Operations Plan (LEOP) \*\*** consistent with the Comprehensive Preparedness Guide (CPG) 101 v.2 November 2010 which serves as the foundation for State and local emergency planning. CPG 101 can be found at:  
[http://www.fema.gov/pdf/about/divisions/npd/CPG\\_101\\_V2.pdf](http://www.fema.gov/pdf/about/divisions/npd/CPG_101_V2.pdf).
- **Develop/Enhance an All-Hazards Mitigation Plan\*\*** for your community, approvable by the Federal Emergency Management Agency (FEMA).
- Community-based planning to advance “whole community” security and emergency management.
- Modify existing incident management and emergency operations plans.
- Develop/enhance comprehensive emergency management plans.
- Develop/enhance large-scale and catastrophic event incident plans.
- Develop/enhance logistics and resource management plans.
- Develop/enhance local evacuation plans, including alerts/warning, crisis communications, sheltering, and re-entry.

- Develop/enhance a Continuity of Operations Plan (COOP)/Continuity of Government Plan (COG), following the DHS program guidance.
- Develop a local debris management plan.
- Develop/enhance a local shelter plan.
- Develop/enhance emergency management and operations plans to integrate citizen/volunteer and other non-governmental organization resources and participation.
- Develop/enhance other response and recovery plans, following the DHS program guidance.

**\*\* A community must have the following two plans in place before NH HSEM will consider funding other projects: an updated LEOP and a FEMA approvable All-Hazards Mitigation Plan. Applicants may apply for funding for these plans in conjunction with other items.**

***Organization/Administrative***

EMPG Program funds may be used for all-hazards emergency management operations, staffing, and other day-to-day activities in support of emergency management. Proposed staffing activities should be linked to accomplishing emergency management-related projects and activities. This grant is project-driven.

- Develop or update procedures for tracking of disaster-related expenses by local agencies.
- Program evaluations.
- Develop/enhance systems to monitor training programs.

***Equipment***

Allowable equipment categories for the FY 2011 EMPG Program are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by FEMA at <http://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

The **select allowable equipment** includes equipment from the following AEL Categories:

- [04] Information Technology
- [05] Cyber Security Enhancement Equipment
- [06] Interoperable Communications Equipment (see note below)
- [07] Detection Equipment
- [10] Power Equipment (i.e., generators)

If you have questions concerning the eligibility of equipment not specifically addressed in the AEL, they should contact the State EMPG Program Manager for clarification.

**NOTE:** Grantees that are using FY 2011 EMPG Program funds to support emergency communications activities should comply with the *FY 2011 SAFECOM Guidance for Emergency Communication Grants*, including provisions on technical standards that ensure and enhance interoperable communications. Emergency communications activities include the purchase of Interoperable Communications Equipment and technologies such as voice-over-internet protocol bridging or gateway devices, or equipment to support the build out of wireless broadband networks in the 700 MHz public safety band under the Federal Communications Commission Waiver Order. SAFECOM guidance can be found at <http://www.safecomprogram.gov>.

Grantees interested in developing a public safety broadband network in the 700 MHz band in their jurisdictions must adhere to the technical standards set forth in the FCC Waiver Order, or any succeeding FCC orders, rules, or regulations pertaining to broadband operations in the 700 MHz public safety band. The recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP).

***Training***

FY 2011 EMPG Program funds may be used for a range of emergency management-related training activities to enhance the capabilities of State and local emergency management personnel through the establishment, support, conduct, and attendance of training. ### ***Exercises***

Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Exercise activities should follow HSEEP Guidance which can be found at <https://hseep.dhs.gov>. Grantees are encouraged to develop exercises that test their Local EOPs. *Before applying for EMPG funds for an exercise, please contact the State's Exercise/Training Officer on availability for HSEEP funding which is 100% compared to 50% under EMPG.*

### **Allowable exercise-related costs include:**

- Overtime and Backfill - The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- Durable and non-durable goods purchased for installation and/or use beyond the scope of exercise conduct.

***Mitigation***

**Mitigation Activities** may include:

- Brick and mortar projects, such as, installing drainage ditches, enlarging culverts, or installing riprap. No annual maintenance activities allowed, such as brush removal, or drainage clearing.
- Communications activities, such as communications studies, compatibility studies, and/or purchasing of communications equipment for interoperability.

***Maintenance and Sustainment***

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded that **supplanting is not permitted under the EMPG Program**. Maintenance contracts and warranties, repair and replacement costs, upgrades, and/or user fees for equipment that was not originally purchased with preparedness grant funding may not be subsequently paid for with preparedness grant funding.

**Maintenance and Sustainment** may include:

- Maintenance Contracts and Warranties - To increase the useful life of the equipment, FEMA has determined that maintenance contracts and warranties may be purchased using grant funding from one FY to cover equipment purchased with funding from a different FY. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
  - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
  - The term of the maintenance contract or warranty shall not exceed the period of performance of the grant to which the contract is being charged.

*Maintenance and Sustainment*

**Maintenance and Sustainment may include (cont.):**

- Repair and Replacement Costs - The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense
  - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment
- Upgrades - FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with EMPG Program funds in FY 2005 and would like to use FY 2011 grant funding to upgrade the software, this is allowable.
  - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding.
  - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment.
- User fees - User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers
  - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
  - To avoid supplementing congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment.
  - The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged.

**Unallowable Costs/Items Not Funded**

- General administrative projects. Administrative expenses must be directly connected to a specific Emergency Management-related project.
- The same/similar project will not be funded year after year.
- Expenditures for weapons systems and ammunition.
- Costs to support the hiring of sworn public safety officers for the purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities.

*Councilor Smith MOVED to open the Public Hearing on RESOLUTION #2012-20 authorizing the acceptance and expenditure of \$102,024 in Emergency Management Planning Grant funds from the New Hampshire Department of Safety to purchase portable radios for the Durham Fire Department. Councilor Cote SECONDED the motion, and it PASSED unanimously 9-0.*

Fire Chief Corey Landry said there was a 50% match for these funds as well, and also said this item was in the 2013 Budget. He said the money would be used to purchase 52 portable radios that used the latest technology.

There was discussion about the fact that the model for the radios was different than the model the Police Department would be using. Councilor Lawson said the models were very similar, and noted that they both had a lot of interoperable capability.

Councilor Stanhope asked why 52 radios were needed, and also said he was struck by the fact that there wasn't a universally usable radio for all of the departments.

Chief Landry provided details on this.

***Councilor Smith MOVED that the Town Council does hereby adopt RESOLUTION #2012-20 authorizing the acceptance and expenditure of \$102,024 in Emergency Management Planning Grant funds from the New Hampshire Department of Safety to purchase portable radios for the Durham Fire Department. Councilor Howland SECONDED the motion and it PASSED unanimously 9-0.***

Chief Landry said there was a 50% match for this grant as well, and said the match would come from the Oyster River School District. He said the grant had been received, and was for both the High School and the Middle School.

Councilor Lawson said it was analogue for the Fire Department, and did have a digital capability for the Police Department.

Chief Landry noted that there would need to be a frequency change because the frequencies of the Fire Department and Police Department were currently so close. He said it would cost \$900-1,000 to do the frequency change.

Councilor Cote said this would be a great test run of the technology that had been discussed at a previous Council meeting.

***Councilor Smith MOVED to close the Public Hearing. Councilor Mower SECONDED the motion, and it PASSED unanimously 9-0.***
