REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, to enter into a **sole source** agreement with PL Medical Company, LLC. (Vendor # 163295-B002), 117 West Dudley Town Road, Bloomfield, CT 06002, to provide on-site services and preventative maintenance visits for the Panasonic Thermoluminescent Dosimeter (TLD) Reader in an amount not to exceed \$16,200, effective upon Governor and Executive Council approval, through December 31, 2020. 100% Other Funds

State Fiscal Year	Class/Account	Class Title	Job Number	Total Amount
2020	024-500225	Maintenance Other than Building	90033001	\$16,200
			Total	\$16,200

EXPLANATION

This request is **sole source** because the vendor is the sole representative to provide service for the Panasonic Thermoluminescent (TLD) Reader.

The purpose of this request is to provide emergency repairs and service, as well as required preventative maintenance service to the Panasonic Thermoluminescent Dosimeter Reader, used by the Public Health Laboratories Radiochemistry Laboratory Section to analyze environmental samples collected in the vicinity of the Seabrook Station Nuclear Power Plant, as well as other locations throughout the state.

In the event of a radiological emergency at the nuclear power plant, the Radiochemistry Laboratory would assume the lead role for the coordination and analysis of environmental samples in the State of New Hampshire. The routine data collected prior to a radiological emergency constitutes the baseline data. The baseline data is used for comparison against samples collected during an emergency. Maintaining the Panasonic Thermoluminescent Dosimeter Reader in a ready and operating condition is a key to supporting the analysis of post-emergency samples. This is an essential component of the New Hampshire Nuclear Emergency Response Plan (NHNERP) mandated by RSA 107-B.

The Department will monitor the effectiveness of contract services required under this agreement using the following performance measures:

- The Contractor will respond to on-site service request within two (2) business days.
- The Contractor will provide two (2) on-site preventative maintenance visits.

As referenced in the Exhibit C-1 of this contract, the parties have the option to extend contract services for up to three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and approval of the Governor and Executive Council.

Should Governor and Executive Council not authorize this Request, the Panasonic Thermoluminescent Reader would be without a service contract for maintenance and repair. If the Thermoluminescent Reader were to become inoperable, laboratory staff is not capable of initiating repairs. The laboratory would not be able to analyze environmental samples for routine monitoring or emergency response, putting the health of New Hampshire citizens at risk.

Area served: Statewide

Source of Funds: 100% Other Funds from the Department of Safety, Bureau of Emergency Management, Homeland Security Utility Assessment Fee

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
