Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

Retroactive

Your Excellency and Honorable Councilors:

REQUESTED ACTION

Authorize the New Hampshire Public Utilities Commission to retroactively amend its contract with Liberty Consulting Group, 65 Main Street, P.O. Box 1237, Quentin, PA 17083 (Vendor No. 166984) to continue to provide engineering consulting services by extending the contract from December 31, 2013, through June 30, 2014. The original contract was approved by Governor and Council on July 11, 2012, Item #48, through December 31, 2013, with 100% of funding provided through Utilities Assessment. No additional funding is requested.

EXPLANATION

The New Hampshire Public Utilities Commission (Commission) respectfully requests a **RETROACTIVE** approval of a six-month extension of the end date of the contract due to a continuing need for engineering consulting services in the course of utility proceedings and investigations. This request is **RETROACTIVE** due to the time lag between work performed and the submission of invoices for processing. Several current proceedings have procedural schedules that extend beyond December 31, 2013. In addition, approving this time extension will allow the Commission to draw upon technical experts without delay as new tasks arise.

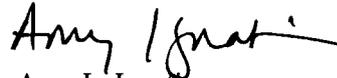

With a limited number of utility engineers on staff, the Commission has relied on engineering consulting services over the past several years for various technical investigations and proceedings, including review of weather-related service outages and PSNH's costs associated with its wet flue gas desulfurization "Scrubber" project at Merrimack Station. Accordingly, a Request for Proposals (RFP) was issued on January 19, 2012. The Commission received nine responses to the RFP. The Director and Assistant Director of the Commission's Electric Division reviewed the responses, ranked them according to the criteria set out in the RFP, and recommended that the Commission enter into contracts with The Liberty Consulting Group, as well as with Accion Group and Jacobs Consultancy.

Contracting with three separate consulting firms provides the Commission with the ability to address both anticipated and unanticipated engineering needs as efficiently as possible. The three contracts are structured such that the Commission will assign work to one of the contractors on a project by project basis as needed, and the utility is assessed costs only as services are rendered by

one of the contractors. All three contracts ended on December 31, 2013. Because funds remain under each contract and the Commission has a continuing need for engineering services, extensions through June 30, 2014 are requested, with no additional funding required.

Your approval of our request is appreciated.

Respectfully submitted,

Amy L. Ignatius

Your Excellency and Honorable Councilors:

REQUESTED ACTION

Pursuant to RSA 365:37, II and III, authorize the Public Utilities Commission to enter into a contract with The Liberty Consulting Group, 65 Main St., P.O. Box 1237, Quentin, PA 17083, Vendor Code No. 166984 effective on the date of Governor and Council approval to December 31, 2013, in an amount not to exceed \$125,000.00. Funding is 100% Utility Assessment.

Funds will be available, pursuant to RSA 365:37, II, in account 02-81-81-810010-33260000-046-500464, Liberty Utility Project, General Consultants, for FY 2013 and FY 2014, with the authority to adjust encumbrances in each of the State fiscal years through the Budget Office, if needed and justified.

<u>FY2013</u>	<u>FY2014*</u>	<u>Total</u>
\$100,000	\$25,000	\$125,000

(*Pending Budget Approval for FY 2014)

EXPLANATION

The Public Utilities Commission (Commission) respectfully requests authority to enter into a contract in an amount not to exceed \$125,000.00 with The Liberty Consulting Group (Liberty), a consulting firm specializing in the regulated utilities industry, to provide engineering consulting services. Pursuant to RSA 365:37, III (effective June 5, 2012), the Commission shall seek approval of Governor and Council for contracts with experts greater than \$100,000 for certain types of investigations or proceedings. RSA 365:37, II allows to the Commission to assess the costs of experts against the impacted utility and any other parties to the proceeding.

Liberty will render services on a "needs be" basis up to 625 hours over the life of the contract. Liberty will be expected to work on a broad range of electric and gas utility related assignments primarily in the area of

distribution engineering up to 34KV. Projects could include reliability assessment of distribution systems, analysis and review of electric and natural gas transmission and distribution systems, outages, and replacement energy procurement practices.

With a limited number of utility engineers on staff, the Commission has relied on engineering consulting services over the past several years for various technical investigations and proceedings, including review of weather-related service outages and PSNH's costs associated with its wet flue gas desulfurization "Scrubber" project at Merrimack Station. Accordingly, a Request for Proposals (RFP) was issued on January 19, 2012. The Commission received nine responses to the RFP. The Director and Assistant Director of the Commission's Electric Division reviewed the responses, ranked the responses according to the criteria set out in the RFP, and recommended that the Commission enter into contracts with Liberty as well as with Accion Group, Inc. and Jacobs Consultancy. The contract with Jacobs Consultancy will be submitted for approval in August 2012.

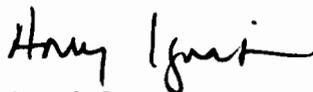

Contracting with three separate consulting firms provides the Commission with the ability to address both anticipated and unanticipated engineering needs as efficiently as possible. The price limitation assigned to each vendor is based on an assessment of potential proceedings over the next two years. Therefore, the three consulting contracts are not fixed price contracts but are structured such that the Commission will assign work to one of the contractors on a project by project basis, as needed, and the utility is only assessed the costs as services are rendered by one of the contractors. All three contracts will end December 31, 2013.

As noted in the RFP, cost was a consideration but not the determining factor in the selection of the contractors. The bid responses were measured against criteria such as the quality and extent of the applicant's familiarity and expertise in utility operations, experience providing similar services in New Hampshire and to other utility commissions, and accessibility of staff. The lowest cost bidders did not possess the necessary technical expertise or the range of experience required for this engagement. All three selected contractors have extensive experience in the areas requested as well as substantial experience working on utility matters for the Commission. Therefore, the Commission has selected, subject to Governor and Council approval, The Liberty Consulting Group to provide utility engineering consulting services. Liberty's proposal was competitive, responsive to the RFP and offered personnel with outstanding qualifications.

The contract amount will not affect the General Fund. Liberty will be contracted to work on projects as they arise and the funds will be assessed pursuant to RSA 365:37, II which permits the Commission to obtain experts and assess the costs to the utility.

Your consideration of our request is appreciated.

Respectfully submitted,

Amy L. Ignatius
Chairman

TITLE XXXIV PUBLIC UTILITIES

CHAPTER 365 COMPLAINTS TO, AND PROCEEDINGS BEFORE, THE COMMISSION

Reparations, Fees and Costs

Section 365:37

365:37 Expense of Investigations. –

I. Whenever any investigation shall be necessary to enable the commission to pass upon any petition for authority to issue stocks, bonds, notes, or other evidence of indebtedness, for authority to operate as a public utility or to expand operations as a public utility, to make extensions into new territory, to discontinue service, to condemn property for flowage rights and dam construction, or for authority to sell, consolidate, merge, transfer, or lease the plant, works, or system of any public utility, or any part of the same, or for any other matter which requires the commission's approval, the petitioner shall pay to the commission the expense involved in the investigation of the matters covered by said petition, including the amounts expended for experts, accountants, or other assistants. Such expense shall not include any part of the salaries or expenses of the commissioners or of employees of the commission or, unless the proceeding is being conducted pursuant to RSA 38, the fees of experts testifying as to values in condemnation proceedings.

II. Whenever the commission institutes a proceeding, or when more than one utility subject to the jurisdiction of the commission shall be involved in a proceeding in which the commission requires the assistance of experts, accountants or other assistants, regardless of whether they petitioned the commission in the first instance, the commission may assess the costs of experts, accountants or other assistants hired by the commission against the utilities and any other parties to the proceeding. The commission shall not, however, assess any such costs against the office of the consumer advocate or against any voluntary corporation, not-for-profit organization, or any municipality unless the municipality is involved in a proceeding before the commission pursuant to RSA 38. In the case of a utility, the assessment of those costs shall be based on the annual revenues of the participating utilities in the same manner as issued in assessing the annual operating expenses of the commission, or as appropriate and equitable on a case by case basis. In the case of a party who is not a utility, the assessment of those costs shall be as appropriate and equitable on a case by case basis. Such expenses shall not include any part of the salaries or expenses of the commissioners or of employees of the commission or, unless the proceeding is being conducted pursuant to RSA 38, the fees of experts testifying as to values in condemnation proceedings.
