This project is part of the CY 2020 District Resurfacing Program. The sections will be resurfaced via paver shim, paver spot drag shim, full width high strength inlay, full width high strength overlay, full width leveling course and full width hot bituminous pavement overlay. Eighteen (18) existing sidewalk curb ramps within 4 sections will be improved.

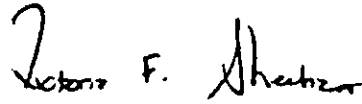

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer’s estimate in accordance with State procedures. Copies of the fully executed contract are on file at the Secretary of State’s Office and the Department of Administrative Service’s Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is part of the State Resurfacing program and involves 49.4 miles of pavement resurfacing on sixteen (16) sections in nineteen (19) towns in Districts 5 and 6. There are seven (7) drag shim section included in this project. See the paving section table for additional information.

FEDERAL FUNDING: 0% (Senate Bill 367 100%)

CONTINGENCY: There is no contingency for this project.

PROJECT INITIATED: The Pavement Management Section has reviewed the road segments included in this project. They have identified 3 sections for Preservation totaling 8.9 miles, 11 sections for Light Capital Paving totaling 40.0 miles, and 2 sections for Minor Rehabilitation totaling 0.7 miles. This project will improve roadway ride quality and increase safety. In addition, sidewalk curb ramps will be improved to comply with the Americans with Disabilities Act.

PROJECT EXPLANATION: This project is part of the CY 2020 District Resurfacing Program. The sections will be resurfaced via paver shim, paver spot drag shim, full width high strength inlay, full width high strength overlay, full width leveling course and full width hot bituminous pavement overlay. Eighteen (18) existing sidewalk curb ramps within 4 sections will be improved. All impacted towns and utilities will be notified of the work.

TRAFFIC IMPLICATION: Only one section will be paved at a time. Traffic impacts are anticipated to be limited to temporary lane closures and short term one-lane, alternating two-way traffic during work hours. Work zone significance was determined to be non-significant at the December 19, 2019 Traffic Control Committee Meeting.

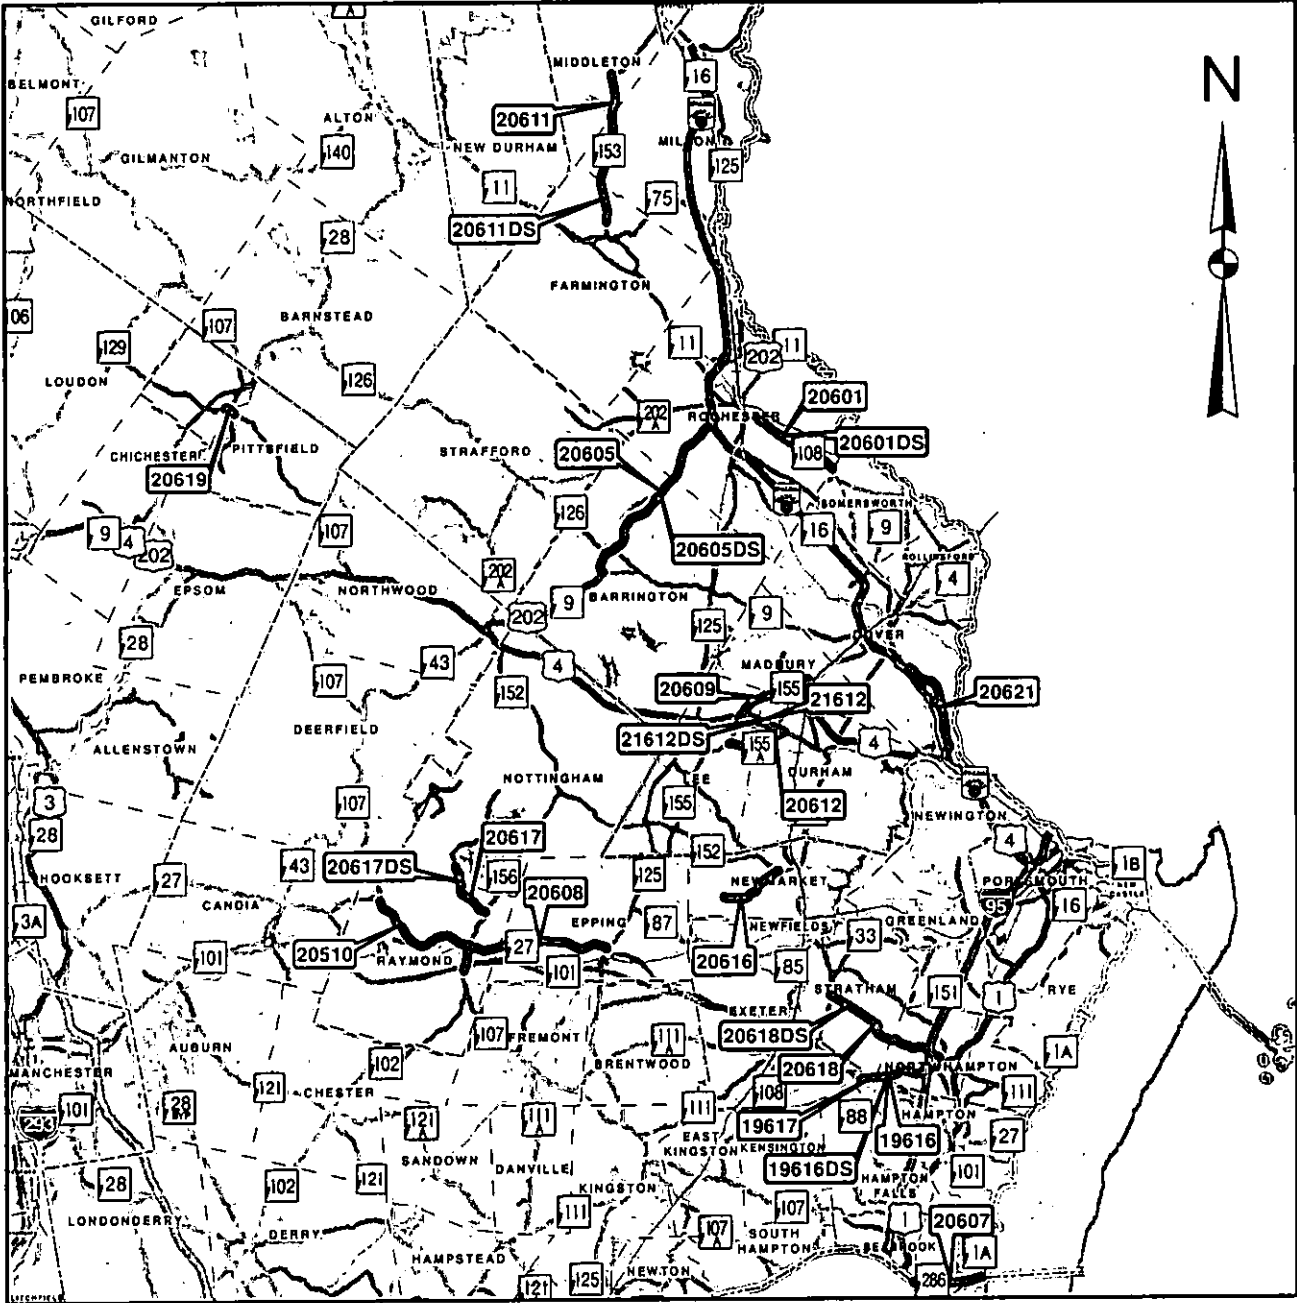

FINAL COMPLETION DATE: September 25, 2020.
