Exhibit B Amendment #2

**Method and Conditions Precedent to Payment**

The State shall pay the Contractor an amount not to exceed the Price Limitation, block 1.8, for the services provided by the Contractor pursuant to Exhibit A, Scope of Services, and in accordance with Exhibit B.

Funding for this Agreement is funded by various sources as a percentage of the total amount of \$1,120,599 as follows:

- 46 % Federal Funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant (CFDA #93.959);
- 22 % General Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment Funds; and
- 32 % General funds.

**I. Payment Methodology**

The Contractor shall be reimbursed for providing and delivering the services listed in Exhibit A, paragraph B. The following terms and conditions detailed in this Exhibit B shall apply to all services unless expressly stated otherwise.

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the Service Reimbursement Table below. Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2015 (effective July 1, 2014) the contractor will receive a payment for each service at the rates and within the limits described below. For clients receiving DHHS supported services, the contractor may not charge the client, any 3<sup>rd</sup> party payor, and DHHS a combined rate that is more than the rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

1. The maximum allowed charge will be billed to the client's insurer, if applicable.
2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
3. The balance of the maximum allowed charge, after deducting the client's portion and insurance payment, if applicable, shall be charged to DHHS.

**Service Reimbursement Table** - A check mark indicates the services and corresponding rates the Contractor will be reimbursed for.

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY14.

1. Performance Incentives:

A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for

services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. **Abstinence:** The client reports reduced or no substance use in the past 30 days.
- ii. **Employment/Education:** The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. **Crime and Criminal Justice:** The client reports no arrests in the past 30 days.
- iv. **Stability in Housing:** The client reports being in stable housing.
- v. **Social Connectedness:** The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

**Exhibit B Amendment #2**

---

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Exhibit B Amendment #2

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Manchester Area.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

Manchester Alcoholism Rehabilitation Center was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

His Excellency, Governor John H. Lynch  
and the Honorable Executive Council

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$1,120,599.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

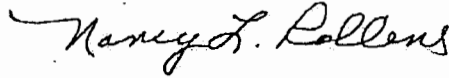

Area served: Manchester Area.

**B. Required Services**

**Priority Admission:**

- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.

- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

***Required Outreach:***

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

***Health Facilities Administration Licensing Requirements:***

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

***Capacity Reporting:***

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

***Access to Services:***

The Contractor shall respond to calls requesting treatment and/or transitional living program services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. The Access Criteria as defined in Exhibit B must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted.

The Contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

***Limitations on Exclusionary Criteria:***

American Society for Addiction Medicine (ASAM) Patient Placement Criteria, in and of itself, shall not be a reason to deny a higher level of care to an individual, if the lower level of care is unavailable or inaccessible. Level of care will be determined by the administration of the Addiction Severity Index (ASI) or the Global Appraisal of Individual Needs (GAIN).

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

A client who is either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH.

***Sliding Fee Scale:***

The Contractor shall adopt a sliding fee scale based on federal poverty guidelines as published in the most recent Federal Register (<http://aspe.hhs.gov/poverty/>). The Contractor must provide the client with the cost of services and a fee scale prior to rendering services. The Contractor's sliding fees scale and fee schedule shall be submitted to BDAS, as agent for DHHS, within 60 days of contract effective date. Changes in the sliding fee scale or service fee schedule shall be submitted to the BDAS on behalf of DHHS within 30 days of the change.

TOTAL: \$1,120,599.00

III. Payment Methodology

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the approved contract budget(s). Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2013 (effective July 1, 2012) the contractor will receive a payment for each modality of services at a rate of one-twelfth (1/12) of the annual amount approved in the contract for that modality, less any pay for performance factors (utilization, access and retention) that apply. The annual contract approved amount prorated to the monthly portion is considered the BASE monthly reimbursement amount.

**1. Performance Utilization:**

**A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:**

Utilization criteria will be applied exclusively on a month-by-month basis. Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

**B. Utilization Methodology by Modality:**

- i. **Outpatient:** Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. **Intensive Outpatient:** Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. **Residential Treatment/transitional living/halfway house:** Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000 / \$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

**2. Utilization Access and Retention Payment Criteria Requirement**

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied

exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

**B. Retention:**

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service
- iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

**3. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**4. Invoicing & Billing:**

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

Standard Exhibits C – J  
TX Substance Use Disorder

Contractor Initials: ET  
Date: 5/22/12

*Any reallocation of funds between modalities of service requires prior written justification and approval from BDAS on behalf of DHHS. Reallocation of funds cannot exceed the total approved contracted amount.*

**V. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

*The Contractor agrees to use the SAPT funds as the payment of last resort.*

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VI. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

**(5) Termination for Cause**

In addition to standard provision #10 of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**(6) Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, and the HITECH Act as amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section 3 k, the defense and indemnification provisions of section 3 d and standard contract provision #13, shall survive the termination of the Agreement.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors  
of The Mental Health Center of Greater Manchester, Inc.  
and Manchester Mental Health Foundation, Inc.

NOTES TO COMBINING FINANCIAL STATEMENTS  
June 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Mental Health Center of Greater Manchester, Inc. (the "Center") a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health, and related non-mental health programs is exempt from income taxes under Section 501 (c)(3) of the Internal Revenue Code. In addition, the organization qualifies for the charitable contribution deduction under Section 170 (b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2). In July 1990, the Center was reorganized and Manchester Mental Health Foundation, Inc. (the "Foundation") became the sole corporate member of the Center. The Foundation is also a 501(c)(3). The Foundation's purpose is to raise and invest funds for the benefit of the Center.

Basis of Presentation

The combining financial statements include the accounts of The Mental Health Center of Greater Manchester, Inc. and its affiliate, Manchester Mental Health Foundation, Inc. All inter-company transactions and accounts have been eliminated in combination.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2012, remain open for potential examination by major tax jurisdictions, generally for three years after they were filed.

State Grants

The Center receives a number of grants from, and has entered into various contracts with the State of New Hampshire related to the delivery of mental health services.

Depreciation

The cost of property, equipment and improvements is depreciated over the estimated useful life of the assets using the straight line method. Assets deemed to have a useful life greater than three years are deemed capital in nature. Estimated useful lives range from 3 to 40 years.

Vacation Pay and Fringe Benefits

Vacation pay is accrued and charged to the programs when earned by the employee. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the programs.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue

Revenue from federal, state and other sources is recognized in the period earned.

Accounts Receivable

Accounts receivable are recorded based on amounts billed for services provided, net of respective contractual adjustments and bad debt allowances.

Policy for Evaluating Collectability of Accounts Receivable

In evaluating the collectability of accounts receivable, the Center analyzes past results and identifies trends for each major payor source of revenue for the purpose of estimating the appropriate amounts of the allowance for contractual adjustments and bad debts. Data in each major payor source is regularly reviewed to evaluate the adequacy of the allowance for contractual adjustments and doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for contractual adjustments and doubtful accounts and a corresponding provision for contractual adjustments and bad debts are established for amounts outstanding for an extended period of time and for third-party payors experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible.

Based on management's assessment, the Center provides for estimated contractual allowances and uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Center has used reasonable collection efforts are written off through a change to the valuation allowance and a credit to accounts receivable.

During 2015, the Center increased its estimate in the allowance for doubtful accounts from 58% to 71% of total accounts receivable to \$6,050,921 as of June 30, 2015 from \$4,918,837 as of June 30, 2014. This was a result of self-pay patient accounts receivable increasing as a percentage of accounts receivable to 53% of total accounts receivable as of June 30, 2015 from 45% of total accounts receivable as of June 30, 2014.

Client Service Revenue

The Center recognizes client service revenue relating to services rendered to clients that have third-party payor coverage and are self pay. The Center receives reimbursement from Medicare, Medicaid and Insurance Companies at defined rates for services to clients covered by such third-party payor programs. The difference between the established billing rates and the actual rate of reimbursement is recorded as allowances when received. For services rendered to uninsured clients (i.e., self-pay clients), revenue is recognized on the basis of standard or negotiated discounted rates. At the time services are rendered to self-pay clients, a provision for bad debts is recorded based on experience and the effects of newly identified circumstances and trends in pay rates. Client service revenue (net of contractual allowances and discounts but before taking account of the provision for bad debts) recognized during the year ended June 30, 2015 totaled \$21,950,887, of which \$21,292,274 was revenue from third-party payors and \$658,613 was revenue from self-pay clients.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents.

Temporarily and Permanently Restricted Net Assets

Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets.

Temporarily restricted net assets are those whose use by the Center or Foundation has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as either net assets released from restrictions (for non-capital related items) or as net assets released from restrictions used for capital purchases (capital related items).

Permanently restricted net assets are restricted by donors and to be maintained in perpetuity. Income earned on permanently restricted net assets, to the extent not restricted by the donor, including net realized appreciation on investments, would be included in the statement of activities as unrestricted resources or as a change in temporarily restricted net assets in accordance with donor-intended purposes.

Included in the Foundation's unrestricted net assets is \$600,000 of board designated net assets, which was result of a board approved donation from the Center to the foundation during the year ended June 30, 2015 of \$600,000.

Employee Benefit Program

The Center maintains a tax-sheltered annuity benefit program, which covers substantially all employees. Eligible employees may contribute up to maximum limitations (set annually by the IRS) of their annual salary. After one year's employment, the employees' contributions are matched by the Center up to 5 percent of their annual salary. The combined amount of employee and employer contributions is subject by law to yearly maximum amounts. The employer match was \$409,390 for the year ended June 30, 2015.

Postretirement Medical Benefits

The Center sponsors an unfunded defined benefit postretirement plan covering certain of its employees (employed prior to January 1, 1997). In 2008, all eligible active employees were offered and accepted a buyout of the program leaving the plan to provide medical benefits to eligible retired employees. See Note 8 for further discussion of the Plan.

For retirements prior to January 1, 1997, benefits are based upon quoted premium rates. For retirements on or after January 1, 1997 up to June 30, 2007, the benefits are based on monthly premiums frozen at their December 31, 1996 level. The plan is funded as premiums are paid.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Malpractice Loss Contingencies

The Center has an occurrence basis policy for its malpractice insurance coverage. An occurrence basis policy provides specific coverage for claims resulting from incidents that occur during the policy term, regardless of when the claims are reported to the insurance carrier. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the Center. In the event a loss contingency should occur, the Center would give it appropriate recognition in its financial statements.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid

The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations for services rendered to Medicaid clients on the basis of fixed Fee for Service rates.

Approximately 79% of net client service revenue is from participation in the state and managed care organization sponsored Medicaid programs for the year ended June 30, 2015. Laws and regulations governing the Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonable possible that recorded estimates could change materially in the near term.

NOTE 3 PROPERTY AND EQUIPMENT

Property, plant and equipment is stated at cost. Expenditures for maintenance and repairs are charged to expense as incurred and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the assets being depreciated.

Property and equipment consisted of the following at June 30, 2015:

Land	\$ 1,415,708
Buildings and improvements	4,581,240
Furniture and equipment	<u>1,576,978</u>

Accumulated depreciation	<u>(4,348,721)</u>
	<u>\$ 3,225,205</u>

NOTE 9 OTHER POST-RETIREMENT HEALTH BENEFIT PLAN

During 2007, the Center offered a buyout to employees who would have been eligible to participate in the post-retirement health plan upon their retirement. As a result, no additional employees will be enrolled in the plan. Only current retirees participate in the plan.

During 1997, the Center amended the plan to freeze monthly premiums at their December 31, 1996 level and to no longer provide the postretirement benefit to employees hired after December 31, 1996. The weighted-average annual assumed rate of increase in per capita cost of covered benefits (i.e., health care cost trend rate) was 4.00% for the year ending June 30, 2015; and 4.00% per year for retirements that occurs on or after January 1, 1997, until those retirees' monthly premium cap of \$188 is reached.

NOTE 13 FAIR VALUE MEASUREMENTS

The Foundation's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable or reflective of future fair values. Furthermore, although the Foundation believes its valuations methods are appropriate and consistent with other market participant, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quotes prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority.

The Mental Health Center of Greater Manchester, Inc.  
and Manchester Mental Health Foundation, Inc.  
NOTES TO COMBINING FINANCIAL STATEMENTS  
June 30, 2015

NOTE 13 FAIR VALUE MEASUREMENTS (continued)

The Foundation uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Foundation measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 input valuation methods are described in detail below and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds, equities and options are valued at the daily closing price as reported by the fund. Mutual funds, equities and options held by the Foundation are open-end and are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The investments held by the Foundation are deemed to be actively traded.

The following table presents by level, within the fair value hierarchy, the Foundation investment assets at fair value, as of June 30, 2015. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

### III. Performance Incentives:

#### A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

#### B. Completion:

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

#### C. Client Outcomes:

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.

- v. Social Connectedness: The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.

- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

VIII. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**IX. Payment and Invoicing Instructions for Exhibit A-1, Scope of Services**

- A. Payment for said services shall be made as follows:

- B. The invoice shall include an itemized listing of expenses, amounts and dates when the expenses incurred.
- C. The Contractor shall provide supporting documentation to support evidence of actual expenditures identified on the invoice and in accordance with the Department approved plan, such as but not limited to: a copy of the approval from the Department to expend the funding; a detailed description of the scope of work that was completed; copies of invoices for purchases; and/or the names of the Contractor's staff, dates and hours worked and amounts being billed for the specific scope of work.
- D. Allowable costs and expenses shall be determined by the Department in accordance with applicable state and federal laws and regulations.
- E. The Contractor shall not bill for reimbursement of expenses incurred before or after the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
- F. The Contractor shall obtain Department approval prior to incurring the expense to provide the scope of work described in the Department approved plan.
- G. Notwithstanding anything to the contrary herein, the Contractor agrees that funding under this contract may be withheld, in whole, or in part, in the event of noncompliance with any State or Federal law, rule or regulation applicable to the services provided, or if the said services have not been completed in accordance with the terms and conditions of this Agreement.

<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

Division of Community Based Care Services (DCBCS) Sentinel Event Notification:

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;

**III. Performance Incentives:**

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. **Abstinence:** The client reports reduced or no substance use in the past 30 days.
- ii. **Employment/Education:** The client reports increased or retained employment or the client reports returning to or staying in school.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

The Contractor shall complete all billing for all services defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)

- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

VIII. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.
- b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:
- o The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
  - o The unauthorized person used the protected health information or to whom the disclosure was made;
  - o Whether the protected health information was actually acquired or viewed
  - o The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

- c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.
- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

**(5) Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**C. Required Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

If the client has insurance that will reimburse for these services at an amount equal or greater to the DHHS reimbursement rate, the client is not eligible for DHHS funded services. The contractor may not charge the combination of the client, any 3rd party payor, and DHHS more than the maximum charge allowed. These parties shall be charged in the following order:
  - a. The maximum allowed charge will be billed to the client's insurer, if applicable.

The Contractor agrees to maintain the wait list management system in WITS that includes a unique patient identifier and include information on dates of requests for admission to treatment, provision of interim services and source for those services, referrals made for treatment or interim services, and disposition of clients on the waiting list.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. **Abstinence:** The client reports reduced or no substance use in the past 30 days.
- ii. **Employment/Education:** The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. **Crime and Criminal Justice:** The client reports no arrests in the past 30 days.
- iv. **Stability in Housing:** The client reports being in stable housing.
- v. **Social Connectedness:** The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

New Hampshire Department of Health and Human Services  
Substance Use Disorder Treatment Services

Exhibit B Amendment #2

---

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Exhibit B Amendment #2

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Manchester area.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

The Mental Health Center of Greater Manchester was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

His Excellency, Governor John H. Lynch  
and the Honorable Executive Council  
May 25, 2012  
Page 3 of 4

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$27,114.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

Area served: Manchester.

## 1. Performance Utilization:

### A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:

Utilization criteria will be applied exclusively on a month-by-month basis, Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

### B. Utilization Methodology by Modality:

- i. Outpatient: Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. Intensive Outpatient: Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. Residential Treatment/transitional living/halfway house: Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000/\$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

## 2. Utilization Access and Retention Payment Criteria Requirement

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

**B. Retention:**

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service

Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**4. Invoicing & Billing:**

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VI. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
7. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

8.1 Renegotiate the rates for payment hereunder, in which event new rates shall be established;

8.2 Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

8.3 Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

If Covered Entity objects to such disclosure, the Business Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

- d. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section (3)b and (3)k herein. The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard provision #13 of this Agreement for the purpose of use and disclosure of protected health information.
- e. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- f. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- g. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- k. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity; all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

**(4) Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

**(5) Termination for Cause**

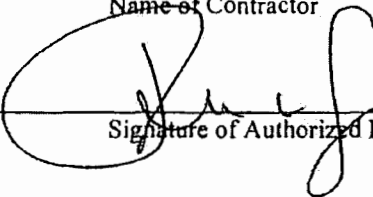

In addition to standard provision #10 of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**(6) Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, and the HITECH Act as amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule and the HITECH Act.
- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section 3 k, the defense and indemnification provisions of section 3 d and standard contract provision #13, shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

## REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of  
**Phoenix Houses of New England, Inc.:**

We have audited the accompanying financial statements of Phoenix Houses of New England, Inc. ("PH New England"), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

### **Management's responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to PH New England's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PH New England's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material aspects, the financial position of Phoenix Houses of New England, Inc. as of June 30, 2015 and 2014, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Supplementary Information**

Our audits were conducted for the purposes of forming an opinion on the financial statements of PH New England as of and for the years ended June 30, 2015 and 2014, taken as a whole. The supplementary information included on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

## Notes to Financial Statements

June 30, 2015 and 2014

---

### 1. ORGANIZATION

Phoenix Houses of New England, Inc. (“PH New England”) is a Section 501(c)(3) not-for-profit organization, exempt from federal income taxes under Section 501(a) of the Internal Revenue Code (the “Code”). PH New England is also exempt from state and local taxes under similar provisions. PH New England was established in order to operate therapeutic treatment centers for the rehabilitation of drug and substance abusers throughout New England.

Phoenix House Foundation, Inc. (the “Parent”) is the sole member of PH New England and the following affiliated organizations: Phoenix Houses of New York, Inc. and Affiliates (which consists of Phoenix Houses of New York, Inc. and Phoenix Houses of Long Island, Inc.); Phoenix Houses of California, Inc. and Affiliates (which consists of Phoenix Houses of California, Inc.; Phoenix Houses of Los Angeles, Inc.; Phoenix House Orange County, Inc.; and Phoenix House San Diego, Inc.); Phoenix Houses of the Mid-Atlantic, Inc. and Affiliate (which consists of Phoenix Houses of the Mid-Atlantic, Inc. and Phoenix Houses of Mid-Atlantic Property Management, Inc.); Phoenix Programs of Florida, Inc.; Phoenix Houses of Texas, Inc.; American Council for Drug Education, Inc.; Center on Addiction and the Family, Inc.; and Phoenix Houses of New Jersey, Inc.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). Accordingly, the net assets of PH New England and changes therein are classified and reported based upon the existence or absence of donor-imposed restrictions as follows:

- Unrestricted net assets represent expendable resources that are used to carry out PH New England’s operations and are not subject to donor-imposed stipulations.
- Temporarily restricted net assets represent resources that contain donor-imposed restrictions that permit PH New England to use or expend such resources only as or when specified. Restrictions are satisfied either by the passage of time or by actions of PH New England.
- Permanently restricted net assets contain donor-imposed restrictions that stipulate that such resources be maintained permanently. PH New England had no permanently restricted net assets at June 30, 2015 and 2014.

#### Cash and Cash Equivalents

PH New England considers all highly liquid financial instruments, which principally consist of money market funds, with original maturities of three months or less from the date of purchase to be cash equivalents.

**PHOENIX HOUSES OF NEW ENGLAND, INC.**  
**Notes to Financial Statements**  
**June 30, 2015 and 2014**

---

**Use of Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The allowance for doubtful accounts on accounts receivable and the fair value of donated goods represent significant accounting estimates reflected in the accompanying financial statements. Actual results could differ from those estimates.

**Donated Goods**

Donated goods are recorded as revenues and assets (at fair value when received) and expenses (when used) on the statement of operations and changes in net assets. Food stamps are recorded at face amount, which is the same as fair value, as revenues and assets and are charged to resident sustenance when expended.

**Property and Equipment**

Property and equipment are stated at cost, if purchased, or if donated, at fair value at the date of gift, less accumulated depreciation and amortization. PH New England capitalizes assets acquired for greater than \$1,000 and with useful lives greater than three years. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	4 - 40 years
Furniture, fixtures and equipment	3 - 7 years
Computer equipment and vehicles	3 - 5 years

Furniture, fixtures and equipment acquired under capital lease arrangements are amortized on the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

**Statement of Operations and Changes in Net Assets**

PH New England's operating income includes all unrestricted revenues and expenses. Other items include depreciation on non-operational assets and losses on disposals of capital assets. The statement of operations and changes in net assets also includes the caption "excess of (deficiency in) revenues over expenses," which is the performance indicator. Other changes in net assets, which are excluded from the performance indicator, consistent with industry practice, include restricted contributions (including assets acquired using contributions which by donor restriction are to be used for the purposes of acquiring such assets).

**Revenue and Support**

Contributions (including unconditional promises to give) are recorded at fair value when received. Revenues and expenses relative to special events are recognized upon occurrence of the respective event. Contributions received with donor stipulations that limit the use of the donated assets are reported as either temporarily or permanently restricted support. Unconditional promises to give, with payments due in future years, are reported as either temporarily restricted or permanently restricted support and discounted to present value. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported on the

statement of operations and changes in net assets as net assets released from restrictions. Contributions restricted by donors for the acquisition of property and equipment are released from their restrictions when the respective assets are acquired or constructed and placed into service. Such contributions and related releases are reported below the operating indicator, "excess of (deficiency in) revenues over expenses."

**Special Events Revenue**

Special events revenue consists of proceeds from fund-raising events, reported net of direct donor benefits, if any. Revenue and related expenses are recognized upon occurrence of the respective events to which they pertain. For the years ended June 30, 2015 and 2014, direct benefits to donors totaled approximately \$13,578 and \$0, respectively.

**Government Contract Revenue**

PH New England's contracts and other program funding arrangements with government agencies are classified as part of operating activities within the unrestricted net asset category and revenue is recognized when earned. PH New England operates under various contracts with government agencies which generally cover a one-year period, subject to annual renewal. The terms of these contracts allow the grantors the right to audit the costs incurred thereunder and adjust contract funding based upon, among other things, the amount of program income received. Any costs disallowed by the grantor would be absorbed by PH New England and any adjustments by grantors would be recorded when amounts are known; however, it is the opinion of management that disallowances, if any, would not be material to the accompanying financial statements.

**Client and Third Party Revenue**

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based on pre-determined rates. Medicaid and managed Medicaid approximated 56% and 33% of total client and third-party revenue for the years ended June 30, 2015 and 2014, respectively. Contracts have been entered into with commercial insurance carriers and reimbursement is based on contracted rates.

Laws and regulations governing healthcare programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. Noncompliance with such laws and regulations could result in fines, penalties, and exclusion from such programs. The federal government and many states have aggressively increased enforcement under Medicaid antifraud and abuse legislation. PH New England believes that it is in compliance, in all material respects, with all applicable laws and regulations and, is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation.

Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties and exclusion from the Medicaid program.

### Concentration of Credit Risk

Financial instruments that potentially subject PH New England to concentrations of credit risk consist principally of cash and cash equivalents. PH New England maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. PH New England's cash and cash equivalents have been placed with high credit quality financial institutions at June 30, 2015 and 2014, and PH New England believes the risk of nonperformance by these financial institutions to be remote.

PH New England provides drug and alcohol rehabilitation services through its inpatient and outpatient care facilities. PH New England grants credit without collateral to clients, however, it routinely obtains assignment of (or is otherwise entitled to receive) clients' benefits payable under their respective health insurance programs, plans, or policies (e.g., Medicaid and commercial insurance providers).

Amounts due from government agencies and other receivables by financial class as a percentage of total accounts receivable at June 30, 2015 and 2014, are as follows:

	<u>2015</u>	<u>2014</u>
Medicaid/Managed Medicaid	63 %	18 %
Commercial insurance	27	29
Other third-party payors	10	50
Self-pay	-	3
	<u>100 %</u>	<u>100 %</u>

### Income Taxes

Guidance in the area of "Accounting for Uncertainty in Income Taxes," under the Financial Accounting Standards Board ("FASB") Accounting Standard Codification, clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This standard provides that the tax effects from an uncertain tax position can be recognized in the financial statements only if the position is "more-likely-than-not" to be sustained if the position were to be challenged by a taxing authority. The standard also provides guidance on measurement, classification, interest and penalties, and disclosure. The adoption of this standard by PH New England did not have an impact on its financial statements. The tax years ended 2012, 2013, 2014 and 2015 are still open to audit for both federal and state purposes. PH New England has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and, to identify and evaluate other matters that may be considered tax positions.

### Subsequent Events

PH New England evaluated its subsequent events through September \_\_\_, 2015, the date these financial statements were available to be issued.

For each of the years ended June 30, 2015 and 2014, such allocated charges totaled \$519,000, and are included as part of administrative charges from Parent expense on the accompanying statements of operations and changes in net assets.

Amounts reflected as due to Parent on the accompanying statements of financial position of approximately \$4,620,000 and \$2,318,000 as of June 30, 2015 and 2014, respectively, relate to costs incurred by PH New England, but paid for by the Parent.

Discount rates assigned to multi-year pledges in the year of origination are not subsequently adjusted.

### **Litigation**

PH New England is contingently liable under various claims which have arisen in the ordinary course of its business. In the opinion of management, the claims will be defended as appropriate and, in certain cases, are adequately covered by insurance. PH New England believes that the resolution of these matters will not have a material effect on its financial position, changes in net assets or cash flows.

### **Other**

PH New England's title to the facility located in Exeter, RI, is subject to a right of reversion held by the State of Rhode Island if PH New England, or its designee, fails at any time within 25 years from the date of execution of the deed to comply with all the terms and conditions set forth in the deed and related attachments. The deed was executed on November 20, 1990. The terms of the deed include, among other pertinent provisions, that the property be used to provide long-term residential drug dependency treatment, provide for the increase of current drug dependency treatment slots, conduct research into efficient treatment methods and length of stay, and provide individual and group counseling and training. PH New England believes that it has and will continue to operate this facility consistent with these stated purposes and has included this facility within property and equipment on the accompanying statements of financial position.

\*\*\* A unit is equal to 15 minutes of service

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. **Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY15.**

**III. Performance Incentives:**

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post

discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.
- v. Social Connectedness: The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services (except for Medication Assisted Treatment Staff Time for Phase I and Phase II), defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor will use the Department supplied billing sheet to complete billing for Medication Assisted Treatment Staff Time for Phase I and Phase II.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

VIII. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation,

can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**IX. Payment and Invoicing Instructions for Exhibit A-1, Scope of Services**

- A. Payment for said services shall be made as follows:
- i. The Contractor will submit one invoice by October 10, 2015, which identifies and requests reimbursement for authorized expenses incurred for the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
  - ii. The State shall make payment to the Contractor within thirty (30) days of receipt of each invoice for Contractor services provided pursuant to this Agreement.

Financial Manager  
Department of Health and Human Services,  
Bureau of Drug and Alcohol Services  
105 Pleasant Street  
Concord, NH 03301
- B. The invoice shall include an itemized listing of expenses, amounts and dates when the expenses incurred.
- C. The Contractor shall provide supporting documentation to support evidence of actual expenditures identified on the invoice and in accordance with the Department approved plan, such as but not limited to: a copy of the approval from the Department to expend the funding; a detailed description of the scope of work that was completed; copies of invoices for purchases; and/or the names of the Contractor's staff, dates and hours worked and amounts being billed for the specific scope of work.
- D. Allowable costs and expenses shall be determined by the Department in accordance with applicable state and federal laws and regulations.
- E. The Contractor shall not bill for reimbursement of expenses incurred before or after the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
- F. The Contractor shall obtain Department approval prior to incurring the expense to provide the scope of work described in the Department approved plan.
- G. Notwithstanding anything to the contrary herein, the Contractor agrees that funding under this contract may be withheld, in whole, or in part, in the event of noncompliance with any State or Federal law, rule or regulation applicable to the services provided, or if the said services have not been completed in accordance with the terms and conditions of this Agreement.
- H. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds are defined in Section "VI Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds," above.

- 6) Individuals with Opioid Use Disorders.

***Required Outreach:***

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

***Health Facilities Administration Licensing Requirements:***

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs must be in compliance with the most recent DHHS requirements relative to the Institute for Mental Disease (IMD) Exclusion.

***Capacity Reporting:***

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

***Access to Services:***

Programs above ASAM Level 1 may not accept clients in the absence of a recommendation to the program's level of care based on an evaluation by and ASAM Level 1 provider. ASAM Level 1 programs may not provide services other than evaluation until an evaluation has been completed and a level of care recommendation established. The required evaluation may be conducted by any ASAM Level 1 provider, regardless of DHHS contract status, but will only be DHHS reimbursed for DHHS contracted providers.

The Contractor shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the

New Hampshire Department of Health and Human Services  
Substance Use Disorder Treatment Services

Exhibit A Amendment #4

day the call was received. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the contractor is an ASAM Level 1 provider or if the client's ASAM Level of Care recommendation is consistent with the level of care provided by the contractor, the contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for evaluation services will be seen for the initial evaluation within 5 business days and a final evaluation narrative and ASAM level of care recommendation and referral will be completed within 10 business days.

Those who have completed an evaluation and ASAM level of care recommendation and referral and screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

In order to be eligible for DHHS supported services, a client must meet all eligibility criteria described below. Eligibility determination shall be conducted as follows:

If this evaluation is completed

**Exhibit A Amendment #4**

- by a contracted provider, the evaluation shall include administration of either the ASI or GAIN.
- a. Substance Use Disorder: This evaluation shall be used to determine if the client meets Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM5) criteria for a substance use disorder. Clients who meet DSM5 criteria for a substance use disorder are eligible for DHHS funded services. Client who do not meet these criteria are not eligible for DHHS funded services.
  - b. Level of Care: For clients who have met all other eligibility requirements, this evaluation shall be used to determine the appropriate level of care for the client based on ASAM (October 2013) criteria. The client is eligible for DHHS funded services at the assessed level of care unless such a level of care is unavailable or the client chooses to enter a lower level of care. If the assessed level of care is unavailable, the client may choose to enter the next higher level of care
3. Medicaid/NHHPP Eligibility: The contractor shall determine whether or not the client is eligible for Medicaid/NHHPP coverage for the identified level of care. If the client is not eligible for Medicaid/NHHPP coverage for the identified level of care, the client may be eligible for DHHS funded services. It is expected that each day of attendance includes a minimum of 3 hours of group and/or individual counseling services.

\*\*Attempted Contact is at least 3 attempts to contact a client over the course of at least one week.

\*\*\* A unit is equal to 15 minutes of service

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. **Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY15.**

### III. Performance Incentives:

#### A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

#### B. Completion:

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

#### C. Client Outcomes:

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.

*am*  
6/5/11

- v. Social Connectedness: The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services (except for Medication Assisted Treatment Staff Time for Phase I and Phase II), defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor will use the Department supplied billing sheet to complete billing for Medication Assisted Treatment Staff Time for Phase I and Phase II.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

**EXPLANATION**

These **sole source** actions are requested to ensure the continued provision of a statewide continuum of substance abuse treatment services for SFY 2015. Two anticipated vendors declined to contract for the provision of these services, creating a coverage gap. These two amendments close the coverage gap, ensuring services are available statewide for the remainder of SFY 2015. In June 2014, the Department sought Governor and Executive Council approval for amendments with 15 of the affected vendors out of the original 17 that were formerly providing services. Two vendors chose not to continue their agreements, creating a gap in available services in the Monadnock and North Country regions. Tri County Community Action Program and Phoenix Houses of New England, Inc. have agreed to increase their service capacity for these regions ensuring that area residents in need of these services have sufficient access. In combination, the full statewide continuum of services will be provided to the population served. The entire statewide continuum of services includes community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, along with specialized treatment services for pregnant and parenting women and their children.

Funds provided through these agreements are used to support services for individuals who are not eligible for Medicaid or the NHHPP, and services not otherwise covered by Medicaid or the NHHPP. The target population for the services provided through these agreements are for individuals that are either unable to pay for services or able to pay only part of the cost of services, who have or are suspected of having an alcohol or other drug abuse problem, and who are residing in NH.

Should the Governor and Executive Council determine to not authorize this request individual access to these services for these two regions will continue to be diminished as a result of lower provider capacity – leaving people that suffer from substance use disorders waiting for services that could mean the difference between sobriety and overdose. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service may place that Block Grant in jeopardy.

**C. Required Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

***Access to Services:***

The Contractor shall respond to calls requesting treatment and/or transitional living program services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received.

The Contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

In order to be eligible for DHHS supported services, a client must meet all eligibility criteria described below. Eligibility determination shall be conducted as follows:

1. Substance Use Disorder, Financial Eligibility & Residency Screening: The contractor shall complete the eligibility screening module in the Web Information Technology System (WITS) to determine if the client meets residency, financial, and substance use disorder potential eligibility requirements:
  - a. Residency: The client must be a resident of New Hampshire or homeless in New Hampshire to be eligible for DHHS supported services; and
  - b. Financial Eligibility: The client's income must be below 400% of Federal Poverty Level (FPL) to be eligible for DHHS supported services based on the sliding fee scale described below. Once the screening has been completed, the contractor shall print the associated attestation and have the client sign this document. A copy of the signed attestation shall be maintained in the client file. The client's financial eligibility shall be reassessed no less than every 120 days.; and
  - c. Potential for a Substance Use Disorder: The client must screen positive for a potential substance use disorder to be eligible for DHHS funded services.
2. Evaluation: The contractor shall conduct a full substance abuse evaluation, which includes administration of either the Addiction Severity Index (ASI) in WITS or Global Appraisal of Individual Needs (GAIN).
  - a. Substance Use Disorder: This evaluation shall be used to determine if the client meets Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM5) criteria for a substance use disorder. Clients who meet DSM5 criteria for a substance use disorder are eligible for DHHS funded services. Client who do not meet these criteria are not eligible for DHHS funded services.

Exhibit A Amendment #3

- b. Level of Care: For clients who have met all other eligibility requirements, this evaluation shall be used to determine the appropriate level of care for the client based on ASAM (October 2013) criteria. V. Charitable Choice:

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**C. Required Services**

***Priority Admission:***

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

***Required Outreach:***

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

***Health Facilities Administration Licensing Requirements:***

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

***Capacity Reporting:***

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy

In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

If a voice message is necessary, sufficient provider contact information shall be provided so that DHHS is able to reach the reporter, or other responsible staff, immediately.

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

Exhibit B Amendment #2

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. - Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Exhibit B Amendment #2

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### **EXPLANATION**

The requested action seeks approval of 15 of 17 agreements that represent \$7,596,887 of the \$7,741,314 total anticipated to be spent state-wide to provide a continuum of substance abuse treatment services via the accounting codes listed. These services include community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children. This request seeks to exercise the renewal option that exists within each of the vendor contracts. The Department anticipates that the remaining two agreements will be presented to Governor and Executive Council on June 19, 2013.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, these contracts will continue to allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

The vendors were originally selected for this agreement through a competitive bid process. This request covers services for the period July 1, 2013 to June 30, 2014, and anticipates exercising the option to renew for one additional year as provided all of the previous vendor contracts, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with the listed vendors in State Fiscal Year 2013 in the amount of \$7,741,314 in the aggregate. This agreement represents level funding of all vendors.

The following performance measures will be used to measure the effectiveness of the agreements:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for I intensive outpatient treatment services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

Her Excellency, Governor Margaret Wood Hassan  
and the Honorable Council

Contractors, with the exception of those agencies that only offer outpatient services, are required to develop the capacity for group recovery support aftercare services for a minimum of 25% of the number treatment clients (including outpatient and transitional living program clients) they are under contract to serve. Group recovery support aftercare services are services that are consistent with an individual's recovery plan that prevent relapse and enhance or remove barriers to recovery. Recovery Support Services include, but are not limited to, guidance in financial management, parenting, vocational training, life management and spiritual counseling as well as transportation and child-care. These group recovery support services are for clients discharged from substance use disorder treatment services provided under contract with the Bureau of Drug and Alcohol Services on behalf of the Department, which may include clients that had received SUD treatment from the Contractor or a different agency. Contractors are only allowed to access these services for their clients or clients that had received substance use disorder treatment from a different agency through the statewide care coordination program under agreement with the Bureau of Drug and Alcohol Services on behalf of the Department.

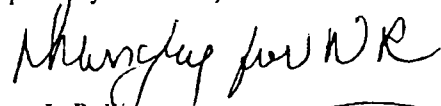

All treatment programs under contract with the Bureau of Drug and Alcohol Services on behalf of the Department are required to report on the National Outcome Measures (see attached) established by the Substance Abuse and Mental Health Services Administration, as required in the Federal Substance Abuse Prevention and Treatment Block Grant, via the Electronic Health Record/Web Infrastructure Treatment System. The Department of Health and Human Services reserves the right to consider Contractor performance across all of the domains in future funding decisions. The Contractor is expected to meet or exceed these percentages as measured by the Electronic Health Record/Web Infrastructure Treatment System.

Area served: State-wide

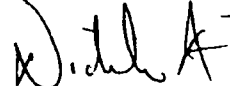

Source of Funds: 52.6% Federal Funds from Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant and 47.4% General .

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Statewide.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

Phoenix Houses of New England, Inc. was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$1,457,490.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that-month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
  
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
  
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

Area served: Statewide.

**3. EFFECTIVE DATE/COMPLETION OF SERVICES.**

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the governor and Executive Council of the State of new Hampshire, this Agreement, and all obligations of the parties hereunder, shall not become effective until the date the Governor and Executive Council approve this Agreement ("Effective Date"). **B. Required Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.

- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

***Required Outreach:***

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

***Health Facilities Administration Licensing Requirements:***

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

***Capacity Reporting:***

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

***Access to Services:***

The Contractor shall respond to calls requesting treatment and/or transitional living program services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. The Access Criteria as defined in Exhibit B must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted.

The Contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

***Limitations on Exclusionary Criteria:***

American Society for Addiction Medicine (ASAM) Patient Placement Criteria, in and of itself, shall not be a reason to deny a higher level of care to an individual, if the lower level of care is unavailable or inaccessible. Level of care will be determined by the administration of the Addiction Severity Index (ASI) or the Global Appraisal of Individual Needs (GAIN).

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate

medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

A client who is either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH.

***Sliding Fee Scale:***

The Contractor shall adopt a sliding fee scale based on federal poverty guidelines as published in the most recent Federal Register (<http://aspe.hhs.gov/poverty/>). The Contractor must provide the client with the cost of services and a fee scale prior to rendering services. The Contractor's sliding fees scale and fee schedule shall be submitted to BDAS, as agent for DHHS, within 60 days of contract effective date. Changes in the sliding fee scale or service fee schedule shall be submitted to the BDAS on behalf of DHHS within 30 days of the change.

The Contractor shall bill clients in accordance with a sliding fee scale based on federal poverty guidelines. The fee schedule shall include a no-cost option approved by BDAS on behalf of DHHS. All reasonable efforts shall be made to collect payment of bills. A client's inability to pay shall not preclude admission to the program and treatment.

With respect to minority age individuals, a minor child shall not be denied services as a result of the parent's unwillingness to pay the fee or the minor child's decision to receive confidential services pursuant to RSA 318-B:12-a.

***Waiting List Management:***

When a person who is pregnant or an injection substance abuser seeks treatment and there are no appropriate treatment services available within the required time frame as outlined below, interim services **must** be made available. The Contractor agrees to maintain the wait list management system in WITS that includes a unique patient identifier and include information on dates of requests for admission to treatment, provision of interim services and source for those services, referrals made for treatment or interim services, and disposition of clients on the waiting list.

- The waiting list must contain a mechanism that identifies and counts the number of applicants who present and are determined to be appropriate for substance abuse treatment but are unable to be placed as there is no capacity;
- Maintain contact with individuals awaiting admission; and,
- Admit or transfer waiting list clients at the earliest possible time to an appropriate treatment program within a reasonable geographic area.

The Contractor shall remove a client awaiting treatment from the waiting list only when one of the following conditions exists:

**1. Performance Utilization:**

**A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:**

Utilization criteria will be applied exclusively on a month-by-month basis, Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

**B. Utilization Methodology by Modality:**

- i. Outpatient: Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. Intensive Outpatient: Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. Residential Treatment/transitional living/halfway house: Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000 / \$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

**2. Utilization Access and Retention Payment Criteria Requirement**

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied

exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

**B. Retention:**

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service
- iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

**3. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**4. Invoicing & Billing:**

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

Standard Exhibits C - J  
TX Substance Use Utilization

Contractor Initials: AM  
Date: 6/18/18

Any reallocation of funds between modalities of service requires prior written justification and approval from BDAS on behalf of DHHS. Reallocation of funds cannot exceed the total approved contracted amount.

**V. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

*VI. Charitable Choice:*

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section 3 k, the defense and indemnification provisions of section 3 d and standard contract provision #13, shall survive the termination of the Agreement.

**INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors of  
**Serenity Place**  
**National Council on Alcoholism and Drug Dependence Affiliate**  
Manchester, New Hampshire

We have audited the accompanying financial statements of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate (a non-profit organization), which comprise the statement of financial position as of June 30, 2014 and 2013, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted.

**NATIONAL COUNCIL ON ALCOHOLISM AND DRUG DEPENDENCE AFFILIATE**  
**Notes to the Financial Statements**  
**June 30, 2014 and 2013**

**Nature of Organization:**

Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate (the "Organization") is a non-profit organization existing for the purpose of providing alcohol and drug abuse information, education, referral, crisis intervention, and residential services.

**Note 1 - Summary of Significant Accounting Principles:**

**A. Basis of Presentation**

The Organization presents its financial statements on the accrual basis of accounting. The accrual basis recognizes income when earned and expenses when they occur.

**B. Cash and Cash Equivalents**

For purposes of the statement of cash flows, the Organization considers all highly liquid deposits with maturity of three months or less to be cash and/or cash equivalents.

**C. Use of Estimates in the Preparation of Financial Statements**

Management used estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

**D. Accounting Principles**

Under current accounting standards, the Organization is required to report information regarding its financial position and activities according to three classes of net assets. Those three classes are as follows:

**Unrestricted Net Assets:**

The portion of net assets of a not-for-profit Organization that is neither permanently restricted nor temporarily restricted by donor imposed stipulations.

**SERENITY PLACE**  
**NATIONAL COUNCIL ON ALCOHOLISM AND DRUG DEPENDENCE AFFILIATE**  
**Notes to the Financial Statements**  
**June 30, 2014 and 2013**

**Note 1 - Summary of Significant Accounting Principles - continued:**

**D. Accounting Principles - Continued**

*Temporarily Restricted Net Assets:*

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) for reclassifications to or from other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillments and removal by actions of the Organization pursuant to those stipulations. Temporarily Restricted Net Assets at June 30, 2014 and 2013 were \$28,556 and \$18,420, respectively.

*Permanently Restricted Net Assets:*

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by actions of the Organizations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from or to other classes of net assets as a consequence of donor-imposed stipulations. There are no Permanently Restricted Net Assets at June 30, 2014 and 2013.

**E. Income Taxes**

The Organization is exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. There are no state income taxes due to the fact that the State of New Hampshire recognizes Section 501(c)(3) for exemption of organizations that are organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes. The Center's evaluation on June 30, 2014 and 2013 revealed no uncertain tax positions that would have a material impact of the financial statements.

The Organization's information returns are subject to possible examination by the taxing authorities. For federal purposes the returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

**Notes to the Financial Statements**  
**June 30, 2014 and 2013**

**Note 1 - Summary of Significant Accounting Principles - Continued:**

**F. Fixed Assets**

Fixed assets are recorded at historical cost at the time of acquisition. Depreciation is calculated by the straight-line method over their estimated useful lives ranging from three to thirty-nine years. Repairs and maintenance are charged to operations as incurred, whereas major betterments are capitalized. The estimated useful lives of the assets are as follows:

<u>Description</u>	<u>Method</u>	<u>Life</u>
Furniture and Fixtures	Straight-Line	5-7 years
Equipment	Straight-Line	3-5 years
Vehicles	Straight-Line	5 years
Buildings and Improvements	Straight-Line	5-39 years

**G. Accounts Receivable**

Accounts receivable are reported at net realizable value. Net realizable value is equal to the gross amount of receivables less an estimated allowance for uncollectible accounts. Historically, the Organization has not experienced material write offs, and therefore has not established an allowance account.

**H. Donor-Restricted Contributions**

The Organization's policy is to report donor-restricted contributions whose restrictions are met in the same reporting period, as unrestricted support, as there is no effect to reported restricted net assets.

**I. Investments**

The Organization accounts for investments following current accounting standards, under which its marketable investment securities are reported at fair market value at the date of the financial statements. Accordingly, realized gains and losses resulting from sales or distributions, as well as unrealized holding gains and losses are included in the statement of activities. Realized gains or losses are reflected as increases or decreases in the Organization's unrestricted net assets. The net change in unrealized holding gains or losses since the last fiscal year end are also recorded as increases or decreases in the Organization's operations. See Note No. 9.

**III. Performance Incentives:**

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for

clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**IX. Payment and Invoicing Instructions for Exhibit A-1, Scope of Services**

A. Payment for said services shall be made as follows:

105 Pleasant Street  
Concord, NH 03301
- B. The invoice shall include an itemized listing of expenses, amounts and dates when the expenses incurred.
  - C. The Contractor shall provide supporting documentation to support evidence of actual expenditures identified on the invoice and in accordance with the Department approved plan, such as but not limited to: a copy of the approval from the Department to expend the funding; a detailed description of the scope of work that was completed; copies of invoices for purchases; and/or the names of the Contractor's staff, dates and hours worked and amounts being billed for the specific scope of work.
  - D. Allowable costs and expenses shall be determined by the Department in accordance with applicable state and federal laws and regulations.
  - E. The Contractor shall not bill for reimbursement of expenses incurred before or after the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
  - F. The Contractor shall obtain Department approval prior to incurring the expense to provide the scope of work described in the Department approved plan.
  - G. Notwithstanding anything to the contrary herein, the Contractor agrees that funding under this contract may be withheld, in whole, or in part, in the event of noncompliance with any State or Federal law, rule or regulation applicable to the services provided, or if the said services have not been completed in accordance with the terms and conditions of this Agreement.

If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. **Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

- b. Business Associate may use or disclose PHI:
- I. For the proper management and administration of the Business Associate;
  - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
  - III. For data aggregation purposes for the health care operations of Covered Entity.

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) **Obligations and Activities of Business Associate.**

- a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.
- b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:
- o The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
  - o The unauthorized person used the protected health information or to whom the disclosure was made;
  - o Whether the protected health information was actually acquired or viewed
  - o The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

- c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.
- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (I). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

- a. **Definitions and Regulatory References.** All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. **Amendment.** Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. **Data Ownership.** The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

Substance Use Disorder Treatment Services

Exhibit A Amendment #2

C. *Required Services*

*Priority Admission:*

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

*Required Outreach:*

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

*Health Facilities Administration Licensing Requirements:*

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

*Capacity Reporting:*

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

**Method and Conditions Precedent to Payment**

The State shall pay the Contractor an amount not to exceed the Price Limitation, block 1.8, for the services provided by the Contractor pursuant to Exhibit A, Scope of Services, and in accordance with Exhibit B.

Funding for this Agreement is funded by various sources as a percentage of the total amount of \$432,468 as follows:

- 46 % Federal Funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant (CFDA #93.959);
- 22 % General Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment Funds; and
- 32 % General funds.

**I. Payment Methodology**

The Contractor shall be reimbursed for providing and delivering the services listed in Exhibit A, paragraph B. The following terms and conditions detailed in this Exhibit B shall apply to all services unless expressly stated otherwise.

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the Service Reimbursement Table below. Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2015 (effective July 1, 2014) the contractor will receive a payment for each service at the rates and within the limits described below. For clients receiving DHHS supported services, the contractor may not charge the client, any 3<sup>rd</sup> party payor, and DHHS a combined rate that is more than the rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

1. The maximum allowed charge will be billed to the client's insurer, if applicable.
2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
3. The balance of the maximum allowed charge, after deducting the client's portion and insurance payment, if applicable, shall be charged to DHHS.

\* Providers may bill the per diem rate for Intensive Outpatient Treatment services only on those days when the client attends individual and/or group counseling associated with the program. It is expected that each day of attendance includes a minimum of 3 hours of group and/or individual counseling services.

\*\*Attempted Contact is at least 3 attempts to contact a client over the course of at least one week.

\*\*\* A unit is equal to 15 minutes of service

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY14.

1. Performance Incentives:

A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for

Exhibit B Amendment #2

services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. **Abstinence:** The client reports reduced or no substance use in the past 30 days.
- ii. **Employment/Education:** The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. **Crime and Criminal Justice:** The client reports no arrests in the past 30 days.
- iv. **Stability in Housing:** The client reports being in stable housing.
- v. **Social Connectedness:** The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

New Hampshire Department of Health and Human Services  
Substance Use Disorder Treatment Services

Exhibit B Amendment #2

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Exhibit B Amendment #2

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Manchester area.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

National Council on Alcoholism and Drug Dependence/Greater Manchester was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$432,468.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
  
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
  
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

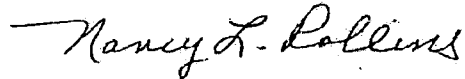

Area served: Manchester area.

***Required Outreach:***

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

***Health Facilities Administration Licensing Requirements:***

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

***Capacity Reporting:***

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

***Limitations on Exclusionary Criteria:***

American Society for Addiction Medicine (ASAM) Patient Placement Criteria, in and of itself, shall not be a reason to deny a higher level of care to an individual, if the lower level of care is unavailable or inaccessible. Level of care will be determined by the administration of the Addiction Severity Index (ASI) or the Global Appraisal of Individual Needs (GAIN).

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

**Performance Measures:**

All treatment programs under contract with BDAS on behalf of DHHS are required to report on the National Outcome Measures (NOMs) established by the SAMHSA, as required in the Federal Substance Abuse Prevention and Treatment Block Grant, via the WITS (electronic health record) system. The Department of Health and Human Services reserves the right to consider Contractor performance across all of the domains in future funding decisions. The Contractor is expected to meet or exceed these percentages as measured by the Electronic Health Record/Web Infrastructure Treatment System (EHR/WITS).

**Critical Incident/Sentinel Event Reporting:**

The Department's Sentinel Event policy is contained in the following link:  
<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS bureau recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

Bureau of Drug and Alcohol Services

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

TOTAL: \$432,468.00

### III. Payment Methodology

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the approved contract budget(s). Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2013 (effective July 1, 2012) the contractor will receive a payment for each modality of services at a rate of one-twelfth (1/12) of the annual amount approved in the contract for that modality, less any pay for performance factors (utilization, access and retention) that apply. The annual contract approved amount prorated to the monthly portion is considered the BASE monthly reimbursement amount.

#### I. Performance Utilization:

##### A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:

Utilization criteria will be applied exclusively on a month-by-month basis, Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

##### B. Utilization Methodology by Modality:

- i. Outpatient: Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. Intensive Outpatient: Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. Residential Treatment/transitional living/halfway house: Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000/\$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by

the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

## 2. Utilization Access and Retention Payment Criteria Requirement

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

### A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

### B. Retention:

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service
- iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

## 3. Failure to Meet Deliverables:

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

## 4. Invoicing & Billing:

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during

Standard Exhibits C – J  
TX Substance Use Disorder

Contractor Initials: SD  
Date: 5/23/12

which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

Any reallocation of funds between modalities of service requires prior written justification and approval from BDAS on behalf of DHHS. Reallocation of funds cannot exceed the total approved contracted amount.

**V. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:  
The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VI. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

## INDEPENDENT AUDITORS' REPORT

### **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### ***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate as of June 30, 2015 and 2014, and the consolidated changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Other Information***

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such

information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2015 on our consideration of Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting and compliance.

**SOUTHEASTERN NEW HAMPSHIRE ALCOHOL & DRUG ABUSE SERVICES  
AND AFFILIATE**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014**

**NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**General**

Southeastern New Hampshire Alcohol & Drug Abuse Services (the Organization) is a New Hampshire nonprofit organization providing treatment, rehabilitation and intervention services to alcoholics, narcotic addicts, and alcohol and drug abusers, substantially all of whom are residents of New Hampshire. A majority of revenue is derived from contracts with the State of New Hampshire.

Southeastern New Hampshire Alcohol & Drug Abuse Services Foundation (the Affiliate) is also a New Hampshire nonprofit organization that was established to raise funds for the Organization. A majority of the revenue is derived from direct public support.

**Basis of Accounting**

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles general accepted in the United States of America, as promulgated by the Financial Accounting Standards (FASB) Accounting Standards Codification (ASC).

**Principles of Consolidation**

The accompanying consolidated financial statements have been prepared for the Organization and the Affiliate due to the Organization being the sole beneficiary of the Affiliate. All material intercompany transactions have been eliminated.

**Basis of Presentation**

Financial statement presentation follows the recommendations of the FASB ASC No. 958-210 *Financial Statements of Not-for-Profit Organizations*. Under FASB ASC 958-210, the Organization and the Affiliate (as consolidated) are required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions. As of June 30, 2015 and 2014, the Organization had no permanently or temporarily restricted net assets.

**Use of Estimates**

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

**Cash Equivalents**

Cash equivalents include all highly liquid investments with an original maturity date of three months or less. There were no cash equivalents at June 30, 2015 and 2014.

**Accounts Receivable**

Accounts receivable is stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual receivables from grants, contracts, and others. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the applicable accounts receivable. At June 30, 2015 and 2014, no allowance was deemed necessary.

**Property and Equipment**

Purchases of property and equipment are recorded at cost. Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Costs for repairs and maintenance are charged against operations. Renewals and betterments, which materially extend the life of the assets, are capitalized. Depreciation is provided for using the straight line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Leasehold improvements	15 - 39 years
Vehicles, equipment and furniture	3 - 7 years

Property and equipment at June 30, 2015 and 2014 consisted of the following:

	<u>2015</u>	<u>2014</u>
Leasehold improvements	\$ 407,730	\$ 407,730
Vehicles	-	45,703
Equipment and furniture	<u>228,259</u>	<u>228,259</u>
	635,989	681,692
Less accumulated depreciation	<u>544,191</u>	<u>561,496</u>
	<u>\$ 91,798</u>	<u>\$ 120,196</u>

**Costs Incurred – Future Leasehold Improvements**

Certain costs have been incurred relative to future leasehold improvements to the premises currently utilized by the Organization and totaled \$22,454 at June 30, 2015. The primary nature of the costs represent architectural fees.

**Accrued Vacation**

The Organization has accrued liabilities for future compensated leave time that its employees have earned and which is vested with the employees. The amounts totaled \$28,306 and \$37,045, at June 30, 2015 and 2014, respectively.

**Refundable Advances**

Revenues received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are provided or costs are incurred.

**Contributed Support**

Contributed support is reported as unrestricted or as restricted depending on the existence of donor or time stipulations that limit the use of the support. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support.

**Income Taxes**

The Organization and the Affiliate are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service (IRS) has determined them to be other than private foundations.

Management has reviewed the tax positions for the Organization under ASC No. 740, "Accounting for Income Taxes" and determined that the application of FASB ASC No. 740 did not have a material impact on the consolidated financial statements. FASB ASC No. 740 establishes financial accounting and disclosure requirements for recognition and measurement of uncertain tax positions taken or expected to be taken on a U.S. information return. There were no uncertain tax positions as of June 30, 2015 and 2014, and all tax years from 2012 forward are open and subject to IRS examination.

**Functional Allocation of Expenses**

The costs of providing the various programs and other activities have been summarized in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

**Advertising**

Advertising costs are expensed as incurred.

**Concentrations of Risk**

The Organization maintains its cash balances at one financial institution. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. As of June 30, 2015 and 2014, the uninsured balances were \$464,082 and \$525,823, respectively.

A majority of the Organization's services are derived from services performed for New Hampshire citizens. The main source of revenue for the Organization is derived from contracts with the State of New Hampshire. These contracts represent 73% and 79%, respectively, of the Organization's public support and revenue for the fiscal years ended June 30, 2015 and 2014. The accounts receivable related to these contracts totaled \$195,644 and \$98,064 at June 30, 2015 and 2014, respectively. The Organization does not require collateral or other security to support these financial instruments.

**Fair Value of Financial Instruments**

Unless otherwise indicated, fair values of all reported assets and liabilities that are financial instruments approximate the carrying values of such amounts.

**NOTE 2. BOARD DESIGNATED UNRESTRICTED NET ASSETS**

The Board of Directors designated \$25,000 and \$37,721, respectively, of unrestricted net assets for the fiscal years ended June 30, 2015 and 2014. The designation was established to provide for pension contributions for the fiscal years ending June 30, 2016 and 2015, respectively.

**NOTE 3. LEASE COMMITMENTS**

The Organization leases office and temporary boarding facilities under the terms of a noncancelable operating lease agreement which expires on December 31, 2015, with no renewal options available at this time. Future minimum rental payments as of June 30, 2015 are \$26,613 for the year ending June 30, 2016.

Total rent expense was \$57,721 and \$56,955 for the years ended June 30, 2015 and 2014, respectively.

**NOTE 4. CONTINGENCIES**

The Organization receives funds from various funding sources. Under the terms of the agreements, the Organization is required to use the funds for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Organization might be required to repay the funds. No provisions have been made for this contingency because specific amounts, if any, have not been determined or assessed by government audits as of June 30, 2015 and 2014.

**NOTE 5. RETIREMENT PLAN**

The Organization maintains a tax sheltered annuity plan qualified under Section 403(b) of the Internal Revenue Code. The plan covers full-time employees of the Organization. The Organization makes matching contributions up to 3% of gross salaries for qualified employees. Employees may make contributions to the plan up to the maximum amount allowed by the Internal Revenue Code. Plan expenses were approximately \$21,588 and \$22,712 for the years ended June 30, 2015 and 2014, respectively.

**NOTE 6. NONCASH TRANSACTIONS/IN-KIND DONATION**

The Organization receives a discount for the rental of certain real estate. For the years ended June 30, 2015 and 2014, the total value of this contribution was \$6,000 for each year.

**NOTE 7. LINE OF CREDIT**

The Organization has a revolving line of credit agreement with a bank in the amount of \$50,000 for the years ended June 30, 2015 and 2014. The line requires monthly interest payments on the unpaid principal balance at the rate of 1.50% over the bank's stated index. The rate charged was 4.75% during the fiscal years ended June 30, 2015 and 2014. The line of credit is secured by a security interest in all business assets. The Organization is required to annually observe thirty consecutive days without an outstanding balance. At June 30, 2015 and 2014, there was no outstanding balance on the line.

**NOTE 8. RECLASSIFICATIONS**

Certain items from the June 30, 2014 consolidated financial statements have been reclassified in order to enhance the comparability to the June 30, 2015 consolidated financial statements.

**NOTE 9. SUBSEQUENT EVENTS**

Subsequent events have been evaluated through October 28, 2015 the date when the consolidated financial statements were available to be issued.

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE YEAR ENDED JUNE 30, 2015**

**NOTE A. BASIS OF PRESENTATION**

The accompanying schedule of expenditures of Federal Awards (the Schedule) includes the federal grant activity of Southeastern New Hampshire Alcohol & Drug Abuse Services under programs of the federal government for the year ended June 30, 2015. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of Southeastern New Hampshire Alcohol & Drug Abuse Services, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Southeastern New Hampshire Alcohol & Drug Abuse Services.

**NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-122, *Cost Principles for Non-Profit Organizations*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors  
Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate  
Dover, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 28, 2015.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the consolidated financial statements, we considered Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's and Affiliate's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entities' financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entities' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entities' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Our responsibility is to express an opinion on compliance for each of Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance.

***Opinion on Each Major Federal Program***

In our opinion, Southeastern New Hampshire Alcohol & Drug Abuse Services complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

## Report on Internal Control Over Compliance

Management of Southeastern New Hampshire Alcohol & Drug Abuse Services is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Southeastern New Hampshire Alcohol & Drug Abuse Services' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Southeastern New Hampshire Alcohol & Drug Abuse Services' internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

*Handwritten initials and date*  
7/21/15

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

Exhibit A Amendment #3

**C. Required Provisions for Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals who have been administered Narcan to reverse the effects of an opioid overdose either in the 14 days prior to screening or in the period between screening and admission to the program.
- 3) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 4) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 5) Individuals with substance use co-occurring mental health disorders.
- 6) Individuals with Opioid Use Disorders.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs must be in compliance with the most recent DHHS requirements relative to the Institute for Mental Disease (IMD) Exclusion.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

**Access to Services:**

Programs above ASAM Level 1 may not accept clients in the absence of a recommendation to the program's level of care based on an evaluation by and ASAM Level 1 provider. ASAM Level

Exhibit A Amendment #3

---

1 programs may not provide services other than evaluation until an evaluation has been completed and a level of care recommendation established. The required evaluation may be conducted by any ASAM Level 1 provider, regardless of DHHS contract status, but will only be DHHS reimbursed for DHHS contracted providers.

The Contractor shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the contractor is an ASAM Level 1 provider or if the client's ASAM Level of Care recommendation is consistent with the level of care provided by the contractor, the contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for evaluation services will be seen for the initial evaluation within 5 business days and a final evaluation narrative and ASAM level of care recommendation and referral will be completed within 10 business days.

Those who have completed an evaluation and ASAM level of care recommendation and referral and screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

If the assessed level of care is unavailable, the client may choose to enter the next higher level of care

If the client is not eligible for Medicaid/NHHPP coverage for the identified level of care, the client may be eligible for DHHS funded services. If the client is eligible for Medicaid/NHHPP coverage for the identified level of care, the client is not eligible for DHHS funded services. The provider shall assist the client with the Medicaid/NHHPP enrollment process if they are believed to be eligible for these programs.
4. Insurance Coverage: The contractor shall determine whether or not the client has insurance that will cover services at the identified level of care. If the client does not have insurance that will reimburse for these services at a rate equal to or greater than the DHHS rate, the client is eligible for DHHS funded services. If the client has insurance that will reimburse for these services at an amount equal or greater to the DHHS reimbursement rate, the client is not eligible for DHHS funded services. The contractor may not charge the combination of the client, any 3rd party payor, and DHHS more than the maximum charge allowed, which is the DHHS rate for the service in those instances in which DHHS pays any portion of the service fee. These parties shall be charged in the following order:

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

- Make cash payments to intended recipients of substance abuse services.

- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. 5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
  - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
  - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.
