Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the contractor is an ASAM Level 1 provider or if the client's ASAM Level of Care recommendation is consistent with the level of care provided by the contractor, the contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.

- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**SPECIAL PROVISIONS**

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
  - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
  - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports: Fiscal and Statistical:** The Contractor agrees to submit the following reports at the following times if requested by the Department.
  - 11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
  - 11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.
12. **Completion of Services: Disallowance of Costs:** Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.
13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.
15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

more employees, it will maintain a current EEOP on file and submit an EEOP Certification Form to the OCR, certifying that its EEOP is on file. For recipients receiving less than \$25,000, or public grantees with fewer than 50 employees, regardless of the amount of the award, the recipient will provide an EEOP Certification Form to the OCR certifying it is not required to submit or maintain an EEOP. Non-profit organizations, Indian Tribes, and medical and educational institutions are exempt from the EEOP requirement, but are required to submit a certification form to the OCR to claim the exemption. 17. **Limited English Proficiency (LEP):** As clarified by Executive Order 13166, Improving Access to Services for persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination on the basis of limited English proficiency (LEP). To ensure compliance with the Omnibus Crime Control and Safe Streets Act of 1968 and Title VI of the Civil Rights Act of 1964, Contractors must take reasonable steps to ensure that LEP persons have meaningful access to its programs.
18. **Pilot Program for Enhancement of Contractor Employee Whistleblower Protections:** The following shall apply to all contracts that exceed the Simplified Acquisition Threshold as defined in 48 CFR 2.101 (currently, \$150,000)

19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

- 19.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

Exhibit F Amendment #1

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION  
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Order of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Exhibit F Amendment #1

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

- 11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

**(5) Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy

of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS contractor recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

Bureau of Drug and Alcohol Services  
Assistant Administrator  
105 Pleasant Street  
Concord, NH 03301  
Or by fax to the BDAS Administrator's Office at 271-6105;

Follow-up information is the responsibility of the Contractor and should be submitted in a way as to protect clients' confidential information such as by mail with delivery confirmation and should include:

1. The *Sentinel Event Reporting Form*( [www.dhhs.nh.gov/dcbs/documents/sentinelform.pdf](http://www.dhhs.nh.gov/dcbs/documents/sentinelform.pdf));
2. Additional details as they are learned or if the status of the situation changes; and,
3. Copies of newspaper articles.

Additionally, DHHS requires critical incident reporting. The Contractor shall report all critical incidents/sentinel events to the BDAS Clinical Services Unit Administrator immediately via telephone. Every effort shall be made to reach the BDAS administrator directly. If a voice message is necessary, sufficient provider contact information shall be provided so that DHHS is able to reach the reporter, or other responsible staff, immediately.

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

10. Arson resulting in property loss.
11. High profile events, which may include media coverage and/or police involvement.

***On-Site Reviews:***

**Method and Conditions Precedent to Payment**

The State shall pay the Contractor an amount not to exceed the Price Limitation, block 1.8, for the services provided by the Contractor pursuant to Exhibit A, Scope of Services, and in accordance with Exhibit B.

Funding for this Agreement is funded by various sources as a percentage of the total amount of \$69,411 as follows:

- 0 % Federal Funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant (CFDA #93.959);
- 50 % General Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment Funds; and

**I. Payment Methodology**

The Contractor shall be reimbursed for providing and delivering the services listed in Exhibit A, paragraph B. The following terms and conditions detailed in this Exhibit B shall apply to all services unless expressly stated otherwise.

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the Service Reimbursement Table below. Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2015 (effective July 1, 2014) the contractor will receive a payment for each service at the rates and within the limits described below. For clients receiving DHHS supported services, the contractor may not charge the client, any 3<sup>rd</sup> party payor, and DHHS a combined rate that is more than the rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

1. The maximum allowed charge will be billed to the client's insurer, if applicable.
2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
3. The balance of the maximum allowed charge, after deducting the client's portion and insurance payment, if applicable, shall be charged to DHHS.

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY14.

**1. Performance Incentives:**

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.
- v. Social Connectedness: The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

**New Hampshire Department of Health and Human Services  
Substance Use Disorder Treatment Services**

**Exhibit B Amendment #2**

---

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

**New Hampshire Department of Health and Human Services  
Substance Use Disorder Treatment Services**

**Exhibit B Amendment #2**

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

Funds are available in the following accounts for State Fiscal Year 2013:

			Total	\$69,411.00

EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Grafton County House of Corrections.

His Excellency, Governor John H. Lynch  
and the Honorable Executive Council

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

County of Grafton was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$69,411.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

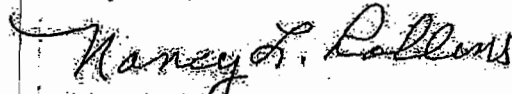

Area served: Grafton County House of Corrections.

Summary of contracted amounts by vendor:

<u>Vendor</u>	<u>Amount</u>
Grafton County	\$69,411
<b>TOTAL</b>	<b>\$69,411</b>

Funds to support this request are anticipated to be available in the following accounts in SFY 2014 upon the availability and continued appropriation of funds in the future operating budgets, with authority to adjust amounts within the price limitation and amend the related terms of the contracts without further approval from Governor and Executive Council.

Please see attachment for financial details

**EXPLANATION**

The requested action seeks approval of the 17<sup>th</sup> of 17 agreements (Governor and Council approved 15 of the agreements as a single item on June 5, 2013, as of this writing, the 16<sup>th</sup> agreement is on the agenda for June 19, 2013) and represents \$69,4121 of the \$7,741,314 total anticipated to be spent state-wide to provide a continuum of substance abuse treatment services via the accounting codes listed. These services include

Her Excellency, Governor Margaret Wood Hassan  
and the Honorable Council  
June 11, 2013  
Page 2 of 4

community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children. This request seeks to exercise the renewal option that exists within each of the vendor contracts. This is the last of the agreements that remained to be presented to Governor and Executive Council for this procurement.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, these contracts will continue to allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

The vendors were originally selected for this agreement through a competitive bid process. This request covers services for the period July 1, 2013 to June 30, 2014, and anticipates exercising the option to renew for one additional year as provided all of the previous vendor contracts, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with the listed vendors in State Fiscal Year 2013 in the amount of \$7,741,314 in the aggregate. This agreement represents level funding of all vendors.

The following performance measures will be used to measure the effectiveness of the agreements:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
    - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
    - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
  - A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
    - i. Have completed a minimum of 6 sessions of outpatient treatment services
    - ii. Have completed a minimum of 8 days of intensive outpatient treatment services – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for I intensive outpatient treatment services) may be counted.
    - iii. Have completed a minimum of 14 days of residential treatment service
    - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

Contractors, with the exception of those agencies that only offer outpatient services, are required to develop the capacity for group recovery support aftercare services for a minimum of 25% of the number treatment clients (including outpatient and transitional living program clients) they are under contract to serve. Group recovery support aftercare services are services that are consistent with an individual's recovery plan that prevent relapse and enhance or remove barriers to recovery. Recovery Support Services include, but are not limited to, guidance in financial management, parenting, vocational training, life management and spiritual counseling as well as transportation and child-care. These group recovery support services are for clients discharged from substance use disorder treatment services provided under contract with the Bureau of Drug and Alcohol Services on behalf of the Department, which may include clients that had received SUD treatment from the Contractor or a different agency. Contractors are only allowed to access these services for their clients or clients that had received substance use disorder treatment from a different agency through the statewide care coordination program under agreement with the Bureau of Drug and Alcohol Services on behalf of the Department.

All treatment programs under contract with the Bureau of Drug and Alcohol Services on behalf of the Department are required to report on the National Outcome Measures (see attached) established by the Substance Abuse and Mental Health Services Administration, as required in the Federal Substance Abuse Prevention and Treatment Block Grant, via the Electronic Health Record/Web Infrastructure Treatment System. The Department of Health and Human Services reserves the right to consider Contractor performance across all of the domains in future funding decisions. The Contractor is expected to meet or exceed these percentages as measured by the Electronic Health Record/Web Infrastructure Treatment System.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit

procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Greater Nashua Council on Alcoholism, Inc. as of June 30, 2014, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Report on Summarized Comparative Information**

We have previously audited Greater Nashua Council on Alcoholism, Inc.'s fiscal year June 30, 2013 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 9, 2013. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2013 is consistent, in all material respects, with the audited financial statements from which it has been derived.

### **Other Matters**

#### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2015 on our consideration of the Greater Nashua Council on Alcoholism's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Greater Nashua Council on Alcoholism's internal control over financial reporting and compliance.

# GREATER NASHUA COUNCIL ON ALCOHOLISM

## Notes to the Financial Statements

### 1. **Organization:**

Greater Nashua Council on Alcoholism (the Organization) is a nonprofit organization providing recovery support services which are evidence-based, gender-specific, and culturally competent. The programs include residential, transitional housing, outpatient, intensive outpatient, family-based substance abuse services, pregnant and parenting women and children and offender re-entry services initiative.

### 2. **Summary of Significant Accounting Policies:**

The following is a summary of significant accounting policies of the Organization used in preparing and presenting the accompanying financial statements.

#### Accounting for Contributions and Financial Statement Presentation

The Organization follows *Accounting for Contributions Received and Contributions Made* and *Financial Statements of Not-for-Profit Organizations* as required by the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC). Under these guidelines, the Organization is required to distinguish between contributions that increase permanently restricted net assets, temporarily restricted net assets, and unrestricted net assets. It also requires recognition of contributions, including contributed services, meeting certain criteria at fair values. These reporting standards establish standards for financial statements of not-for-profit organizations and require a Statement of Financial Position, a Statement of Activities, a Statement of Functional Expenses, and a Statement of Cash Flows.

#### Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting. Under this basis, revenues, other than contributions, and expenses are reported when incurred, without regard to the date of receipt or payment of cash. Contributions are reported in accordance with FASB ASC *Accounting for Contributions Received and Contributions Made*.

### Restricted and Unrestricted Revenue

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

### Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

### Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended June 30, 2014, management has taken into account a variety of factors.

### Property, Equipment and Depreciation

Property and equipment is recorded at cost or, if donated, at estimated fair market value at the date of donation. Major additions and improvements are capitalized, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Assets not in service are not depreciated.

### Functional Expenses

The costs of providing various programs and activities have been summarized on a functional basis in the Statement of Activities and in the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

### Donated Services

The Organization receives donated services from a variety of unpaid volunteers assisting the Organization in its programs. No amounts have been recognized in the accompanying Statement of Activities because the criteria for recognition of such volunteer effort under generally accepted accounting principles have not been satisfied.

Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual amounts could differ from those estimates.

### Tax Status

Greater Nashua Council on Alcoholism is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) is subject to examination by the IRS, generally for three years after they were filed.

The Organization recognizes interest related to unrecognized tax benefits in interest expense and penalties that are included within reported expenses. During the year ended June 30, 2014, the Organization had no interest or penalties accrued related to unrecognized tax benefits.

### Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

The carrying amount of the Organization's deposits with financial institutions was \$97,004 and \$113,829 at June 30, 2014 and 2013, respectively. A material part of the Organization's revenue is dependent upon support from the State of New Hampshire and Medicaid, the loss of which would have a materially adverse effect on the Organization. During the year ended June 30, 2014, the State of New Hampshire accounted for 65% and Medicaid accounted for 26% of total revenues.

**16. Fair Value Measurements:**

FASB ASC, *Fair Value Measurements*, provides guidance for using fair value to measure assets and liabilities. *Fair Value Measurements* applies whenever other standards require or permit assets or liabilities to be measured at their fair market value. The standard does not expand the use of fair value in any new circumstances. Under *Fair Value Measurements*, fair value refers to the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. *Fair Value Measurements* clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions.

Under *Fair Value Measurements*, the Organization categorizes its fair value estimates based on a hierarchical framework associated with three levels of

price transparency utilized in measuring financial instruments at fair value. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The three levels are as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of financial instruments included in Level 1 are highly liquid instruments with quoted prices;
- Level 2 - Inputs from active markets, other than quoted prices for identical instruments, are used to model fair value. Significant inputs are directly observable from active markets for substantially the full term of the asset or liability being valued; and
- Level 3 - Pricing inputs significant to the valuation are unobservable. Inputs are developed based on the best information available; however, significant judgment is required by management in developing the inputs.

The estimated fair value of the Organization's financial instruments is presented in the following table:

	<u>Carrying Value</u>	<u>Fair Value</u>	<u>Level One</u>	<u>Level Two</u>	<u>Level Three</u>
Mortgages payable	\$ 3,871,988	\$ 3,871,988	\$ -	\$ 3,871,988	\$ -
Mortgages payable, deferred	1,885,000	1,885,000	-	1,885,000	-
Due to related organizations	<u>177,744</u>	<u>177,744</u>	<u>-</u>	<u>-</u>	<u>177,744</u>

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or

local government under any applicable program, and participation must be voluntary for the program beneficiaries.

VIII. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. The Contractor shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
  - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
  - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

*[Handwritten Signature]*

5/11/15

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

  - 11.2. **Final Report:** A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.
12. **Completion of Services: Disallowance of Costs:** Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

For recipients receiving less than \$25,000, or public grantees with fewer than 50 employees, regardless of the amount of the award, the recipient will provide an EEO Certification Form to the OCR certifying it is not required to submit or maintain an EEO. This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION  
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

**PRIMARY COVERED TRANSACTIONS**

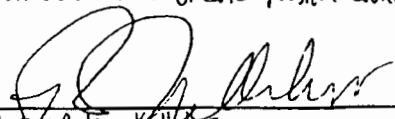

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
  - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

  - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy

of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS contractor recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

Bureau of Drug and Alcohol Services  
Assistant Administrator  
105 Pleasant Street  
Concord, NH 03301  
Or by fax to the BDAS Administrator's Office at 271-6105;

2. Additional details as they are learned or if the status of the situation changes; and,
3. Copies of newspaper articles.

Additionally, DHHS requires critical incident reporting. The Contractor shall report all critical incidents/sentinel events to the BDAS Clinical Services Unit Administrator immediately via telephone. Every effort shall be made to reach the BDAS administrator directly. If a voice message is necessary, sufficient provider contact information shall be provided so that DHHS is able to reach the reporter, or other responsible staff, immediately.

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

10. Arson resulting in property loss.
11. High profile events, which may include media coverage and/or police involvement.

***On-Site Reviews:***

1. The Contractor shall allow a team or person authorized by DHHS to periodically review the Contractor's systems of governance, administration, data collection and submission, clinical, and financial management in order to assure systems are adequate to provide the contracted services.
2. Reviews shall include, but not be limited to, client record reviews to measure compliance with this exhibit.
3. The Contractor shall make corrective actions as advised by the review team if contracted services are not found to be provided in accordance with this exhibit.

**Method and Conditions Precedent to Payment**

The State shall pay the Contractor an amount not to exceed the Price Limitation, block 1.8, for the services provided by the Contractor pursuant to Exhibit A, Scope of Services, and in accordance with Exhibit B.

Effective July 1, 2014 through June 30, 2015, funds in the amount \$424,813 for Specialty Residential Treatment for Pregnant & Parenting Women shall be used to cover cost of services not covered by Medicaid. Contractors providing Specialty Residential Treatment for Pregnant & Parenting Women may bill DHHS for "Specialty Residential Treatment for Pregnant & Parenting Women (ASAM Level 3.5): Room & Board Only" when a client's treatment is being covered by Medicaid/New Hampshire Health Protection Program. If the client requires treatment in the specialty program beyond Medicaid/New Hampshire Health Protection Program coverage limits, the provider may bill DHHS for both "Specialty Residential Treatment for Pregnant & Parenting Women (ASAM Level 3.5): Room & Board Only" and "Specialty Residential Treatment for Pregnant & Parenting Women (ASAM Level 3.5): Clinical Services".

Funding for this Agreement is funded by various sources as a percentage of the total amount of \$1,356,945 as follows:

- 61 % Federal Funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant (CFDA #93.959);
- 16 % General Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment Funds; and
- 23 % General funds.

**I. Payment Methodology**

The Contractor shall be reimbursed for providing and delivering the services listed in Exhibit A, paragraph B. The following terms and conditions detailed in this Exhibit B shall apply to all services unless expressly stated otherwise.

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the Service Reimbursement Table below. Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2015 (effective July 1, 2014) the contractor will receive a payment for each service at the rates and within the limits described below. For clients receiving DHHS supported services, the contractor may not charge the client, any 3<sup>rd</sup> party payor, and DHHS a combined rate that is more than the rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

1. The maximum allowed charge will be billed to the client's insurer, if applicable.
2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.

Exhibit B Amendment #2

---

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY14.

**1. Performance Incentives:**

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.
- v. Social Connectedness: The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.

New Hampshire Department of Health and Human Services  
Substance Use Disorder Treatment Services

Exhibit B Amendment #2

---

- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Greater Nashua area.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

Greater Nashua Council on Alcoholism D/B/A Keystone Hall was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$1,356,945.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

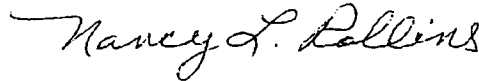

Area served: Greater Nashua area.

**Critical Incident/Sentinel Event Reporting:**

The Department's Sentinel Event policy is contained in the following link:  
<http://www.dhhs.nh.gov/dchcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As

soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS bureau recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

Bureau of Drug and Alcohol Services  
Assistant Administrator  
105 Pleasant Street  
Concord, NH 03301  
Or by fax to the BDAS Administrator's Office at 271-6105;

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

\$ 833,565.00 for Substance Abuse Treatment Services, funded from 100% federal funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment (SAPT) Block Grant, CFDA 93.959.

TOTAL: \$1,356,945.00

### III. Payment Methodology

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the approved contract budget(s). Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2013 (effective July 1, 2012) the contractor will receive a payment for each modality of services at a rate of one-twelfth (1/12) of the annual amount approved in the contract for that modality, less any pay for performance factors (utilization, access and retention) that apply. The annual contract approved amount prorated to the monthly portion is considered the BASE monthly reimbursement amount.

#### I. Performance Utilization:

##### A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:

Utilization criteria will be applied exclusively on a month-by-month basis, Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

##### B. Utilization Methodology by Modality:

- i. Outpatient: Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. Intensive Outpatient: Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. Residential Treatment/transitional living/halfway house: Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000/\$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by

the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

## 2. Utilization Access and Retention Payment Criteria Requirement

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

### A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

### B. Retention:

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service
- iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

**3. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**4. Invoicing & Billing:**

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

Any reallocation of funds between modalities of service requires prior written justification and approval from BDAS on behalf of DHHS. Reallocation of funds cannot exceed the total approved contracted amount.

**V. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VI. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

To the Board of Directors  
Headrest, Inc.  
Lebanon, New Hampshire 03766

We have audited the accompanying financial statements of Headrest, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America: this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to the above present fairly, in all material respects, the financial position of Headrest, Inc. as of June 30, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matter**

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The schedule of functional expenses on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Headrest also provides counseling and emergency shelter to transients, and information to the community relating to drugs and alcohol.

**NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES**

The summary of significant accounting policies of Headrest is presented to assist in understanding the Organization's financial statements. The financial statements and notes are representations of Headrest's management who is responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The financial statements of Headrest have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below.

Financial statement presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Not-for-Profit Organizations". Under SFAS No. 117, Headrest is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets are comprised of operating revenues and expenses and contributions pledged which are not subject to any donor-imposed restrictions. Headrest, Inc. currently has \$174,663 and \$275,781 unrestricted net assets as of June 30, 2015 and 2014, respectively.

Temporary restricted net assets are comprised of contributions and gifts for which donor-imposed restrictions will be met either by the passage of time or the actions of the Organization. Headrest, Inc. currently has no temporarily restricted net assets as of June 30, 2015 and 2014, respectively.

HEADREST, INC.  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Permanently restricted net assets include those assets for which donor-imposed restrictions stipulate that the asset be permanently maintained by the Organization. Headrest, Inc. has no permanently restricted net assets as of June 30, 2015 and 2014.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash equivalents – For purposes of the statement of cash flows, Headrest considers all short-term investments with an original maturity of three months or less to be cash equivalents. At June 30, 2015 and 2014 there were no cash equivalents.

Assets limited as to USE

Assets Limited as to Use represent board-designated assets for capital expenditures and reserves amounting to \$132,753 and \$124,952 at June 30, 2015 and 2014. Assets limited to use consist of cash and cash equivalents however these amounts have not been included in cash and cash equivalents for cash flow purposes.

Allowance for doubtful accounts – Headrest considers accounts receivable to be fully collectible, accordingly, no allowance for doubtful accounts is required.

Depreciation and fixed assets – Property and equipment are stated at cost if purchased and at fair market value on the date of the donations if donated. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted or temporarily restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, Headrest reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Headrest reclassifies temporarily restricted net assets to unrestricted net assets at that time. Depreciation is computed using straight-line and accelerated methods based on the estimated useful life of each asset. Estimated useful lives used for building and improvements are ten to thirty- nine years and for furniture and fixtures three to seven years.

Public support and revenue – All contributions are considered to be available or unrestricted use unless specifically restricted by the donor.

HEADREST, INC.  
NOTES TO FINANCIAL STATEMENTS  
YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes – The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Organization adopted the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles, with no cumulative effect adjustment required. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at June 30, 2015.

Donated services and materials - Donated supplies and equipment are reflected as contributions in the accompanying financial statements at their estimated fair market values.

Functional expenses – Functional and administrative expenses have been allocated among program services based on an analysis of personnel time and space utilized for the activities.

NOTE 3 – LINE OF CREDIT

The Organization has a \$50,000 line of credit with a local bank through January 30, 2016, collateralized by all assets, with interest at Wall Street Journal prime. There was no outstanding balance at June 30, 2015 or 2014.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation,

Exhibit A Amendment #3

**C. Required Provisions for Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals who have been administered Narcan to reverse the effects of an opioid overdose either in the 14 days prior to screening or in the period between screening and admission to the program.
- 3) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 4) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 5) Individuals with substance use co-occurring mental health disorders.
- 6) Individuals with Opioid Use Disorders.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs must be in compliance with the most recent DHHS requirements relative to the Institute for Mental Disease (IMD) Exclusion.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

**Access to Services:**

Programs above ASAM Level 1 may not accept clients in the absence of a recommendation to the program's level of care based on an evaluation by and ASAM Level 1 provider. ASAM Level

New Hampshire Department of Health and Human Services

1 programs may not provide services other than evaluation until an evaluation has been completed and a level of care recommendation established. The required evaluation may be conducted by any ASAM Level 1 provider, regardless of DHHS contract status, but will only be DHHS reimbursed for DHHS contracted providers.

The Contractor shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the contractor is an ASAM Level 1 provider or if the client's ASAM Level of Care recommendation is consistent with the level of care provided by the contractor, the contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for evaluation services will be seen for the initial evaluation within 5 business days and a final evaluation narrative and ASAM level of care recommendation and referral will be completed within 10 business days.

Those who have completed an evaluation and ASAM level of care recommendation and referral and screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

  - b. Level of Care: For clients who have met all other eligibility requirements, this evaluation shall be used to determine the appropriate level of care for the client based on ASAM (October 2013) criteria. The client is eligible for DHHS funded services at the assessed level of care unless such a level of care is unavailable or the client chooses to enter a lower level of care. If the assessed level of care is unavailable, the client may choose to enter the next higher level of care
3. Medicaid/NHHPP Eligibility: The contractor shall determine whether or not the client is eligible for Medicaid/NHHPP coverage for the identified level of care. If the client is not eligible for Medicaid/NHHPP coverage for the identified level of care, the client may be eligible for DHHS funded services. If the client is eligible for Medicaid/NHHPP coverage for the identified level of care, the client is not eligible for DHHS funded services. The provider shall assist the client with the Medicaid/NHHPP enrollment process if they are believed to be eligible for these programs.
4. Insurance Coverage: The contractor shall determine whether or not the client has insurance that will cover services at the identified level of care. If the client does not have insurance that will reimburse for these services at a rate equal to or greater than the DHHS rate, the client is eligible for DHHS funded services. If the client has insurance that will reimburse for these services at an amount equal or greater to the DHHS reimbursement rate, the client is not eligible for DHHS funded services. The contractor may not charge the combination of the client, any 3rd party payor, and DHHS more than the maximum charge allowed, which is the DHHS rate for the service in those instances in which DHHS pays any portion of the service fee. These parties shall be charged in the following order:
  - a. The maximum allowed charge will be billed to the client's insurer, if applicable.

**D. Performance Incentive Payout Limits:**

DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

  - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
  - III. For data aggregation purposes for the health care operations of Covered Entity.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

**(4) Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

**(5) Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**(6) Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. **ATR and Recovery Support Services:**

All DHHS funded treatment and recovery support service providers must also be approved Access to Recovery (ATR) providers, so long as the ATR initiative remains available, as this will be the source of funding for these recovery support services through the Voucher Management System (VMS). Information on becoming an ATR provider can be found on the DHHS website: <http://www.dhhs.nh.gov/dcbcs/bdas/atr/becomingprovider.htm>

**Regional Network Participation:**

The Contractor will designate administrative level staff to regularly participate in the Regional Network and contribute to overall regional network strategic planning, monitoring, evaluation, and cross systems communication efforts. The Contractor is highly encouraged to serve on one of the work groups and contribute to data collection, regional strategic planning and evaluation. Participation will be measured by the annual Partner Survey (<http://www.partnertool.net/>) administered by NH Center for Excellence under contract with BDAS as agent for DHHS.

**Performance Measures:**

All treatment programs under contract with BDAS on behalf of DHHS are required to report on the National Outcome Measures (NOMs) established by the SAMHSA, as required in the Federal Substance Abuse Prevention and Treatment Block Grant, via the WITS (electronic case management) system. The Department of Health and Human Services reserves the right to consider Contractor performance across all of the domains in future funding decisions.

**Data and Reporting Requirements:**

1. Without limiting the generality of any other provisions of this agreement, the Contractor shall provide any periodic or special reports required by the DHHS.
2. The Contractor shall notify BDAS, as an authorized agent of DHHS, whenever the Contractor has reached ninety percent capacity to admit new clients. In addition the Contractor shall have a waiting list management policy in accordance with the SAPT Block Grant requirements. This 90% notification process will become automatic when this operation is fully functional in WITS.
3. The Contractor shall notify DHHS through BDAS, within one working day, if sufficient capacity is not available to provide treatment services to a pregnant woman, parenting woman or injection drug user within the required time frames and a referral elsewhere is not successful and interim services cannot be provided.

4. The Contractor shall comply with all research and/or information systems development activities for the electronic case management/Web Information Technology System (CM/WITS) conducted by, or authorized by, DHHS.
5. The Contractor shall administer any client surveys, client evaluations including the addiction Severity Index (ASI) or the Global Appraisal of Individual Needs (GAIN), client treatment outcome instruments, the M.A.T.R.S. Treatment Planning Tool, as required by DHHS.
6. The Contractor must have the ability to communicate and submit required reports via the Web-based submission system and/or e-mail, for treatment s and recovery support services and interim services. All required clinical and documentation activities shall be entered in WITS unless specifically granted an exception by BDAS on behalf of DHHS.

**Critical Incident/Sentinel Event Reporting:**

The Department's Sentinel Event policy is contained in the following link:  
<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy

of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS contractor recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

Bureau of Drug and Alcohol Services  
Assistant Administrator  
105 Pleasant Street  
Concord, NH 03301  
Or by fax to the BDAS Administrator's Office at 271-6105;

Follow-up information is the responsibility of the Contractor and should be submitted in a way as to protect clients' confidential information such as by mail with delivery confirmation and should include:

1. The *Sentinel Event Reporting Form* ([www.dhhs.nh.gov/dcbcs/documents/sentinelform.pdf](http://www.dhhs.nh.gov/dcbcs/documents/sentinelform.pdf));
2. Additional details as they are learned or if the status of the situation changes; and,
3. Copies of newspaper articles.

Additionally, DHHS requires critical incident reporting. The Contractor shall report all critical incidents/sentinel events to the BDAS Clinical Services Unit Administrator immediately via telephone. Every effort shall be made to reach the BDAS administrator directly. If a voice message is necessary, sufficient provider contact information shall be provided so that DHHS is able to reach the reporter, or other responsible staff, immediately.

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

10. Arson resulting in property loss.
11. High profile events, which may include media coverage and/or police involvement.

**On-Site Reviews:**

1. The Contractor shall allow a team or person authorized by DHHS to periodically review the Contractor's systems of governance, administration, data collection and submission, clinical, and financial management in order to assure systems are adequate to provide the contracted services.
2. Reviews shall include, but not be limited to, client record reviews to measure compliance with this exhibit.
3. The Contractor shall make corrective actions as advised by the review team if contracted services are not found to be provided in accordance with this exhibit.

Exhibit B Amendment #2

**Method and Conditions Precedent to Payment**

The State shall pay the Contractor an amount not to exceed the Price Limitation, block 1.8, for the services provided by the Contractor pursuant to Exhibit A, Scope of Services, and in accordance with Exhibit B.

Funding for this Agreement is funded by various sources as a percentage of the total amount of \$251,450 as follows:

- 46 % Federal Funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant (CFDA #93.959);
- 22 % General Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment Funds; and
- 32 % General funds.

**I. Payment Methodology**

The Contractor shall be reimbursed for providing and delivering the services listed in Exhibit A, paragraph B. The following terms and conditions detailed in this Exhibit B shall apply to all services unless expressly stated otherwise.

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the Service Reimbursement Table below. Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2015 (effective July 1, 2014) the contractor will receive a payment for each service at the rates and within the limits described below. For clients receiving DHHS supported services, the contractor may not charge the client, any 3<sup>rd</sup> party payor, and DHHS a combined rate that is more than the rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

1. The maximum allowed charge will be billed to the client's insurer, if applicable.
2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
3. The balance of the maximum allowed charge, after deducting the client's portion and insurance payment, if applicable, shall be charged to DHHS.

It is expected that each day of attendance includes a minimum of 3 hours of group and/or individual counseling services.

\*\*Attempted Contact is at least 3 attempts to contact a client over the course of at least one week.

\*\*\* A unit is equal to 15 minutes of service

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY14.

1. Performance Incentives:

A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for

Exhibit B Amendment #2

services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. **Abstinence:** The client reports reduced or no substance use in the past 30 days.
- ii. **Employment/Education:** The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. **Crime and Criminal Justice:** The client reports no arrests in the past 30 days.
- iv. **Stability in Housing:** The client reports being in stable housing.
- v. **Social Connectedness:** The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

**Exhibit B Amendment #2**

---

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Exhibit B Amendment #2

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Lebanon Area.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

Headrest, Inc., was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$251,450.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

The Department's Sentinel Event policy is contained in the following link:  
<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;

7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS bureau recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

TOTAL: \$251,450.00

### III. Payment Methodology

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the approved contract budget(s). Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2013 (effective July 1, 2012) the contractor will receive a payment for each modality of services at a rate of one-twelfth (1/12) of the annual amount approved in the contract for that modality, less any pay for performance factors (utilization, access and retention) that apply. The annual contract approved amount prorated to the monthly portion is considered the BASE monthly reimbursement amount.

#### 1. Performance Utilization:

##### A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:

Utilization criteria will be applied exclusively on a month-by-month basis, Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

##### B. Utilization Methodology by Modality:

- i. Outpatient: Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. Intensive Outpatient: Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. Residential Treatment/transitional living/halfway house: Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000/\$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by

the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

## 2. Utilization Access and Retention Payment Criteria Requirement

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

### A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

### B. Retention:

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service
- iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

**3. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**4. Invoicing & Billing:**

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

Any reallocation of funds between modalities of service requires prior written justification and approval from BDAS on behalf of DHHS. Reallocation of funds cannot exceed the total approved contracted amount.

**V. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VI. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

  - III. For data aggregation purposes for the health care operations of Covered Entity.
- c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HITECH Act, Subtitle D, Part 1, Sec. 13402 of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.
- d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

**(3) Obligations and Activities of Business Associate.**

- a. Business Associate shall report to the designated Privacy Officer of Covered Entity, in writing, any use or disclosure of PHI in violation of the Agreement, including any security incident involving Covered Entity data, in accordance with the HITECH Act, Subtitle D, Part 1, Sec.13402.
- b. The Business Associate shall comply with all sections of the Privacy and Security Rule as set forth in, the HITECH Act, Subtitle D, Part 1, Sec. 13401 and Sec.13404.
- c. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- d. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section (3)b and (3)k herein. The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard provision #13 of this Agreement for the purpose of use and disclosure of protected health information.
- e. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- f. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- g. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- h. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- i. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such

information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

- j. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- k. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity; all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

**(4) Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

**(5) Termination for Cause**

In addition to standard provision #10 of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**(6) Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, and the HITECH Act as amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule and the HITECH Act.
- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section 3 k, the defense and indemnification provisions of section 3 d and standard contract provision #13, shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

## INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of Horizon Counseling Center, Inc.  
Gilford, NH 03246

We have audited the accompanying financial statements of Horizon Counseling Center, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Horizon Counseling Center, Inc. as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2013 and 2012

Note 1: Organization

Horizons Counseling Center, Inc. is a New Hampshire non-profit organization incorporated March 2, 1990. The Organization is dedicated to providing quality mental health care services for the comprehensive prevention, assessment and treatment of substance abuse and dependence, and related behavioral matters. Services are provided to substance abusers, their families and others affected by the substance abuse. The Organization is dedicated to providing these services to those of limited financial ability, regardless of their ability to pay.

Note 2: Summary of Significant Accounting Policies

Accounting Method

The financial statements have been prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recorded at the time liabilities are incurred.

Net Assets

The Organization reports its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets include the portion of funds that are not restricted by donor or grantor and are available for support of the Organizations' operation.

Temporarily Restricted Net Assets include the portion of funds for which donor or grantor restrictions have not yet been met and for which the ultimate purpose of the proceeds are not permanently restricted.

Permanently Restricted Net Assets include the portion of funds for which donor or grantor imposed restrictions require the funds to be maintained permanently by the Organization.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable is stated at net realizable value and consists of amounts due from clients for services rendered. Service fees are recorded in the year in which the service is performed. Uncollectible amounts, estimated by management based on historical data, are recorded in the period during which the services are provided even though the actual amounts may become known at a later date.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2013 and 2012

Note 2: Summary of Significant Accounting Policies – continued

Accounts Receivable - continued

Under terms of the State grant the Organization receives, no patient may be denied services for an inability to pay, resulting in services that are provided but are never expected to result in cash flows. These services estimated at approximately 54% of billings, do not qualify for recognition as receivables or revenue.

Property and Equipment

Property and equipment are recorded at cost or, if donated, at their fair market value at the date of donation. Maintenance and repairs are charged to operations when incurred; major purchases and improvements are capitalized. Fixed assets, consisting of computer and telephone equipment are being depreciated over a five year period using the straight line method.

Grants

The State of New Hampshire, in accordance with a grant contract with the Organization, allows any surplus of revenues over expenses to be used on activities approved by the grant contract with the State of New Hampshire, Department of Health and Human Services – Bureau of Drug and Alcohol Services (BDAS) to cover Medicaid shortfalls or to be expended at HCC's discretion to increase or improve service delivery within the programs specified by the contract except that such expenditures shall not increase the annualized operating cost of such programs without the prior written approval of BDAS. (See Note 5)

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. When a restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has chosen to record restricted contributions whose restrictions are met in the same reporting period as unrestricted contributions.

Schedules of Functional Expenses

The costs of providing various program and management services have been summarized on a functional basis in the Statement of Functional Expenses. Accordingly, certain costs have been allocated amongst the program services and management services benefited based on actual costs and analysis of personnel time.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2013 and 2012

Note 2: Summary of Significant Accounting Policies – continued

Use of Estimates

Preparation of the Organizations' financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could vary from these estimates.

In-Kind Contributions

In-kind contributions are recorded at fair market value and recognized as revenue in the accounting period in which they are received. During the years ended June 30, 2013 and 2012, donated professional services of \$6,400 and \$0 were received and recorded in the financial statements. Volunteers, mainly board members, donate time to the Organization's program services. These services have not been included in donated materials and services because their value has not been determined.

Federally Insured Limits

The Organization maintains its cash account at one financial institution, which is secured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 in aggregate. The Organization has not exceeded this limit for the years ending June 30, 2013 and 2012.

Tax Status

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and did not conduct unrelated business activities. Therefore, there is no provision for federal income taxes in the accompanying financial statements. In addition, the Organization has been determined by the IRS not to be a private foundation within the meaning of Section 590(a) of the Internal Revenue Code.

Uncertainty in Income Taxes

The Organization recognizes uncertain income tax positions as required by generally accepted accounting principles. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained

Horizons Counseling Center, Inc.  
Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies – continued

Uncertainty in Income Taxes - continued

upon examination by taxing authorities. The Organization has analyzed its tax positions taken for filing with the Internal Revenue Service and the State of New Hampshire. The Organization believes that the income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations, or cash flows. Accordingly, the Organization has not recorded any reserves or related accruals for interest and penalties for uncertain tax positions at June 30, 2013.

The Organization is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations in progress for any tax period. The Organization believes it is no longer subject to income tax examinations for fiscal years ended prior to June 30, 2010.

Note 3: Leased Facilities and Related Party

The Organization rents the Gilford office from a related party, the spouse of the Executive Director. The rental agreement is unwritten, but annual rental payments are approved each year by the Board of Directors. For the years ended June 30, 2013 and 2012 the total rent paid to the related party was \$14,406.

For the years ended June 30, 2013 and 2012, the Organization also rented space in Plymouth, New Hampshire. A 24 month lease agreement was entered into on January 1, 2012, which calls for monthly rent payments of \$475. The total rent for the Plymouth office for the June 30, 2013 and 2012 was \$5,550 and \$5,700, respectively.

Effective August 6, 2012, the Organization rented space in Gilford, New Hampshire. The lease is for one year, which calls for monthly rent payments of \$900. Total rent paid for the year ended June 30, 2013 was \$9,900.

Note 4: Concentration of Risk

The Organization grants credit to its patients, most of whom are local residents and some of whom are insured under third party payer agreements. Based upon factors surrounding the credit risk of specific patients, historical trends, and other information, the Organization has estimated the collectible balances for patient receivables. No collateral or other security to support patient receivables is required.

The Organization receives the majority of its support from the New Hampshire Department of Health and Human Services. In the event that this support were to be eliminated, it is likely that the Organization would need to reduce its current operations.

Horizons Counseling Center, Inc.  
Notes to Financial Statements  
June 30, 2013 and 2012

Note 5: Grant Revenue and Support

The Organization receives substantial funding in the form of grants from the New Hampshire Department of Health and Human Services - Bureau of Drug and Alcohol Services (BDAS). The Organization reports the grant funding as income for the period in which services are rendered and costs are incurred.

Under the terms of the grant, no patient may be denied services due to an inability to pay for such services. Consequently, all patients are billed on a sliding fee scale based upon their financial resources. The difference between the established rates and the amount collectible and the difference between the established rates and third-party payments are deducted from gross service revenue.

Note 6: Related Party

During the year ended June 30, 2013, the Organization received donations totaling \$10,500 from relatives of the executive director.

Note 7: Subsequent Events

Management has evaluated subsequent events through November 6, 2014, which is the date the financial statements were available to be issued.

The Contractor shall complete all billing for all services (except for Medication Assisted Treatment Staff Time for Phase I and Phase II), defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor will use the Department supplied billing sheet to complete billing for Medication Assisted Treatment Staff Time for Phase I and Phase II.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**IX. Payment and Invoicing Instructions for Exhibit A-1, Scope of Services**

- A. Payment for said services shall be made as follows:
- i. The Contractor will submit one invoice by October 10, 2015, which identifies and requests reimbursement for authorized expenses incurred for the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
  - ii. The State shall make payment to the Contractor within thirty (30) days of receipt of each invoice for Contractor services provided pursuant to this Agreement.  
The invoice must be submitted to:  
Financial Manager  
Department of Health and Human Services,  
Bureau of Drug and Alcohol Services  
105 Pleasant Street  
Concord, NH 03301
- B. The invoice shall include an itemized listing of expenses, amounts and dates when the expenses incurred.
- C. The Contractor shall provide supporting documentation to support evidence of actual expenditures identified on the invoice and in accordance with the Department approved plan, such as but not limited to: a copy of the approval from the Department to expend the funding; a detailed description of the scope of work that was completed; copies of invoices for purchases; and/or the names of the Contractor's staff, dates and hours worked and amounts being billed for the specific scope of work.
- D. Allowable costs and expenses shall be determined by the Department in accordance with applicable state and federal laws and regulations.
- E. The Contractor shall not bill for reimbursement of expenses incurred before or after the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
- F. The Contractor shall obtain Department approval prior to incurring the expense to provide the scope of work described in the Department approved plan.
- G. Notwithstanding anything to the contrary herein, the Contractor agrees that funding under this contract may be withheld, in whole, or in part, in the event of noncompliance with any State or Federal law, rule or regulation applicable to the services provided, or if the said services have not been completed in accordance with the terms and conditions of this Agreement.

**C. Required Provisions for Services**

**Priority Admission:**

- 2) Individuals who have been administered Narcan to reverse the effects of an opioid overdose either in the 14 days prior to screening or in the period between screening and admission to the program.

- 4) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 5) Individuals with substance use co-occurring mental health disorders.
- 6) Individuals with Opioid Use Disorders.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs must be in compliance with the most recent DHHS requirements relative to the Institute for Mental Disease (IMD) Exclusion.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

**Access to Services:**

Programs above ASAM Level 1 may not accept clients in the absence of a recommendation to the program's level of care based on an evaluation by and ASAM Level 1 provider. ASAM Level

**Exhibit A Amendment #3**

---

1 programs may not provide services other than evaluation until an evaluation has been completed and a level of care recommendation established. The required evaluation may be conducted by any ASAM Level 1 provider, regardless of DHHS contract status, but will only be DHHS reimbursed for DHHS contracted providers.

The Contractor shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the contractor is an ASAM Level 1 provider or if the client's ASAM Level of Care recommendation is consistent with the level of care provided by the contractor, the contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for evaluation services will be seen for the initial evaluation within 5 business days and a final evaluation narrative and ASAM level of care recommendation and referral will be completed within 10 business days.

Those who have completed an evaluation and ASAM level of care recommendation and referral and screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

In order to be eligible for DHHS supported services, a client must meet all eligibility criteria described below. Eligibility determination shall be conducted as follows:

- c. Potential for a Substance Use Disorder: The client must screen positive for a potential substance use disorder to be eligible for DHHS funded services.
2. Evaluation: No client shall be eligible for treatment services without first having an evaluation and referral from an ASAM Level 1 provider. If this evaluation is completed by a contracted provider, the evaluation shall include administration of either the ASI or GAIN.
  - a. Substance Use Disorder: This evaluation shall be used to determine if the client meets Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM5) criteria for a substance use disorder. Clients who meet DSM5 criteria for a substance use disorder are eligible for DHHS funded services. Client who do not meet these criteria are not eligible for DHHS funded services.
  - b. Level of Care: For clients who have met all other eligibility requirements, this evaluation shall be used to determine the appropriate level of care for the client based on ASAM (October 2013) criteria. The client is eligible for DHHS funded services at the assessed level of care unless such a level of care is unavailable or the client chooses to enter a lower level of care. If the assessed level of care is unavailable, the client may choose to enter the next higher level of care
3. Medicaid/NHHPP Eligibility: The contractor shall determine whether or not the client is eligible for Medicaid/NHHPP coverage for the identified level of care. If the client is not eligible for Medicaid/NHHPP coverage for the identified level of care, the client may be eligible for DHHS funded services. If the client is eligible for Medicaid/NHHPP coverage for the identified level of care, the client is not eligible for DHHS funded services. The provider shall assist the client with the Medicaid/NHHPP enrollment process if they are believed to be eligible for these programs.
4. Insurance Coverage: The contractor shall determine whether or not the client has insurance that will cover services at the identified level of care. If the client does not have insurance that will reimburse for these services at a rate equal to or greater than the DHHS rate, the client is eligible for DHHS funded services. If the client has insurance that will reimburse for these services at an amount equal or greater to the DHHS reimbursement rate, the client is not eligible for DHHS funded services. The contractor may not charge the combination of the client, any 3rd party payor, and DHHS more than the maximum charge allowed, which is the DHHS rate for the service in those instances in which DHHS pays any portion of the service fee. These parties shall be charged in the following order:
  - a. The maximum allowed charge will be billed to the client's insurer, if applicable.
  - b. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
  - c. The balance of the maximum allowed charge after deducting the client's portion and the insurance payment, if applicable, shall be charged to DHHS.
5. Medication Assisted Treatment with Buprenorphine eligibility: Only those clients who are simultaneously engaged in other clinical services with the provider are eligible for these services.

***Sliding Fee Scale:***

- Client Income is 0% - 138% of FPL: 100% of the allowed charge less any amount paid for by insurance.
- Client Income is 139% - 149% of FPL: 92% of the allowed charge less any amount paid for by insurance.
- Client Income is 150% - 199% of FPL: 88% of the allowed charge less any amount paid for by insurance.
- Client Income is 200% - 249% of FPL: 75% of the allowed charge less any amount paid for by insurance.
- Client Income is 250% - 299% of FPL: 60% of the allowed charge less any amount paid for by insurance.
- Client Income is 300% - 349% of FPL: 43% of the allowed charge less any amount paid for by insurance.
- Client Income is 350% - 399% of FPL: 33% of the allowed charge less any amount paid for by insurance.

With respect to minority age individuals, a minor child shall not be denied services as a result of the parent's unwillingness to pay the fee or the minor child's decision to receive confidential services pursuant to RSA 318-B:12-a.

***Waiting List Management:***

When a person who is pregnant or an injection substance abuser seeks treatment and there are no appropriate treatment services available within the required time frame as outlined below, interim services **must** be made available. The Contractor agrees to maintain the wait list management system in WITS that includes a unique patient identifier and include information on dates of requests for admission to treatment, provision of interim services and source for those services, referrals made for treatment or interim services, and disposition of clients on the waiting list.

DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services (except for Medication Assisted Treatment Staff Time for Phase I and Phase II), defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor will use the Department supplied billing sheet to complete billing for Medication Assisted Treatment Staff Time for Phase I and Phase II.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:

Exhibit F Amendment #1

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION  
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Exhibit F Amendment #1

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

- 11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
  - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
  - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- 12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

- 13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
  - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
  - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.
- b. Business Associate may use or disclose PHI:
  - I. For the proper management and administration of the Business Associate;
  - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
  - III. For data aggregation purposes for the health care operations of Covered Entity.
- c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.
- d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

- b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.
- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (I). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

**(4) Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

**(5) Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**(6) Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Exhibit A Amendment #2

**C. Required Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

The documentation shall include a copy of the New Hampshire Alcohol and Drug Counselor License.

***Staff Certification Requirements:***

In addition to the requirements for LADCs, all Contractor milieu staff in residential settings and transitional living programs and staff providing recovery support aftercare group services shall be Certified Recovery Support Workers (CRSW) under the Board of Alcohol and Drug Abuse Professional Practice, or working toward that certification under RSA 330-C (<http://www.gencourt.state.nh.us/rsa/html/NHTOC/NHTOC-XXX-330-C.htm>). Certification must be completed within six (6) months of the contract's approval date.

Staff providing recovery support services are expected to be Certified Recovery Support Workers (CRSW) under the Board of Alcohol and Drug Abuse Professional Practice, or working toward that certification. 1. New Hires: The Contractor shall notify BDAS on behalf of DHHS in writing within one month of hire when a new administrator or coordinator or any staff person essential to carrying out this scope of services is hired to work in the program. A resume of the employee, which clearly indicates the staff member is employed by the Contractor, shall accompany this notification.

The Contractor shall attend trainings and/or meetings as requested by DHHS.

***ATR and Recovery Support Services:***

All DHHS funded treatment and recovery support service providers must also be approved Access to Recovery (ATR) providers, so long as the ATR initiative remains available, as this will be the source of funding for these recovery support services through the Voucher Management System (VMS). ***Performance Measures:***

All treatment programs under contract with BDAS on behalf of DHHS are required to report on the National Outcome Measures (NOMs) established by the SAMHSA, as required in the Federal Substance Abuse Prevention and Treatment Block Grant, via the WITS (electronic case management) system. The Department of Health and Human Services reserves the right to consider Contractor performance across all of the domains in future funding decisions.

**Critical Incident/Sentinel Event Reporting:**

The Department's Sentinel Event policy is contained in the following link:  
<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.
2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy

of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS contractor recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

Bureau of Drug and Alcohol Services  
Assistant Administrator  
105 Pleasant Street  
Concord, NH 03301  
Or by fax to the BDAS Administrator's Office at 271-6105;

Follow-up information is the responsibility of the Contractor and should be submitted in a way as to protect clients' confidential information such as by mail with delivery confirmation and should include:

1. The *Sentinel Event Reporting Form* ([www.dhhs.nh.gov/dcbcs/documents/sentinelform.pdf](http://www.dhhs.nh.gov/dcbcs/documents/sentinelform.pdf));
2. Additional details as they are learned or if the status of the situation changes; and,
3. Copies of newspaper articles.

Additionally, DHHS requires critical incident reporting. The Contractor shall report all critical incidents/sentinel events to the BDAS Clinical Services Unit Administrator immediately via telephone. Every effort shall be made to reach the BDAS administrator directly. If a voice message is necessary, sufficient provider contact information shall be provided so that DHHS is able to reach the reporter, or other responsible staff, immediately.

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

5. Medication error that results in death, paralysis, coma, or other permanent loss of function.

9. Assault of or by a client of the Contractor that results in the injury of the person or another person of such severity that medical attention is required.
10. Arson resulting in property loss.
11. High profile events, which may include media coverage and/or police involvement.

***On-Site Reviews:***

1. The Contractor shall allow a team or person authorized by DHHS to periodically review the Contractor's systems of governance, administration, data collection and submission, clinical, and financial management in order to assure systems are adequate to provide the contracted services.

Exhibit B Amendment #2

**Method and Conditions Precedent to Payment**

The State shall pay the Contractor an amount not to exceed the Price Limitation, block 1.8, for the services provided by the Contractor pursuant to Exhibit A, Scope of Services, and in accordance with Exhibit B.

Funding for this Agreement is funded by various sources as a percentage of the total amount of \$189,576 as follows:

- 46 % Federal Funds from the Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant (CFDA #93.959);
- 22 % General Governor's Commission on Alcohol and Drug Abuse Prevention, Intervention and Treatment Funds; and
- 32 % General funds.

**I. Payment Methodology**

The Contractor shall be reimbursed for providing and delivering the services listed in Exhibit A, paragraph B. The following terms and conditions detailed in this Exhibit B shall apply to all services unless expressly stated otherwise.

The Contractor shall agree to use and apply all contract funds from the State for costs and expenses as detailed in the Service Reimbursement Table below. Allowable costs and expenses shall be determined by the State in accordance with applicable state and federal laws and regulations. Starting in State Fiscal Year 2015 (effective July 1, 2014) the contractor will receive a payment for each service at the rates and within the limits described below. For clients receiving DHHS supported services, the contractor may not charge the client, any 3<sup>rd</sup> party payor, and DHHS a combined rate that is more than the rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

1. The maximum allowed charge will be billed to the client's insurer, if applicable.
2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
3. The balance of the maximum allowed charge, after deducting the client's portion and insurance payment, if applicable, shall be charged to DHHS.

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY14.

1. Performance Incentives:

A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. Exhibit B Amendment #2

services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**B. Completion:**

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

**C. Client Outcomes:**

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. **Abstinence:** The client reports reduced or no substance use in the past 30 days.
- ii. **Employment/Education:** The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. **Crime and Criminal Justice:** The client reports no arrests in the past 30 days.
- iv. **Stability in Housing:** The client reports being in stable housing.
- v. **Social Connectedness:** The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**2. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**3. Invoicing & Billing:**

All billing shall be completed via the WITS system according to protocols established by BDAS.

Exhibit B Amendment #2

---

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**II. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**III. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**IV. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**V. Charitable Choice:**

Exhibit B Amendment #2

---

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- VI. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

### EXPLANATION

The purpose of this agreement is to provide a continuum of substance abuse treatment services such as community based outpatient, intensive outpatient, residential, transitional living, and recovery support services, including specialized treatment services for pregnant and parenting women and their children, in the Gilford, Laconia and Plymouth areas.

Client eligibility for treatment services is targeted at those either unable to pay for services or able to pay only part of the cost of services, and who has or is suspected of having an alcohol or other drug abuse problem, and who is a resident of the State of New Hampshire or is homeless in NH. All clients discharged from treatment services supported by this contract will be referred to care coordination and recovery-support aftercare services as clinically appropriate, supported separately by the Federal Access to Recovery Grant.

The State is migrating toward a Resiliency and Recovery Oriented Systems of Care. Recovery-oriented systems of care are networks of organizations, agencies and community members that coordinate a wide spectrum of services to prevent, intervene in, and treat substance use problems and disorders. In addition, this contract will allow the State to improve the quality and array of services available to clients. Quality improvement efforts include the exchange of data and information that will support "data driven" prevention and treatment programming to better address the needs to the region.

The New Hampshire Office of Energy and Planning reported the 2009 Population Estimates of New Hampshire Cities and Towns as 1,324,575. The National Survey on Drug Use and Health commissioned by the Substance Abuse and Mental Health Services Administration in 2008/2009 reported the following demographic data for New Hampshire:

- Alcohol Abuse: 97,630 (7% of population)
- Alcohol dependence: 44,850 (3% of population)
- Illicit Drug Abuse: 43,810 (3% of population)
- Illicit Drug Dependence: 32,240 (2% of population)
- Substance Abuse: 126,630 (10% of population)
- Needing but not receiving treatment for alcohol abuse: 93,990 (7% of population)
- Needing but not receiving treatment for illicit drug use: 39,390 (3% of population)

In addition, the New Hampshire Medical Examiner office reported 172 drug related overdose deaths in NH during 2010. The New Hampshire Administrative Office of the Courts reported 9,500 arrests and 5,000 convictions for Driving While Impaired in 2009. Approximately 90% of individuals arrested for Driving While Impaired have an underlying substance abuse disorder according to the National Institute on Alcohol Abuse and Alcoholism.

Should the Governor and Executive Council determine to not authorize this Request, agencies would not have sufficient resources to promote, implement and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery. In addition, failure to obligate the federal funds in the Substance Abuse Prevention and Treatment Block Grant to community based programs to provide alcohol and other drug treatment service would place that Block Grant in jeopardy.

Horizons Counseling Center, Inc. was selected for this agreement through a competitive bid process. A Request for Proposals was posted on the Department's web site on March 6, 2012 through April 2, 2012. In addition, a bidder's conference was held on March 12, 2012.

A total of 19 proposals were received. A review committee of three professionals reviewed each proposal. All reviewers have between three to twenty years experience managing agreements with vendors for various public health programs. Areas of specific expertise include: maternal and child health; substance abuse prevention and treatment; chronic and communicable diseases; and public health infrastructure. Eighteen of the proposals were selected for funding based on review criteria that included availability of funds, consistency with stated funding priorities, technical score, and equitable geographic distribution. The agency that was not selected did not meet the minimum scoring criteria established for funding. The Bid Summary is attached.

This request covers services for the period July 1, 2012 to June 30, 2013, with an option to renew for one additional year, pending availability of funding, the agreement of the parties and approval of Governor and Council. These services were contracted previously with this agency in State Fiscal Year 2012 in the amount of \$189,576.00. This agreement represents level funding.

The following performance measures will be used to measure the effectiveness of the agreement:

- Utilization criteria will be applied exclusively on a month-by-month basis according to the criteria below.
  - i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
  - ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
  - iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).
- Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:
  - i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
  - ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.
- A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received as noted below:
  - i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
  - ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
  - iii. Have completed a minimum of 14 days of residential treatment service
  - iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

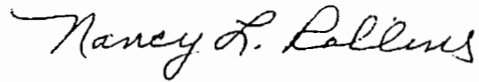

Area served: Gilford, Laconia and Plymouth areas.

**Critical Incident/Sentinel Event Reporting:**

The Department's Sentinel Event policy is contained in the following link:  
<http://www.dhhs.nh.gov/dcbcs/sentinel.htm>

**Division of Community Based Care Services (DCBCS) Sentinel Event Notification:**

The preceding events require the immediate verbal notification to the BDAS Assistant Administrator or Clinical Services Unit Administrator upon the discovery of a sentinel event involving an individual(s) receiving services through a DHHS substance use disorder treatment Contractor.

Since the initial and immediate verbal notification of a sentinel event is likely to include protected health information (PHI) as identified below, the Contractor of services to individuals receiving services funded by the DHHS shall disclose PHI in a private and secure manner. Contractors and vendors should not leave voice-mail messages, but instead make direct telephone contact with the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee. If direct telephone contact is not possible, a voice mail message may be left without protected health information, such as medications and relevant medical and psychiatric diagnoses. As soon as possible after the initial verbal notification, the Contractor will mail or fax a completed *Sentinel Event Reporting Form* as directed in this protocol.

Notification shall include the following:

1. Name and phone number of the individual reporting.

2. Name, date of birth (DOB), medications and all relevant medical and psychiatric diagnoses of individual(s) involved;
3. Location, date, and time of event;
4. Description of the event including what, when, where, how, and other relevant information and identification of any other individuals involved;
5. Legal status of the individual involved with regard to guardianship and power of attorney;
6. Community, guardian, family and/or families' knowledge of the event; and
7. Contractor contact person and contact information.

It shall be the responsibility of the BDAS Assistant Administrator or Clinical Services Unit Administrator or designee to notify the DCBCS Quality Improvement Director by e-mail as soon as the BDAS Clinical Administrator or designee becomes aware a Sentinel Event has occurred. The DCBCS Quality Improvement Director shall make immediate notification to the Commissioner. Internal e-mails within the Department may contain PHI and all Department employees will utilize safeguards to ensure the privacy of the PHI as stated in the DHHS General Manual Health Insurance Portability and Accountability Act (HIPAA) policy #504.

Each DCBCS bureau recognizes its responsibility to report evidence of neglect, abuse or exploitation to the appropriate regulatory agencies as required by RSA 161-F: 42-57 and RSA 169-C:29. In any case of known or suspected neglect, abuse or exploitation, the Contractor aware of the situation shall follow all applicable rules relative to individual rights protection procedures.

Written follow up information is to be forwarded by the reporting Contractor to the appropriate BDAS Administrator listed below within 72 hours by completing the *Sentinel Event Reporting Form*. To protect clients' confidential information, reporting Contractors should submit the *Sentinel Event Reporting Form* either by fax to the BDAS Assistant Administrator or the BDAS Clinical Services Unit Administrator by a mail service that provides delivery confirmation.

A critical incident includes, but is not limited to, any child or adult protective services report to the Division of Children, Youth and Families (DCYF), or the Bureau of Elderly and Adult Services (BEAS), respectively, regarding any incident involving 1) a staff/employee to youth or client, 2) youth to youth, or 3) client to client. This includes incidents that occur while a client is on leave, or on a pass, from the Contractor and may be off site at the time the incident occurred.

A sentinel event is an unexpected occurrence involving the death or serious physical or psychological injury, or risk thereof, signaling the need for immediate investigation and response.

Death or any serious injury or medical emergency regarding staff or clients that requires emergency medical attention (EMT or other emergency personnel at the Contractor's site, or a hospital emergency room visit), or any crime reportable to law enforcement, or any other serious incident must also be reported to DHHS as described below.

## 1. Performance Utilization:

### A. Utilization Performance Criteria for all residential, outpatient and intensive outpatient treatment services:

Utilization criteria will be applied exclusively on a month-by-month basis, Contractors will not be retroactively reimbursed at the higher rate for past months even if the Contractor later meets the higher utilization rates year to date. Utilization criteria is first applied to monthly billing submitted by the Contractor to determine the total amount of expenses eligible for reimbursable, after which access and retention criteria are applied to determine if that amount will be reimbursed at 95% or 100% according to the criteria below.

- i. Contracts running at 90% to 100% of utilization in a given month will be reimbursed at 100% of the contracted rate for that month.
- ii. Contracts running at 80% to 89% of utilization in a given month will be reimbursed at rate of 95% of the contracted rate for that month.
- iii. Contracts running below 80% of utilization in a given month will be reimbursed at the rate of utilization for that month (for example for a given month in which utilization was 59% the contractor would be reimbursed at 59% of the contracted rate for that month).

### B. Utilization Methodology by Modality:

- i. Outpatient: Utilization for Outpatient is factored at a rate of 100 direct clinical hours per month per FTE. One hundred (100) clinical hours equates to 100% utilization. Outpatient utilization does not require separate consideration for individual or group outpatient counseling, the total of both is based on direct clinical hours of service. The FTEs for the contract are determined based upon the level of funding provided for outpatient divided by \$75,000 (e.g. Agency ABC funding for outpatient services is \$168,750 divided by \$75,000 per FTE results in 2.25 FTE.)
- ii. Intensive Outpatient: Utilization for Intensive Outpatient is determined in the same manner as Outpatient based on Full Time Equivalent. Individual or group intensive outpatient counseling are combined in determining the utilization rate with the total of both based on direct clinical hours of service.
- iii. Residential Treatment/transitional living/halfway house: Utilization for all residential services is factored by taking the amount of funding for the modality of residential services and dividing it by the *bed day rate* to determine the total number of bed days per year, and then dividing this amount by 365 days to determine the "beds per day factor" (which is equal to the number of beds being funded) for this modality of residential services. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month. As an example, say agency ABC is funded in the amount of \$438,000 to provide 28-day residential treatment services for adults. Given that the per day bed rate for adult residential treatment services is \$120 per day, the agency would be expected to provide 3,650 ( $\$438,000/\$120$ ) bed days per year / 365 days per year = 10 beds per day. Utilization for residential treatment is factored by multiplying the "beds per day factor" by the actual number of days in a given month; in this example the number of bed days for April would be 30 (days in April) X 10 beds per day or 300 beds at 100% utilization.

## 2. Utilization Access and Retention Payment Criteria Requirement

Contractors will receive the billing amount net of utilization rates, for each billing month in which the agency has met both the Access and Retention criteria outlined below for the given month. Any Agency not meeting both the Access and Retention criteria will receive reimbursement at 95% of the amount after first factoring utilization. Access and retention criteria do not include recovery support services. Performance criteria will be applied

exclusively on a month-by-month basis, contractors will not be retroactively reimbursed at the 100% rate for past months even if the contractor later meets the Access and Retention rates year to date.

**A. Access to Services:**

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received. The following Access Criteria must be met for a minimum of 80% of prospective clients (from clients or referring agencies) for the month in which billing is being submitted:

- i. Treatment contractors are required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.
- ii. Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening.

**B. Retention:**

A minimum of 70% of clients, which have completed or otherwise are no longer receiving services, will have met the minimum retention standards for the modality of services received:

- i. Have completed a minimum of 6 sessions of outpatient treatment services (OP)
- ii. Have completed a minimum of 8 days of intensive outpatient treatment services (IOP) – only those days in which a client has participated in minimum of 10 units (2.5 hours) of service per day (12 units per day is the standard for IOP services) may be counted.
- iii. Have completed a minimum of 14 days of residential treatment service
- iv. Has completed a minimum of 28 days in a transitional living/halfway house residential program.

**3. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**4. Invoicing & Billing:**

Invoices shall be submitted by the Contractor to the State in a form satisfactory to the State for each modality of service. Said invoices shall be submitted within twenty (20) working days following the end of the month during which the contract activities were completed, and the final invoice shall be due to the State no later than sixty (60) days after the contract Completion Date.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

Standard Exhibits C – J  
TX Substance Use Disorder

Contractor Initials: JA  
Date: 5/23/12

Any reallocation of funds between modalities of service requires prior written justification and approval from BDAS on behalf of DHHS. Reallocation of funds cannot exceed the total approved contracted amount.

**V. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

*The Contractor agrees to use the SAPT funds as the payment of last resort.*

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.
- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VI. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

- b. Business Associate may use or disclose PHI:
  - I. For the proper management and administration of the Business Associate;
  - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
  - III. For data aggregation purposes for the health care operations of Covered Entity.
- c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HITECH Act, Subtitle D, Part 1, Sec. 13402 of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.
- d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) **Obligations and Activities of Business Associate.**

- a. Business Associate shall report to the designated Privacy Officer of Covered Entity, in writing, any use or disclosure of PHI in violation of the Agreement, including any security incident involving Covered Entity data, in accordance with the HITECH Act, Subtitle D, Part 1, Sec.13402.
- b. The Business Associate shall comply with all sections of the Privacy and Security Rule as set forth in, the HITECH Act, Subtitle D, Part 1, Sec. 13401 and Sec.13404.
- c. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- d. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section (3)b and (3)k herein. The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard provision #13 of this Agreement for the purpose of use and disclosure of protected health information.
- e. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- f. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- g. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- h. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- i. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such

information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

- j. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- k. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity; all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

**(4) Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

**(5) Termination for Cause**

In addition to standard provision #10 of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

**(6) Miscellaneous**

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, and the HITECH Act as amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule and the HITECH Act.
- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section 3 k, the defense and indemnification provisions of section 3 d and standard contract provision #13, shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

**INDEPENDENT AUDITORS' REPORT**

To the Board of Directors  
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2014 and 2013, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

***Auditors' Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors  
Easter Seals New Hampshire, Inc. and Subsidiaries

***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matter***

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014 on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

#### 2. Summary of Significant Accounting Policies (Continued)

##### Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. Approximately \$2,483,000 and \$2,432,000, respectively, of cash and cash equivalents, and approximately \$2,512,000 and \$2,238,000, respectively, of investments were on-hand under this practice as of August 31, 2014 and 2013, respectively.

##### Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other nonoperating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

##### Beneficial Interest in Trusts

Easter Seals NH is the beneficiary of several trusts held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trusts and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other nonoperating expenses, gains and losses as permanently restricted activity.

##### Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 5.

Property held for sale is recorded at the lower of net realizable value or carrying value. Easter Seals NH recognized impairment losses on certain property held for sale in 2014 of \$139,698, which is recorded in other nonoperating losses.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

#### 2. Summary of Significant Accounting Policies (Continued)

##### Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment. Intangible assets at August 31, 2014 and 2013 consist of a patient list obtained in the acquisition of Webster Place.

Expected amortization of intangible assets through the end of their useful lives is as follows:

2015	\$ 33,130
2016	33,130
2017	33,130
2018	33,130
2019	33,130
Thereafter	<u>66,263</u>
	<u>\$231,913</u>

Amortization expense recognized for the patient list in 2014 and 2013 totaled \$33,130.

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believes that no long-lived assets were impaired at August 31, 2014 and 2013.

##### Bond Issuance Costs

Bond issuance costs are being amortized by the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Amortization expense recognized during 2014 and 2013 was \$9,638.

##### Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known. Easter Seals NY recognized additional revenue of approximately \$7,654 in 2014 and \$1,046,000 in 2013 due to favorable rate adjustments approved by the State of New York.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

#### 2. Summary of Significant Accounting Policies (Continued)

A third-party payor for three Easter Seals NY programs charged a facility tax assessment on a monthly basis in 2014 and 2013. The charges are a part of Easter Seals NY's reimbursement contract with the payor. The facility tax assessment is based on approved rates. As of August 31, 2014 and 2013, the facility tax assessment due was approximately \$136,000 and \$138,000, respectively, and is recorded in deferred revenue in the accompanying statements of financial position.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectibility of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2014 and 2013 totaled \$265,007 and \$774,569, respectively.

Unconditional contributions are recognized when pledged.

#### Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

#### Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

#### Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately \$6,802,000 and \$7,373,000 for the years ended August 31, 2014 and 2013, respectively.

#### Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals NY, Easter Seals ME, Easter Seals VT, Easter Seals RI, Harbor Schools, Manchester Alcoholism Rehabilitation Center and Easter Seals CT are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code and, for Easter Seals NY of the Not-for-Profit Corporation Law of the State of New York. Agency Realty, Inc. received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

#### 2. Summary of Significant Accounting Policies (Continued)

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position.

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements. Easter Seals New Hampshire, Inc. and its subsidiaries are no longer subject to income tax examinations by the federal or state tax authorities for years prior to 2011.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreements described in note 8. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreements (not the notional amount) in the event of nonperformance of the other party to the swap agreements. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2014 and 2013, Easter Seals NH had recognized a liability of \$3,329,813 and \$2,758,346, respectively, as a result of the interest rate swap agreements discussed in note 8. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized an decrease in net assets of \$571,467 (\$23,387 of which is included in deconsolidation of affiliate as an increase in net assets) for the year ending August 31, 2014, and an increase in net assets of \$2,377,632 for the year ending August 31, 2013 related to swap agreements.

#### Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase (decrease) in net assets from operations. The primary transactions reported as other nonoperating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the increase in the fair value of beneficial interest in trusts held by others, gains and losses on sales and disposals of property, plant and equipment, and net realized and unrealized gains on investments.

#### 2. Summary of Significant Accounting Policies (Continued)

##### Reclassifications

Certain amounts in the 2013 consolidated financial statements have been reclassified to conform to the 2014 presentation.

##### Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 5, 2014, the date these consolidated financial statements were available to be issued.

#### 3. Classification of Net Assets

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2014 or 2013.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

## EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

#### 3. Classification of Net Assets (Continued)

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Easter Seals NH may appropriate for distribution some or all of the earnings and appreciation on its endowment for funding of operations. In establishing this policy, Easter Seals NH considered the objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to, so long as it would not detract from Easter Seals NH's critical goals and initiatives, provide additional real growth through new gifts and investment return.

#### 4. Leases

Easter Seals NH leases certain assets under various arrangements which have been classified as operating leases. Total expense under all leases (including month-to-month leases) was approximately \$2,420,000 and \$2,168,000 for the years ended August 31, 2014 and 2013, respectively. Some of these leases have terms which include renewal options, and others may be terminated at Easter Seals NH's option without substantial penalty. Future minimum payments required under the leases in effect at August 31, 2014, through the remaining contractual term of the underlying lease agreements, are as follows:

##### Year Ended August 31:

2015	\$2,018,870
2016	1,486,328
2017	1,044,716
2018	385,129
2019	221,698
Thereafter	31,240

Easter Seals NY leases certain facilities for school operations from unrelated parties at lease terms that are either below fair market value, or that are almost entirely rent-free. Under accounting principles generally accepted in the United States of America, lease agreements must be evaluated based upon their economic substance rather than legal form, and a lease subsidy would be recorded as both contribution and rental expense. However, Easter Seals NH has determined that such amounts would not be material to the accompanying consolidated financial statements.

Easter Seals NY subleases certain office space located at 11 West 42<sup>nd</sup> Street in New York to an unrelated party. The sublease agreement expires in February 2014. Total rental income earned under this sublease agreement for the years ended August 31, 2014 and 2013 was approximately \$65,000 and \$144,000, respectively.

##### *Lines of Credit and Other Financing Arrangements*

Easter Seals New Hampshire, Inc. had an agreement with a bank for a \$500,000 nonrevolving equipment line of credit. The line of credit was used to fund the purchase of New Hampshire titled vehicles for use by Easter Seals NH through April 2, 2014. The interest rate charged on outstanding borrowings was at a fixed rate at the then prime rate minus 0.75% for maturities up to a five-year term. Upon maturity of this agreement, the balances outstanding under the note payable at August 31, 2014 and 2013 were converted to various term notes secured by vehicles, as described above.

Easter Seals New Hampshire, Inc. also has an agreement with a bank for a \$500,000 revolving equipment line, which can be used to fund the purchase of New Hampshire titled vehicles for use by Easter Seals NH through June 2017. Advances are converted to term notes as utilized. The interest rate charged on outstanding borrowings is at a fixed rate equal to the then Business Vehicle Rate at the time of the advance for maturities up to a five year term. Included in long-term debt are two notes payable of \$33,925 and \$9,979 at August 31, 2014 that originated under this agreement. Availability under this agreement at August 31, 2014 is approximately \$456,000.

Easter Seals New Hampshire, Inc. (the sole member of Easter Seals NY and Harbor Schools), Easter Seals NY and Harbor Schools have a revolving line of credit with a bank, with available borrowings up to \$7 million (a portion of which is secured by available letters of credit of \$59,000). Outstanding advances are due on demand. The revolving line of credit has the following sub-limits which were last amended in May 2013: Easter Seals NH \$3.725 million, Easter Seals NY \$3 million and Harbor Schools \$275,000. The interest rate charged on outstanding borrowings is at LIBOR plus 2.25% (2.41% at August 31, 2014). Under an event of default, the interest rate will increase from LIBOR plus 2.25% to LIBOR plus 5.25%. The line is secured by a first priority interest in all business assets of Easter Seals New Hampshire, Inc., Easter Seals NY and Harbor Schools. The agreement requires that collective borrowings under the line of credit be reduced to \$3,500,000 for 30 consecutive days during each calendar year. The agreement also limits each borrower's ability to incur additional indebtedness in excess of \$500,000. Amounts outstanding under this revolving line of credit agreement at August 31, 2014 and 2013 were \$262,356 and \$262,356, respectively, related to Harbor Schools, \$1,935,548 and \$1,599,505, respectively, related to Easter Seals NY and \$0 and \$1,425,875, respectively, related to Easter Seals NH.

Easter Seals CT had a demand revolving line of credit with a bank with available borrowings up to \$1 million. The interest rate charged on outstanding borrowings was at LIBOR plus 2.25%. The line was secured by all business assets and property of Easter Seals CT, except for certain assets limited as to use (\$3,444,569 carrying value as of August 31, 2013). Additionally, this line was guaranteed by Easter Seals NH. The agreement also limited Easter Seals CT's ability to incur additional indebtedness in excess of \$1,000,000 related to real estate, and was cross collateralized with all Easter Seals NH borrowings at this bank. Amounts outstanding under this revolving line of credit agreement at August 31, 2013 were \$924,658 (see deconsolidation of affiliate – note 12).

In connection with the NHHEFA 2004A Revenue Bonds, Easter Seals NH is required to make deposits of interest and principal of sufficient amounts to make the required interest payments and to retire the bonds when due. The 2004A Revenue Bonds require that Easter Seals NH maintain certain reserve funds with a trustee for current required principal and interest payments. Such amounts, which are included within assets limited as to use, totaled \$300,046 and \$288,778 at August 31, 2014 and 2013, respectively. This agreement also requires bank approval prior to Easter Seals NH incurring additional indebtedness. Easter Seals NH has two letters of credit securing the bonds for \$14,450,993 each (expiring and subject to renewal on March 15, 2015, and mainly to support future principal and interest repayments due under the 2004A Revenue Bonds). Easter Seals NH is required to replace or renew the two \$14,450,993 letters of credit upon their expiration or the related bonds may be subject to early redemption. Easter Seals NH pays an annual fee for the two letters of credit relating to the 2004A NHHEFA Revenue Bonds. Additionally, proceeds were used to refinance certain Easter Seals NY outstanding debt.

The Series 2010 Bonds are secured by a mortgage on all properties and improvements financed by the bonds, and are guaranteed by Easter Seals NH. Easter Seals NY may elect to prepay some portion or all of the outstanding bonds subject to a prepayment fee, as defined. This agreement also requires bank approval prior to Easter Seals NY incurring additional indebtedness. ### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

#### 11. **Fair Value of Financial Instruments**

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimizes the use of unobservable factors.

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trusts, investments and the interest rate swaps, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2014 and 2013.

#### *Investments and Assets Limited as to Use*

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, money market and mutual funds and government and agency securities that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain other mutual funds and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2. Investments in certificates of deposit are at cost plus accrued interest, which is estimated to approximate fair value and are included in Level 2.

**11. Fair Value of Financial Instruments (Continued)**

*Beneficial Interest in Trusts Held by Others*

The beneficial interest in trusts held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trusts. The fair values of marketable equity securities, money market and mutual funds, government and agency securities and other asset funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities, mutual funds and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2. Investments in alternative and other asset funds are derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions, and are reflected as Level 3. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

*Interest Rate Swap Agreements*

The fair value for the interest rate swap liabilities is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

At August 31, 2014 and 2013, Easter Seals NH's assets and liabilities measured at fair value on a recurring basis were classified as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

**11. Fair Value of Financial Instruments (Continued)**

The table below sets forth a summary of changes in the fair value of Easter Seals NH's Level 3 assets and liabilities for the years ended August 31, 2014 and 2013:

	Interest Rate Swaps	Alternative and Other Asset Funds
Beginning balance, August 31, 2012	\$(5,135,978)	\$ 78,614
Unrealized gains, net	<u>2,377,632</u>	<u>10,220</u>
Ending balance, August 31, 2013	(2,758,346)	88,834
Unrealized loss, net	(594,854)	-
Deconsolidation of affiliate – see note 12	<u>23,387</u>	<u>(88,834)</u>
Ending balance, August 31, 2014	<u><u>\$(3,329,813)</u></u>	<u><u>\$ -</u></u>

Excluding the impact of the deconsolidation of an affiliate (see note 12), the net amounts of unrealized gains (losses) for the period attributable to the change in unrealized gains (losses) relating to the interest rate swaps still held at August 31, 2014 and 2013 were \$(594,854) and \$2,377,632, respectively. The amount of unrealized gains for the period attributable to the change in unrealized gains relating to the Level 3 investments still held at August 31, 2014 and 2013 were \$0 and \$10,220, respectively.

Easter Seals NH's other financial instruments, including cash and cash equivalents, accounts receivable from affiliates, program and other accounts receivable, contributions receivable, accounts payable, lines of credit, and long-term debt, have fair values approximating their carrying values because of the short-term nature of the financial instruments or because interest rates approximate current market rates.

**12. Deconsolidation of Related Entity**

rate established by BDAS for that level of service or any other fees. These parties shall be charged in the following order:

2. The client will be charged their portion of the maximum allowed charge based on the BDAS published sliding fee scale.
3. The balance of the maximum allowed charge, after deducting the client's portion and insurance payment, if applicable, shall be charged to DHHS.

Utilization and array will also be monitored by the Department via WITS. **Failure to meet this requirement may result in amendment to or termination of the contract. At a minimum, contractors must provide the array of services they contracted to provide for in SFY15.**

### III. Performance Incentives:

#### A. Access to Services:

Treatment contractors shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within at least 2 business days following the day the call was received and shall conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact. For each client who screens eligible for services and starts receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening, the treatment contractor will receive an incentive payment of \$75.00. Access incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

#### B. Completion:

For each client who is discharged from the program because they have completed treatment or transferred to another treatment provider as recorded in the Discharge Type field of the WITS Discharge Module, the treatment contractor will receive an incentive payment of \$75.00. Completion incentives will be calculated and paid on a monthly basis for services in the previous calendar month.

#### C. Client Outcomes:

If a client who was discharged from the program meets at least 3 of the Outcome criteria below in the 3<sup>rd</sup> and/or 6<sup>th</sup> month post-discharge, as evidenced by the WITS Follow-Up module, the treatment contractor will receive an incentive payment in the amount of \$50. The 3<sup>rd</sup> month post discharge is considered to be 60 – 120 days post discharge. The 6<sup>th</sup> month post discharge is considered to be 150 – 210 days post discharge. Outcomes incentives will be calculated and paid on a monthly basis for clients meeting criteria in the previous calendar month. It is expected that at least 50% of discharged clients will be contacted for 3 and/or 6 month follow-up over the contract year.

- i. Abstinence: The client reports reduced or no substance use in the past 30 days.
- ii. Employment/Education: The client reports increased or retained employment or the client reports returning to or staying in school.
- iii. Crime and Criminal Justice: The client reports no arrests in the past 30 days.
- iv. Stability in Housing: The client reports being in stable housing.

ET

7/2/2011

- v. Social Connectedness: The client reports engagement in Recovery Support Services, Care Coordination, and/or Community Based Support Groups in the past 30 days.

**D. Performance Incentive Payout Limits:**

Performance incentives are limited to no more than 6% of the total contract amount annually. The total amount paid out during the contract year will never exceed the total contract amount. DHHS is not obligated to make payment for any incentives that occur outside of the current contract year; however, incentives may be carried over to future contract years at the discretion of DHHS.

**E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. Upon determination that Contractor may not be meeting the required deliverables, within two (2) weeks BDAS will provide a written correction action plan. Within two (2) weeks of notification of the corrective action plan, Contractor will provide a written remedial plan. BDAS will monitor the corrective actions for 60 days. Failure to meet requirements of the corrective action plan within 60 days may result in withholding of any or all payments or termination of the contract.

**F. Invoicing & Billing:**

The Contractor shall complete all billing for all services defined in this Agreement through the WITS system according to protocols established by BDAS.

The Contractor shall have written authorization from the State prior to using contract funds to purchase or lease any equipment with a cost in excess of two thousand five hundred dollars (\$2500) and with a useful life beyond one year.

**IV. Allocation of Funding:**

It is incumbent upon the contractor to monitor service array and utilization to ensure that a consistent level of service will be available throughout the contract period. Utilization and array will also be monitored by the Department via WITS. The contractor is prohibited from spending down more than the sum of the total contract amount that includes the cost of the client services and related incentives.

**V. Availability of Alternative Funding:**

The New Hampshire Department of Health and Human Services may terminate or amend the contract should alternate third party payors, including Medicaid, the New Hampshire Health Protection Program and/or insurance available on the New Hampshire Insurance Exchange cover any of the services included in this contract.

**VI. Limitations and restrictions of federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds:**

The Contractor agrees to use the SAPT funds as the payment of last resort.

Restrictions on SAPT Block Grant on State and Contractor expenditures include:

The State may not:

- Provide inpatient hospital services except under those conditions outlined in the regulations.
- Make cash payments to intended recipients of substance abuse services.
- Purchase or improve land.

- Purchase, construct, or permanently improve buildings or other facilities.
- Purchase major medical equipment.
- Satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds. (in-kind)
- Provide financial assistance to any entity other than a public or non-profit private entity.
- Provide individuals with hypodermic needles or syringes.
- Expend more than the amount of Block Grant funds expended in FFY91 for treatment services provided in penal or correctional institutions of the State.

The Contractor shall not:

- Use any federal funds provided under this contract for the purpose of conducting testing for the etiologic agent for Human Immunodeficiency Virus (HIV) unless such testing is accompanied by appropriate pre and post-test counseling.
- Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

#### VII. Charitable Choice:

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

VIII. Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

#### IX. Payment and Invoicing Instructions for Exhibit A-1, Scope of Services

A. Payment for said services shall be made as follows:

- The Contractor will submit one invoice by October 10, 2015, which identifies and requests reimbursement for authorized expenses incurred for the period defined in Section "I. Funding, B. Funding for Exhibit A-1," above.
- The State shall make payment to the Contractor within thirty (30) days of receipt of each invoice for Contractor services provided pursuant to this Agreement.

**C. Required Provisions for Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals who have been administered Narcan to reverse the effects of an opioid overdose either in the 14 days prior to screening or in the period between screening and admission to the program.
- 3) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 4) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 5) Individuals with substance use co-occurring mental health disorders.
- 6) Individuals with Opioid Use Disorders.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as

follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs must be in compliance with the most recent DHHS requirements relative to the Institute for Mental Disease (IMD) Exclusion.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

**Access to Services:**

Programs above ASAM Level 1 may not accept clients in the absence of a recommendation to the program's level of care based on an evaluation by and ASAM Level 1 provider. ASAM Level 1 programs may not provide services other than evaluation until an evaluation has been completed and a level of care recommendation established. The required evaluation may be conducted by any ASAM Level 1 provider, regardless of DHHS contract status, but will only be DHHS reimbursed for DHHS contracted providers.

The Contractor shall respond to calls requesting services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received. If a client contacts the contractor and has not obtained an evaluation and ASAM Level of Care recommendation, the contractor shall refer the client to an ASAM Level 1 provider to obtain this. If the client has obtained an evaluation and ASAM Level of Care recommendation from an ASAM Level 1 provider, but the contractor cannot provide that level of care to the client, the contractor shall refer the client to a program that can provide the appropriate ASAM level of care. If the contractor is an ASAM Level 1 provider or if the client's ASAM Level of Care recommendation is consistent with the level of care provided by the contractor, the contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for evaluation services will be seen for the initial evaluation within 5 business days and a final evaluation narrative and ASAM level of care recommendation and referral will be completed within 10 business days.

Those who have completed an evaluation and ASAM level of care recommendation and referral

**Exhibit A Amendment #3**

and screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days following the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.

Contractors receiving grant funds from DHHS will not discriminate against clients who are using legitimate medications to assist their recovery and will not have policies that allow them to refuse admission to treatment or to discharge clients from treatment based on the use of appropriately prescribed medications and various opiate replacement therapies, including, but not limited to, methadone and buprenorphine, as well as other forms of medication-assisted treatment for co-occurring substance abuse and mental health disorders.

***Clients Eligible for Treatment Services:***

In order to be eligible for DHHS supported services, a client must meet all eligibility criteria described below. Eligibility determination shall be conducted as follows:

1. **E. Failure to Meet Deliverables:**

The Contractor shall comply with all contract requirements as detailed in Exhibit A section B, Required Services. - Use any federal funds provided under this contract for the purpose of conducting any form of needle exchange, free needle programs or the distribution of bleach for the cleaning of needles for intravenous drug abusers.

**VII. Charitable Choice:**

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

**VIII.** Notwithstanding paragraph 18 of the General Provisions of this Agreement P-37, an amendment limited to adjusting amounts within the budgets and within the price limitation, can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION  
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Exhibit F Amendment #1

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

  - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

  - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
  - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- 12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

- 13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

- I. For the proper management and administration of the Business Associate;
  - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
  - III. For data aggregation purposes for the health care operations of Covered Entity.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

- a. **Definitions and Regulatory References.** All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. **Amendment.** Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. **Data Ownership.** The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. **Interpretation.** The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit A Amendment #2

**C. Required Services**

**Priority Admission:**

- 1) The Contractor shall give admission preference to pregnant women and women with dependent children, even if the children are not in their custody, as long as parental rights have not been terminated, including the provision of interim services within the required 48 hour time frame.
- 2) Individuals with a history of injection drug use including the provision of interim services within 14 days.
- 3) Individuals with a primary diagnosis of a substance use disorder, which may also include a co-occurring mental health disorder.
- 4) Individuals on medication-assisted treatment for co-occurring substance abuse and mental health disorders or various opiate replacement therapies, including, but not limited to, methadone, buprenorphine and naltrexone.

**Required Outreach:**

New Hampshire Department of Health & Human Services (DHHS) programs receiving federal treatment Block Grant funds requires that Contractors must publicize services available to pregnant or parenting women and injection drug users in need of substance abuse treatment and that these individuals receive preference for admission to treatment. This may be done as follows, but is not limited to, street outreach programs, ongoing public service announcements (radio/television), regular advertisements in local/regional print media, posters placed in targeted areas, and frequent notification of availability of such treatment distributed to the network of community based organizations, health care providers and social service agencies. The Contractor will submit their outreach plans to DHHS through the Bureau of Drug and Alcohol Services (BDAS) within 60 days of contract effective date.

**Health Facilities Administration Licensing Requirements:**

Housing programs with substance abuse treatment services at the same location will need to secure necessary licensing as a Residential Rehabilitation Facility by the DHHS Bureau of Health Facilities Administration, as appropriate, see He-P 807 at the following link: ([http://www.gencourt.state.nh.us/rules/state\\_agencies/he-p800.html](http://www.gencourt.state.nh.us/rules/state_agencies/he-p800.html)). Any contractor with an American Society of Addiction Medicine (ASAM) (October 2013) Level 3.3 or higher level program must secure this licensing for all Level 3 programs housed within the same facility as the Level 3.3 program. In the case of residential treatment and housing at the same site, residential programs should plan to treat no more than 16 pregnant or parenting women at any given time to comply with federal Medicaid restrictions on Institute for Mental Diseases (IMD) exclusion criteria. This restriction would not apply to programs in which the client's residence is in a separate location from the treatment program.

**Capacity Reporting:**

The Contractor must contact BDAS, as agent for DHHS, when their capacity has reached 90% within 5 business days. The Contractor must refer pregnant women to the State when the Contractor has insufficient capacity to provide services to any such pregnant women who seek the services of the program. Sending e-mail to the BDAS Clinical Services Unit Administrator may complete this notification process.

***Access to Services:***

The Contractor shall respond to calls requesting treatment and/or transitional living program services, whether an initial or subsequent call, from clients or referring agencies as soon as possible and within 2 business days following the day the call was received.

The Contractor is required to conduct initial eligibility screening as soon as possible, ideally at the time of first contact (direct communication by phone or in person) with the client or referring agency, but not later than 5 business days following the date of first contact.

Those who have screened eligible for services will start receiving services, whether for the identified level of care or interim services, within 10 business days follow the eligibility screening. If the client is not able to access interim services at the contractor's agency for geographic or other reasons, the client should be referred to a DHHS funded provider where they are able to access interim services.
