(VC #154455-B001), Gilford, NH for a total of \$22,500 for the Pumpout replacement at Fay's Boat Yard project, effective upon Governor and Council approval through March 31, 2023. 100% federal funds.

EXPLANATION

The NHDES receives grants from the U.S. Fish and Wildlife Service under the provisions of the Clean Vessel Act (CVA). These grants have been used to implement an operation and maintenance (O&M) reimbursement program. This reimbursement program helps to ensure New Hampshire's existing pumpout stations remain in proper working condition. In addition, these funds are used to upgrade, repair, or replace pumpout stations as they age. Fays Boat Yard Inc. has a pumpout station that was installed in 2001 and is now in need of some significant repairs.

This request is to assist Fay's Boat Yard with cost recovery for the replacement, operation, and maintenance of the boat sewage pumpout facility. Costs covered include pumpout facility related activities such as replacement pump parts, time paid to plumbers, personnel time, repairs, supplies, sewage discharge fees, and compensation for completing and submitting pumpout logs. This request for Fay's Boat Yard will reimburse 75% of the cost of the replacement of and operation and maintenance related to the boat sewage pumpout facility. The marina will supply a 25% contribution towards the total through cash or in-kind services.

His Excellency, Governor Christopher T. Sununu
and The Honorable Council

Page 2 of 2

Funding for pumpout stations is advertised on the NHDES website as well as during annual site visits. Interested applicants submit site and pumpout facility information to the CVA program for review and approval. Participation is limited to facilities willing to comply with the agreement scope of services, most notably the availability of the pumpout resource to the public for 5 dollars or less per service. Since the initial O&M award in 2006, participation has not exceeded available funds and typically involves eight marinas or less per season. Pumpout station funding has been provided as needed to install new or replace existing facilities since 2003. Generally this installation or replacement funding is awarded to one or two facilities each year. Funding is planned in advance such that participation does not exceed available funds.

In the event that federal funds become no longer available, general funds will not be requested to support this program. The agreement has been approved by the Office of the Attorney General as to form, execution, and content.

Respectfully submitted,

Robert R. Scott
Commissioner

This covenant shall survive the termination of this agreement.

17. INSURANCE AND BOND.

17.1 The Grantee shall, at its sole expense, obtain and maintain in force, or shall require any subcontractor, subgrantee or assignee

Each policy shall contain a clause prohibiting cancellation or modification of the policy earlier than ten (10) days after written notice has been received by the State.

18. WAIVER OF BREACH. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event, or any subsequent Event. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure or waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.

19. NOTICE. Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses first above given.

**EXHIBIT A
SCOPE OF SERVICES**

This Agreement consists of the following documents: Exhibits A, B, and C and Attachment A, which are all incorporated herein by reference as if fully set forth herein.

I. Definitions

The following definitions apply to this document:

- A. Grantee: The owner of the Marina or the owner's duly-authorized representative.
- B. Boat sewage pumpout station (also called "pumpout station" or "pumpout facility"): A location with equipment designed and used for the sole purpose of removing greywater and sewage from boats, from either plumbed systems or portable toilets on such boats. The term includes fixed (stationary) and trailered (portable) units.
- C. Department: The New Hampshire Department of Environmental Services (NHDES), Clean Vessel Act (CVA) Program.
- D. Grant Officer for CVA Program (NHDES): Clean Vessel Act program coordinator.
- E. Marina: The Grantee's facility that is the subject of this Agreement, where boats are stored, and/or serviced, and/or where boats otherwise congregate, and where a pumpout station is available.
- F. O&M Funds (also called O&M reimbursement): Money provided from the Department to the Grantee for the sole purpose of operation and maintenance (O&M) of a boat sewage pumpout station in accordance with this Agreement. This is the routine, annual maintenance and operation of the facility and is separate from funds provided to replace the pumpout facility.
- G. Operations Period: The boating season (approximately April 1st through November 30th).

II. Initial Certification

The Grantee hereby certifies that the following conditions are true as of the date of this application:

- A. The Marina has a boat sewage pumpout station that is in compliance with all applicable state and local permit and health requirements and all applicable state and local codes;
- B. The pumpout station is used for the collection of boat sewage only, and no bilge water or oily waste is or will be collected; and
- C. The pumpout station is located such that it is reasonably available to transient boats of sufficient size to be equipped with holding tanks.

III. Operation of Pumpout Station

- A. The Grantee will make the pumpout station at the Marina available to the general public during the Marina's regular business hours throughout the Operations Period in accordance with the terms of this Agreement. The Grantee will not discriminate against any person on the basis of race, color, religion (creed), gender, gender expression, age, national origin (ancestry), disability, marital status, sexual orientation, or military status, in the use of the pumpout station.
- B. The Grantee will not charge a fee in excess of \$5.00 per pumpout service.
- C. The Grantee will ensure the public is reasonably able to make use of the pumpout station either by providing staff during the marina's business hours to perform the pumpouts.
- D. The Grantee will display a sign, provided by Department that is viewable by the public and indicates the facility is equipped to receive boat sewage.
- E. The Grantee is fully responsible for consequences resulting from improper operation of the pumpout.
- F. In order to receive O&M reimbursement the Grantee will keep pumpout usage logs throughout the Operations Period on forms provided by the Department. The Grantee will submit the logs to the Department with the request for O&M reimbursement at least annually. Usage logs will contain each pumpout service performed at the marina during the boating season and the fees, if any, that were collected (fee must be \$5.00 or less per pumpout.)
- G. The Grantee will notify the Department if the pumpout station will be out of service for longer than 3 days, by emailing CVA@des.nh.gov or by calling (603) 271-8803 and leaving a message if the call is not answered. The Grantee will fix any operational problems on a schedule as agreed upon by the Department and will notify the Department when the pumpout station is back in service.
- H. The Grantee will notify the Department if the pumpout station requires unusual/unforeseen repairs that may cause the total eligible expenses to be more than the limit in a given year as designated in Attachment A, by emailing CVA@des.nh.gov or by calling (603) 271-8803 and leaving a message if the call is not answered.
- I. If unusually cold or severe weather places the pumpout station at risk of damage, the Grantee may delay the opening of the pumpout station until after April 1st or winterize the system prior to November 30th. No penalty shall be incurred by the Grantee for a delayed opening or early shut-down that is due to a reasonable cause.
- J. O&M Funds will not be provided to the Grantee if:
 - 1. The Marina's pumpout station is out of service for longer than 14 days, whether consecutively or not, unless the cause of closure is first discussed with and agreed upon by the Department.
 - 2. During the Operations Period, the Department receives three or more complaints from boaters regarding the availability of the Marina's pumpout station and the Grantee has not, in each instance, notified the Department first that a problem exists.
- K. If a marina encounters expenses above the annual grant price limit due to unforeseen and unusual maintenance problems, the Grantee may request an exception to the grant limit, and if the request is approved, may be awarded additional funding subject to

availability and the approval effective date.

IV. Effective Date

- A. This Agreement shall be effective on the date it is approved by the Governor and Executive Council.
- B. The effective end date shall be March 31, 2023.

Reimbursement may be denied or reduced if the request contains insufficient supporting information or erroneous data, if the expenses detailed are not reimbursable, if any item of required documentation is not included, or if the minimum 25% match contribution is not met. The following provisions will apply to the reimbursement calculation:
1. If income from pumpout fees exceeds eligible expenses, the amount of the excess will be carried forward to the following year's O&M Funding Agreement, if one is offered, and incorporated into reimbursement calculations for that year.
 2. If pumpout station annual O&M expense exceeds the maximum reimbursement of \$1,500, the deficit will be carried forward and incorporated into O&M reimbursement (if one is offered) calculations for that year.
