Dept. Environmental Services, Winnepesaukee River Basin, Buildings & Grounds

EXPLANATION

This contract is for the surface preparation and painting of the interior metalwork of one primary and one secondary clarifier. These thickeners are located at the Franklin Wastewater Treatment Plant (WWTP) which is part of the regional wastewater collection and treatment system operated by the Department of Environmental Services Winnepesaukee River Basin Program (WRBP) on behalf of ten communities in the Lakes Region.

There are two primary and two secondary clarifiers at the Franklin WWTP. The primary clarifier is approximately 115 feet in diameter with an open top. Each primary clarifier tank sidewall is 10 feet high with a floor that gently slopes toward the center of the clarifier to a depth of 14.5 feet. The secondary clarifier has a capacity of 1 million gallons. The secondary clarifier is approximately 115 feet in diameter with an open top. Each secondary clarifier tank sidewall is 13 feet high with a floor that gently slopes toward the center of the clarifier to a depth of 17.5 feet. The re-coating of the circular primary and secondary clarifier metalwork includes the steel V-notch weir plate, steel scum baffle, steel rake arm, steel skimmer arm, steel scum trough, steel center baffle, steel center support structure and steel rake arm support.

Due to process requirements, the clarifiers will not be available for recoating until plant processes and weather conditions are favorable at which time the clarifiers will be sequentially removed from service to allow the painting of the metalwork. Recoating the metalwork is a routine preventative maintenance function which was last performed in 2011. The metalwork components to be recoated and the scope of services are more fully described in Exhibit A.

A Request for Quotes (RFQ) was prepared and sent to eleven (11) firms known do this kind of specialized work. The RFQ was also advertised in a local newspaper, The Citizen of Laconia, and posted on the Department of Administrative Services Purchase and Property website. Responses to the RFQ are as follows:
