His Excellency, Governor Christopher T. Sununu
and the Honorable Executive Council
State House
Concord, NH 03301

REQUESTED ACTION

Authorize The Adjutant General's Department to enter into a contract with Tri State Fire Protection, LLC (vendor code #177644), 26 Hampshire Drive, Hudson, New Hampshire, 03051, in the amount of \$17,843.00, for the installation of a new Intellinox System into the existing exhaust hood at the Edward Cross Training Complex, 722 Riverwood Drive, Pembroke, NH, 03275, for the period of Governor and Council approval through June 30, 2018.

EXPLANATION

This contract, while less than the \$25,000.00 threshold, requires Governor and Council approval as the vendor had a prior contract with our department, making this request in excess of the threshold for the fiscal year. Quotes were requested from three (3) vendors with Tri-State Fire Protection, LLC providing the sole quote.

The original contract for the construction of the Edward Cross Training Complex included purchasing, installing and connecting kitchen equipment. When the original construction contract was terminated and re-bid, all kitchen equipment was removed from the scope of work and it was decided to procure the kitchen equipment through a separate federal contract. This change was made due to interpretation of the current federal regulations at that time. This new out-of-state kitchen equipment vendor was to deliver and install the equipment, but did not have New Hampshire-licensed electricians to connect the equipment. This resulted in the hood exhaust system being installed, but never connected. All other related kitchen items were able to be handled and connected by state maintenance employees of the Adjutant General's Department.

His Excellency Governor Christopher T. Sununu
And the Honorable Executive Council

Federal Funds may be used to pay for these contract services and are provided to the State of New Hampshire - Adjutant General's Department by the National Guard Bureau pursuant to a Federal-State Master Cooperative Agreement for the mutual support of the New Hampshire Army National Guard. The contract agreement has been approved by the New Hampshire Department of Justice as to form, substance and execution.

Your approval is respectfully requested.

Respectfully Submitted,

David J. Mikolajewicz
Brigadier General, NHNG
The Adjutant General

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

Non-federal entities and contractors are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, sub awards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities. The grantee agrees to comply with the DOD implementation of 2 CFR Part 180 (at 2 CFR Part 1125) by checking the Excluded Parties List System (EPLS) at www.sam.gov to verify contractor eligibility to receive contracts and subcontracts resulting from this Agreement. The grantee and sub recipients shall not solicit offers from, nor award contracts to contractors listed in EPLS. This verification shall be documented in the grantee and sub recipient contract files, and shall be subject to audit by the grantor and Federal/State audit agencies

EXHIBIT D - Environmental Management System
Notice for Contractors and Contractor employees

The New Hampshire Army National Guard (NHARNG) has implemented an environmental Management System (eMS), in accordance with Executive Orders 13423 and 13514, to guide its operations in an environmentally sound manner. Under its eMS, the NHARNG has identified significant activities, products or services that can interact with the environment (known as aspects) and potential environmental impacts from its operations. The significant environmental aspects are listed below:

- Energy Use
- Vehicle Travel (fleet) Between Work Stations

These significant aspects and their associated impacts are closely monitored by the NHARNG. Further, the NHARNG is tracking the success of the implementation plans established to achieve the NHARNG's objectives.

For the purposes of this notice, applicability is limited to those actions that the contractor or subsequent employees are likely to perform on NHARNG properties.

The primary purpose of this notice is to communicate the three basic tenets of the NHARNG's eMS policy:

- eMS (ISO 14001) is the management system the NHARNG uses to implement the Adjutant General's Environmental Policy;
- The eMS Environmental Policy commits the NHARNG to comply with environmental laws and regulations, to prevent pollution and to promote continual improvement of the eMS; and
- Contractors are responsible for knowing the environmental impacts of their services, and must understand the management requirements for any activities that could affect any of NHARNG's significant aspects, or that could result in potential environmental impacts.

Energy Use

The NHARNG is committed to reducing its consumption of energy. Reducing energy consumption may be realized by turning off electrical equipment when not in use, or reducing heating temperatures/increasing cooling temperatures, using alternative fuels (if available, such as E85 or biodiesel), etc. Contracts that include the use or installation of equipment will seek the most energy efficient technology within the scope of the contract.

Vehicle Travel (fleet) Between Work Stations

The NHARNG is committed to preventing pollution through monitoring of Federal GSA Fleet vehicle usage. Usage of fleet vehicles by contractors is prohibited.

Significant aspects likely to be affected by contractor's activities, products, or services:
(To be discussed at the Kickoff meeting)

Review of specific contract provisions related to environmental aspects:
