EXPLANATION

The public health emergency for COVID-19 was declared by the Secretary of Health and Human Services on January 31, 2020. Section 6008(a) of the Families First Coronavirus Response Act (FFCRA) provides a temporary 6.2 percentage point increase to the Federal Medical Assistance Percentage (FMAP) under section 1905(b) of the Social Security Act effective beginning January 1, 2020 and is available for each calendar quarter during the public health emergency, through the end of the quarter in which the public health emergency including any extensions, ends.

The Department is requesting to accept and expend the federal matching dollars to support anticipated costs of the increase in Medicaid caseload resulting from the COVID-19 pandemic. Health Management Associates (HMA), a national healthcare research and consulting firm, estimated the impact of the COVID related economic downturn could result in an increase to New Hampshire's Medicaid caseload from 43,000 to 105,000 increased members.
