INFORMATIONAL ITEM

The Department of Transportation requests placing this item on the Consent Calendar.

In accordance with the requirements approved by Governor and Executive Council August 22, 2018, Item #15, the NH Department of Transportation is to submit on an annual basis a status report of all active State Bridge Aid projects.

Attached please find the annual State Bridge Aid status report. Two versions of the report are provided. One lists State Bridge Aid projects by expected year of construction advertisement and the other lists State Bridge Aid projects alphabetically by municipality.

EXPLANATION

Governor and Executive Council Item #15 approved on August 22, 2018, authorized the Department of Transportation to enter in Local Project Agreements with municipalities and others eligible for State Bridge Aid in accordance with RSA 234 (Bridges and Bridge Aid). These agreements, between the State and a Municipality delineate responsibilities for providing services necessary to manage the design and construction of a bridge rehabilitation or replacement project and to receive State Bridge Aid under the applicable provisions of RSA 234 and Transportation Administrative Rules, Tra 501.

In addition, to assure the oversight of the Governor and Executive Council, the Department of Transportation was authorized to prepare an annual status report of active projects in the State Bridge Aid Program. Information in the annual status report includes project town (name), project number, scope of work, bridge number, red list status, budget and schedule. The Department of Transportation is submitting the first annual status report as an informational item to the Governor and Executive Council.

It is respectfully requested that this item be accepted.

Sincerely,

Victoria F. Sheehan
Commissioner
