603/271-2791

JOHN J. BARTHELMES
COMMISSIONER

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

Retroactive

Requested Action

Pursuant to RSA 21-P:43, the Department of Safety, Division of Homeland Security and Emergency Management requests authorization to enter into a **retroactive** grant agreement with the Town of Westmoreland (VC#159977-B001) for bank stabilization of Mill Brook at Route 10 for a total amount of \$10,665.00. Effective upon Governor and Council approval through September 30, 2013. Funding source: 100% Federal Funds.

Funding is available in the SFY 2013 operating budget as follows:

02-23-23-236010-80920000	Dept. of Safety	Homeland Sec-Emer Mgmt	100% EMPG Local Match
072-500574	Grants to Local Gov't - Federal		
Activity Code: 23EM128092			\$10,665.00

Explanation

This request is **retroactive** because the bank stabilization was performed to prevent further erosion of Mill Brook during the response phase of the May 2012 flooding event. This action protected home and business properties along the stream from further damages due to flooding as well as providing protection to the Route 10 Bridge. An emergency permit was issued to perform this work due to a forecasted flooding event within 7 days of the initial flooding disaster. This is a **retroactive** agreement since the emergency protective measures were completed during the immediate response phase of this flooding event. The grant listed above is funded from the FFY'12 Emergency Management Performance Grant (EMPG), which was awarded to the Department of Safety, Division of Homeland Security and Emergency Management (HSEM) from the Federal Emergency Management Agency (FEMA). The grant funds are to be used to measurably improve all-hazard planning and preparedness capabilities/activities, to include mitigation, preparedness, response, and recovery initiatives at the state and local level. Grant guidance and applications are sent out to all Emergency Management Directors and other qualified organizations in the State. Grantees submit applications to this office, which are reviewed and approved by the HSEM Planning Chief, Assistant Planning Chief and Field Representatives. The criteria for approval are based on grant eligibility in accordance with FFY'12 grant guidance and the documented needs of the local jurisdictions; a copy of this guidance is attached.

The Emergency Management Performance Grants are 50% federally funded by FEMA with a 50% match requirement supplied by the grantee. The grantee acknowledges their match obligation as part of Exhibit A to their grant agreement.

In the event that Federal Funds are no longer available, General Funds and/or Highway Funds will not be requested to support this program.

Respectfully submitted,

John J. Barthelmes
Commissioner of Safety

**New Hampshire Homeland Security and Emergency Management (NHSEM)
Emergency Management Performance Grant (EMPG) Guidance
FFY 2012**

(Grant Performance Period: October 1, 2011 through September 30, 2013)

The purpose of the FY 2012 Emergency Management Performance Grant (EMPG) Program is to assist State and Local Governments and other eligible agencies in preparing for all hazards. EMPG focuses on Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance/Sustainment to enhance and sustain all-hazards emergency management capabilities.

As part of the FY 2012 EMPG Program, DHS-FEMA identified an overarching ***priority***:

Advancing “Whole Community” Security and Emergency Management: *“Whole Community” fosters a national emergency management approach and considers all aspects of a community to effectively prepare for, protect against, respond to, recover from, and mitigate against any terrorist attack or natural disaster. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the community’s overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs.*

Effectiveness Measures – Quarterly Progress Reporting: As part of the EMPG Program administration, grantees are ***required*** to provide quarterly reports that provide sufficient detail for NH HSEM to measure progress of the funded project(s). The EMPG Quarterly Report form is available on NH HSEM’s website at: <http://www.nh.gov/safety/divisions/hsem/grants/documents/empg-quarterly-form.doc>

Cost Match: The EMPG Program has a 50 percent (50%) Federal and 50 percent (50%) Local cost match (cash or in-kind) requirement. Unless otherwise authorized by law, Federal funds cannot be matched with other Federal funds. To meet matching requirements, the grantee contributions must be *reasonable, allowable, allocable, and necessary* under the grant program and must comply with all Federal requirements and regulations.

Allowable Costs: EMPG funding is available for projects that fall into the categories of – ***Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance & Sustainment.*** The following list of possible projects and activities is meant to guide you in selecting projects for an EMPG grant submission. This list of suggested projects is not intended to be all-inclusive. Local communities or agencies may have other specific projects and activities that reflect specific local needs based on local capability assessments and local hazards.

Planning

FY 2012 EMPG Program funds may be used for a range of emergency management planning activities. Planning provides a methodical way to engage the whole community in thinking through the life cycle of potential crises, determining required capabilities, and establishing a framework for roles and responsibilities. Planning must include participation from all stakeholders in the community who are able to contribute critical perspectives and may have a role in executing the plan. Planning should be flexible enough to address incidents of varying types and magnitudes.

Planning activities may include, but are not limited to, the following:

- **Create/update your Local Emergency Operations Plan (LEOP) **** consistent with the Comprehensive Preparedness Guide (CPG) 101 v.2 November 2010 which serves as the foundation for State and local emergency planning. CPG 101 can be found at:
http://www.fema.gov/pdf/about/divisions/npd/CPG_101_V2.pdf.
- **Develop/Enhance an All-Hazards Mitigation Plan**** for your community, approvable by the Federal Emergency Management Agency (FEMA).
- Community-based planning to advance “whole community” security and emergency management.
- Modify existing incident management and emergency operations plans.
- Develop/enhance comprehensive emergency management plans.
- Develop/enhance large-scale and catastrophic event incident plans.

- Prepare a hazard mitigation project proposal for submission to NH HSEM.
- Develop/enhance dam emergency action plans.
- Develop/enhance a Continuity of Operations Plan (COOP)/Continuity of Government Plan (COG), following the DHS program guidance.
- Develop a local debris management plan.
- Develop/enhance a local shelter plan.
- Develop/enhance emergency management and operations plans to integrate citizen/volunteer and other non-governmental organization resources and participation.
- Develop/enhance other response and recovery plans, following the DHS program guidance.

**** A community must have the following two plans in place before NH HSEM will consider funding other projects: an updated LEOP and a FEMA approvable All-Hazards Mitigation Plan. Applicants may apply for funding for these plans in conjunction with other items.**

Organization/Administrative

EMPG Program funds may be used for all-hazards emergency management operations, staffing, and other day-to-day activities in support of emergency management. Proposed staffing activities should be linked to accomplishing emergency management-related projects and activities. This grant is project-driven.

Organization/Administrative projects & activities may include, but are not limited to, the following:

- Maintain/upgrade an Emergency Operations Center and/or alternate EOC capable of accommodating staff to respond to local emergencies.
- Establish and maintain a call-down list for EOC staff.
- Establish and maintain emergency response/recovery resource lists.
- Develop or update Emergency Management mutual aid agreements with a focus on damage assessment, debris removal, etc.

- Program evaluations.
- Develop/enhance systems to monitor training programs.

Equipment

Allowable equipment categories for the FY 2012 EMPG Program are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by FEMA at <http://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

The **select allowable equipment** includes equipment from the following AEL Categories:

- [04] Information Technology
- [05] Cyber Security Enhancement Equipment
- [06] Interoperable Communications Equipment (see note below)
- [07] Detection Equipment
- [10] Power Equipment (i.e., generators)
- [11] CBRNE Reference Materials
- [12] CBRNE Incident Response Vehicles **
- [14] Physical Security Enhancement Equipment
- [19] CBRNE Logistical Support Equipment
- [21] Other Authorized Equipment (i.e., equipment to support an EOC)

**** Incident Response Vehicles** – Even though this equipment is eligible under the FEMA Authorized Equipment List (AEL), NH HSEM has a policy in place to provide criteria on how emergency response vehicles will be funded under the Emergency Management Performance Grant. All applications for this type of activity will be kept on file. Funding will be considered at the end of the grant performance period, and after all non-vehicle related Emergency Management project requests have been funded.

If you have questions concerning the eligibility of equipment not specifically addressed in the AEL, please contact the State EMPG Program Manager for clarification.

NOTE: Grantees that are using FY 2012 EMPG Program funds to support emergency communications activities should comply with the *FY 2012 SAFECOM Guidance on Emergency Communication Grants*. The guidance provides recommendations to grantees seeking funding for interoperable emergency communications projects, including allowable costs, items to consider when funding emergency communications projects, grants management best practices for emergency communications grants, and information on standards that ensure greater interoperability. The guidance is intended to ensure that Federally-funded investments are compatible and support national goals and objectives for improving interoperability nationwide. SAFECOM guidance can be found at <http://www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334>.

The recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP).

Training

FY 2012 EMPG Program funds may be used for a range of emergency management-related training activities to enhance the capabilities of State and local emergency management personnel through the establishment, support, conduct, and attendance of training. Training should foster the development of a community oriented approach to emergency management that emphasizes engagement at the community level, strengthens best practices, and provides a path toward building sustainable resilience.

Training Activities may include, but are not limited to, the following:

- Attending training courses at the Emergency Management Institute.
- Attending a “field delivered” training course conducted by NH Fire Academy.
- Attending other local, state, or nationally sponsored training event that provides skills or knowledge relevant to emergency management.
- Completing FEMA Independent Study (IS) Courses.

In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** - Travel costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.

Exercises

Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Exercise activities should follow HSEEP Guidance which can be found at <https://hseep.dhs.gov>. Grantees are encouraged to develop exercises that test their Local EOPs. *Before applying for EMPG funds for an exercise, please contact the State's Exercise/Training Officer on availability for HSEEP funding which is 100% compared to 50% under EMPG.*

Allowable exercise-related costs include:

- Conduct multi-agency EOC exercise (tabletop or functional) and forward report to include after action reports to NH HSEM (external evaluation of exercise is strongly encouraged). Exercises might involve any of the following scenarios:

- Overtime and Backfill - The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- Supplies - Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise projects (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
- Other Items - These costs are limited to items consumed in direct support of exercise activities such as the rental of space/locations for planning and conducting an exercise, rental of equipment (e.g., portable toilets, tents), and the procurement of gasoline, exercise signs, badges, and other essential nondurable goods. Exercises (cont.)

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances). The only vehicle costs that are reimbursable are fuel/gasoline or mileage.
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- Durable and non-durable goods purchased for installation and/or use beyond the scope of exercise conduct.

Mitigation

Prior to applying for EMPG funds to do a Mitigation Project, it is recommended to first inquire on Hazard Mitigation-type Grants through the State Hazard Mitigation Officer, Lance Harbour. He can be reached at 603-223-3633.

Mitigation Activities may include:

- Brick and mortar projects, such as, installing drainage ditches, enlarging culverts, or installing riprap. No annual maintenance activities allowed, such as brush removal, or drainage clearing.
- Communications activities, such as communications studies, compatibility studies, and/or purchasing of communications equipment for interoperability.

Maintenance and Sustainment

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded that **supplanting is not permitted under the EMPG Program**. Maintenance contracts and warranties, repair and replacement costs, upgrades, and/or user fees for equipment that was not originally purchased with preparedness grant funding may not be subsequently paid for with preparedness grant funding.

Maintenance and Sustainment may include:

- Maintenance Contracts and Warranties - To increase the useful life of the equipment, FEMA has determined that maintenance contracts and warranties may be purchased using grant funding from one FY to cover equipment purchased with funding from a different FY. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
 - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
 - The term of the maintenance contract or warranty shall not exceed the period of performance of the grant to which the contract is being charged.

Maintenance and Sustainment

Maintenance and Sustainment may include (cont.):

- **Repair and Replacement Costs** - The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense
 - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment
- **Upgrades** - FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with EMPG Program funds in FY 2005 and would like to use FY 2012 grant funding to upgrade the software, this is allowable.
 - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding.
 - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment.
- **User fees** - User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers
 - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment.
 - The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged.

Metropolitan Medical Response System (MMRS) & Emergency Operations Center (EOC) Grant Programs

MMRS & EOC Grant Programs:

Although no longer funded as discrete grant programs, all activities and costs allowed under the FY 2011 Emergency Operations Center (EOC) Grant Program, and FY 2011 Metropolitan Medical Response System (MMRS) grant program are allowable costs under the FY 2012 EMPG Program. Before applying, please contact the EMPG Program Manager to discuss project eligibility and availability of funds.
