### **EXPLANATION**

The MTSS-B is a data-driven framework designed to guide decision making for behavioral health supports and services for students in and outside of the school system. Use of this framework is intended to prevent and reduce behavioral health and related issues such as low academic performance, classroom disruptions, high disciplinary rates and low graduation rates. The Department of Education has been promoting this framework for over two years and schools have demonstrated interest in MTSS-B as measured by the number of schools applying for prior MTSS-B funding opportunities.

The purpose of this request is to further expand and increase capacity for MTSS-B in a minimum of three (3) additional New Hampshire school districts in response to requests for these services. The Department is seeking to extend the MOU beyond the completion date and available renewal options in response to a funding directive from the Governor's Commission on Alcohol and Other Drugs. NH RSA 12-J authorizes the Commission to direct the Department to execute contracts with specific vendors without a procurement process.

Adoption of MTSS-B strategies will increase staff competencies in practices that reduce disruptive classroom behaviors, increase youth and family engagement, and encourage optimal educational outcomes, in a minimum of three (3) school districts June 30, 2023.

The Department of Education will expand implementation of the MTSS-B framework. Implementation using school data, such as, discipline referrals, number of behavioral interventions, and student absences, to identify areas for improvement and then determining and selecting appropriate evidence based interventions in response.

The Department will monitor services by reviewing quarterly summaries provided by the Department of Education on program progress and outcomes.

Area served: Statewide.

Source of Funds: 100% Other Funds from the Governor's Commission on Alcohol and other Drugs.

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Alcohol and Other Drugs voted on February, 9 2021 to continue to fund the program for State Fiscal Year 2022. The Multi-Tiered System of Support for Behavioral Health and Wellness will extend social and emotional learning supports for approximately 5,000 youth between the ages of 12 to 18 from the date of Governor and Executive Council approval to June 30, 2022.

The Department of Education will continue implementing and maintaining the Multi-Tiered System of Support for Behavioral Health and Wellness by establishing a team to institute operating procedures, using current partnership and service contract data to determine program needs and to identify areas of redundancy with program fidelity and outcomes, measuring the benefits of program implementation and securing buy-in within education districts, community organizations, behavioral health organizations and other stakeholders within New Hampshire communities by increasing confidence in the program core features and practices.

The Department of Education has been able to successfully replicate the Multi-Tiered System of Support for Behavioral Wellness implementation stages relying on Zoom technology for the necessary district leadership meetings as well as program specific meetings.
