VICTORIA F. SHEEHAN  
COMMISSIONER

WILLIAM CASS, P.E.  
ASSISTANT COMMISSIONER

Bureau of Construction  
November 8, 2016

Her Excellency, Governor Margaret Wood Hassan  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with T. Buck Construction, Inc. of Turner, ME (Vendor 156635) on the basis of a low bid of \$495,927.00 for the replacement of a 72" corrugated metal pipe culvert which carries the Winnicut River under Walnut Avenue, from the date of Governor and Council approval through September 8, 2017 unless extended by the Department in accordance with the Standard Specifications. 100% Betterment Funds.

Funding is available as follows:	<u>FY 2017</u>
04-96-96-963015-3039	
Highway Betterment Aid	
400-500870 Highway Contract Payments	\$495,927.00

2. Further authorize that a contingency in the amount of \$24,796.35 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Contingency Funding is available as follows:	<u>FY 2017</u>
04-96-96-963015-3039	
Highway Betterment Aid	
400-500870 Highway Contract Payments	\$24,796.35

**EXPLANATION**

This project is part of the State's Ten Year Plan under the Statewide BET Drainage Improvement Programmatic Program. This project replaces a severely corroded 72" corrugated metal pipe culvert which carries the Winnicut River under Walnut Avenue. The culvert is located approximately 1.30 miles west of the NH Route 151 intersection and about 0.50 miles east of the Lovering Road intersection in the Town of North Hampton. The Work includes the removal of the existing pipe culvert and replacement with an 8' x 7' precast concrete box culvert, installation of wing walls, approach pavement work, and the installation of beaver deterrent fencing.

The existing 72" CMP was constructed in the early 1960s. The structure was built in an area with wetlands on both sides, over a considerable volume of muck. The invert of the pipe is rusted out, the center portion of the pipe has settled 2-3 feet, sink holes have been filled, pavement patching has been done on a yearly basis and beavers have been a continuous problem for both sides of the pipe. Constructing a new 8' x 7' concrete box culvert will enable fish passage, maintain the hydraulic efficiency and fencing will deter beavers from building a beaver dam within the box culvert.

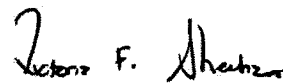

The Contingency amount is proposed to be 5% and is recommended to account for varying field conditions related to muck removal and dewatering.

Although the bid costs exceeded the Department's estimate by 10%, the low bid is felt to be reasonable for the work involved. In summary, six bids were received and the top four bids were within 6% of one another. The primary differences between the Department's estimate and the low bidder were related to the precast box culvert, beaver deterrent fencing, and muck and rock structure excavation. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan  
Commissioner

VFS/md

Department Estimate: \$448,326.00  
Contract Amount: \$495,927.00  
Over Estimate: \$ 47,601.00

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** This project replaces a severely corroded 72" corrugated metal pipe culvert which carries the Winnicut River under Walnut Avenue. The culvert is located approximately 1.30 miles west of the NH Route 151 intersection and about 0.50 miles east of the Lovering Road intersection in the Town of North Hampton. The Work includes the removal of the existing pipe culvert and replacement with an 8' x 7' precast concrete box culvert, installation of wing walls, approach pavement work, and the installation of beaver deterrent fencing.

**FEDERAL FUNDING:** 0% (100% State Funding, Betterment Program)

**CONTINGENCY:** The Contingency amount is proposed to be 5% and is recommended to account for varying field conditions related to muck removal and dewatering.

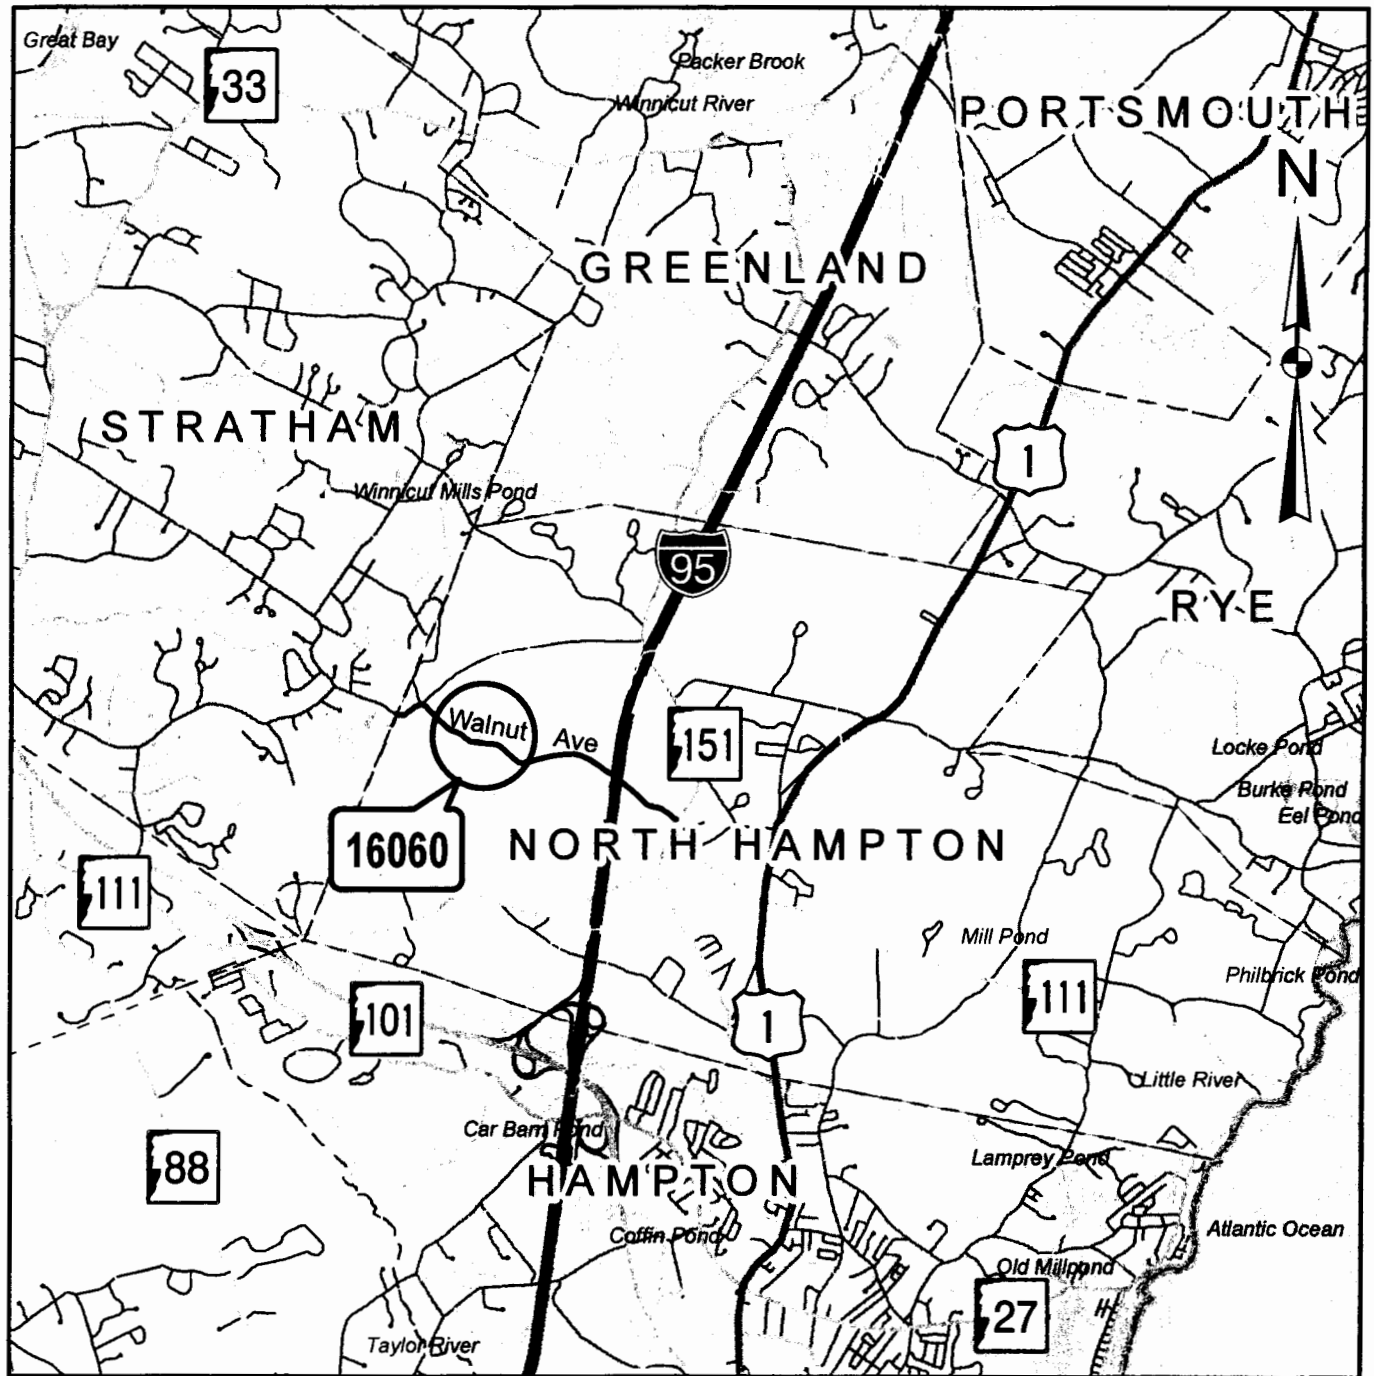

**PROJECT INITIATED:** State's Ten-Year Plan – under the Statewide BET Drainage Improvement Programmatic Program.

**PROJECT EXPLANATION:** The existing 72" CMP was constructed in the early 1960s. The structure was built in an area with wetlands on both sides, over a considerable volume of muck. The invert of the pipe is rusted out, the center portion of the pipe has settled 2-3 feet, sink holes have been filled, pavement patching has been done on a yearly basis and beavers have been a continuous problem for both sides of the pipe. Constructing a new 8' x 7' concrete box culvert will enable fish passage, maintain the hydraulic efficiency and fencing will deter beavers from building a beaver dam within the box culvert.

**TRAFFIC IMPLICATIONS:** Walnut Avenue will be closed to through traffic for a 5 week consecutive period during North Hampton school district's summer vacation. A detour along state maintained roads will be signed. Temporary one lane, alternating two-way traffic may be necessary during the early and later stages of construction and will be controlled by flaggers. Portable changeable message signs will be used on Walnut Avenue for advance notice of construction activities and during the closure for detour information.

**COMPLETION DATE:** September 8, 2017

# CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)  
11/15/2016

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

**IMPORTANT:** If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
