EXPLANATION

The purpose of this request is to ensure Contractors continue providing comprehensive Medications for Substance Use Disorder (MSUD), formally referred to as Medication Assisted Treatment, to individuals with Substance Use Disorders. The Contractors will continue to provide evidence-based Medications for Substance Use Disorder for individuals with Opioid Use Disorder (OUD) who require necessary outpatient and community-based services. Medications for Substance Use Disorder is the use of medications, in combination with counseling and behavioral therapies, to provide a "whole-patient" approach to the treatment of Opioid Use Disorder. These agreements also ensure the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder including, but not limited to childcare and parenting education.

These contracts are integral for the Substance Abuse and Mental Health Services Administration (SAMHSA) State Opioid Response (SOR) grant to increase access to Medications for Substance Use Disorder throughout the State.

Approximately 250 individuals will be served between July 1, 2022 and September 29, 2022.

As referenced in C-1, Revisions to Standard Provisions, Section 9, Renewal, of the original contracts with Elliot Hospital of the City of Manchester and Mary Hitchcock Memorial Hospital, and as referenced in Exhibit A, Revisions to Standard Agreement Provisions, Section 1, Revisions

to Form P-37, General Provision, Subsection 1.2 of the original contract with Concord Hospital - Laconia, the Department has the option to extend the agreements with Elliot Hospital of the City of Manchester and Mary Hitchcock Memorial Hospital for up to two (2) additional years, and to extend the contract with Concord Hospital, Inc. - Laconia for up to one (1) additional year, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for the remaining three (3) months of renewal for each of the three (3) contracts. These Contractors have been integral partners and supports for the Regional Doorway system and continuing funding these contracts will ensure there is no gap in services. This renewal period will allow the Department to further assess the need for continued funding and the most efficient and effective model for service delivery and development.

Should the Governor and Executive Council not authorize this request, individuals with Opioid Use Disorders, in need of Medications for Substance Use Disorder and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdoses or death during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek help for Opioid Use Disorders. Any unavailability or delay in receiving Medications for Substance Use Disorder not only impacts the individual, but has potential consequences for families and communities as well, such as increase in homelessness, unemployment, and incarceration.

Areas Served: Manchester, Laconia, and Lebanon regions

Source of Funds: CFDA #93.788, FAIN # H79TI083326.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

INDEPENDENT AUDITORS' REPORT

Board of Trustees
Elliot Hospital and Affiliates

We have audited the accompanying consolidated financial statements of Elliot Hospital and Affiliates (the Hospital), which comprise the consolidated balance sheets as of June 30, 2021 and 2020, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Trustees
Elliot Hospital and Affiliates

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Hospital as of June 30, 2021 and 2020, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

ELLIOT HOSPITAL AND AFFILIATES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2021 and 2020

1. Organization

Elliot Hospital is a not-for-profit acute care hospital which serves residents of Southern New Hampshire. Elliot Health System (the System) is the sole member of Elliot Hospital.

Elliot Hospital is the sole corporate member for Elliot Physician Network (EPN), a not-for-profit network of primary care physicians, and Elliot Professional Services (EPS), a not-for-profit network of specialty care physicians. These consolidated financial statements reflect the consolidated financial position, results of operations and cash flows of EPN, EPS and Elliot Hospital. These entities are collectively referred to as "the Hospital" in these consolidated financial statements.

Elliot Hospital (excluding EPN and EPS) and the System comprise the Obligated Group as defined under a Master Trust Indenture dated November 1, 2016 (as amended) under the 2013 and 2016 bond offerings. See note 5.

The sole corporate member of the System is SolutionHealth, Inc. SolutionHealth, Inc. performs certain administrative services on behalf of the System such as marketing, human resource functions, information technology services, finance and accounting, and materials management. These services are allocated and billed to the System on a monthly basis. For the year ended June 30, 2021, allocated amounts totaled \$56,256,323 which were comprised of \$35,654,118 in salaries, wages and employee benefits, and \$20,602,205 in nonsalaries expense. For the year ended June 30, 2020, allocated amounts totaled \$12,433,265 which were comprised of \$9,781,045 in salaries, wages and employee benefits, and \$2,652,220 in nonsalaries expense. The increase from prior year represents additional shared services transferred from the System to SolutionHealth, Inc.

The Hospital also participates in certain other strategic affiliation and joint operating agreements with outside entities.

2. Significant Accounting Policies

The accounting policies that affect the more significant elements of the consolidated financial statements of the Hospital are summarized below:

Principles of Consolidation

The consolidated financial statements include the accounts of Elliot Hospital, EPN and EPS. All significant intercompany balances and transactions have been eliminated in the consolidation.

Charity Care

The Hospital's patient acceptance policy is based on its mission and its community service responsibilities. Accordingly, the Hospital accepts patients in immediate need of care, regardless of their ability to pay. It does not pursue collection of amounts determined to qualify as charity care based on established policies. These policies define charity care as those services for which no payment is due for all or a portion of the patient's bill. For financial reporting purposes, charity care is excluded from patient service revenue.

ELLIOT HOSPITAL AND AFFILIATES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2021 and 2020

2. Significant Accounting Policies (Continued)

In estimating the cost of providing charity care, the Hospital uses the ratio of average patient care cost to gross charges and then applies that ratio to the gross uncompensated charges associated with providing charity care.

Cash and Cash Equivalents

Cash and cash equivalents include short-term investments and secured repurchase agreements which have an original maturity of three months or less when purchased.

The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses on such accounts.

Accounts Receivable

Under the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers*, when an unconditional right to payment exists, subject only to the passage of time, the right is treated as a receivable. Patient accounts receivable for which the unconditional right to payment exists are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. Estimated uncollectible amounts are generally considered implicit price concessions that are a direct reduction to accounts receivable rather than allowance for doubtful accounts.

Patient Service Revenues

Revenues generally relate to contracts with patients in which the Hospital's performance obligations are to provide health care services to patients. Revenues are recorded during the period obligations to provide health care services are satisfied. Performance obligations for inpatient services are generally satisfied over a period of days. Performance obligations for outpatient services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payor (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by Medicare and Medicaid or negotiated with managed care health plans and commercial insurance companies, the third-party payors. The payment arrangements with third-party payors for the services provided to related patients typically specify payments at amounts less than standard charges. Medicare generally pays for inpatient and outpatient services at prospectively determined rates based on clinical, diagnostic and other factors. Services provided to patients having Medicaid coverage are generally paid at prospectively determined rates per discharge, per identified service or per covered member. Agreements with commercial insurance carriers, managed care and preferred provider organizations generally provide for payments based upon predetermined rates per diagnosis, per diem rates or discounted fee-for-service rates. Management continually reviews the revenue recognition process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

ELLIOT HOSPITAL AND AFFILIATES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2021 and 2020

2. Significant Accounting Policies (Continued)

The collection of outstanding receivables for Medicare, Medicaid, managed care payers, other third-party payors and patients is the Hospital's primary source of cash and is critical to its operating performance. The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient responsibility amounts (deductibles and copayments) remain outstanding. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. Accounts are written off when all reasonable internal and external collection efforts have been performed. The estimates for implicit price concessions are based upon management's assessment of historical write-offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. Management relies on the results of detailed reviews of historical write-offs and collections at facilities that represent a majority of hospital revenues and accounts receivable (the "hindsight analysis") as a primary source of information in estimating the collectability of our accounts receivable. Management performs the hindsight analysis regularly, utilizing rolling twelve-months accounts receivable collection and write-off data. Management believes its regular updates to the estimated implicit price concession amounts provide reasonable estimates of revenues and valuations of accounts receivable. These routine, regular changes in estimates have not resulted in material adjustments to the valuations of accounts receivable or period-to-period comparisons of operations. At June 30, 2021 and 2020, estimated implicit price concessions of \$24,320,016 and \$18,966,021, respectively, had been recorded as reductions to accounts receivable balances to enable the Hospital to record revenues and accounts receivable at the estimated amounts expected to be collected.

Income Taxes

Elliot Hospital, EPN and EPS are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code, and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Management evaluated the Hospital's tax positions and concluded the Hospital has maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment to the consolidated financial statements.

Performance Indicator

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of health care services are reported as operating revenues and expenses. Peripheral transactions are reported as nonoperating gains or losses.

The consolidated statements of operations also include excess of revenues and nonoperating gains (losses) over expenses. Changes in net assets without donor restrictions which are excluded from excess of revenues and nonoperating gains (losses) over expenses, consistent with industry practice, include pension adjustments, certain other reclassifications and transfers to or from affiliates.

ELLIOT HOSPITAL AND AFFILIATES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2021 and 2020

2. Significant Accounting Policies (Continued)

Net Assets With Donor Restrictions

Gifts are reported as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), restricted net assets are reclassified as net assets without donor restrictions and reported in the statement of operations as either net assets released from restrictions for operations (for noncapital-related items) or net assets released from restrictions for property, plant and equipment (for capital-related items). Some restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

Investments and Investment Income

Investments, including funds held by trustee under revenue bond and note agreements, are measured at fair value in the consolidated balance sheets. Interest and dividend income on unlimited use investments and operating cash is reported within operating revenues. Investment income or loss on assets whose use is limited (including realized and unrealized gains and losses on investments, and interest and dividends) is reported as nonoperating gains (losses). The Hospital has elected to reflect changes in the fair value of investments and assets whose use is limited, including both increases and decreases in value whether realized or unrealized in nonoperating gains or losses.

Beneficial Interest in Perpetual Trusts

The Hospital has an irrevocable right to receive income earned on certain trust assets established for its benefit. Distributions received by the Hospital are restricted by the donor for use in nursing education and women's and children's services. The Hospital's interest in the fair value of the trust assets is included in assets whose use is limited. Changes in the market value of beneficial trust assets are reported as increases or decreases to net assets with donor restrictions and is included within investment return on the accompanying consolidated statements of changes in net assets.

Investment Policies

The Hospital's investment policies provide guidance for the prudent and skillful management of invested assets with the objective of preserving capital and maximizing returns. The invested assets include endowment, specific purpose and board designated funds.

Endowment funds are identified as perpetual in nature, intended to provide support for current or future operations and other purposes identified by the donor. These funds are managed with disciplined longer-term investment objectives and strategies designed to accommodate relevant, reasonable, or probable events.

Net assets with donor restrictions are restricted as to time or purpose as identified by the donor or grantor. These funds have various intermediate/long-term time horizons associated with specific identified spending objectives.

Board designated funds have various intermediate/long-term time horizons associated with specific spending objectives as determined by the Board of Trustees.

Management of these assets is designed to maximize total return while preserving the capital values of the funds, protecting the funds from inflation, and providing liquidity as needed. The objective is to maximize returns over the long-term with prudent levels of risk, while providing the liquidity necessary to carry out capital replacement and improvement initiatives.

The Hospital targets a diversified asset allocation that places emphasis on achieving its long-term return objectives within prudent risk constraints.

Spending Policy for Appropriation of Assets for Expenditure

In accordance with the *Uniform Prudent Management of Institutional Funds Act (UPMIFA)*, the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

Spending policies may be adopted by the Hospital, from time to time, to provide a stream of funding for the support of key programs. The spending policies are structured in a manner to ensure that the purchasing power of the assets is maintained while providing the desired level of annual funding to the programs. The Hospital currently has a policy allowing interest and dividend income earned on investments to be used for operations with the goal of keeping principal intact. From time to time, certain net assets and donor restrictions may have fair values less than the amount required to be maintained by donors or by law (underwater donor restricted net assets). The Hospital has interpreted UPMIFA to permit spending from underwater donor restricted net assets in accordance with prudent measures required under the law. At June 30, 2021 and 2020, there were no underwater donor restricted net assets.

Inventories

Inventories of supplies and pharmaceuticals are carried at the lower of cost, determined on a weighted-average method, or net realizable value.

Bond Issuance Costs/Original Issue Premium or Discount

The bond issuance costs incurred to obtain financing for construction and renovation programs and the original issue premium or discount are being amortized over the life of the bonds. The original issue premium or discount and bond issuance costs are presented as a component of the face amount of bonds payable.

Property, Plant and Equipment

Property, plant and equipment is stated at cost at time of purchase, or fair market value at time of donation, less reductions in carrying value based upon impairment and less accumulated depreciation. The Hospital's policy is to capitalize expenditures for major improvements and charge maintenance and repairs for expenditures which do not extend the lives of the related assets. The provision for depreciation is computed on the straight-line method at rates intended to amortize the cost of the related assets over their estimated useful lives. Assets which have been purchased but not yet placed in service are included in construction and projects in progress and no depreciation expense is recorded.

Federal Grant Revenue and Expenditures

Revenues and expenses under federal grant programs are recognized after grants are formally awarded as the related expenditure is incurred.

Retirement Benefits

The Hospital participates in a defined benefit pension plan that prior to December 31, 2019 covered qualifying employees, the Elliot Health System Pension Plan (the Plan), which is sponsored by the System. The benefits were based on years of service and the employee's compensation during the period of employment. See note 8 for changes to this pension plan.

The System's funding policy is to contribute amounts to the Plan sufficient to meet minimum funding requirements set forth in the *Employee Retirement Income Security Act of 1974*, plus such additional amounts as might be determined to be appropriate from time to time. The Plan is intended to constitute a plan described in Section 414(k) of the Internal Revenue Code, under which benefits derived from employer contributions are based on the separate account balances of participants in addition to the defined benefits under the Plan.

The System provides, and the Hospital participates in, a defined contribution program. Under this program, eligible employees may receive annual employer contributions to a System 403(b) plan or 401(k) plan. For the year ended June 30, 2020, annual employer contributions totaled 3% of annual employee base pay. In September 2020, the Board of Directors of the System voted to change the employer contribution from a fixed 3% of annual employee base pay to a yearly determined amount at the discretion of the Board of Directors of the System. For the year ended June 30, 2021, annual employer contributions totaled 3% of annual employee base pay.

The System also provides matching contributions at the discretion of the System to a 403(b) plan or 401(k) plan equal to up to one-half of the employee's contribution to a maximum of 4% of their annual base pay. Total expense incurred by the Hospital was \$4,568,116 and \$6,106,425 under these defined contribution plans for the years ended June 30, 2021 and 2020, respectively.

2. Significant Accounting Policies (Continued)

The System sponsors deferred compensation plans for certain qualifying employees. The amounts ultimately due to employees are to be paid upon the employees attaining certain criteria, including age. At June 30, 2021 and 2020, \$29,554,709 and \$22,248,589, respectively, is reflected in assets whose use is limited and \$29,554,709 and \$22,248,589, respectively, in other long-term liabilities related to such agreements.

Workers' Compensation

The System, including the Hospital, is self-insured for workers' compensation. The System has secured its obligation through a surety bond. The System maintains an excess insurance policy to limit its exposure on claims to \$650,000 per occurrence. Reserves for claims made and potential unreported claims have been established to provide for incurred but unpaid claims. The amount of the reserve has been determined by an actuarial consultant.

Employee Health and Dental Insurance

The Hospital participates in a self-insurance plan for employee health and dental, sponsored by the System. Under the terms of the plan, employees meeting certain eligibility requirements and their dependents are eligible for participation and, as such, the System is responsible for the administration of the plan and any resultant liability incurred. The System maintains individual stop-loss insurance coverage.

Employee Fringe Benefits

The Hospital has an earned time plan. Under this plan, each qualifying employee earns paid leave for each pay period worked. These hours of paid leave may be used for vacations, holidays or illnesses. Hours earned but not used are vested with the employee and are paid to the employee upon termination subject to certain limits. The Hospital accrues a liability for such paid leave as it is earned, which totaled approximately \$12,874,000 and \$13,466,000 at June 30, 2021 and 2020, respectively, and is recorded in accrued salaries, wages and related accounts on the accompanying consolidated balance sheets.

Professional and General Liability Contingencies

The System, including the Hospital, is insured against professional and general liability contingencies under claims-made insurance policies. A claims-made policy provides specific coverage for claims made during the policy period. The System maintains excess professional and general liability insurance policies to cover claims in excess of liability retention levels. At June 30, 2021, there were no known professional and general liability claims outstanding for the System which, in the opinion of management, will be settled for amounts in excess of insurance coverage, nor were there any unasserted claims or incidents which required specific loss accruals. The System has established reserves to cover professional liability exposures for incurred but unpaid or unreported claims. The amounts of the reserves have been determined by actuarial consultants. The possibility exists, as a normal risk of doing business, that professional and general liability claims in excess of insurance coverage may be asserted against the System.

2. Significant Accounting Policies (Continued)

In 2001, the Hospital created a self-insurance trust to fund the related actuarially-determined liability for incurred but unpaid claims. The trust fund and related liability are included in the accompanying consolidated balance sheets. In accordance with Accounting Standards Update (ASU) No. 2010-24, "Health Care Entities" (Topic 954): *Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24), at June 30, 2021 and 2020, the Hospital recorded a liability of \$15,730,731 and \$21,019,706, respectively, related to estimated professional liability losses relating to reported cases as well as potentially incurred but not reported claims which is included in self-insurance reserves and other liabilities on the consolidated balance sheets. At June 30, 2021 and 2020, the Hospital also recorded a receivable of \$1,811,090 and \$2,515,159, respectively, related to estimated recoveries under insurance coverages provided by the self-insurance trust. At June 30, 2021, \$1,054,354 is included in other assets and \$756,736 is included in other current assets on the consolidated balance sheet. At June 30, 2020, the receivable is included in other assets on the consolidated balance sheet. It is the intention of management to fund the self-insurance trust as deemed necessary. The self-insurance trust has assets totaling \$4,496,586 and \$6,863,752 at June 30, 2021 and 2020; respectively, and is included within board designated and donor restricted investments in the accompanying consolidated balance sheets.

Litigation

The Hospital is involved in litigation and regulatory reviews arising in the ordinary course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Hospital's financial position, results of operations or cash flows.

Fair Value of Financial Instruments

The fair value of financial instruments is determined by reference to various market data and other valuation techniques as appropriate. Financial instruments consist of cash and cash equivalents, investments, accounts receivable, assets whose use is limited, accounts payable and amounts payable to third-party payors.

The fair value of all financial instruments approximates their relative book value as these financial instruments have short-term maturities or are recorded at fair value as disclosed in note 14.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used in the areas of accounts receivable, insurance costs, alternative investment funds, employee benefit plans, amounts payable to third-party payors and contingencies. It is reasonably possible that actual results could differ from those estimates. Adjustments made with respect to the use of estimates often relate to improved information not previously available.

2. Significant Accounting Policies (Continued)**Risks and Uncertainties**

On March 11, 2020, the World Health Organization declared the outbreak of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has significantly affected employees, patients, systems, communities and business operations, as well as the U.S. economy and financial markets. While some restrictions have been eased across the U.S. and the State of New Hampshire has lifted limitations on non-emergent procedures, some restrictions remain in place. Consolidated patient volumes and revenues experienced gradual improvement beginning in the latter part of April 2020, and continuing through fiscal year 2021, however uncertainty still exists as the future is unpredictable. The Hospital's pandemic response plan has multiple facets and continues to evolve as the pandemic unfolds. The Hospital has taken precautionary steps to enhance its operational and financial flexibility, and react to the risks the COVID-19 pandemic presents in its operations.

In 2021 and 2020, the federal government and certain state governments provided financial assistance to healthcare systems as a result of the COVID-19 pandemic. During the fourth quarter of fiscal 2020, the Hospital received approximately \$46.3 million of accelerated Medicare payments and was awarded \$10.5 million from the \$50 billion general distribution fund and \$8.6 million of targeted Provider Relief Fund distributions, as provided for under the *Coronavirus Aid Relief, and Economic Security Act* (CARES Act). Funds related to targeted distributions were received in July 2020 and were included in other current assets at June 30, 2020 on the accompanying consolidated balance sheets. In fiscal 2021, the Hospital received approximately \$4.0 million in general Provider Relief Fund distributions.

Distributions from the Provider Relief Fund are not subject to repayment, provided the Hospital is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for healthcare-related expenses or lost revenue attributable to COVID-19. Such payments are accounted for as government grants, and are recognized on a systematic and rational basis as other income once there is reasonable assurance that the applicable terms and conditions required to retain the funds will be met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the impact of the pandemic on operating results through June 30, 2021 and 2020, the Hospital recognized \$4.0 million and \$19.1 million related to these distribution funds recorded within other revenue in the consolidated statements of operations and changes in net assets for the years ended June 30, 2021 and 2020, respectively.

The CARES Act also provides for a deferral of payments of the employer portion of payroll tax incurred during the pandemic, allowing half of such payroll taxes to be deferred until December 2021 and the remaining half until December 2022. At June 30, 2021, the Hospital had deferred balances of payroll taxes totaling \$8.8 million of which \$4.3 million is included under the caption "accrued salaries, wages and related accounts" and \$4.5 million is included under the caption "self-insurance reserves and other liabilities" in its consolidated balance sheets. At June 30, 2020, the Hospital had deferred balances of payroll taxes totaling \$2.9 million which were included under the caption "self-insurance reserves and other liabilities" in the accompanying consolidated balance sheets.

2. Significant Accounting Policies (Continued)

During fiscal year 2021, the Hospital received grants totaling approximately \$8.6 million from the Governor's Office of Emergency Relief and Recovery (GOFERR). These payments are accounted for as government grants and are not subject to repayment, provided the Hospital is able to comply with the conditions of the funding, including demonstrating that the distributions received have been used for healthcare-related expenses or lost revenue attributable to COVID-19. The Hospital believes it met the terms and conditions of these grants in the fiscal year ended June 30, 2021 and these payments are recorded within other revenue in the consolidated statements of operations for the year ended June 30, 2021.

The Hospital will continue to monitor compliance with the terms and conditions of the Provider Relief Fund, GOFERR grants, and other potential assistance programs and available grants, and the impact of the pandemic on revenues and expenses. If the Hospital is unable to attest to or comply with current or future terms and conditions, the Hospital's ability to retain some or all of the distributions received may be impacted.

Reclassifications

Certain 2020 amounts have been reclassified to permit comparison with the 2021 consolidated financial statements presentation format.

Subsequent Events

Events occurring after the balance sheet date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated subsequent events through October 26, 2021 which is the date the consolidated financial statements were available to be issued.

Recent Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). The amendments in this ASU modify the disclosure requirements for fair value measurements for Level 3 assets and liabilities, and eliminate the requirement to disclose transfers between Levels 1 and 2 of the fair value hierarchy, among other modifications. ASU 2018-13 was effective for the Hospital on July 1, 2020. The adoption of this ASU did not have a significant impact on the Hospital's consolidated financial statements.

2. Significant Accounting Policies (Continued)**Prospective Accounting Pronouncements**

In September 2020, the FASB issued ASU No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. ASU 2020-07 enhances the presentation of disclosure requirements for contributed nonfinancial assets. ASU 2020-07 requires entities to present contributed nonfinancial assets as a separate line item in the statement of operations and disclose the amount of contributed nonfinancial assets recognized within the statement of operations by category that depicts the type of contributed nonfinancial assets, as well as a description of any donor-imposed restrictions associated with the contributed nonfinancial assets and the valuation techniques used to arrive at a fair value measure at initial recognition. ASU 2020-07 is effective for the Hospital beginning July 1, 2021. The Hospital is currently evaluating the impact of the pending adoption of ASU 2020-07 on its consolidated financial statements, however, does not anticipate it will result in a significant change.

In February 2016, the FASB issued ASU No. 2016-02 *Leases (Topic 842)* (ASU 2016-02). Under ASU 2016-02, at the commencement of a long-term lease, lessees will recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. ASU 2016-02 is effective for the Hospital on July 1, 2022, with early adoption permitted. Lessees (for capital and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the consolidated financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. The Hospital is currently evaluating the impact of the pending adoption of ASU 2016-02 on the consolidated financial statements.

In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*, which provides companies with optional expedients and exceptions to ease the potential accounting burden associated with transitioning away from reference rates that are expected to be discontinued. The optional expedients may be applied to contracts, hedging relationships and other transactions that reference LIBOR or another reference rate expected to be discontinued because of the reference rate reform. The amendments in this update are effective for all entities as of March 12, 2020 and may be adopted using a prospective approach through December 31, 2022. Management is currently evaluating the impact of the guidance and may apply elections as applicable as additional changes in the market occur during the LIBOR transition period.

3. Patient Service Revenues

An estimated breakdown of patient service revenue from major payor sources, is as follows for the years ended June 30:

	<u>2021</u>	<u>2020</u>
Private payors (includes coinsurance and deductibles)	\$370,293,693	\$315,111,484
Medicaid	48,770,175	46,402,940
Medicare	148,750,281	128,121,192
Self-pay	<u>3,977,857</u>	<u>3,285,642</u>
	<u>\$571,792,006</u>	<u>\$492,921,258</u>

The Hospital maintains contracts with the Social Security Administration (Medicare) and the State of New Hampshire Department of Health and Human Services (Medicaid). The Hospital is paid a prospectively determined fixed price for Medicare and Medicaid inpatient acute care services depending on the type of illness or the patient's diagnostic related group classification. Reimbursement for Medicare for outpatient services is based upon a prospective standard rate for procedures performed or services rendered. Capital costs and certain Medicare and Medicaid outpatient services are also reimbursed on a prospectively determined fixed rate. The Hospital receives payment for other Medicare and Medicaid inpatient and outpatient services on a reasonable cost basis which are settled with retroactive adjustments upon completion and audit of related cost finding reports. The percentage of patient service revenue earned from the Medicare and Medicaid programs was 27% and 6%, respectively, in 2021, and 26% and 6%, respectively, in 2020.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. The Hospital believes that it is in substantial compliance with all applicable laws and regulations. However, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenues in the year that such amounts become known. The differences between amounts previously estimated and amounts subsequently determined to be recoverable from third-party payors increased (decreased) patient service revenues by approximately \$600,000 and \$(1,700,000) in 2021 and 2020, respectively.

3. Patient Service Revenues (Continued)

During the fourth quarter of fiscal 2020, the Hospital requested accelerated Medicare payments as provided for in the CARES Act, which allows for eligible health care facilities to request up to six months of advance Medicare payments for acute care hospitals or up to three months of advance Medicare payments for other health care providers. Recoupments will be made by applying claims for services provided to Medicare beneficiaries to the advance payment balance. One year from the date of receipt of the advance payments (beginning April 2021) 25% of the amounts advanced will be recouped in the first eleven months. An additional 25% of the amounts advanced will be recouped in the next six months with the entire amount repayable in 29 months. Any outstanding balance after 29 months is repayable at a 4% interest rate. During the year ended June 30, 2020, the Hospital received approximately \$46.3 million from these accelerated Medicare payment requests. No recoupments were made during the year ended June 30, 2020. Recoupments totaling approximately \$5.1 million were made during the year ended June 30, 2021, resulting in a remaining liability totaling approximately \$41.2 million which is included under the caption "amounts payable to third-party payors" in the accompanying consolidated balance sheets.

The Hospital also maintains contracts with Anthem Blue Cross, Cigna, Harvard Pilgrim Health Care, certain commercial carriers, managed care plans and preferred provider organizations. The basis for payment under these agreements includes prospectively determined rates per discharge and per day, discounts from established charges and fee schedules.

In 2019, the Hospital entered into a ten year \$20,500,000 equipment financing agreement with Bank of America to acquire various property and equipment. Certain proceeds of the financing are held by a trustee, under the terms of an escrow agreement which allow for withdrawals only for approved purchases. Total amounts withdrawn in fiscal year 2021 totaled \$171,222.

The Obligated Group's agreement with the New Hampshire Health and Education Facilities Authority for the 2016 Bond grants the Authority a security interest in the Hospital's gross receipts and a mortgage on the Hospital's existing and future facilities and equipment. 8. Retirement Benefits (Continued)

The plan's primary investment objective is to ensure sufficient funds are available to meet the plan's benefit and expense obligations and to maintain compliance with regulatory funding requirements. Plan assets are invested in a prudent manner to meet the obligation of providing benefits to plan participants and their beneficiaries. The plan's portfolio primarily invests in a diversified portfolio of public equity, public debt, multi asset, and liability hedging investments.

The plan's secondary investment objective is to effectively manage the surplus/(deficit) risk between plan assets and plan liabilities. An effective hedging strategy may be considered in the investment program to mitigate interest rate risk in the plan, as the present value of the plan's liabilities are sensitive to changes in interest rates. The investment program shall consider the potential negative impact of fluctuating interest rates on the surplus/(deficit).

These funds are managed as permanent funds with disciplined longer term investment objectives and strategies designed to meet cash flow requirements of the plan. Funds are managed in accordance with ERISA and all other regulatory requirements.

Net periodic pension cost includes the following components at June 30:

	<u>2021</u>	<u>2020</u>
Service cost	\$ 1,857,334	\$ 5,700,520
Interest cost	11,707,578	13,437,944

Amount recognized by the Hospital	<u>\$ 5,128,081</u>	<u>\$ 6,952,789</u>

The weighted-average assumptions used to develop net periodic pension cost were as follows for the years ended June 30:

	<u>2021</u>	<u>2020</u>
Discount rate July 1, 2020 through June 30, 2021	2.74%	N/A

Discount rate July 1, 2019 through December 31, 2019	N/A	3.55

In selecting the long-term rate of return on assets, the System considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefits of the plan. This included considering the trust's asset allocation and the expected returns likely to be earned over the life of the plan, as well as the historical returns on the types of assets held and the current economic environment.

The loss amount expected to be recognized in net periodic benefit cost in 2022 totals \$7,089,022.

Estimated Future Benefit Payments

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid by the System:

<u>Fiscal Year</u>	<u>Pension Benefits</u>
2022	\$ 12,842,800
2023	14,221,900

On May 16, 2019, the Board of Directors of the System resolved to freeze the defined benefit pension plan effective December 31, 2019. Any employee who was a participant of the plan on that date will continue as a participant. No other person will become a participant after that date. Benefits to participants stopped accruing on December 31, 2019. This amendment impacted the present value of accumulated plan benefits by eliminating the increase due to annual benefit accruals. In the fiscal year ended June 30, 2020, the Hospital recognized a gain of approximately \$18.7 million related to this change which is included in the pension adjustment in the consolidated statements of operations and the consolidated statements of changes in net assets.

10. Community Benefits (Unaudited)

The mission of the Hospital is to provide quality, accessible healthcare services to patients regardless of their ability to pay. The Hospital subsidizes certain health care services, supports community-based healthcare providers, and provides outreach and educational programs.

Charity Care

The Hospital provides services to patients who are uninsured or underinsured under its charity care policy at no charge or at amounts less than its established charges. The estimated costs of providing charity care services are determined using the ratio of average patient care costs to gross charges, and then applying that ratio to the gross charges associated with providing such services.

Community Programs and Subsidized Services

The Hospital provides community health programs, health professional education through partnerships with local post-secondary organizations, health screenings, health publications and other health information services. Many of these services are provided at a financial loss and are subsidized by the Hospital in order to meet important community needs that otherwise would not be available. In addition, supporting contributions and in-kind services are made to a number of community organizations for the promotion of health-related activities.

Government-Sponsored Programs

The Hospital provided services to Medicare and Medicaid recipients. Reimbursement for such services is at rates substantially below cost.

The estimated cost of providing community benefits for the years ended June 30, 2021 and 2020 are summarized below:

	<u>\$389,934,876</u>	<u>\$155,745,895</u>	<u>\$545,680,771</u>

The consolidated financial statements report certain expense categories that are attributable to more than one healthcare service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, such as, depreciation and amortization, and interest, are allocated to a function based on square footage. Supporting activities that are not directly identifiable with one or more healthcare programs are classified as general and administrative. If it is impossible or impractical to make a direct identification, allocation of the expenses were made according to management's estimates. Specifically identifiable costs are assigned to the function to which they are identified.

14. Fair Value Measurements

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Hospital uses various methods including market, income and cost approaches. Based on these approaches, the Hospital often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Hospital is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In determining the appropriate levels, the Hospital performs a detailed analysis of the assets and liabilities that are subject to fair value measurements. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3. The following is a description of the valuation methodologies used:

Marketable Equity Securities

Marketable equity securities are valued based on stated market prices and at the net asset value of shares held by the Hospital at year end, which generally results in classification as Level 1 within the fair value hierarchy.

Fixed Income Securities

The fair value for debt instruments is determined by using broker or dealer quotations, external pricing providers, or alternative pricing sources with reasonable levels of price transparency. The Hospital holds U.S. governmental and federal agency debt instruments, municipal bonds, corporate bonds and foreign bonds, which are primarily classified as Level 2 within the fair value hierarchy.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

14. Fair Value Measurements (Continued)

Alternative Investments

The Hospital invests in certain alternative investments that include limited partnership interests in investment funds, which, in turn, invest in diversified portfolios predominantly comprised of equity and fixed income securities, as well as options, futures contracts, and some other less liquid investments. Management has approved procedures pursuant to the methods in which the Hospital values these investments at fair value, which ordinarily will be the amount equal to the pro-rata interest in the net assets of the limited partnership, as such value is supplied by, or on behalf of, each investment from time to time, usually monthly and/or quarterly by the investment manager. These investments are classified at net asset value.

Hospital management is responsible for the fair value measurements of alternative investments reported in the consolidated financial statements. Such amounts are generally determined using audited financial statements of the funds and/or recently settled transactions. Because of inherent uncertainty of valuation of certain alternative investments, the estimate of the fund manager or general partner may differ from actual values, and differences could be significant. Management believes that reported fair values of its alternative investments at the balance sheet dates are reasonable.

Beneficial Interests in Perpetual Trusts

The Hospital is the beneficiary of two perpetual trusts held by a third party. Under the terms of the trusts, the Hospital has the irrevocable right to receive the income earned on the assets of the trusts in perpetuity, but never receives the assets held in the trusts. The Hospital has transparency into the holdings of the trusts. These investments are generally classified as Level 1 within the fair value hierarchy.

Employee Benefit Plan and Other

Underlying plan investments within these funds are stated at quoted market prices. These investments are generally classified as Level 1 within the fair value hierarchy.

Fair Value on a Recurring Basis

The System invests certain assets on behalf of the Hospital. The System invests the amount in a pooled investment fund and allocates the return from the investment pool to the hospital, of which the Hospital is entitled to the majority of the pooled investment fund. The investment pool is invested in a variety of investments and amounts are available to the Hospital on demand.

14. Fair Value Measurements (Continued)

Investment Strategies

Fixed Income Securities (Debt Instruments)

The primary purpose of fixed income investments is to provide a highly predictable and dependable source of income, preserve capital, and reduce the volatility of the total portfolio and hedge against the risk of deflation or protracted economic contraction.

Marketable Equity Securities

The primary purpose of equity investments is to provide appreciation of principal and growth of income with the recognition that this requires the assumption of greater market volatility and risk of loss. The total equity portion of the portfolio will be broadly diversified according to economic sector, industry, number of holdings and other characteristics including style and capitalization. The Hospital may employ multiple equity investment managers, each of whom may have distinct investment styles. Accordingly, while each manager's portfolio may not be fully diversified, it is expected that the combined equity portfolio will be broadly diversified.

Alternative Investments

The primary purpose of alternative investments is to provide further portfolio diversification and to reduce overall portfolio volatility by investing in strategies that are less correlated with traditional equity and fixed income investments. Alternative investments may provide access to strategies otherwise not accessible through traditional equities and fixed income such as derivative instruments, real estate, distressed debt and private equity and debt.

15. Medicaid Enhancement Tax and Disproportionate Share

Under the State of New Hampshire's (the State) tax code, the State imposes a Medicaid Enhancement Tax (MET) equal to 5.4% of the Hospital's patient service revenues in State fiscal years 2021 and 2020, with certain exclusions. The amount of the tax provided for by the Hospital for the years ended June 30, 2021 and 2020 was \$22,236,061 and \$23,697,723, respectively.

The State provides disproportionate share payments (DSH) to hospitals based on a set percentage of uncompensated care provided. The Hospital received \$15,940,765 and \$17,913,947 during the years ended June 30, 2021 and 2020, respectively. Reserves on these receipts were established for \$1,771,195 and \$1,990,439 at June 30, 2021 and 2020, respectively, as these programs are subject to the State DSH annual audit and potential redistributions.

16. Financial Assets and Liquidity Resources

As of June 30, 2021, financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, scheduled principal payments on debt, and capital construction costs not financed with debt, consisted of the following:

Cash and cash equivalents	\$146,366,612
Accounts receivable	<u>37,621,279</u>
	<u>\$183,987,891</u>

To manage liquidity, the Hospital maintains sufficient cash and cash equivalent balances to support daily operations throughout the year. Cash and cash equivalents include bank deposits, money market funds, and other similar vehicles that generate a return on cash and provide daily liquidity to the Hospital. In addition, the Hospital has board-designated assets and investments without donor restrictions that can be utilized at the discretion of management to help fund both operational needs and/or capital projects. As of June 30, 2021, the balances in board-designated assets and investments were \$116,578,566 and \$120,567,838, respectively.

EXPLANATION

The purpose of this request is for the Contractors to continue providing comprehensive Medication Assisted Treatment to individuals with Substance Use Disorder by using FDA-approved medications while ensuring the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder.

Approximately 1,000 individuals will be served during State Fiscal Year 2022.

The Department will monitor contracted services through monthly reports to ensure:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Contractors for Medication Assisted Treatment services receive at least three (3) clinically appropriate, Medication Assisted Treatment related services.
- One hundred percent (100%) of clients seeking services that enter care directly through the Contractors, who consent to information sharing with the Regional Doorway for Opioid Use Disorder services, receive a Doorway referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Contractors by the Regional Doorway for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Doorway and the Contractors.

As referenced in C-1, Revisions to Standard Contract Language of the original contracts for Elliot Hospital of the City of Manchester and Mary Hitchcock Memorial Hospital, and as referenced in Exhibit A, Revisions to Standard Agreement Provisions Language of the original contract with Concord Hospital - Laconia, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for nine (9) months of the one (1) year available.

Should the Governor and Executive Council not authorize this request, individuals with Opioid Use Disorder in need of Medication Assisted Treatment and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdoses during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek help for Opioid Use Disorder.

His Excellency, Governor Christopher T. Sununu

EXPLANATION

This request is **Retroactive** because there cannot be a lapse in services to clients. The State Opioid Response Grant funds anticipated to be available in State Fiscal Year 2020 were not yet appropriated in the operating budget and the Department did not receive the federal award letter for funding in time to submit this request prior to the current contracts expiring.

This purpose of this request is to allow the Contractor to continue providing comprehensive Medication Assisted Treatment to individuals with Substance Use Disorder by using FDA-approved medications. The Contractors ensure the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder.

Approximately 1,000 individuals with substance use disorder who are in need of medication assisted treatment will be served from September 30, 2020 to September 29, 2021.

The Department will monitor contracted services through monthly reports to ensure:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Contractors for Medication Assisted Treatment services receive at least three (3) clinically appropriate, Medication Assisted Treatment related services.
- One hundred percent (100%) of clients seeking services that enter care directly through the Contractors, who consent to information sharing with the Regional Doorway for Opioid Use Disorder services, receive a Doorway referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Contractors by the Regional Doorway for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Doorway and the Contractors.

As referenced in C-1, Revisions to Standard Contract Language of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) year of the two (2) years available.

Should the Governor and Executive Council not authorize this request, individuals with Opioid Use Disorder in need of Medication Assisted Treatment and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdose fatalities during the waiting period and/or reeducated motivation to seek help if it is unavailable to individuals when they are ready to seek assistance for Opioid Use Disorder.

Area served: Manchester, Nashua, Laconia, and Lebanon regions

Source of Funds: CFDA #93.788, FAIN #TI081685 and CFDA #93.788, FAIN #TI083326.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Deputy Commissioner

EXPLANATION

The purpose of this request is add-budgets to the contracts for State Fiscal Year 2021. In accordance with the terms of Exhibit B Method and Conditions Precedent to Payment, the budgets are to be submitted to Governor and Executive Council for approval no later than June 30, 2020. State Fiscal Year 2019 budgets are being reduced by a total amount of \$104,428, which is identified as unspent funding that is being carried forward to fund activities in the contract for State Fiscal Year 2021, specifically July 1, 2020 through September 29, 2020. The other two vendors not listed in bold have will not require a carry forward because the funding has been used for State Fiscal Year 2019.

Approximately 380 individuals will be served from July 1, 2020 to September 30, 2020. These contractors provide comprehensive Medication Assisted Treatment using FDA-approved medications for individuals with Opioid Use Disorder who require community-based services. These agreements also ensure the provision of services specifically designed for pregnant and postpartum women with OUD.

The Department has been monitoring the contracted services using the following performance measures:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Vendor for Medication Assisted Treatment services receive at least three (3) clinically-appropriate, MAT-related services.
- One hundred percent (100%) of clients seeking services under this proposed contract that enter care directly through the Vendor, who consent to information sharing with the Regional Hub for Opioid Use Disorder services, receive a Hub referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Vendor by the Regional Hub for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Hub and the Vendor.

As referenced in Exhibit C-1 Revisions to Standard Contract Language of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is not exercising its option to renew at this time.

Should the Governor and Council not authorize this request, the Department may not have the ability to ensure proper billing and proper use of funding by the vendors.

Area served: Integrated Delivery Network (IDN) Regions 1-5

Respectfully submitted,

Lori A. Shibanette
Commissioner

EXPLANATION

The purpose of this request is for the provision of comprehensive Medication Assisted Treatment (MAT) using FDA-approved medications for individuals with Opioid Use Disorder (OUD) who require community-based services. These agreements also ensure the provision of services specifically designed for pregnant and postpartum women with OUD. This is the fifth (5th) and final contract for these services to be brought forward to the Governor and Executive Council. The previous four (4) agreements were approved by the Governor and Executive Council on December 5, 2018 (Item #22).

These services are part of the State's accepted plan to the Substance Abuse and Mental Health Services Administration (SAMHSA) under the State Opioid Response (SOR) grant. This grant is being used to make critical investments in the substance use disorder system in order to reduce unmet treatment needs, reduce opioid overdose fatalities, and increase access to MAT over the next two (2) years.

The vendors will provide services to individuals with OUD in need of evidence-based MAT alongside necessary outpatient and wrap around services to support recovery. Vendors will provide MAT services to the general population as well as enhanced services for pregnant and postpartum women in need of additional supports to be successful in recovery including, but not limited to childcare, transportation and parenting education.

Unique to these services is a robust level of client-specific data that will be available, which will be collected in coordination with the nine (9) Regional Hubs that were approved by Governor and Executive Council at the October 31, 2018 meeting. The SOR grant requires

that all individuals served receive a comprehensive assessment at several time intervals, specifically at intake, three (3) months, six (6) months and upon discharge. Through collaborative agreements with the Vendors under these contracts, the Regional Hubs will be responsible for gathering data on client-related outcomes including, but not limited to recovery status, criminal justice involvement, employment, and housing needs at the time intervals listed above. This data will enable the Department to measure short and long-term outcomes associated with SOR-funded initiatives and to determine which programs are generating the best results for the clients served.

In addition to the client-level outcomes noted above, the following performance measures will be used to measure the effectiveness of the agreement:

- Fifty percent (50%) of individuals with OUD referred to the Vendor for MAT services receive at least three (3) clinically-appropriate, MAT-related services.
- One hundred percent (100%) of clients seeking services under this proposed contract that enter care directly through the Vendor, who consent to information sharing with the Regional Hub for OUD services, receive a Hub referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Vendor by the Regional Hub for OUD services have proper consents in place for transfer of information for the purposes of data collection between the Hub and the Vendor.

A Request for Proposals was posted on The Department of Health and Human Services' web site from September 5, 2018 through September 26, 2018. The Department received six (6) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The review included a thorough discussion of the strengths and weaknesses of the proposals/applications. The five (5) vendors listed in the Requested Action were selected. The Score Summary is attached.

As referenced in the Request for Proposals and in Exhibit C-1 of these contracts, these agreements have the option to extend for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2019, and the Department shall not be liable for any payments for services provided after June 30, 2019, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2020-2021 and SFY 2022-2023 biennia.

Should the Governor and Executive Council not authorize this request, individuals with OUD in need of MAT and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdose fatalities during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek assistance for OUD.

Area served: Integrated Delivery Network (IDN) Regions 1-5

Source of Funds: 100% Federal Funds from the Substance Abuse and Mental Health Services Administration, State Opioid Response Grant, (CFDA #93.788, FAIN T1081685)

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Katja S. Fox

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractor's costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

 - 8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Order of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

Report of Independent Auditors

To the Board of Trustees of
Dartmouth-Hitchcock Health and subsidiaries

We have audited the accompanying consolidated financial statements of Dartmouth-Hitchcock Health and its subsidiaries (the "Health System"), which comprise the consolidated balance sheets as of June 30, 2021 and 2020, and the related consolidated statements of operations and changes in net assets and of cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Health System's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Dartmouth-Hitchcock Health and its subsidiaries as of June 30, 2021 and 2020, and the results of their operations, changes in net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, changes in net assets and cash flows of the individual companies and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations, changes in net assets and cash flows of the individual companies.

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

1. Organization and Community Benefit Commitments

Dartmouth-Hitchcock Health (D-HH) serves as the sole corporate member of the following entities: Dartmouth-Hitchcock Clinic (DHC) and Subsidiaries, Mary Hitchcock Memorial Hospital (MHMH) and Subsidiaries, (DHC and MHMH together are referred to as D-H), The New London Hospital Association (NLH) and Subsidiaries, Windsor Hospital Corporation (d/b/a Mt. Ascutney Hospital and Health Center) (MAHHC) and Subsidiaries, Cheshire Medical Center (Cheshire) and Subsidiaries, Alice Peck Day Memorial Hospital (APD) and Subsidiary, and the Visiting Nurse and Hospice for Vermont and New Hampshire (VNH) and Subsidiaries. The "Health System" consists of D-HH, its members and their subsidiaries.

The Health System currently operates one tertiary, one community and three acute care (critical access) hospitals in New Hampshire (NH) and Vermont (VT). One facility provides inpatient and outpatient rehabilitation medicine and long-term care. The Health System also operates multiple physician practices, a continuing care retirement community, and a home health and hospice service. The Health System operates a graduate level program for health professions and is the principal teaching affiliate of the Geisel School of Medicine (Geisel), a component of Dartmouth College.

D-HH, DHC, MHMH, NLH, Cheshire, and APD are NH not-for-profit corporations exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC). MAHHC and VNH are VT not-for-profit corporations exempt from federal income taxes under Section 501(c)(3) of the IRC.

On September 30, 2019, D-HH and GraniteOne Health (GOH) entered into an agreement (The Combination Agreement) to combine their respective healthcare systems. The GOH system is comprised of Catholic Medical Center (CMC), an acute care community hospital in Manchester, New Hampshire, Huggins Hospital (HH) located in Wolfeboro, NH and Monadnock Community Hospital, (MCH) located in Peterborough, NH. Both HH and MCH are designated as Critical Access Hospitals (CAH). The three member hospitals of GOH have a combined licensed bed count of 380 beds. GOH is a non-profit, community based health care system. The overarching rationale for the proposed combination is to improve access to high quality primary and specialty care in the most convenient, cost-effective sites of service for patients and the communities served by D-HH and GOH. Other stated benefits of the combination include reinforcing the rural health network, investing in needed capacity to accommodate unmet and anticipated demand, and drawing on our combined strengths to attract the necessary health care workforce. The parties have submitted regulatory filings with the Federal Trade Commission and the New Hampshire Attorney General's office seeking approval of the proposed transaction. As of June 30, 2021, the proposed combination remains under regulatory review.

Community Benefits

The mission of the Health System is to advance health through clinical practice and community partnerships, research and education, providing each person the best care, in the right place, at the right time, every time.

Dartmouth-Hitchcock Health and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

Consistent with this mission, the Health System provides high quality, cost effective, comprehensive, and integrated healthcare to individuals, families, and the communities it serves regardless of a patient's ability to pay. The Health System actively supports community-based healthcare and promotes the coordination of services among healthcare providers and social services organizations. In addition, the Health System also seeks to work collaboratively with other area healthcare providers to improve the health status of the region. As a component of an integrated academic medical center, the Health System provides significant support for academic and research programs.

Certain member hospitals of the Health System file annual Community Benefits Reports with the State of NH which outline the community and charitable benefits each provides. VT hospitals are not required by law to file a state community benefit report. The categories used in the Community Benefit Reports to summarize these benefits are as follows:

- *Community Health Services* include activities carried out to improve community health and could include community health education (such as classes, programs, support groups, and materials that promote wellness and prevent illness), community-based clinical services (such as free clinics and health screenings), and healthcare support services (enrollment assistance in public programs, assistance in obtaining free or reduced costs medications, telephone information services, or transportation programs to enhance access to care, etc.).
- *Health Professions Education* includes uncompensated costs of training medical students, residents, nurses, and other health care professionals
- *Subsidized Health Services* are services provided by the Health System, resulting in financial losses that meet the needs of the community and would not otherwise be available unless the responsibility was assumed by the government.
- *Research Support and Other Grants* represent costs in excess of awards for numerous health research and service initiatives awarded to the organizations within the Health System.
- *Financial Contributions* include financial contributions of cash, as well as in-kind contributions such as time, supplies, and expertise to local organizations to address community health needs.
- *Community-Building Activities* include expenses incurred to support the development of programs and partnerships intended to address public health challenges as well as social and economic determinants of health. Examples include physical improvements and housing, economic development, support system enhancements, environmental improvements, leadership development and training for community members, community health improvement advocacy, and workforce enhancement.
- *Community Benefit Operations* includes costs associated with staff dedicated to administering benefit programs, community health needs assessment costs, and other costs associated with community benefit planning and operations.

Dartmouth-Hitchcock Health and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

- *Charity Care and Costs of Government Sponsored Health Care* includes losses, at-cost, incurred by providing health care services to persons qualifying for hospital financial assistance programs, and uncompensated costs of providing health care services to patients who are Medicaid Beneficiaries.
- *The Uncompensated Cost of Care for Medicaid patients* reported in the unaudited Community Benefits Reports for 2020 was approximately \$182,209,000. The 2021 Community Benefits Reports are expected to be filed in February 2022.

The following table summarizes the value of the community benefit initiatives outlined in the Health System's most recently filed Community Benefit Reports for the year ended June 30, 2021:

(in thousands of dollars)

Government-sponsored healthcare services	\$ 309,203
Health professional education	38,978
Charity care	17,441
Subsidized health services	17,341
Community health services	13,866
Research	7,064
Community building activities	4,391
Financial contributions	3,276
Community benefit operations	57
Total community benefit value	<u>\$ 411,617</u>

In fiscal years 2021 and 2020, funds received to offset or subsidize charity care costs provided were \$848,000 and \$1,224,000, respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and have been prepared consistent with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 954, *Healthcare Entities*, which addresses the accounting for healthcare entities. The net assets, revenue, expenses, and gains and losses of healthcare entities are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets without donor restrictions are amounts not subject to donor-imposed stipulations and are available for operations. Net assets with donor restrictions are those whose use has been limited by donors to a specific time period or purpose, or whose use has been restricted by donors to be maintained in perpetuity. All significant intercompany transactions have been eliminated upon consolidation.

Dartmouth-Hitchcock Health and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. The most significant areas that are affected by the use of estimates include implicit and explicit pricing concessions, valuation of certain investments, estimated third-party settlements, insurance reserves, and pension obligations. Actual results may differ from those estimates.

Excess (Deficiency) of Revenue over Expenses

The consolidated statements of operations and changes in net assets include the excess (deficiency) of revenue over expenses. Operating revenues consist of those items attributable to the care of patients, including contributions and investment income on investments of net assets without donor restrictions, which are utilized to provide charity and other operational support. Peripheral activities, including contribution of net assets without donor restrictions from acquisitions, loss on early extinguishment of debt, realized gains/losses on sales of investment securities and changes in unrealized gains/losses on investments are reported as non-operating gains (losses).

Changes in net assets without donor restrictions which are excluded from the excess (deficiency) of revenue over expenses, consistent with industry practice, include contributions of long-lived assets including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets, and change in funded status of pension and other postretirement benefit plans.

Charity Care

The Health System provides care to patients who meet certain criteria under their financial assistance policies without charge or at amounts less than their established rates. Because the Health System does not anticipate collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Health System grants credit without collateral to patients. Most are local residents and are insured under third-party arrangements. The amount of charges for implicit price concessions is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in federal and state governmental healthcare coverage, and other collection indicators (Notes 1 and 4).

Patient Service Revenue

The Health System applies the accounting provisions of ASC 606, *Revenue from Contracts with Customers* (ASC 606). Patient service revenue is reported at the amount of consideration to which the Health System expects to be entitled from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors and implicit pricing concessions. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as estimates change or final settlements are determined (Note 4).

Contracted Revenue

The Health System has various Professional Service Agreements (PSAs), pursuant to which certain organizations purchase services of personnel employed by the Health System and also lease space and equipment. Revenue pursuant to these PSAs and certain facility and equipment leases and other professional service contracts have been classified as contracted revenue in the accompanying consolidated statements of operations and changes in net assets.

Other Revenue

The Health System recognizes other revenue which is not related to patient medical care but is central to the day-to-day operations of the Health System. Other revenue primarily consists of revenue from retail pharmacy, which the Health System records as customer revenues in the amounts that reflect the consideration to which it expects to be entitled in exchange for the prescription. Other revenue also includes the Department of Health and Human Services ("HHS") Coronavirus Aid, Relief, and Economic Securities Act ("CARES Act" Provider Relief Funds ("Provider Relief Funds") operating agreements, grant revenue, cafeteria sales and other support service revenue (Note 3).

Cash Equivalents

Cash and cash equivalents include amounts on deposit with financial institutions; short-term investments with maturities of three months or less at the time of purchase and other highly liquid investments, primarily cash management funds, which would be considered level 1 investments under the fair value hierarchy. All short-term, highly liquid investments, otherwise qualifying as cash equivalents, included within the Health System's endowment and similar investment pools are classified as investments, at fair value and therefore are excluded from Cash and cash equivalents in the Statements of Cash Flows.

Investments and Investment Income

Investments in equity securities with readily determinable fair values, mutual funds, governmental securities, debt securities, and pooled/commingled funds are reported at fair value with changes in fair value included in the excess (deficiency) of revenues over expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 7).

Investments in pooled/commingled investment funds, private equity funds and hedge funds that represent investments where the Health System owns shares or units of funds rather than the underlying securities in that fund are valued using the equity method of accounting with changes in value recorded in the excess (deficiency) of revenue over expenses.

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

Certain members of the Health System are partners in a NH general partnership established for the purpose of operating a master investment program of pooled investment accounts. Substantially all of the Health System's board-designated and assets with donor restrictions, such as endowment funds, were invested in these pooled funds by purchasing units based on the market value of the pooled funds at the end of the month prior to receipt of any new additions to the funds. Interest, dividends, and realized and unrealized gains and losses earned on pooled funds are allocated monthly based on the weighted average units outstanding at the prior month-end.

Investment income or losses (including change in unrealized and realized gains and losses on investments, change in value of equity method investments, interest, and dividends) are included in the excess (deficiency) of revenue over expenses and classified as non-operating gains and losses, unless the income or loss is restricted by donor or law (Note 9).

Fair Value Measurement of Financial Instruments

The Health System estimates fair value based on a valuation framework that uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy, as defined by ASC 820, *Fair Value Measurements and Disclosures*, are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for assets or liabilities.
- Level 2 Prices other than quoted prices in active markets that are either directly or indirectly observable as of the date of measurement.
- Level 3 Prices or valuation techniques that are both significant to the fair value measurement and unobservable.

The carrying amounts of patient accounts receivable, prepaid and other current assets, accounts payable and accrued expenses approximate fair value due to the short maturity of these instruments.

Property, Plant, and Equipment

Property, plant, and equipment, and other real estate are stated at cost at the time of purchase or fair value at the time of donation, less accumulated depreciation. The Health System's policy is to capitalize expenditures for major improvements and to charge expense for maintenance and repair expenditures which do not extend the lives of the related assets. The provision for depreciation has been determined using the straight-line method at rates which are intended to amortize the cost of assets over their estimated useful lives which range from 10 to 40 years for buildings and improvements, 2 to 20 years for equipment, and the shorter of the lease term, or 5 to 12 years, for leasehold improvements. Certain software development costs are amortized using the straight-line method over a period of up to 10 years. Net interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

The fair value of a liability for legal obligations associated with asset retirements is recognized in the period in which it is incurred, if a reasonable estimate of the fair value of the obligation can be made. When a liability is initially recorded, the cost of the asset retirement obligation is capitalized by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period and the capitalized cost associated with the retirement is depreciated over the useful life of the related asset. Upon settlement of the obligation, any difference between the actual cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the consolidated statements of operations and changes in net assets.

Gifts of capital assets such as land, buildings, or equipment are reported as support, and excluded from the excess (deficiency) of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of capital assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire capital assets are reported as restricted support. Absent explicit donor stipulations about how long those capital assets must be maintained, expirations of donor restrictions are reported when the donated or acquired capital assets are placed in service.

Bond Issuance Costs

Bond issuance costs, classified on the consolidated balance sheets within long-term debt, are amortized over the term of the related bonds. Amortization is recorded within interest expense in the consolidated statements of operations and changes in net assets using the straight-line method which approximates the effective interest method.

Intangible Assets and Goodwill

The Health System records within other assets on the consolidated balance sheets goodwill and intangible assets such as trade names and leases-in-place. The Health System considers trade names and goodwill to be indefinite-lived assets, assesses them at least annually for impairment or more frequently if certain events or circumstances warrant and recognizes impairment charges for amounts by which the carrying values exceed their fair values. The Health System has recorded \$9,403,000 and \$10,007,000 as intangible assets associated with its affiliations as of June 30, 2021 and 2020, respectively.

Gifts

Gifts without donor restrictions are recorded net of related expenses as non-operating gains. Conditional promises to give and indications of intentions to give to the Health System are reported at fair value at the date the gift is received. Gifts are reported with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions.

Recently Issued Accounting Pronouncements

In August 2018, FASB issued ASU No. 2018-15, *Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a Service Contract*. This ASU aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software or software licenses. The ASU is effective for fiscal year 2022 and the Health System is evaluating the impact of the new guidance on the consolidated financial statements.

3. COVID – 19's Impact on Dartmouth-Hitchcock Health

Throughout the 18 months since New Hampshire's first COVID-19 patient presented at Dartmouth-Hitchcock Health's academic medical center campus in Lebanon, New Hampshire, the organization has responded to meet the needs of our patients, community and staff, transforming as necessary to resume operations. Personal Protective Equipment (PPE), which was critically short at the outset of the pandemic, is now readily available. D-HH'S academic medical center campus continues to serve as the referral site for the state's and region's most complex COVID cases.

There have been three primary points of clinical emphasis in responding to COVID-19: telehealth, laboratory medicine, and clinical trials throughout the past year and a half. The pace and volume of COVID-19 response lessened in this past quarter, as vaccination efforts and declining case counts in D-HH's service area have made a significant difference in the necessary clinical response. While demand for telehealth has seen an expected drop in utilization from the daily virtual encounters seen early in the pandemic, in December 2020, D-HH's Center for Telehealth launched a virtual Urgent Care service for beneficiaries of the D-H health plan. In April, it was expanded as a general consumer offering and we continue to provide telehealth services to, and create partnerships with, an expanding number of hospitals and health systems around the region.

The learned and lived experiences of the past 18 months have positioned D-HH well to continue its economic recovery as we have found the clinical balance between caring for COVID-19 patients while continuing to care for non-COVID cases.

Health and Human Services ("HHS") Provider Relief Funds

D-HH received \$65,600,000 and \$88,700,000 from the Provider Relief funds for the years ended June 30, 2021 and 2020, respectively. We will continue to pursue Provider Relief funds as available and required to provide support to D-HH.

Medicare and Medicaid Services ("CMS") expanded Accelerated and Advance Payment Program

D-HH received a total of \$272,600,000 of temporary funds received from the Cares Act in the form of CMS prepayment advances of \$239,500,000 and accumulated payroll tax deferrals of \$33,100,000. In October 2020, new regulations were issued to revise the recoupment start date from August 2020 to April 2021.

HHS Reporting Requirements for the CARES Act

In June 2021, HHS issued new reporting requirements for the CARES Act Provider Relief Funding. The new requirements first require Hospitals to identify healthcare-related expenses attributable to the COVID-19 pandemic that remain unreimbursed by another source. If those expenses do not exceed the Provider Relief funding received, Hospitals will need to demonstrate that the remaining Provider Relief funds were used to compensate for a negative variance in patient service revenue. HHS is entitled to recoup Provider Relief Funding in excess of the sum of expenses attributable to the COVID-19 pandemic that remain unreimbursed by another source and the decline in patient care revenue. Due to these new reporting requirements there is at least a reasonable possibility that amounts recorded under the CARES Act Provider Relief fund by the Health System may change in future periods.

4. Net Patient Service Revenue and Accounts Receivable

The Health System reports net patient service revenue at amounts that reflect the consideration to which it expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payers (including managed care payers and government programs), and others; and they include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Health System bills patients and third-party payers several days after the services were performed or shortly after discharge. Revenue is recognized as performance obligations are satisfied under contracts by providing healthcare services to patients.

The Health System determines performance obligations based on the nature of the services provided. Revenues for performance obligations satisfied over time are recognized based on actual charges incurred in relation to total expected charges as this method provides a reasonable estimate of the transfer of services over the term of performance obligations based on inputs needed to satisfy the obligations. Generally, performance obligations satisfied over time relate to patients receiving inpatient acute care services. For inpatient services, performance obligations are measured from admission to the point when there are no further services required for the patient, which is generally the time of discharge. For outpatient services and physician services, performance obligations are recognized at a point in time when the services are provided and no further patient services are deemed necessary.

Generally, the Health System's patient service performance obligations relate to contracts with a duration of less than one year, therefore the Health System has elected to apply the optional exemption provided in ASC 606-10-50-14a and, therefore, we are not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. This generally refers to inpatient services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

Established charges represent gross charges. They are not the same as actual pricing, and they generally do not reflect what a hospital is ultimately entitled to for services it provides. Therefore, they are not displayed in the Health System's consolidated statements of operations and changes in net assets.

Hospitals are paid amounts negotiated with insurance companies or set by government entities, which are typically less than established or standard charges. Gross charges are used to calculate Medicare outlier payments and to determine certain elements of payment under managed care contracts. Gross charges are what hospitals charge all patients prior to the application of contractual adjustments and implicit price concessions.

Explicit Pricing Concessions

Revenues for the Health System under the traditional fee-for service Medicare and Medicaid programs are based on prospectively determined rates per discharge or visit, reasonable (allowable) cost, or prospective rates per episodic period, depending on the type of provider.

- Inpatient acute care services provided to Medicare program beneficiaries are paid using the prospective payment system ("PPS") to determine rates-per-discharge. These rates vary according to a patient classification system ("DRG"), based on diagnostic, clinical and other factors. In addition, inpatient capital costs (depreciation and interest) are reimbursed by Medicare on the basis of a prospectively determined rate per discharge. Medicare outpatient services are paid on a prospective payment system, based on a pre-determined amount for each outpatient procedure (APC), subject to various mandated modifications. Retrospectively determined cost-based revenues under these programs, such as indirect medical education, direct graduate medical education, disproportionate share hospital, transplant services, and bad debt reimbursement are based on the hospital's cost reports and are estimated using historical trends and current factors. The Health System's payments for inpatient services rendered to New Hampshire ("NH") and Vermont ("VT") Medicaid beneficiaries are based on PPS, while outpatient services are reimbursed on a retrospective cost basis or fee schedules for NH beneficiaries. VT outpatient beneficiaries are paid on a prospective basis per outpatient procedure.
- Inpatient acute, swing, and outpatient services furnished by CAH are reimbursed by Medicare at 101% of reasonable costs, subject to 2% sequestration, excluding ambulance services and inpatient hospice care.
- Providers of home health services to patients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the patient at a rate determined by federal guidelines.
- Hospice services to patients eligible for Medicare hospice benefits are paid on a per diem basis, with no retrospective settlement, provided the aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate.

- The Health System's cost based services to Medicare and Medicaid are reimbursed during the year based on varying interim payment methodologies. Final settlement is determined after the submission of an annual cost report and subject to audit of this report by Medicare and Medicaid auditors, as well as administrative and judicial review. Because the laws, regulations, and rule interpretations, governing Medicare and Medicaid reimbursement are complex and change frequently, the estimates recorded could change over time by material amounts.
- Revenues under Managed Care Plans (Plans) consist primarily of payment terms involving mutually agreed upon rates per diagnosis, discounted fee-for service rates, or similar contractual arrangements. These revenues are also subject to review and possible audit. The Plans are billed for patient services on an individual patient basis. An individual patient's bill is subject to adjustments in accordance with contractual terms in place with the Plans following their review and adjudication of each bill.

The Health System is not aware of any claims, disputes, or unsettled matters with any payer that would materially affect its revenues for which it has not adequately provided in the accompanying Health System's consolidated financial statements.

The Health System provides charity care to patients who are unable to pay for healthcare services they receive as determined by financial conditions. Patients who qualify receive partial or full adjustments to charges for services rendered. The Health System's policy is to treat amounts qualified as charity care as explicit price concessions and as such are not reported in net patient service revenue.

Vermont imposes a provider tax on home health agencies in the amount of 4.25% of annual net patient revenue. In fiscal years 2021 and 2020, home health provider taxes paid were \$623,000 and \$624,000, respectively.

Medicaid Enhancement Tax & Disproportionate Share Hospital

On May 22, 2018, the State of New Hampshire and all New Hampshire hospitals (Hospitals) agreed to resolve disputed issues and enter into a seven-year agreement to stabilize Disproportionate Share Hospital (DSH) payments, with provisions for alternative payments in the event of legislative changes to the DSH program. Under the agreement, the State committed to make DSH payments to the Hospitals in an amount no less than 86% of the Medicaid Enhancement Tax (MET) proceeds collected in each fiscal year, in addition to providing for directed payments or increased rates for Hospitals in an amount equal to 5% of MET proceeds collected from state fiscal year (SFY) 2020 through SFY 2024. The agreement prioritizes DSH payments to critical access hospitals in an amount equal to 75% of allowable uncompensated care (UCC), with the remainder distributed to Hospitals without critical access designation in proportion to their allowable UCC amounts.

During the years ended June 30, 2021 and 2020, the Health System received DSH payments of approximately, \$67,940,000 and \$71,133,000 respectively. DSH payments are subject to audit and therefore, for the years ended June 30, 2021 and 2020, the Health System recognized as revenue DSH receipts of approximately \$61,602,000 and approximately \$67,500,000, respectively.

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

During the years ended June 30, 2021 and 2020, the Health System recorded State of NH MET and State of VT Provider taxes of \$72,941,000 and \$76,010,000, respectively. The taxes are calculated at 5.4% for NH and 6% for VT of certain patient service revenues. The Provider taxes are included in operating expenses in the consolidated statements of operations and changes in net assets.

Implicit Price Concessions

Generally, patients who are covered by third-party payer contracts are responsible for related co-pays, co-insurance and deductibles, which vary depending on the contractual obligations of patients. The Health System also provides services to uninsured patients and offers those patients a discount from standard charges. The Health System estimates the transaction price for patients with co-pays, co-insurance, and deductibles and for those who are uninsured based on historical collection experience and current market conditions. The discount offered to uninsured patients reduces the transaction price at the time of billing. The uninsured and patient responsible accounts, net of discounts recorded, are further reduced through implicit price concessions based on historical collection trends for similar accounts and other known factors that impact the estimation process. Subsequent changes to the estimate of transaction price are generally recorded as adjustments to net patient services revenue in the period of change.

The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amounts the Health System expects to collect based on collection history with similar patients. Although outcomes vary, the Health System's policy is to attempt to collect amounts due from patients, including co-pays, co-insurance and deductibles due from insurance at the time of service while complying with all federal and state statutes and regulations, including but not limited to, the Emergency Medical Treatment and Active Labor Act (EMTALA). Through various systems and processes the Health System estimates Medicare and Medicaid net patient service revenue and cost report settlements and accrues final expected settlements. For filed cost reports, the accrual is recorded based on those filings, subsequent activity, and on historical trends and other relevant evidence. For periods in which a cost report is yet to be filed, accruals are based on estimates of what is expected to be reported, and any trends and relevant evidence. Cost reports generally must be filed within five months of the closing period.

Settlements with third-party payers for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care using the most likely amount. These settlements are estimated based on the terms of the payment agreement with the payer, correspondence from the payer and historical settlement activity, including assessments to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known, or as years are settled or are no longer subject to such audits, reviews or investigations. As of June 30, 2021 and 2020, the Health System had reserves of \$252,543,000 and \$302,525,000, respectively, recorded in Estimated third-party settlements. As of June 30, 2021 and 2020, Estimated third-party settlements includes \$179,382,000 and \$239,500,000, respectively, of Medicare accelerated and advanced payments, received as working capital support during COVID-19 outbreak. As of June 30, 2021 and 2020, Other liabilities include \$43,612,000 and \$10,900,000, respectively.

June 30, 2021 and 2020

For the years ended June 30, 2021 and 2020, additional increases in revenue of \$4,287,000 and \$2,314,000, respectively, were recognized due to changes in estimates of implicit price concessions for performance obligations satisfied in prior years.

Net operating revenues for the hospital operations of the PPS and CAH, and other business segments consist primarily of patient service revenues, principally for patients covered by Medicare, Medicaid, managed care and other health plans as well as patients covered under the Health System's uninsured discount and charity care programs.

Investments are accounted for using either the fair value method or equity method of accounting, as appropriate on a case by case basis. The fair value method is used for all debt securities and equity securities that are traded on active markets and are valued at prices that are readily available in those markets. The equity method is used when investments are made in pooled/commingled investment funds that represent investments where shares or units are owned of pooled funds rather than the underlying securities in that fund. These pooled/commingled funds make underlying investments in securities from the asset classes listed above.

The following tables summarize the investments by the accounting method utilized, as of June 30, 2021 and 2020. Accounting standards require disclosure of additional information for those securities accounted for using the fair value method, as shown in Note 7.

7. Fair Value Measurements

The following is a description of the valuation methodologies for assets and liabilities measured at fair value on a recurring basis:

Cash and Short-Term Investments

Consists of money market funds and are valued at net asset value (NAV) reported by the financial institution and cash which will be used for future investment opportunities.

Domestic, Emerging Markets and International Equities

Consists of actively traded equity securities and mutual funds which are valued at the closing price reported on an active market on which the individual securities are traded (Level 1 measurements).

U.S. Government Securities, Domestic Corporate and Global Debt Securities

Consists of U.S. government securities, domestic corporate and global debt securities, mutual funds and pooled/commingled funds that invest in U.S. government securities, domestic corporate and global debt securities. Securities are valued based on quoted market prices or dealer quotes where available (Level 1 measurement). If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments or, if necessary, matrix pricing from a third party pricing vendor to determine fair value (Level 2 measurements). Matrix prices are based on quoted prices for securities with similar coupons, ratings and maturities, rather than on specific bids and offers for a designated security. Investments in mutual funds are measured based on the quoted NAV as of the close of business in the respective active market (Level 1 measurements).

Hedge Funds

Consists of publicly traded, daily-pricing mutual funds that use long/short trading strategies (Level 1 measurements).

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Health System believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income earned on donor restricted net assets held in perpetuity is available for these purposes.

9. Board Designated and Endowment Funds

Net assets include numerous funds established for a variety of purposes including both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Trustees has interpreted the NH and VT Uniform Prudent Management of Institutional Funds Acts (UPMIFA or Act) for donor-restricted endowment funds as requiring the preservation of the original value of gifts, as of the gift date, to donor-restricted endowment funds, absent explicit donor stipulations to the contrary. The Health System's net assets with donor restrictions which are to be held in perpetuity consist of (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to be held in perpetuity, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund, if any. Collectively these amounts are referred to as the historic dollar value of the fund.

Dartmouth-Hitchcock Health and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

Net assets without donor restrictions include funds designated by the Board of Trustees to function as endowments, the income from certain donor-restricted endowment funds, and any accumulated investment return thereon, which pursuant to donor intent may be expended based on trustee or management designation. Net assets with donor restrictions that are temporary in nature, either restricted by time or purpose, include funds appropriated for expenditure pursuant to endowment and investment spending policies, certain expendable endowment gifts from donors, and any retained income and appreciation on donor-restricted endowment funds, which are restricted by the donor to a specific purpose or by law. When the restrictions on these funds have been met, the funds are reclassified to net assets without donor restrictions.

In accordance with the Act, the Health System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: the duration and preservation of the fund; the purposes of the donor-restricted endowment fund; general economic conditions; the possible effect of inflation and deflation; the expected total return from income and the appreciation of investments; other resources available; and investment policies.

The Health System has endowment investment and spending policies that attempt to provide a predictable stream of funding for programs supported by its endowment while ensuring that the purchasing power does not decline over time. The Health System targets a diversified asset allocation that places emphasis on investments in domestic and international equities, fixed income, private equity, and hedge fund strategies to achieve its long-term return objectives within prudent risk constraints. The Health System's Investment Committee reviews the policy portfolio asset allocations, exposures, and risk profile on an ongoing basis.

The Health System, as a policy, may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes, and duration for which the endowment is established, subject to donor intent expressed in the gift instrument and the standard of prudence prescribed by the Act.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below their original contributed value. Such market losses were not material as of June 30, 2021 and 2020.

Endowment net asset composition by type of fund consists of the following at June 30, 2021 and 2020:

<i>(in thousands of dollars)</i>	2021		Total

All of the defined benefit plans within the Health System have been frozen and therefore there are no remaining participants earning benefits in any of the Health System's defined benefit plans.

The Health System continued to execute the settlement of obligations due to retirees in the defined benefit plans through bulk lump sum offerings or purchases of annuity contracts. The annuity purchases follow guidelines established by the Department of Labor (DOL). The Health System anticipates continued consideration and/or implementation of additional settlements over the next several years.

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

The accumulated benefit obligation for the defined benefit pension plans was approximately \$1,140,000,000 and \$1,209,000,000 at June 30, 2021 and 2020, respectively.

The following table sets forth the assumptions used to determine the benefit obligation at June 30, 2021 and 2020:

	2021	2020
Discount rate	3.30%	3.00% - 3.10%
Rate of increase in compensation	N/A	N/A

The primary investment objective for the Plan's assets is to support the Pension liabilities of the Pension Plans for Employees of the Health System, by providing long-term capital appreciation and by also using a Liability Driven Investing ("LDI") strategy to partially hedge the impact fluctuating interest rates have on the value of the Plan's liabilities. As of June 30, 2021, it is expected that the LDI strategy will hedge approximately 75% of the interest rate risk associated with pension liabilities. As of June 30, 2020, the expected LDI hedge was approximately 60%. To achieve the appreciation and hedging objectives, the Plans utilize a diversified structure of asset classes designed to achieve stated performance objectives measured on a total return basis, which includes income plus realized and unrealized gains and losses.

The range of target allocation percentages and the target allocations for the various investments are as follows:

	Range of Target Allocations	Target Allocations
Cash and short-term investments	0-5%	3%
U.S. government securities	0-10	5
Domestic debt securities	20-58	42
Global debt securities	6-26	4
Domestic equities	5-35	17
International equities	5-15	7
Emerging market equities	3-13	4
Global Equities	0-10	6
Real estate investment trust funds	0-5	1
Private equity funds	0-5	0
Hedge funds	5-18	11

To the extent an asset class falls outside of its target range on a quarterly basis, the Health System shall determine appropriate steps, as it deems necessary, to rebalance the asset class.

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

The Boards of Trustees of the Health System, as Plan Sponsors, oversee the design, structure, and prudent professional management of the Health System's Plans' assets, in accordance with Board approved investment policies, roles, responsibilities and authorities and more specifically the following:

- Establishing and modifying asset class targets with Board approved policy ranges,
- Approving the asset class rebalancing procedures,
- Hiring and terminating investment managers, and
- Monitoring performance of the investment managers, custodians and investment consultants.

The hierarchy and inputs to valuation techniques to measure fair value of the Plans' assets are the same as outlined in Note 7. In addition, the estimation of fair value of investments in private equity and hedge funds for which the underlying securities do not have a readily determinable value is made using the NAV per share or its equivalent as a practical expedient. The Health System's Plans own interests in both private equity and hedge funds rather than in securities underlying each fund and, therefore, the Health System generally considers such investments as Level 3, even though the underlying securities may not be difficult to value or may be readily marketable.

The following table sets forth the Health System's Plans' investments and deferred compensation plan assets that were accounted for at fair value as of June 30, 2021 and 2020:

12. Professional and General Liability Insurance Coverage

D-H, along with Dartmouth College, CMC, NLH, APD, MAHHC, and VNH are provided professional and general liability insurance on a claims-made basis through Hamden Assurance Risk Retention Group, Inc. (RRG), a VT captive insurance company. Effective November 1, 2018 APD is provided professional and general liability insurance coverage through RRG. RRG reinsures the majority of this risk to Hamden Assurance Company Limited (HAC), a captive insurance company domiciled in Bermuda and to a variety of commercial reinsurers. D-H and Dartmouth College have ownership interests in both HAC and RRG. The insurance program provides coverage to the covered institutions and named insureds on a modified claims-made basis which means coverage is triggered when claims are made. Premiums and related insurance deposits are actuarially determined based on asserted liability claims adjusted for future development. The reserves for outstanding losses are recorded on an undiscounted basis.

Selected financial data of HAC and RRG, taken from the latest available financial statements at June 30, 2021 and 2020, are summarized as follows:

13. Commitments and Contingencies

Litigation

The Health System is involved in various malpractice claims and legal proceedings of a nature considered normal to its business. The claims are in various stages and some may ultimately be brought to trial. While it is not feasible to predict or determine the outcome of any of these claims, it is the opinion of management that the final outcome of these claims will not have a material effect on the consolidated financial position of the Health System.

Dartmouth-Hitchcock Health and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

Lines of Credit

The Health System has entered into Loan Agreements with financial institutions establishing access to revolving loans ranging from \$10,000,000 up to \$30,000,000. Interest is variable and determined using LIBOR or the Wall Street Journal Prime Rate. The Loan Agreements are due to expire March 30, 2022. There was no outstanding balance under the lines of credit as of June 30, 2021 and 2020. Interest expense was approximately \$28,000 and \$20,000, respectively, and is included in the consolidated statements of operations and changes in net assets.

14. Functional Expenses

Operating expenses are presented by functional classification in accordance with the overall service missions of the Health System. Each functional classification displays all expenses related to the underlying operations by natural classification. Salaries, employee benefits, medical supplies and medications, and purchased services and other expenses are generally considered variable and are allocated to the mission that best aligns to the type of service provided. Medicaid enhancement tax is allocated to program services. Interest expense is allocated based on usage of debt-financed space. Depreciation and amortization is allocated based on square footage and specific identification of equipment used by department.

Operating expenses of the Health System by functional and natural basis are as follows for the year ended June 30, 2021:

In addition, the Health System's liquidity management plan includes investing excess daily cash in intermediate or long term investments based on anticipated liquidity needs. The Health System has an available line of credit of up to \$30,000,000 which it can draw upon as needed to meet its liquidity needs. See Note 13 for further details on the line of credit.

16. Lease Commitments

D-HH determines if an arrangement is or contains a lease at inception of the contract. Right-of-use assets represent our right to use the underlying assets for the lease term and our lease liabilities represent our obligation to make lease payments arising from the leases. Right-of-use assets and lease liabilities are recognized at commencement date based on the present value of lease payments over the lease term. We use the implicit rate noted within the contract. If not readily available, we use our estimated incremental borrowing rate, which is derived using a collateralized borrowing rate for the same currency and term as the associated lease. A right-of-use asset and lease liability is not recognized for leases with an initial term of 12 months or less and we recognize lease expense for these leases on a straight-line basis over the lease term within lease and rental expense.

Dartmouth-Hitchcock Health and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2021 and 2020

Our operating leases are primarily for real estate, including certain acute care facilities, off-campus outpatient facilities, medical office buildings, and corporate and other administrative offices. Our real estate lease agreements typically have initial terms of 5 to 10 years. These real estate leases may include one or more options to renew, with renewals that can extend the lease term from 2 to 5 years. The exercise of lease renewal options is at our sole discretion. When determining the lease term, we included options to extend or terminate the lease when it is reasonably certain that we will exercise that option.

Certain lease agreements for real estate include payments based on actual common area maintenance expenses and/or rental payments adjusted periodically for inflation. These variable lease payments are recognized in other occupancy costs in the consolidated statements of operations and changes in net assets but are not included in the right-of-use asset or liability balances in our consolidated balance sheets. Lease agreements do not contain any material residual value guarantees, restrictions or covenants.

The components of lease expense for the year ended June 30, 2021 and 2020 are as follows:

<i>(in thousands of dollars)</i>	2021	2020
Operating lease cost	10,381	8,992

Personal Statement

I joined Dartmouth-Hitchcock as the Director of Addiction Services in the Department of Psychiatry in November 2018 and am the medical director of the Dartmouth-Hitchcock Addiction Treatment Program (ATP). Our services include an Intensive Outpatient Program (IOP), medical visits for hundreds of individuals with Opioid Use Disorder (OUD), and a Perinatal Addiction Treatment Program (PATP), and it is the site of the regional hub for the New Hampshire State Opioid Response (SOR) Doorway project. Previously, I worked in the NYU School of Medicine, serving as the Director of the Addiction Division in the Department of Psychiatry at Bellevue Hospital. In that role, I oversaw three clinical programs: the Opioid Treatment Program (OTP), the Chemical Dependency Outpatient Program (CDOP), and the inpatient detoxification and stabilization unit.

Thus far at Dartmouth-Hitchcock, my principal work has focused on expanding and refining the Addiction Treatment Program, including developing The Doorway at Dartmouth-Hitchcock and overseeing significant growth in the number of individuals served at ATP. We were recently selected as a site for a large research study (CTN-0100) aimed at measuring factors of treatment engagement and medication discontinuation strategies for individuals with OUD.

Skills & Abilities

LEADERSHIP

- While at the Patient Service Center within DHMC, I was a Team Lead for General Internal Medicine. I collaborated with the Practice Manager, Associate Practice Manager, and Administrative Supervisor and Master Scheduler and/or the immediate supervisor and other Team Leads to ensure the PSC ran smoothly and had all the up-to-date information regarding the GIM projects, schedules and providers. I am currently working within the Pain Management Clinic at APD as their primary clinical secretary resource. I collaborate with our three Pain Management Providers to ensure that clinic days run smoothly, while also collaborating with the other Clinical Support Representatives to ensure that they have the up-to-date information regarding providers and their schedules.

COMMUNICATION

- While I was the Patient Service Center's acting Team Lead for General Internal Medicine at DHMC, I attended frequent meetings on behalf of my team at the Patient Service Center. During these meetings I acted as the voice for the PSC, regarding my General Internal Medicine team, and communicated to the Practice Manager, Associate Practice Manager, and Administrative Supervisor, Master Scheduler and/or our immediate supervisor and other Team Leads any thoughts and questions the PSC may have had. Following these meetings I would communicate any received feedback to the PSC. Now working at APD, I attend meetings with the Practice Director, Administrative Supervisors, Administrative Surgical Scheduler and my fellow Clinical Support Representatives and communicate day-to-day information and feedback from providers, colleagues and patients. I have also been chosen to represent myself and my colleagues at APD's Safety Meetings.

TEAMWORK

- Since I was young teamwork has been a part of my life, from school projects or school sports to now in the working field. While working at the Patient Service Center, all of the individuals within the PSC, helped to achieve our goals, such as filling schedules, confirming appointments or following up on

patient records, as a team. Although I was the Team Lead for GIM, and worked on my own individual projects, I still worked collaboratively alongside my peers to create efficient work, as well as to cover anyone who was out ill or for an approved vacation day. This remains true while working at APD, as I take on different projects; along with help cover many different positions, including check-in, check-out, training and lab registration.

ADAPATABILITY

- The only constant is change. I am always open to new ideas and am ready to change and adapt as need be, to make sure things run smoothly in and out of the work place.

EXPLANATION

The purpose of this request is for the Contractors to continue providing comprehensive Medication Assisted Treatment to individuals with Substance Use Disorder by using FDA-approved medications while ensuring the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder.

Approximately 1,000 individuals will be served during State Fiscal Year 2022.

The Department will monitor contracted services through monthly reports to ensure:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Contractors for Medication Assisted Treatment services receive at least three (3) clinically appropriate, Medication Assisted Treatment related services.
- One hundred percent (100%) of clients seeking services that enter care directly through the Contractors, who consent to information sharing with the Regional Doorway for Opioid Use Disorder services, receive a Doorway referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Contractors by the Regional Doorway for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Doorway and the Contractors.

As referenced in C-1, Revisions to Standard Contract Language of the original contracts for Elliot Hospital of the City of Manchester and Mary Hitchcock Memorial Hospital, and as referenced in Exhibit A, Revisions to Standard Agreement Provisions Language of the original contract with Concord Hospital - Laconia, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for nine (9) months of the one (1) year available.

Should the Governor and Executive Council not authorize this request, individuals with Opioid Use Disorder in need of Medication Assisted Treatment and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdoses during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek help for Opioid Use Disorder.

EXPLANATION

This request is **Retroactive** because there cannot be a lapse in services to clients. The State Opioid Response Grant funds anticipated to be available in State Fiscal Year 2020 were not yet appropriated in the operating budget and the Department did not receive the federal award letter for funding in time to submit this request prior to the current contracts expiring.

This purpose of this request is to allow the Contractor to continue providing comprehensive Medication Assisted Treatment to individuals with Substance Use Disorder by using FDA-approved medications. The Contractors ensure the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder.

Approximately 1,000 individuals with substance use disorder who are in need of medication assisted treatment will be served from September 30, 2020 to September 29, 2021.

The Department will monitor contracted services through monthly reports to ensure:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Contractors for Medication Assisted Treatment services receive at least three (3) clinically appropriate, Medication Assisted Treatment related services.
- One hundred percent (100%) of clients seeking services that enter care directly through the Contractors, who consent to information sharing with the Regional Doorway for Opioid Use Disorder services, receive a Doorway referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Contractors by the Regional Doorway for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Doorway and the Contractors.

As referenced in C-1, Revisions to Standard Contract Language of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) year of the two (2) years available.

Should the Governor and Executive Council not authorize this request, individuals with Opioid Use Disorder in need of Medication Assisted Treatment and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdose fatalities during the waiting period and/or reeducated motivation to seek help if it is unavailable to individuals when they are ready to seek assistance for Opioid Use Disorder.

Area served: Manchester, Nashua, Laconia, and Lebanon regions

The purpose of this request is add budgets to the contracts for State Fiscal Year 2021. In accordance with the terms of Exhibit B Method and Conditions Precedent to Payment, the budgets are to be submitted to Governor and Executive Council for approval no later than June 30, 2020. State Fiscal Year 2019 budgets are being reduced by a total amount of \$104,428, which is identified as unspent funding that is being carried forward to fund activities in the contract for State Fiscal Year 2021, specifically July 1, 2020 through September 29, 2020. The other two vendors not listed in bold have will not require a carry forward because the funding has been used for State Fiscal Year 2019.

Approximately 380 individuals will be served from July 1, 2020 to September 30, 2020. These contractors provide comprehensive Medication Assisted Treatment using FDA-approved medications for individuals with Opioid Use Disorder who require community-based services. These agreements also ensure the provision of services specifically designed for pregnant and postpartum women with OUD.

The Department has been monitoring the contracted services using the following performance measures:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Vendor for Medication Assisted Treatment services receive at least three (3) clinically-appropriate, MAT-related services.
- One hundred percent (100%) of clients seeking services under this proposed contract that enter care directly through the Vendor, who consent to information sharing with the Regional Hub for Opioid Use Disorder services, receive a Hub referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Vendor by the Regional Hub for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Hub and the Vendor.

As referenced in Exhibit C-1 Revisions to Standard Contract Language of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is not exercising its option to renew at this time.

Should the Governor and Council not authorize this request, the Department may not have the ability to ensure proper billing and proper use of funding by the vendors.

EXPLANATION

The purpose of this request is for the provision of comprehensive Medication Assisted Treatment (MAT) using FDA-approved medications for individuals with Opioid Use Disorder (OUD) who require community-based services. These agreements also ensure the provision of services specifically designed for pregnant and postpartum women with OUD. There is an additional agreement that will be put forth at a later date.

These services are part of the State's accepted plan to the Substance Abuse and Mental Health Services Administration (SAMHSA) under the State Opioid Response (SOR) grant. This grant is being used to make critical investments in the substance use disorder system in order to reduce unmet treatment needs, reduce opioid overdose fatalities, and increase access to MAT over the next two (2) years.

The vendors will provide services to individuals with OUD in need of evidence-based MAT alongside necessary outpatient and wrap around services to support recovery. Vendors will provide MAT services to the general population as well as enhanced services for pregnant and postpartum women in need of additional supports to be successful in recovery including, but not limited to childcare, transportation and parenting education.

Unique to these services is a robust level of client-specific data that will be available, which will be collected in coordination with the nine (9) Regional Hubs that were approved by Governor and Executive Council at the October 31, 2018 meeting. The SOR grant requires that all individuals served receive a comprehensive assessment at several time intervals, specifically at intake, three (3) months, six (6) months and upon discharge. Through collaborative agreements with the Vendors under these contracts, the Regional Hubs will be responsible for gathering data on client-related outcomes including, but not limited to recovery status, criminal justice involvement, employment, and housing needs at the time intervals listed

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 4

above. This data will enable the Department to measure short and long-term outcomes associated with SOR-funded initiatives and to determine which programs are generating the best results for the clients served.

In addition to the client-level outcomes noted above, the following performance measures will be used to measure the effectiveness of the agreement:

- Fifty percent (50%) of individuals with OUD referred to the Vendor for MAT services receive at least three (3) clinically-appropriate, MAT-related services.
- One hundred percent (100%) of clients seeking services under this proposed contract that enter care directly through the Vendor, who consent to information sharing with the Regional Hub for OUD services, receive a Hub referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Vendor by the Regional Hub for OUD services have proper consents in place for transfer of information for the purposes of data collection between the Hub and the Vendor.

A Request for Proposals was posted on The Department of Health and Human Services' web site from September 5, 2018 through September 26, 2018. The Department received six (6) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. The review included a thorough discussion of the strengths and weaknesses of the proposals/applications. The four (4) vendors listed in the Requested Action as well as Elliot Hospital who will be submitted at a later date were selected. The Score Summary is attached.

As referenced in the Request for Proposals and in Exhibit C-1 of these contracts, these agreements have the option to extend for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2019, and the Department shall not be liable for any payments for services provided after June 30, 2019, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the SFY 2020-2021 and SFY 2022-2023 biennia.

Should the Governor and Executive Council not authorize this request, individuals with OUD in need of MAT and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdose fatalities during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek assistance for OUD.

This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. - 19.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function
- 19.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate
- 19.3. Monitor the subcontractor's performance on an ongoing basis

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
Concord Hospital, Inc.

We have audited the accompanying consolidated financial statements of Concord Hospital, Inc. and Subsidiaries (the System), which comprise the consolidated balance sheets as of September 30, 2021 and 2020, the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Board of Trustees
Concord Hospital, Inc.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the System as of September 30, 2021 and 2020, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1. Description of Organization and Summary of Significant Accounting Policies

Organization

Concord Hospital, Inc., (the Hospital) located in Concord, New Hampshire, is a not-for-profit acute care hospital. The Hospital provides inpatient, outpatient, emergency care and physician services for residents within its geographic region. Admitting physicians are primarily practitioners in the local area. The Hospital is controlled by Capital Region Health Care Corporation (CRHC).

In 1985, the then Concord Hospital underwent a corporate reorganization in which it was renamed and became CRHC. At the same time, the Hospital was formed as a new entity. All assets and liabilities of the former hospital, now CRHC, with the exception of its endowments and restricted funds, were conveyed to the new entity. The endowments were held by CRHC for the benefit of the Hospital, which is the true party in interest. Effective October 1, 1999, CRHC transferred these funds to the Hospital.

In March 2009, the Hospital created The Concord Hospital Trust (the Trust), a separately incorporated, not-for-profit organization to serve as the Hospital's philanthropic arm. In establishing the Trust, the Hospital transferred philanthropic funds with donor restrictions, including board designated funds, endowments, indigent care funds and specific purpose funds, to the newly formed organization together with the stewardship responsibility to direct monies available to support the Hospital's charitable mission and reflect the specific intentions of the donors who made these gifts.

During 2021, the Hospital completed several acquisitions as described in Note 3.

Subsidiaries of the Hospital, including those acquired in 2021, are as follows:

Capital Region Health Care Development Corporation (CRHCDC) is a not-for-profit real estate corporation that owns and operates medical office buildings and other properties.

Capital Region Health Ventures Corporation (CRHVC) is a not-for-profit corporation that engages in health care delivery partnerships and joint ventures. It operates ambulatory surgery and diagnostic facilities independently and in cooperation with other entities.

NH Cares ACO, LLC (NHC) is a single member limited liability company that engages in providing medical services to Medicare beneficiaries as an accountable care organization. NHC has a perpetual life and is subject to termination in certain events.

Concord Hospital – Laconia (CH-Laconia) is a not-for-profit corporation formed to operate a licensed hospital providing inpatient, outpatient, emergency care and physician services for residents within its geographic region of Laconia, New Hampshire. The CH-Laconia facility includes 137 acute care beds and was designated a Rural Referral Center in 1986, and a Sole Community Hospital in 2009. Admitting physicians are primarily practitioners in the local area. CH-Laconia is controlled by the Hospital, and was acquired by the Hospital in 2021. See Note 3.

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Concord Hospital – Franklin (CH-Franklin) is a not-for-profit corporation formed to operate a licensed hospital providing inpatient, outpatient, emergency care and physician services for residents within its geographic region of Franklin, New Hampshire. The CH-Franklin facility was designated a Critical Access Hospital effective July 1, 2004, and includes 25 acute care beds. CH-Franklin also operates a 10 bed designated psychiatric receiving facility. Admitting physicians are primarily practitioners in the local area. CH-Franklin is controlled by the Hospital, and was acquired by the Hospital in 2021. See Note 3.

Granite Shield Insurance Exchange and Subsidiaries (GSIE) was formed on December 20, 2010, in the State of Vermont as an industrial insured reciprocal insurance entity and unincorporated association. GSIE commenced underwriting activities on January 1, 2011. GSIE was formed to provide healthcare professional liability, general liability and medical stop loss insurance to its subscribers through GSI Services, LLC (GSI), the attorney-in-fact. GSI was formed in the State of Vermont as a limited liability company on December 14, 2010, and acts as an agent to enable the subscribers of GSIE to exchange insurance contracts. Through December 31, 2020, GSI was equally controlled by each of the subscribers of GSIE, all of which were health systems located in the State of New Hampshire, inclusive of the Hospital. Effective January 1, 2021, as further described in Note 3, the Hospital became the sole voting member of GSIE, resulting in all activity of GSIE for the period January 1, 2021 to September 30, 2021 being recorded within the accompanying consolidated financial statements. See also Note 3.

Concord Endoscopy Center, LLC (CEC) is a New Hampshire limited liability company that engages in providing gastrointestinal services, including the diagnosis and treatment of digestive and liver diseases. CEC has a perpetual life, is subject to termination in certain events, and was acquired by the Hospital in 2021 as further described in Note 3.

The Hospital, its subsidiaries and the Trust are collectively referred to as the System. The consolidated financial statements include the accounts of the Hospital, the Trust, CRHCDC, CRHVC, NHC, CH-Laconia, CH-Franklin, GSIE and CEC. All significant intercompany balances and transactions have been eliminated in consolidation. The Hospital, the Trust, CH-Laconia and CH-Franklin constitute the Obligated Group at September 30, 2021 (the Hospital and Trust constituted the Obligated Group at September 30, 2020) to certain debt described in Note 7.

Principles of Consolidation

Noncontrolling interests in less-than-wholly-owned consolidated subsidiaries of the System are presented as a component of total net assets to distinguish between the interests of the System and the interests of the noncontrolling owners. Revenues, expenses and nonoperating income from these subsidiaries are included in the consolidated amounts presented on the consolidated statements of operations. Excess of revenues and nonoperating income over expenses attributable to the System separately presents the amounts attributable to the controlling interest.

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Noncontrolling Interests

Noncontrolling interests represent the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. The System's accompanying consolidated financial statements include all assets, liabilities, revenues and expenses at their consolidated amounts, which include the amounts attributable to the System and the noncontrolling interest. The System recognizes as a separate component of net assets and earnings the portion of income or loss attributable to noncontrolling interests based on the portion of the entity not owned by the System.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments which subject the System to credit risk consist primarily of cash equivalents, accounts receivable and investments. The risk with respect to cash equivalents is minimized by the System's policy of investing in financial instruments with short-term maturities issued by highly rated financial institutions. The System's accounts receivable are primarily due from third-party payors and amounts are presented net of expected explicit and implicit price concessions, including estimated implicit price concessions from uninsured patients. The System's investment portfolio consists of diversified investments, which are subject to market risk. The System's investment in one fund, the Vanguard Institutional Index Fund, exceeded 10% of total System investments as of September 30, 2021 and 2020.

Cash and Cash Equivalents

Cash and cash equivalents include money market funds with original maturities of three months or less, excluding assets whose use is limited or restricted. The System maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The System has not experienced any losses on such accounts.

Supplies

Supplies are carried at the lower of cost, determined on a weighted-average method, or net realizable value.

Assets Whose Use is Limited or Restricted

Assets whose use is limited or restricted include assets held by trustees for insurance reserves, escrows, construction funds, designated assets set aside by the Board of Trustees (over which the Board retains control and may, at its discretion, subsequently use for other purposes), and donor-restricted investments.

Investments and Investment Income

Investments are carried at fair value in the accompanying consolidated balance sheets. Investment income (including realized gains and losses on investments, interest and dividends) and the net change in unrealized gains and losses on investments are included in the excess of revenues and nonoperating income over expenses in the accompanying consolidated statements of operations, unless the income or loss is restricted by donor or law.

Beneficial Interest in Perpetual Trusts

The System has an irrevocable right to receive income earned on certain trust assets established for its benefit. Distributions received by the System are without donor restrictions. The System's interest in the fair value of the trust assets is included in assets whose use is limited or restricted and as net assets with donor restrictions. Changes in the fair value of beneficial trust assets are reported as increases or decreases to net assets with donor restrictions.

Investment Policies

The System's investment policies provide guidance for the prudent and skillful management of invested assets with the objective of preserving capital and maximizing returns. The invested assets include endowment, specific purpose and board designated funds.

Endowment funds are identified as perpetual in nature, intended to provide support for current or future operations and other purposes identified by the donor. These funds are managed with disciplined longer-term investment objectives and strategies designed to accommodate relevant, reasonable, or probable events.

Specific purpose funds are temporary in nature, restricted as to time or purpose as identified by the donor or grantor. These funds have various intermediate/long-term time horizons associated with specific identified spending objectives.

Board designated funds have various intermediate/long-term time horizons associated with specific spending objectives as determined by the Board of Trustees.

Management of these assets is designed to increase, with minimum risk, the inflation adjusted principal and income of the endowment funds over the long term. The System targets a diversified asset allocation that places emphasis on achieving its long-term return objectives within prudent risk constraints.

Spending Policy for Appropriation of Assets for Expenditure

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2021 and 2020
(In thousands)

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Spending policies may be adopted by the System, from time to time, to provide a stream of funding for the support of key programs. The spending policies are structured in a manner to ensure that the purchasing power of the assets is maintained while providing the desired level of annual funding to the programs. The System has a current spending policy on various funds currently equivalent to 5% of twelve-quarter moving average of the funds' total market value.

Accounts Receivable

Patient accounts receivable for which the unconditional right to payment exists are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. Accounts receivable at September 30, 2021 and 2020 reflect the fact that any estimated uncollectible amounts are generally considered implicit price concessions that are a direct reduction to accounts receivable rather than allowance for doubtful accounts. At September 30, 2021 and 2020, estimated implicit price concessions of \$24,643 and \$14,119, respectively, had been recorded as reductions to accounts receivable balances to enable the System to record revenues and accounts receivable at the estimated amounts expected to be collected.

Property and Equipment

Property and equipment is stated at cost at time of purchase, or at fair value at time of donation for assets contributed, less any reductions in carrying value for impairment and less accumulated depreciation. The System's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the lives of the related assets. Depreciation is computed using the straight-line method in a manner intended to amortize the cost of the related assets over their estimated useful lives. For the years ended September 30, 2021 and 2020, depreciation expense was \$27,207 and \$24,355, respectively.

The System has also capitalized certain costs associated with property and equipment not yet in service. Construction in progress includes amounts incurred related to major construction projects, other renovations, and other capital equipment purchased but not yet placed in service. During 2021 and 2020, the System capitalized \$200 and \$1,953, respectively, of interest expense relating to various construction projects.

Gifts of long-lived assets such as land, buildings or equipment are reported as support without donor restrictions, and are excluded from the excess of revenues and nonoperating income over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as support with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Intangible Assets

The System reviews its intangible and other long-lived assets annually to determine whether the carrying amount of such assets is impaired. Upon determination that an impairment has occurred, these assets are reduced to fair value. There were no impairments recorded for the years ended September 30, 2021 or 2020. See also Note 3.

Federal Grant Revenue and Expenditures

Revenues and expenses under federal grant programs are recognized as the grant expenditures are incurred.

Bond Issuance Costs/Original Issue Discount or Premium

Bond issuance costs incurred to obtain financing for construction and renovation projects and the original issue discount or premium are amortized to interest expense using the straight-line method, which approximates the effective interest method, over the life of the respective bonds. The original issue discount or premium and bond issuance costs are presented as a component of bonds payable.

Charity Care

The System provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates (Note 12). Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The System uses an industry standard approach in calculating the costs associated with providing charity care. Funds received from gifts and grants to subsidize charity services provided for the years ended September 30, 2021 and 2020 were approximately \$132 and \$246, respectively.

Net Assets With Donor Restrictions

Gifts are reported as restricted support if they are received with donor stipulations that limit the use of donated assets. Donated investments, supplies and equipment are reported at fair value at the date of receipt. Unconditional promises to give cash and other assets are reported at fair value at the date of receipt of the promise. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified as net assets without donor restrictions and reported in the statement of operations as either net assets released from restrictions for operations (for noncapital related items) or as net assets released from restrictions used for purchases of property and equipment (capital related items). Some net assets with donor restrictions have been restricted by donors to be maintained by the System in perpetuity.

Patient Service Revenue

Revenues generally relate to contracts with patients in which the System's performance obligations are to provide health care services to patients. Revenues are recorded during the period obligations to provide health care services are satisfied. Performance obligations for inpatient services are generally satisfied over a period of days. Performance obligations for outpatient services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payor (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by Medicare and Medicaid or negotiated with managed care health plans and commercial insurance companies, the third-party payors. The payment arrangements with third-party payors for the services provided to related patients typically specify payments at amounts less than standard charges. Medicare generally pays for inpatient and outpatient services at prospectively determined rates based on clinical, diagnostic and other factors. Services provided to patients having Medicaid coverage are generally paid at prospectively determined rates per discharge, per identified service or per covered member. Agreements with commercial insurance carriers, managed care and preferred provider organizations generally provide for payments based upon predetermined rates per diagnosis, per diem rates or discounted fee-for-service rates. Management continually reviews the revenue recognition process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

The collection of outstanding receivables for Medicare, Medicaid, managed care payers, other third-party payors and patients is the System's primary source of cash and is critical to its operating performance. The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance carrier has paid the amounts covered by the applicable agreement, but patient responsibility amounts (deductibles and copayments) remain outstanding. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. Accounts are written off when all reasonable internal and external collection efforts have been performed. The estimates for implicit price concessions are based upon management's assessment of historical write-offs and expected net collections, business and economic conditions, trends in federal, state and private employer health care coverage and other collection indicators. Management relies on the results of detailed reviews of historical write-offs and collections at facilities that represent a majority of hospital revenues and accounts receivable (the "hindsight analysis") as a primary source of information in estimating the collectability of accounts receivable. Management performs the hindsight analysis regularly, utilizing rolling twelve-months accounts receivable collection and write-off data. Management believes its regular updates to the estimated implicit price concession amounts provide reasonable estimates of revenues and valuations of accounts receivable. These routine, regular changes in estimates have not resulted in material adjustments to the valuations of accounts receivable or period-to-period comparisons of operations.

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

The System receives payment for other Medicaid outpatient services on a reasonable cost basis which are settled with retroactive adjustments upon completion and audit of related cost finding reports. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenues in the year that such amounts become known. For the years ended September 30, 2021 and 2020, patient service revenue in the accompanying consolidated statements of operations increased by approximately \$4,800 and \$3,400, respectively, due to actual settlements and changes in assumptions underlying estimated future third-party settlements.

Revenues from the Medicare and Medicaid programs accounted for approximately 38% and 6% and 35% and 4% of the System's patient service revenue for the years ended September 30, 2021 and 2020, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation.

Excess of Revenues and Nonoperating Income Over Expenses

The System has deemed all activities as ongoing, major or central to the provision of health care services and, accordingly, they are reported as operating revenue and expenses, except for contributions and pledges without donor restrictions, the related philanthropy expenses and investment income which are recorded as nonoperating income.

The consolidated statements of operations also include excess of revenues and nonoperating income over expenses. Changes in net assets without donor restrictions which are excluded from excess of revenues and nonoperating income over expenses, consistent with industry practice, include the permanent transfers of assets to and from affiliates for other than goods and services, pension liability adjustments and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Estimated Workers' Compensation, Malpractice and Health Care Claims

The provision for estimated workers' compensation, malpractice and health care claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

Functional Expense Allocation

The costs of providing program services and other activities have been summarized on a functional basis in Note 11. Accordingly, costs have been allocated among program services and supporting services benefitted.

Income Taxes

The Hospital, CH-Laconia, CH-Franklin, CRHCDC, CRHVC, and the Trust are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code, and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. NHC is organized as a single member limited liability company and has elected to be treated as a disregarded entity for federal and state income tax reporting purposes. Accordingly, all income or losses and applicable tax credits are reported on the member's income tax returns, with the exception of taxes due to the State of New Hampshire. Management evaluated the System's tax positions and concluded the System has maintained its tax-exempt status, does not have any significant unrelated business income and had taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements. GSIE, NHC and CEC account for income taxes in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, *Income Taxes*. FASB ASC 740 is an asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the tax and financial reporting basis of certain assets and liabilities. Resulting income tax expense and the temporary differences between the tax and financial reporting basis are not material.

Advertising Costs

The System expenses advertising costs as incurred, and such costs totaled approximately \$168 and \$181 for the years ended September 30, 2021 and 2020, respectively.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update (ASU) No. 2016-02, *Leases (Topic 842)* (ASU 2016-02). Under ASU 2016-02, at the commencement of a long-term lease, lessees will recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. ASU 2016-02 is effective for the System on October 1, 2022. Lessees (for capital and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. The System is currently evaluating the impact of the pending adoption of ASU 2016-02 on the System's consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). The amendments in this ASU modify the disclosure requirements for fair value measurements for Level 3 assets and liabilities, and eliminate the requirement to disclose transfers between Levels 1 and 2 of the fair value hierarchy, among other modifications. ASU 2018-13 was effective for the System on October 1, 2020. The adoption of ASU 2018-13 did not have a material impact on these consolidated financial statements.

In August 2018, FASB issued ASU No. 2018-14, *Compensation – Retirement Benefits – Defined Benefit Plans – General (Topic 715)* (ASU 2018-14). Under ASU 2018-14, the disclosure requirements for employers that sponsor defined benefit pension and other postretirement plans are modified. ASU 2018-14 is effective for the System on October 1, 2022, with early adoption permitted. The System will apply the amendments on a retrospective basis to all periods presented.

In September 2020, the FASB issued ASU No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. ASU 2020-07 enhances the presentation of disclosure requirements for contributed nonfinancial assets. ASU 2020-07 requires entities to present contributed nonfinancial assets as a separate line item in the statement of operations and disclose the amount of contributed nonfinancial assets recognized within the statement of operations by category that depicts the type of contributed nonfinancial assets, as well as a description of any donor-imposed restrictions associated with the contributed nonfinancial assets and the valuation techniques used to arrive at a fair value measure at initial recognition. ASU 2020-07 is effective for the System beginning October 1, 2021, with early adoption permitted. The System is currently evaluating the impact of the pending adoption of ASU 2020-07 on its financial statements.

Risks and Uncertainties

On March 11, 2020, the World Health Organization declared the outbreak of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has significantly affected employees, patients, systems, communities and business operations, as well as the U.S. economy and financial markets. Consolidated patient volumes and revenues experienced gradual improvement beginning in the latter part of April 2020, and continuing through fiscal year 2021, however uncertainty still exists as the future is unpredictable. The System's pandemic response plan has multiple facets and evolves as conditions warrant. The System has taken precautionary steps to enhance its operational and financial flexibility, and react to the risks the COVID-19 pandemic presents in its operations, including the following:

- Implemented certain cost reduction initiatives;
- Increased the availability on its revolving line of credit from \$10,000 to \$40,000 (Note 7);
- Elected to defer payments on employer payroll tax incurred through December 31, 2020 as provided for under the *Coronavirus Aid, Relief, and Economic Security Act* ("CARES Act");
- Since the declaration of the pandemic, the System received \$57,885 of accelerated Medicare payments (Note 6) and \$29,468 in general and targeted Provider Relief Fund distributions, both as provided for under the CARES Act.

1. Description of Organization and Summary of Significant Accounting Policies (Continued)

During the third quarter of fiscal 2020, the System was awarded \$9,539 from the \$50 billion general distribution fund and \$19,929 of targeted distributions from the CARES Act Provider Relief Fund. These distributions from the Provider Relief Fund are not subject to repayment, provided the System is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for healthcare-related expenses or lost revenue attributable to COVID-19. Such payments are accounted for as government grants, and are recognized on a systematic and rational basis as other income once there is reasonable assurance that the applicable terms and conditions required to retain the funds will be met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the impact of the pandemic on operating results through September 30, 2020, the System recognized \$29,468 related to these general distribution funds, and these payments are recorded within other revenue in the consolidated statements of operations for the year ended September 30, 2020.

The CARES Act also provides for a deferral of payments of the employer portion of payroll tax incurred during the pandemic, allowing half of such payroll taxes to be deferred until December 2021, and the remaining half until December 2022. At September 30, 2021 and 2020, the System had deferred \$8,866 and \$6,051, respectively, of payroll taxes recorded, of which \$4,433 and \$6,051, respectively, are included within accrued pension and other long-term liabilities in the accompanying consolidated balance sheet. As of September 30, 2021, \$4,433 of deferred payroll taxes are recorded within accrued compensation and related expenses on the accompanying consolidated balance sheet.

The System received funding from the Federal Emergency Management Agency (FEMA) for pandemic related expenses of \$6,706 during 2021, of which \$4,206 was recorded within other revenue on the accompanying consolidated statements of operations. In addition, \$476 of funding was received from the State of New Hampshire.

Reclassifications

Certain 2020 amounts have been reclassified to permit comparison with the 2021 consolidated financial statements presentation format.

Subsequent Events

Management of the System evaluated events occurring between the end of the System's fiscal year and December 17, 2021, the date the consolidated financial statements were available to be issued.

2. Transactions With Affiliates

The System provides funds to CRHC and its affiliates which are used for a variety of purposes. The System records the transfer of funds to CRHC and the other affiliates as either receivables or directly against net assets, depending on the intended use and repayment requirements of the funds. Generally, funds transferred for start-up costs of new ventures or capital related expenditures are recorded as charges against net assets. For the years ended September 30, 2021 and 2020, transfers made to CRHC were \$(171) and \$(457), respectively, and transfers received from Capital Region Health Services Corporation (CRHSC) were \$156 and \$312, respectively.

2. Transactions With Affiliates (Continued)

Amounts due the System, primarily from joint ventures, totaled \$1,646 and \$744 at September 30, 2021 and 2020, respectively. Amounts have been classified as current or long-term depending on the intentions of the parties involved. Beginning in 1999, the Hospital began charging interest on a portion of the receivables (\$615 and \$654 at September 30, 2021 and 2020, respectively) with principal and interest (6.75% at September 30, 2021) payments due monthly. Interest income amounted to \$29 and \$46 for the years ended September 30, 2021 and 2020, respectively.

A brief description of CRHC's affiliated entities is as follows:

- CRHSC is a for-profit provider of health care services, including an eye surgery center and assisted living facility.
- Granite VNA (formerly Concord Regional Visiting Nurse Association, Inc. and Subsidiary) provides home health care services.
- Riverbend Community Mental Health, Inc. provides behavioral health services.

Contributions to affiliates and other community organizations from net assets with donor restrictions were \$222 and \$210 in 2021 and 2020, respectively.

3. Business Acquisitions and Intangible Assets**LRGHealthcare**

On October 19, 2020, the Hospital entered into an asset purchase agreement (the Agreement) with LRGHealthcare (the Seller) to acquire certain assets and assume certain liabilities of Lakes Region General Hospital in Laconia, New Hampshire, and Franklin Regional Hospital in Franklin, New Hampshire. Upon execution of the Agreement, the Seller filed a voluntary case under Chapter 11 of the United States bankruptcy code. As a result, the Agreement was subject to bankruptcy proceedings, including a formal bid process and auction, as well as subsequent regulatory approvals. The Hospital's bid was accepted and approved by the State of New Hampshire during 2021. The transaction was completed effective May 1, 2021 for total consideration paid of \$23,476.

The purchase price was allocated to tangible and identifiable intangible assets acquired based on their estimated fair values at the acquisition date, as summarized below:

As a result of this transaction, CRHVC holds a majority interest and control of CEC, and is therefore required to consolidate CEC as of the acquisition date. The total consideration paid of \$3,485, net of cash acquired of \$88, was comprised entirely of cash. 5. Retirement Plans

The System has a noncontributory defined benefit pension plan (the Concord Hospital Plan) covering all eligible employees of the System and subsidiaries, excluding employees of CH-Laconia and CH-Franklin. As a result of the acquisition of certain assets and liabilities of LRGHealthcare effective May 1, 2021 as discussed in Note 3, the System assumed and became the plan sponsor for LRGHealthcare's defined benefit plan, which covers all eligible employees of CH-Laconia and CH-Franklin (the CH-Laconia and CH-Franklin Plan). The Concord Hospital Plan and CH-Laconia and CH-Franklin Plan provide benefits based on an employee's years of service, age and the employee's compensation over those years. The System's funding policy for the plans is to contribute annually the amount needed to meet or exceed actuarially determined minimum funding requirements of the *Employee Retirement Income Security Act of 1974* (ERISA).

Certain funds also may include a fee estimated to be equal to the cost the fund incurs in converting investments to cash (ranging from 0.5% to 1.5%), limit the percent of the investment that can be redeemed each redemption period, or are subject to certain lock periods.

The System considers various factors in estimating the expected long-term rate of return on plan assets. Among the factors considered include the historical long-term returns on plan assets, the current and expected allocation of plan assets, input from the System's actuaries and investment consultants, and long-term inflation assumptions. The System's expected allocation of plan assets is based on a diversified portfolio consisting of domestic and international equity securities, fixed income securities, and real estate.

5. Retirement Plans (Continued)

The System's investment policy for its pension plans is to balance risk and returns using a diversified portfolio consisting primarily of high quality equity and fixed income securities. To accomplish this goal, plan assets are actively managed by outside investment managers with the objective of optimizing long-term return while maintaining a high standard of portfolio quality and proper diversification. The System monitors the maturities of fixed income securities so that there is sufficient liquidity to meet current benefit payment obligations. The System's Investment Committee provides oversight of the plan investments and the performance of the investment managers.

5. Retirement Plans (Continued)

In selecting the long-term rate of return on plan assets, the System considered the average rate of earnings expected on the funds invested or to be invested to provide for the benefits of the plans. This included considering the plans' asset allocation and the expected returns likely to be earned over the life of the plans, as well as the historical returns on the types of assets held and the current economic environment.

The loss and prior service credit amount expected to be recognized in net periodic benefit cost in 2022 are as follows:

	<u>Concord Hospital Plan</u>	<u>CH-Laconia and CH-Franklin Plan</u>
Actuarial loss	\$ 10,149	\$ —
Prior service credit	<u>(243)</u>	<u>—</u>
	<u>\$ 9,906</u>	<u>\$ —</u>

The System funds the pension plans and no contributions are made by employees. The System funds the plans annually by making a contribution of at least the minimum amount required by applicable regulations and as recommended by the System's actuary. However, the System may also fund the plans in excess of the minimum required amount.

Cash contributions in subsequent years will depend on a number of factors including performance of plan assets. However, the System expects to fund \$16,000 in cash contributions to the Concord Hospital Plan for the 2022 plan year. There are no contributions expected to the CH-Laconia and CH-Franklin Plan in 2022.

Benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

6. Estimated Third-Party Payor Settlements

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare

Inpatient and outpatient services rendered to Medicare program beneficiaries are primarily paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical diagnosis and other factors. In addition to this, the System is also reimbursed for medical education and other items which require cost settlement and retrospective review by the fiscal intermediary. Accordingly, the System files an annual cost report with the Medicare program after the completion of each fiscal year to report activity applicable to the Medicare program and to determine any final settlements.

The physician practices are reimbursed on a fee schedule basis.

Medicaid Enhancement Tax and Disproportionate Share Payment

Under the State of New Hampshire's (the State) tax code, the State imposes a Medicaid Enhancement Tax (MET) equal to 5.40% of net patient service revenues in State fiscal years 2021 and 2020. The amount of tax incurred by the System for 2021 and 2020 was \$26,631 and \$22,572, respectively.

In the fall of 2010, in order to remain in compliance with stated federal regulations, the State of New Hampshire adopted a new approach related to Medicaid disproportionate share funding (DSH) retroactive to July 1, 2010. Unlike the former funding method, the State's approach led to a payment that was not directly based on, and did not equate to, the level of tax imposed. As a result, the legislation created some level of losses at certain New Hampshire hospitals, while other hospitals realized gains. DSH payments from the State are recorded within revenue without donor restrictions and other support and amounted to \$26,545 in 2021 and \$18,202 in 2020, net of reserves referenced below.

The Centers for Medicare and Medicaid Services (CMS) has completed audits of the State's program and the disproportionate share payments made by the State from 2011 to 2017, the first years that those payments reflected the amount of uncompensated care provided by New Hampshire hospitals. It is possible that subsequent years will also be audited by CMS. The System has recorded reserves to address its potential exposure based on the audit results to date or any future redistributions.

Medicaid

Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under fee schedules and cost reimbursement methodologies subject to various limitations or discounts. The System is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the System and audits thereof by the Medicaid program.

The physician practices are reimbursed on a fee schedule basis.

6. Estimated Third-Party Payor Settlements (Continued)

Other

The System has also entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, fee schedules, and prospectively determined rates.

The accrual for estimated third-party payor settlements reflected on the accompanying consolidated balance sheets represents the estimated net amounts to be paid under reimbursement contracts with the Centers for Medicare and Medicaid Services (Medicare), the New Hampshire Department of Welfare (Medicaid) and any commercial payors with settlement provision. Settlements for the Hospital have been finalized through 2016 for Medicare and Medicaid. Settlements for CH-Laconia have been finalized through 2018 for Medicare and 2017 for Medicaid. Settlements for CH-Franklin have been finalized through 2017 for Medicare and 2016 for Medicaid.

During fiscal year 2020, the System requested accelerated Medicare payments as provided for in the CARES Act, which allows for eligible health care facilities to request up to six months of advance Medicare payments for acute care hospitals or up to three months of advance Medicare payments for other health care providers. One year from the date of receipt of the advance payments (beginning April 2021) 25% of the advances will be recouped in the first eleven months. An additional 25% of the advances will be recouped in the next six months, with the entire amount repayable in 29 months. Any outstanding balance after 29 months is repayable at a 4% interest rate. During the third quarter of fiscal 2020, the System received \$57,885 from these accelerated Medicare payment requests. At September 30, 2021 and 2020, the current portion due within a year, totaling \$41,036 and \$7,893, respectively, is recorded under the caption "accrual for estimated third-party payors" and the long-term portion as of September 30, 2020, totaling \$49,992, in the caption "accrued pension and other long-term liabilities" in the accompanying consolidated balance sheets. There is no long-term portion as of September 30, 2021.

7. Long-Term Debt and Revolving Line of Credit

Revolving Line of Credit

In November 2019, the Hospital entered into a \$10,000 revolving line of credit agreement with a bank. In June 2020, the Hospital increased the availability on the line of credit to \$40,000. Any amounts outstanding under the agreement bear interest at the per annum London Interbank Offered Rate (LIBOR) plus 1.85%. In the event LIBOR is discontinued while the agreement remains in place, a replacement rate will be assigned, as determined by the bank. The line of credit was secured by substantially all business assets. No amounts were outstanding under this revolving line of credit at September 30, 2020. The line of credit expired in June 2021 and was not renewed.

7. Long-Term Debt and Revolving Line of Credit (Continued)

In June 2021, \$51,498 (including an original issue premium of \$7,728) of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2021A, were issued to assist in funding capital and facility projects, and to refund the Series 2013B NHHEFA Hospital Revenue Bonds.

In March 2020, the Hospital entered into a \$12,520 note payable agreement (2020A note) with a lender to advance refund \$11,780 of the Series 2011 NHHEFA Hospital Revenue Bonds. As a result of the advance refunding, the unamortized bond issuance costs and original issue discount related to the bonds refunded were included in loss on extinguishment of debt and totaled \$520 for the year ended September 30, 2020. As of September 30, 2021, \$11,780 of the Series 2011 advance refunded bonds, which are considered extinguished for purposes of these consolidated financial statements, remain outstanding. In conjunction with the issuance of the 2020A note, in order to further reduce debt service obligations, the Hospital, NHHEFA and the lender entered into a forward purchase agreement. Under the forward purchase agreement, the Hospital has the option to request NHHEFA to issue tax-exempt revenue bonds on or after July 3, 2021 to refinance the 2020A note. The Hospital exercised this option on July 6, 2021, which resulted in the interest rate decreasing from 1.93% to 1.57%.

In March 2020, the Hospital entered into a \$36,582 note payable agreement (2020B note) with a lender to advance refund the Series 2013A NHHEFA Hospital Revenue Bonds. As a result of the bond refinancing, the unamortized bond issuance costs and original issue premium related to the Series 2013A NHHEFA Hospital Revenue Bonds were included in loss on extinguishment of debt and totaled \$711 for the year ended September 30, 2020. As of September 30, 2021, \$33,785 of the Series 2013A advance refunded bonds, which are considered extinguished for purposes of these consolidated financial statements, remain outstanding. In conjunction with the issuance of the 2020B note, in order to further reduce debt service obligations, the Hospital, NHHEFA and the lender entered into a forward purchase agreement. Under the forward purchase agreement, the Hospital has the option to request NHHEFA to issue tax-exempt revenue bonds on or after July 3, 2022 to refinance the 2020B note.

In December 2017, \$62,004 (including an original issue premium of \$7,794) of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2017, were issued to pay for the construction of a new medical office building. In addition, the Series 2017 Bonds reimbursed the Hospital for capital expenditures incurred in association with the construction of a parking garage and the construction of a medical office building, as well as routine capital expenditures.

In February 2013, \$48,631 (including an original issue premium of \$3,631) of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2013A, were issued to assist in the funding of a significant facility improvement project and to advance refund the Series 2001 NHHEFA Hospital Revenue Bonds. The facility improvement project included enhancements to the System's power plant, renovation of certain nursing units, expansion of the parking capacity at the main campus and various other routine capital expenditures and miscellaneous construction, renovation and improvements of the System's facilities.

In March 2011, \$49,795 of NHHEFA Revenue Bonds, Concord Hospital Issue, Series 2011, were issued to assist in the funding of a significant facility improvement project and pay off the Series 1996 Revenue Bonds. 7. Long-Term Debt and Notes Payable (Continued)

Substantially all the property and equipment relating to the aforementioned construction and renovation projects, as well as subsequent property and equipment additions thereto, are pledged as collateral for all outstanding long-term debt. In addition, the gross receipts of the Hospital, CH-Laconia and CH-Franklin are also pledged as collateral for all outstanding long-term debt. CH-Laconia and CH-Franklin also pledge gross receipts as collateral for the outstanding Series 2021A Revenue Bonds. The most restrictive financial covenants require a 1.10 to 1.0 ratio of aggregate income available for debt service to total annual debt service and a day's cash on hand ratio of 75 days. The System was in compliance with its debt covenants at September 30, 2021 and 2020.

The obligations of the Hospital under the 2020A and B notes, Series 2021A, Series 2017, Series 2013A and B and Series 2011 Revenue Bond Indentures are guaranteed by the Hospital, CH-Laconia and CH-Franklin and are not guaranteed by any of the subsidiaries or affiliated entities.

8. Commitments and Contingencies

Malpractice Loss Contingencies

Effective February 1, 2011, the System insures its medical malpractice risks through GSIE, a multiprovider captive insurance company. Prior to December 31, 2020, the System accounted for its investment in GSIE under the equity method, as control of the captive was shared equally between the other participating entities. The System recorded its interest in the captive's equity, totaling approximately \$5,509 at September 30, 2020, in other noncurrent assets on the accompanying 2020 consolidated balance sheets. As discussed in Note 3, effective December 31, 2020, the System gained control of GSIE, which requires GSIE to be consolidated in the consolidated financial statements as of September 30, 2021. The results from the acquisition date through September 30, 2021 are included in the accompanying 2021 consolidated financial statements.

8. Commitments and Contingencies (Continued)

GSIE provides claims-made medical stop loss coverage to its subscriber health systems. Subsequent to December 31, 2020, the System is the sole remaining subscriber. GSIE purchases reinsurance from three reinsurers to limit potential exposure to the System. The reinsurance policies in place are subject to renewal on January 1, 2022, and, after the System's primary retained layer of \$2 million per occurrence and \$12 million aggregate, cover up to \$25 million per occurrence and aggregate per annum. The failure of reinsurers to honor their obligations could result in additional losses to GSIE, and those losses could be significant to GSIE and the System.

The reserve for unpaid losses and loss adjustment expenses and the related reinsurance recoverables includes case basis estimates of reported losses, plus supplemental reserves for incurred but not reported losses (IBNR) calculated based upon loss projections utilizing historical and industry data. An independent consulting actuary is involved in establishing this reserve and the related reinsurance recoverables. Management of the System believes that GSIE's aggregate reserve for unpaid losses and loss adjustment expenses and related reinsurance recoverables at year-end represent its best estimate, based on the available data, of the amount necessary to cover the ultimate cost of losses; however, because of the nature of the insured risks and limited historical experience, actual loss experience may not conform to the assumptions used in determining the estimated amounts for such liability and corresponding asset at the consolidated balance sheet date. Accordingly, the ultimate liability and corresponding asset could be significantly in excess of or less than the amount indicated in these consolidated financial statements. As adjustments to these estimates become necessary, such adjustments are reflected in current year operations. Amounts recoverable from reinsurers have been reduced to their net realizable value.

At September 30, 2021, there were no known malpractice claims outstanding for the System, which, in the opinion of management will be settled for amounts in excess of insurance coverage, nor were there any unasserted claims or incidents which require loss accruals. The System has established reserves for unpaid claim amounts for Hospital and Physician Professional Liability and General Liability reported claims and for unreported claims for incidents that have been incurred but not reported. The amounts of the reserves total \$22,303 and \$4,081 at September 30, 2021 and 2020, respectively and are reflected in the accompanying consolidated balance sheets within reserves for insurance. The increase in the reserve is due to accounting changes as a result of the change in control of GSIE as described in Note 3. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the System.

In accordance with ASU No. 2010-24, "Health Care Entities" (Topic 954): *Presentation of Insurance Claims and Related Insurance Recoveries*, at September 30, 2021 and 2020, the System recorded a liability of approximately \$6,600 and \$3,000, respectively, related to estimated professional liability losses. At September 30, 2021 and 2020, the System also recorded a receivable of \$6,600 and \$3,000, respectively, related to estimated recoveries under insurance coverage for recoveries of the potential losses. These amounts are included in reserve for insurance (\$6,600 at September 30, 2021 and \$3,000 at September 30, 2020), accounts receivable (\$2,800 at September 30, 2021 and \$-0- at September 30, 2020) and other assets (\$3,800 at September 30, 2021 and \$3,000 at September 30, 2020), respectively, in the accompanying consolidated balance sheets.

Workers' Compensation

The System maintains workers' compensation insurance under a self-insurance plan. The plan offers, among other provisions, certain specific and aggregate stop-loss coverage to protect the System against excessive losses. The System has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses of \$3,043 and \$2,388 at September 30, 2021 and 2020, respectively, are recorded within accounts payable and accrued expenses in the accompanying consolidated balance sheets and have been discounted at 3% (both years) and, in management's opinion, provide an adequate reserve for loss contingencies. A trustee held fund has been established as a reserve under the plan. Assets held in trust totaled \$2,988 and \$2,974 at September 30, 2021 and 2020, respectively, and are included in assets whose use is limited or restricted in the accompanying consolidated balance sheets.

Litigation

The System is involved in litigation and regulatory investigations arising in the ordinary course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the System's financial position, results of operations or cash flows.

Health Insurance

The System has a self-funded health insurance plan. The plan is administered by an insurance company which assists in determining the current funding requirements of participants under the terms of the plan and the liability for claims and assessments that would be payable at any given point in time. The System recognizes revenue for services provided to employees of the System during the year. The System is insured above a stop-loss amount of \$550 effective January 1, 2021 (previously \$440) on individual claims. Estimated unpaid claims, and those claims incurred but not reported at September 30, 2021 and 2020, have been recorded as a liability of \$10,042 and \$5,709, respectively, and are reflected in the accompanying consolidated balance sheets within accounts payable and accrued expenses.

Operating Leases

The System has various operating leases relative to its office and offsite locations. Future annual minimum lease payments under noncancellable lease agreements as of September 30, 2021 are as follows:

The consolidated financial statements report certain expense categories that are attributable to more than one healthcare service or support function. Therefore, these expenses require an allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, such as depreciation and interest, are allocated to a function based on square footage. Supporting activities that are not directly identifiable with one or more healthcare programs are classified as general and administrative. If it is impossible or impractical to make a direct identification, allocation of the expenses were made according to management's estimates. Employee benefits are allocated in accordance with the ratio of salaries and wages of the functional classes. Specifically identifiable costs are assigned to the function which they are identified to.

14. Volunteer Services (Unaudited)

Total volunteer service hours received by the System were approximately 16,000 in 2021 and 2020. The volunteers provide various nonspecialized services to the System, none of which has been recognized as revenue or expense in the accompanying consolidated statements of operations.

15. Fair Value Measurements

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the System uses various methods including market, income and cost approaches. Based on these approaches, the System often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the System is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In determining the appropriate levels, the System performs a detailed analysis of the assets and liabilities. There have been no changes in the methodologies used at September 30, 2021 and 2020. In accordance with ASC 820, *Fair Value Measurements*, certain investments that are measured using the net value per share practical expedient have not been classified in the fair value hierarchy.

In addition, for the years ended September 30, 2021 and 2020, there are certain investments totaling \$4,072 and \$3,042, respectively, which are appropriately being carried at cost.

The System's Level 3 investments consist of funds administered by others. The fair value measurement is based on significant unobservable inputs.

Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. As such, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated balance sheets and statements of operations.

Fixed Income Securities

The primary purpose of fixed income investments is to provide a highly predictable and dependable source of income, preserve capital, and reduce the volatility of the total portfolio and hedge against the risk of deflation or protracted economic contraction.

Marketable Equity and Other Securities

The primary purpose of marketable equity investments is to provide appreciation of principal and growth of income with the recognition that this requires the assumption of greater market volatility and risk of loss. The total marketable equity portion of the portfolio will be broadly diversified according to economic sector, industry, number of holdings and other characteristics including style and capitalization. The System may employ multiple equity investment managers, each of whom may have distinct investment styles. Accordingly, while each manager's portfolio may not be fully diversified, it is expected that the combined equity portfolio will be broadly diversified.

The System invests in other securities that are considered alternative investments that consist of limited partnership interests in investment funds, which, in turn, invest in diversified portfolios predominantly comprised of equity and fixed income securities, as well as options, futures contracts, and some other less liquid investments. Management has approved procedures pursuant to the methods in which the System values these investments at fair value, which ordinarily will be the amount equal to the pro-rata interest in the net assets of the limited partnership, as such value is supplied by, or on behalf of, each investment from time to time, usually monthly and/or quarterly by the investment manager. Collective trust funds are generally valued based on the proportionate share of total fund net assets.

System management is responsible for the fair value measurements of investments reported in the consolidated financial statements. Such amounts are generally determined using audited financial statements of the funds and/or recently settled transactions and is estimated using the net asset value per share of the fund. Because of inherent uncertainty of valuation of certain alternative investments, the estimate of the fund manager or general partner may differ from actual values, and differences could be significant. Management believes that reported fair values of its alternative investments at the balance sheet dates are reasonable.

The System has committed to invest up to \$51,683 with various investment managers, and had funded \$15,757 of that commitment as of September 30, 2021. As these investments are made, the System reallocates resources from its current investments resulting in an asset allocation shift within the investment pool.

Inflation-Protected Securities

The primary purpose of inflation-protected securities is to provide protection against the negative effects of inflation.

15. Fair Value Measurements (Continued)

Fair Value of Other Financial Instruments

Other financial instruments consist of accounts and pledges receivable, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt and notes payable. The fair value of all financial instruments other than long-term debt and notes payable approximates their relative book values as these financial instruments have short-term maturities or are recorded at amounts that approximate fair value.

16. Financial Assets and Liquidity Resources

Financial assets and liquidity resources available within one year for general expenditure, such as operating expenses, scheduled principal payments on debt, and capital construction costs, consisted of the following at September 30, 2021:

Cash and cash equivalents	\$ 37,722
Short-term investments	66,525
Accounts receivable	94,720
Funds held by trustee for insurance reserves, escrows and construction costs	<u>77,443</u>
	<u>\$276,410</u>

To manage liquidity, the System maintains sufficient cash and cash equivalent balances to support daily operations throughout the year. Cash and cash equivalents and short-term investments include bank deposits, money market funds, and other similar vehicles that generate a return on cash and provide daily liquidity to the System. In addition, the System has board-designated assets without donor restrictions that can be utilized at the discretion of management to help fund both operational needs and/or capital projects. As of September 30, 2021, the balance of liquid investments in board-designated assets was \$342,620.

EXPLANATION

The purpose of this request is for the Contractors to continue providing comprehensive Medication Assisted Treatment to individuals with Substance Use Disorder by using FDA-approved medications while ensuring the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder.

Approximately 1,000 individuals will be served during State Fiscal Year 2022.

The Department will monitor contracted services through monthly reports to ensure:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Contractors for Medication Assisted Treatment services receive at least three (3) clinically appropriate, Medication Assisted Treatment related services.
- One hundred percent (100%) of clients seeking services that enter care directly through the Contractors, who consent to information sharing with the Regional Doorway for Opioid Use Disorder services, receive a Doorway referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Contractors by the Regional Doorway for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Doorway and the Contractors.

As referenced in C-1, Revisions to Standard Contract Language of the original contracts for Elliot Hospital of the City of Manchester and Mary Hitchcock Memorial Hospital, and as referenced in Exhibit A, Revisions to Standard Agreement Provisions Language of the original contract with Concord Hospital - Laconia, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for nine (9) months of the one (1) year available.

Should the Governor and Executive Council not authorize this request, individuals with Opioid Use Disorder in need of Medication Assisted Treatment and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdoses during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek help for Opioid Use Disorder.

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, to enter into a **Retroactive, Sole Source** contract with Concord Hospital, Inc. - Laconia (Vendor #355356) of Laconia, New Hampshire, for the provision of Medication Assisted Treatment to individuals with Opioid Use Disorders in the amount of \$95,000, with the option to renew for up to one (1) additional year, effective retroactive to May 1, 2021 upon Governor and Council approval through September 29, 2021. 100% Federal Funds.

Funds are available in the following account for State Fiscal Year 2021, and are anticipated to be available in State Fiscal Year 2022, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

EXPLANATION

This request is **Retroactive** because LRGHealthcare, one of the Department's original contractors to provide medication assisted treatment to individuals with opioid use disorders, filed for bankruptcy in October of 2020 and its assets were acquired by Concord Hospital, Inc. - Laconia, effective May 1, 2021. As part of the acquisition agreement approved by the New Hampshire Attorney General's Office, Concord Hospital, Inc. - Laconia is required to provide all contract services previously provided by LRGHealthcare in the contract approved by the Governor and Executive Council on December 15, 2018 Item #22, and amended on January 22, 2021 Item

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

#22. This new contract transfers all existing obligations and the remaining price limitation of the original contract to Concord Hospital, Inc., - Laconia.

This request is **Sole Source** due to the bankruptcy and acquisition agreement, as LRGHealthcare was the Contractor selected by the Department to provide Medication Assisted Treatment in the Laconia Region as part of the statewide system designed to deliver coordinated services.

The purpose of this request is to allow the Contractor to provide comprehensive Medication Assisted Treatment to individuals with Substance Use Disorder by using FDA-approved medications. In addition to MAT services for general community members, the Contractor will ensure the provision of services specifically designed for pregnant and postpartum women with Opioid Use Disorder.

Approximately 135 individuals with substance use disorder who are in need of medication assisted treatment will be served from May 1, 2021 to September 29, 2021.

The Department will monitor contracted services through monthly reports to ensure:

- Fifty percent (50%) of individuals with Opioid Use Disorder referred to the Contractor for Medication Assisted Treatment services receive at least three (3) clinically appropriate, Medication Assisted Treatment related services.
- One hundred percent (100%) of clients seeking services that enter care directly through the Contractor, who consent to information sharing with the Regional Doorway for Opioid Use Disorder services, receive a Doorway referral for ongoing care coordination.
- One hundred percent (100%) of clients referred to the Contractor by the Regional Doorway for Opioid Use Disorder services have proper consents in place for transfer of information for the purposes of data collection between the Doorway and the Contractor.

Should the Governor and Executive Council not authorize this request, individuals with opioid use disorder in need of Medication Assisted Treatment and additional supports may have reduced access to services or increased likelihood of having to be placed on a waitlist to access care. This may result in an increase of overdose fatalities during the waiting period and/or reduced motivation to seek help if it is unavailable to individuals when they are ready to seek assistance for Opioid Use Disorder.

Area served: Laconia Region.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shbinette
Commissioner

In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. 9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT B. In addition, at the State's discretion, the Contractor shall, within 15 days of notice of early termination, develop and

Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- 12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI.
