REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Continental Paving, Inc. (Vendor 155350) of Londonderry, NH, on the basis of a low bid of \$3,954,653.75 for pavement preservation in Districts 4 and 5, from the date of Governor and Council approval through September 23, 2022, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Years 2022 and 2023, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$197,732.69

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan. This project is part of the Tier 2 Federal Resurfacing program and involves 13.0 miles of pavement resurfacing on two sections in five towns in Districts 4 and 5.

- 21402 - Troy-Marlborough-Swanzey, NH 12, 2" full width inlay (0.6 mile), 1½" full width overlay (3.8 miles), spot inlays, 4.4 miles
- 21502 - Brookline-Milford, NH 13, ¾" full width paver shim overlay (8.1 miles), 2" full width high strength inlay (0.5 mile), 8.6 miles

The purpose of this project is to extend the life of the existing pavement infrastructure and minimize the need for costlier improvements in the near future. Work efforts include roadway resurfacing, upgrading guardrail, curb ramp reconstruction, sign replacements, and drainage structure adjustments.

The proposed contingency amount is 5% of the contract amount. This project was quantified based on field observations, aerial photos, and as-built plans. Field adjustments may be required due to varying field conditions. In addition, the sections will continue to deteriorate through the 2021-2022 winter.

Although the bid costs exceeded the Department's estimate by 12.08%, the low bid of 3 bids received is felt to be reasonable for the work involved. There were 6 items of significance that accounted for 77% of the overage (pavement, guardrail (4), & flaggers). Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal (Pave-T2-Resurf 80), with anticipated utilization of Turnpike Toll credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is part of the Tier 2 Federal Resurfacing program and involves 13.0 miles of pavement resurfacing on two sections in five towns in Districts 4 and 5.

Section ID	Town/City	Road	Proposed Work	Length
21402	Troy- Marlborough- Swanzey	NH 12	2" full width inlay (0.6 mile), 1½" full width overlay (3.8 miles), spot inlays	4.4 miles
21502	Brookline-Milford	NH 13	¾" full width paver shim overlay (8.1 miles), 2" full width high strength inlay (0.5 mile)	8.6 miles

FEDERAL FUNDING: Pave-T2-Resurf (80%), Turnpike Toll Credit (20%)

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This project was quantified based on field observations, aerial photos, and as-built plans. Field adjustments may be required due to varying field conditions. In addition, the sections will continue to deteriorate through the 2021-2022 winter.

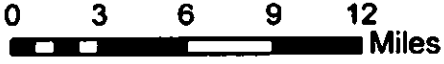

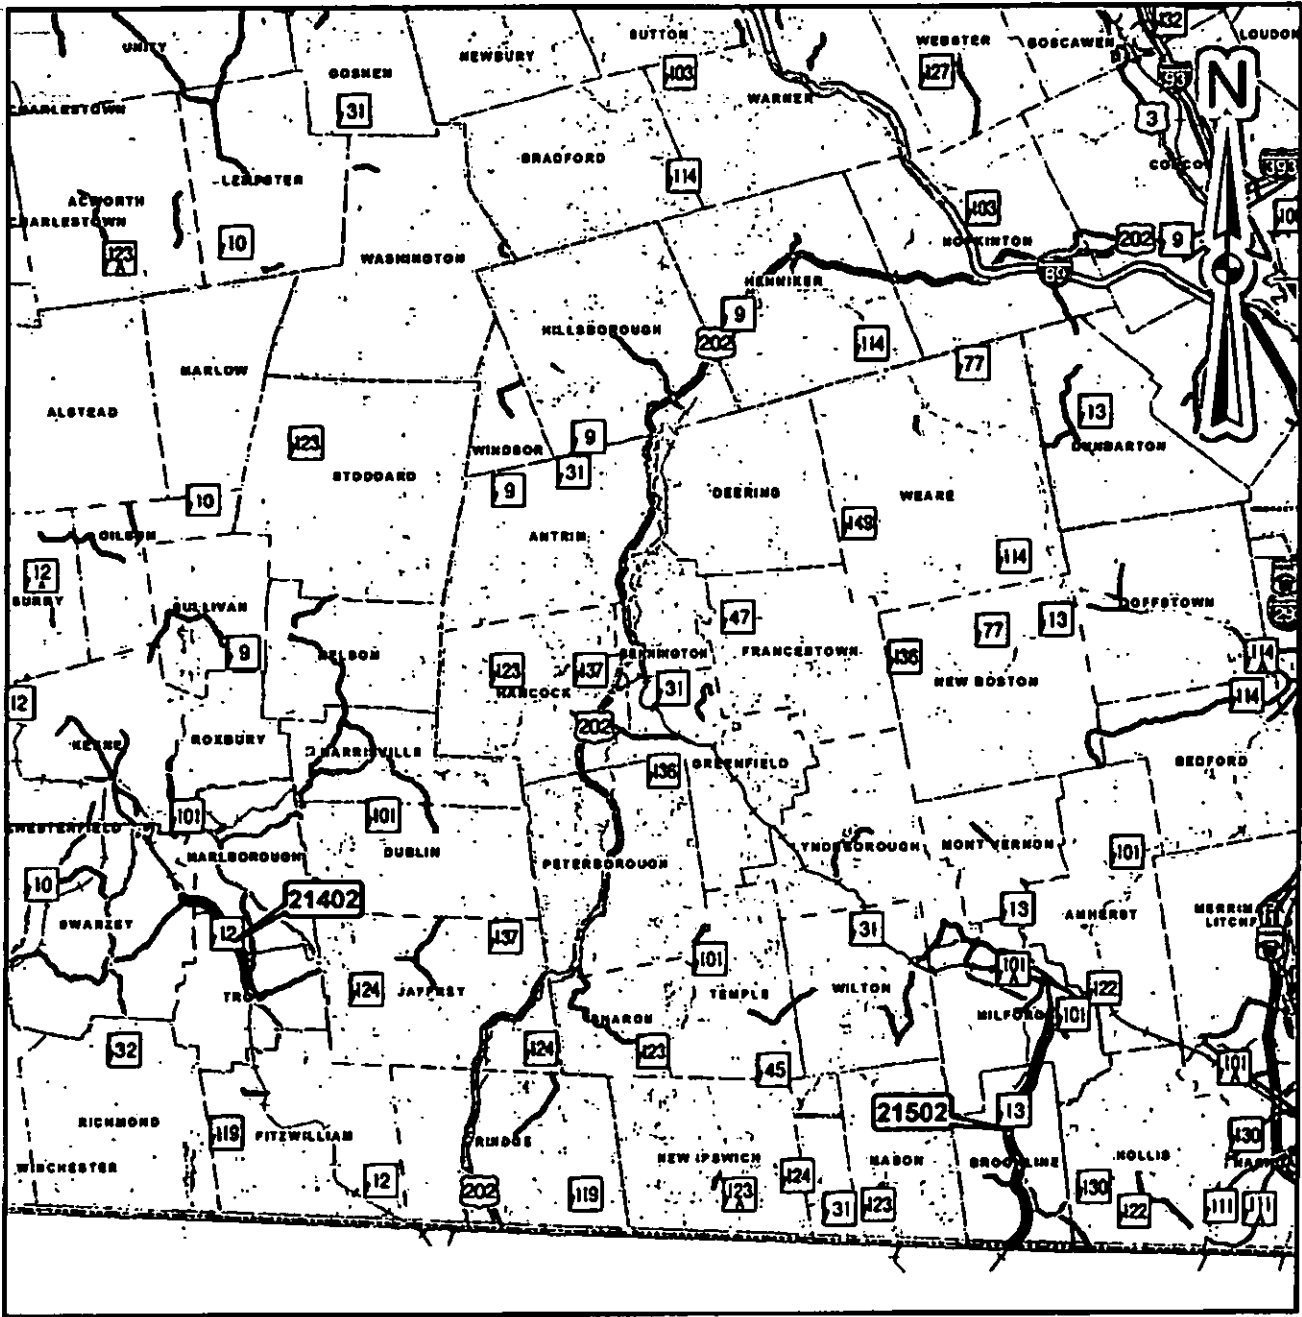

PROJECT INITIATED: This project was initiated through the State's Ten-Year Transportation Improvement Program, Paving-Tier-2-Resurfacing.

PROJECT EXPLANATION: The purpose of this project is to extend the life of the existing pavement infrastructure and minimize the need for costlier improvements in the near future. Work efforts include roadway resurfacing, upgrading guardrail, curb ramp reconstruction, sign replacements, and drainage structure adjustments.

TRAFFIC IMPLICATION: Daytime lane and shoulder closures as well as one lane, alternating two-way traffic will be implemented in all sections. Night work is required on Section 21502.

FINAL COMPLETION DATE: September 23, 2022.
