VICTORIA F. SHEEHAN
COMMISSIONER

WILLIAM CASS, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
November 4, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Winterset, Inc. of Lyndonville, VT (Vendor 160408) on the basis of a low bid of \$4,346,051.85 for pavement rehabilitation on 1.6 miles of NH 26 and construction of a 20 foot wide culvert crossing in District I in the County of Coos, from the date of Governor and Council approval through July 28, 2017 unless extended by the Department in accordance with the Standard Specifications. 27.61% federal funding, 21.03% betterment funds and 51.36% SB 367 funds.

Table with 3 columns: Funding description, FY 2016, FY 2017. Row 1: 04-96-96-963015-8910 SB 367 Capital Investment 400-500870 Highway Contract Payments. Values: \$2,000,000.00 and \$423,068.94.

Table with 3 columns: Funding description, FY 2016, FY 2017. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments. Values: \$504,500.00 and \$504,500.00.

Table with 3 columns: Funding description, FY 2016, FY 2017. Row 1: 04-96-96-963015-3039 Highway Betterment Aid 400-500870 Highway Contract Payments. Values: \$456,991.00 and \$456,991.91.

2. Further authorize that a contingency in the amount of \$217,302.59 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount. 100% SB 367 funds.

Table with 3 columns: Funding description, FY 2016, FY 2017. Row 1: 04-96-96-963015-8910 SB 367 Capital Investment 400-500870 Highway Contract Payments. Values: \$148,074.55 and \$69,228.04.

EXPLANATION

The project is intended to address the deteriorating pavement on NH 26, which is in poor condition. The work involves reclaiming 1.6 miles of NH 26 and placing 6 inches of pavement which will provide a new riding surface and extend the life of the existing roadway. In addition, the project will address an inadequate culvert crossing. The current culvert is undersized and most trail users must cross NH 26 at grade, which is a safety concern. The project involves the installation of a 20 foot wide concrete slab supported on MSE walls that replace an existing 84 inch corrugated metal pipe on a Department of Resources and Economic Development (DRED) maintained trail network. Construction of a larger underpass will allow for safer access to the existing trail network for ATV's, snowmobiles, and pedestrians.

Although the bid costs slightly exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved as there were 2 bids submitted for this project. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

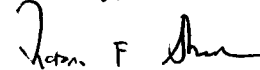

A contingency amount of 5% of the contract amount is proposed to account for a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons. These projects have fixed limits. Adjusting limits to offset quantity overruns is not practical and construction of a temporary diversion at the concrete slab will increase the risk of overruns for traffic control operations.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

The project is 80% federal funding up to \$1.2M, with the anticipated utilization of Turnpike toll credits as the State's 20% match. The remaining balance of the project is funded with 100% betterment funds and SB 367 funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$4,080,396.97

Contract Amount: \$4,346,051.85

Over Estimate: \$ 265,654.88

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project involves pavement rehabilitation on 1.6 miles of NH 26 and construction of a 20 foot wide culvert crossing in District 1 in the County of Coos. The project begins just west of the Colebrook/Dixville Town line (Mile 9.4), and extends easterly to a pavement joint at the intersection of Spur Road (Mile 11.0), with the culvert crossing located at mile 9.8. The rehabilitation work (29222) consists of reclaiming the existing roadway and placing 6 inches of pavement. The culvert work (29776) consists of replacing the existing 84 inch CMP on a DRED maintained trail network with a 20 foot wide concrete slab supported on MSE walls. A two lane temporary diversion will be constructed on the southern side of NH 26 to maintain traffic during the box culvert construction. Ancillary work includes guardrail upgrades, drainage repairs, and utility relocations.

FEDERAL FUNDING: The 29776 project is 80% Federal funding up to \$1.2M, with the anticipated utilization of Turnpike Toll credits as the State's 20% match. The remaining balance and the 29222 project are funded with betterment funds.

CONTINGENCY: A contingency amount of 5% of the contract amount is proposed to account for a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons. These projects have fixed limits. Adjusting limits to offset quantity overruns is not practical and construction of a temporary diversion at the concrete slab will increase the risk of overruns for traffic control operations.

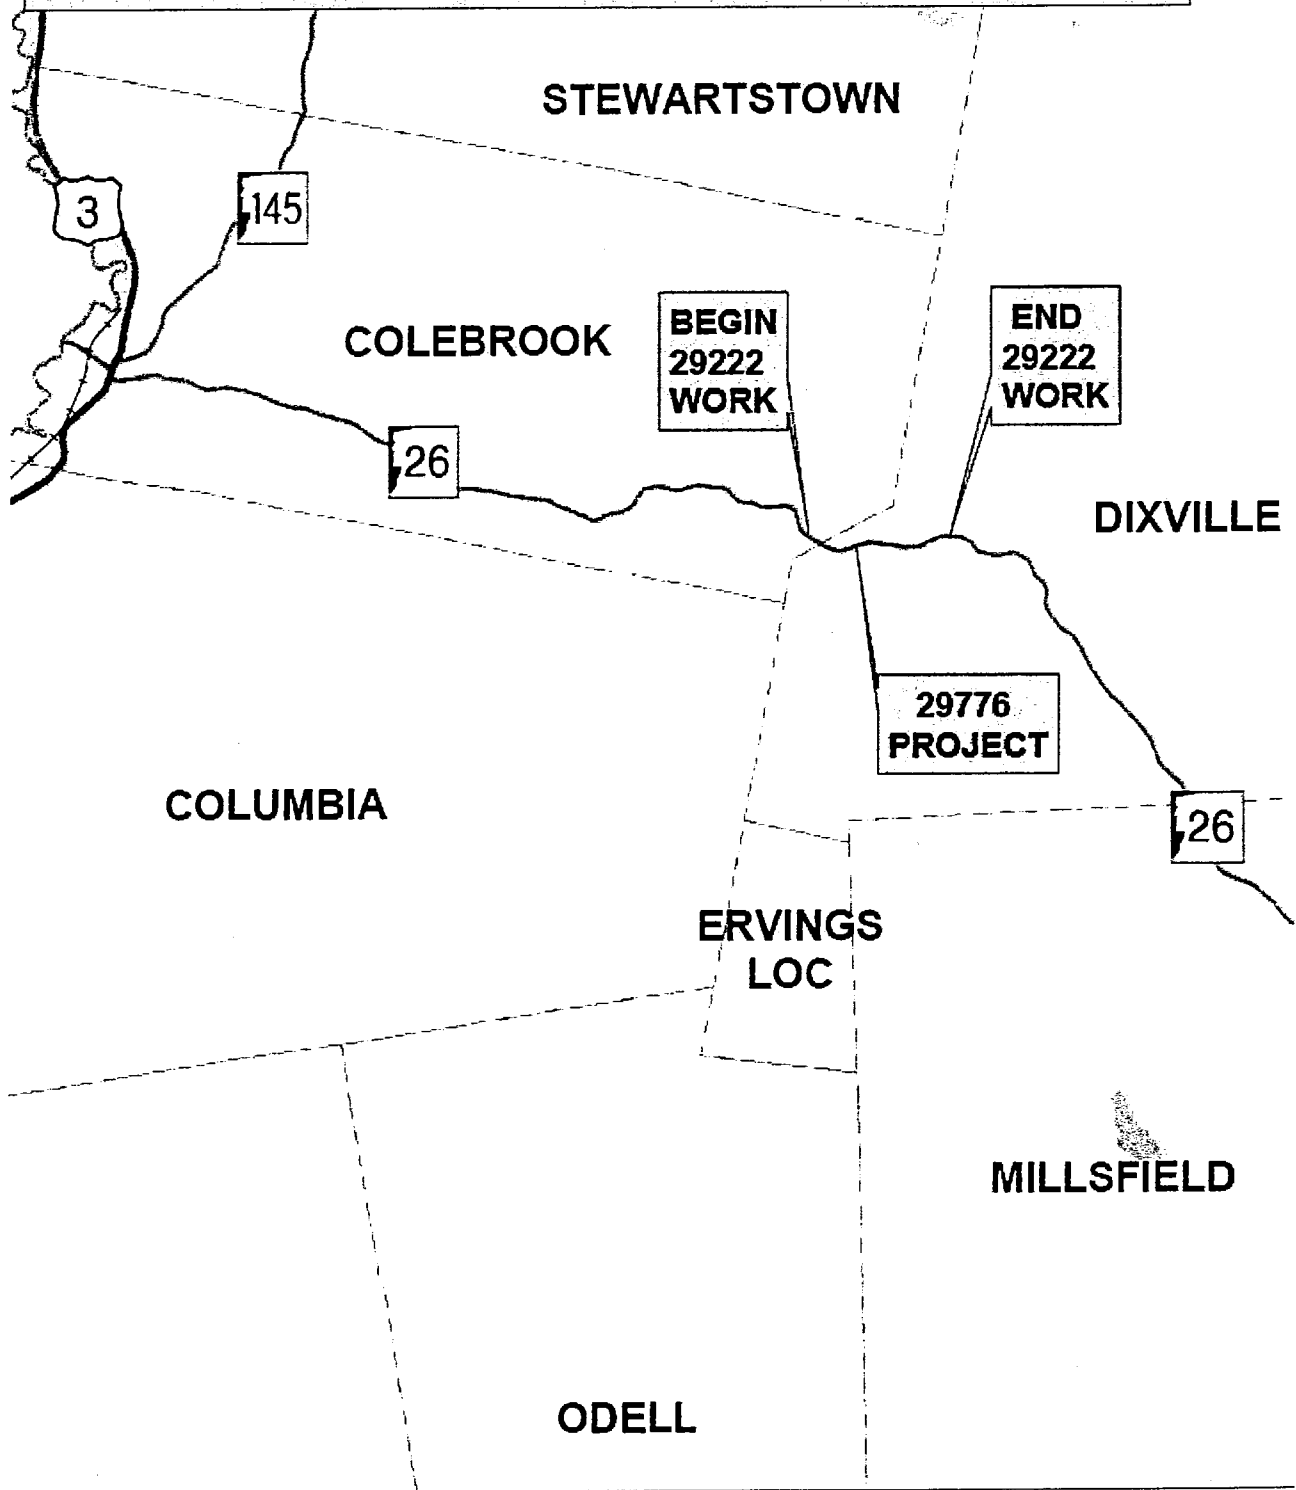

PROJECT INITIATED: The 29776 project is federally funded through the Department of Resources and Economic Development and the 29222 project is betterment funded through SB 367 (FY 2015).

PROJECT EXPLANATION: The focus of the 29222 project is to address the deteriorating pavement. The pavement is in poor condition and needs rehabilitation. The intent of this project is to rehabilitate and improve the riding surface and to extend the life of the existing roadway. The focus of the 29776 project is to address the inadequate culvert crossing. The current culvert is undersized and most trail users must cross NH 26. The larger underpass will allow for safer access to the existing trail network for ATV's, snowmobiles, pedestrians, etc.

TRAFFIC IMPLICATIONS: Minimal traffic implications are anticipated. Alternating one-way traffic will be allowed only on roads with pavement widths less than forty-four feet. Normal traffic patterns will be re-established prior to the beginning of non-work hours. The work at the box culvert will require temporary lane shifts on existing, temporary, or new pavement. Limited short-term closures of the recreational trail are expected. No work will be permitted from May 27 to May 30, July 1 to July 4 & from September 2 to September 5, 2016 and from May 26 to May 29 & June 30 to July 5, 2017.
