EXPLANATION

The purpose of this request is to develop, provide, support, and/or coordinate outreach, education and training services to improve access to high quality and integrated health and human services for veterans, service members and their families.

These services include the development and provision of a specialized and consistent messaging and materials campaign that informs and promotes public and provider awareness and education about asking the question "Have you ever served in the military?" and how to repond when the answer to that question is "yes."

The New Hampshire Department of Health and Human Services (DHHS), Division of Community Based Care Services (DCBCS), Bureau of Community Based Military Programs was established to collaborate, coordinate and communicate with military and civilian provider groups in the delivery of services to New Hampshire veterans, service members and their families.

Veterans account for almost eleven percent (11%) of the State of New Hampshire's population. Forty-eight percent (48%) of those veterans are over the age of 65.

Not all veterans are eligible for care through the Veterans Administration (VA), and many choose not to seek care there. Of the 113,094 veterans residing in New Hampshire, only 28,730 receive their health care through the VA (Veterans Administration, FY2012). New Hampshire is the only State in the nation without a full service VA medical facility (or equivalent Military Treatment Facility).

Based on the January 2014 Report from the Study Commission on Post Traumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI), the Department has identified funding from the Balancing Incentive Program to support these initiatives.

This contract was competitively bid. On November 14, 2014, 2014 the Department issued a Request for Proposals to solicit proposals from vendors to develop, provide, support, and/or coordinate outreach, education and training services to improve access to high quality and integrated health and human services for veterans, service members and their families. The request for proposals was available on the Department of Health and Human Services website from November 14, 2014 through December 22, 2014. There were five proposals submitted for this initiative.

The proposals were evaluated by a team of individuals from the Department of Health and Human Services, members of New Hampshire Legislative Commission on Post Traumatic Stress Disorder and Traumatic Brain Injury, as well as leaders from the military/civilian community. All team members have knowledge and experience working with veterans, services members and their families as well as significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. This vendor was selected receiving the highest score. The bid summary is attached.

Should the Governor and Executive Council not approve this request, many community service and healthcare providers will not receive the needed military education and guidance on how to approach and provide the proper service for New Hampshire veterans, services members and their families. A lack of guidance and education could result in limited access to high quality and integrated health and human services for New Hampshire veterans, service members or their families. This could lead to our New Hampshire veterans, service members and their families not receiving the health care and other support services they need, resulting greater risk of undetected conditions which in turn could increase costs for New Hampshire citizens.

Area Served: Statewide

Source of funds: 100% Federal Funds from the US Department of Health and Human Services, Centers for Medicare and Medicaid Services, Medical Assistance Program (Medicaid Title XIX), Catalog for Domestic Assistance (CFDA) #93.778, Federal Award Identification Number (FAIN) 05-1405NHBIPP.

In the event that federal funds become no longer available, general funds will not be requested to support this request.

Sincerely,

Diane Langley
Director

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2014 and 2013, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014 on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

2. Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. Approximately \$2,483,000 and \$2,432,000, respectively, of cash and cash equivalents, and approximately \$2,512,000 and \$2,238,000, respectively, of investments were on-hand under this practice as of August 31, 2014 and 2013, respectively.

Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other nonoperating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

Beneficial Interest in Trusts

Easter Seals NH is the beneficiary of several trusts held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trusts and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other nonoperating expenses, gains and losses as permanently restricted activity.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 5.

Property held for sale is recorded at the lower of net realizable value or carrying value. Easter Seals NH recognized impairment losses on certain property held for sale in 2014 of \$139,698, which is recorded in other nonoperating losses.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

2. Summary of Significant Accounting Policies (Continued)

Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment. Intangible assets at August 31, 2014 and 2013 consist of a patient list obtained in the acquisition of Webster Place.

Expected amortization of intangible assets through the end of their useful lives is as follows:

2015	\$ 33,130
2016	33,130
2017	33,130
2018	33,130
2019	33,130
Thereafter	<u>66,263</u>
	<u>\$231,913</u>

Amortization expense recognized for the patient list in 2014 and 2013 totaled \$33,130.

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believes that no long-lived assets were impaired at August 31, 2014 and 2013.

Bond Issuance Costs

Bond issuance costs are being amortized by the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Amortization expense recognized during 2014 and 2013 was \$9,638.

Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known. Easter Seals NY recognized additional revenue of approximately \$7,654 in 2014 and \$1,046,000 in 2013 due to favorable rate adjustments approved by the State of New York.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

2. Summary of Significant Accounting Policies (Continued)

A third-party payor for three Easter Seals NY programs charged a facility tax assessment on a monthly basis in 2014 and 2013. The charges are a part of Easter Seals NY's reimbursement contract with the payor. The facility tax assessment is based on approved rates. As of August 31, 2014 and 2013, the facility tax assessment due was approximately \$136,000 and \$138,000, respectively, and is recorded in deferred revenue in the accompanying statements of financial position.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectibility of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2014 and 2013 totaled \$265,007 and \$774,569, respectively.

Unconditional contributions are recognized when pledged.

Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately \$6,802,000 and \$7,373,000 for the years ended August 31, 2014 and 2013, respectively.

Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals NY, Easter Seals ME, Easter Seals VT, Easter Seals RI, Harbor Schools, Manchester Alcoholism Rehabilitation Center and Easter Seals CT are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code and, for Easter Seals NY of the Not-for-Profit Corporation Law of the State of New York. Agency Realty, Inc. received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2014 and 2013

2. Summary of Significant Accounting Policies (Continued)

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the “more-likely-than-not” threshold, based upon the technical merits of the position.

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements. Easter Seals New Hampshire, Inc. and its subsidiaries are no longer subject to income tax examinations by the federal or state tax authorities for years prior to 2011.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreements described in note 8. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreements (not the notional amount) in the event of nonperformance of the other party to the swap agreements. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2014 and 2013, Easter Seals NH had recognized a liability of \$3,329,813 and \$2,758,346, respectively, as a result of the interest rate swap agreements discussed in note 8. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized an decrease in net assets of \$571,467 (\$23,387 of which is included in deconsolidation of affiliate as an increase in net assets) for the year ending August 31, 2014, and an increase in net assets of \$2,377,632 for the year ending August 31, 2013 related to swap agreements.

Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase (decrease) in net assets from operations. The primary transactions reported as other nonoperating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the increase in the fair value of beneficial interest in trusts held by others, gains and losses on sales and disposals of property, plant and equipment, and net realized and unrealized gains on investments.

2. Summary of Significant Accounting Policies (Continued)

Reclassifications

Certain amounts in the 2013 consolidated financial statements have been reclassified to conform to the 2014 presentation.

Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 5, 2014, the date these consolidated financial statements were available to be issued.

3. Classification of Net Assets

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2014 or 2013.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

3. Classification of Net Assets (Continued)

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Easter Seals NH may appropriate for distribution some or all of the earnings and appreciation on its endowment for funding of operations. In establishing this policy, Easter Seals NH considered the objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to, so long as it would not detract from Easter Seals NH's critical goals and initiatives, provide additional real growth through new gifts and investment return.

4. Leases

Easter Seals NH leases certain assets under various arrangements which have been classified as operating leases. Total expense under all leases (including month-to-month leases) was approximately \$2,420,000 and \$2,168,000 for the years ended August 31, 2014 and 2013, respectively. Some of these leases have terms which include renewal options, and others may be terminated at Easter Seals NH's option without substantial penalty. Future minimum payments required under the leases in effect at August 31, 2014, through the remaining contractual term of the underlying lease agreements, are as follows:

Year Ended August 31:

2015	\$2,018,870
2016	1,486,328
2017	1,044,716
2018	385,129
2019	221,698
Thereafter	31,240

Easter Seals NY leases certain facilities for school operations from unrelated parties at lease terms that are either below fair market value, or that are almost entirely rent-free. Under accounting principles generally accepted in the United States of America, lease agreements must be evaluated based upon their economic substance rather than legal form, and a lease subsidy would be recorded as both contribution and rental expense. However, Easter Seals NH has determined that such amounts would not be material to the accompanying consolidated financial statements.

Easter Seals NY subleases certain office space located at 11 West 42nd Street in New York to an unrelated party. The sublease agreement expires in February 2014. Total rental income earned under this sublease agreement for the years ended August 31, 2014 and 2013 was approximately \$65,000 and \$144,000, respectively.

Under the terms of the donation, for a period of six years, Easter Seals NH must continue to use the building as a child care center. Should Easter Seals NH cease to operate the program, or wish to sell or donate the property, Easter Seals NH must first provide the donor with the opportunity to purchase the property for \$1. Lines of Credit and Other Financing Arrangements

Easter Seals New Hampshire, Inc. had an agreement with a bank for a \$500,000 nonrevolving equipment line of credit. The line of credit was used to fund the purchase of New Hampshire titled vehicles for use by Easter Seals NH through April 2, 2014. The interest rate charged on outstanding borrowings was at a fixed rate at the then prime rate minus 0.75% for maturities up to a five-year term. Upon maturity of this agreement, the balances outstanding under the note payable at August 31, 2014 and 2013 were converted to various term notes secured by vehicles, as described above.

Easter Seals New Hampshire, Inc. also has an agreement with a bank for a \$500,000 revolving equipment line, which can be used to fund the purchase of New Hampshire titled vehicles for use by Easter Seals NH through June 2017. Advances are converted to term notes as utilized. The interest rate charged on outstanding borrowings is at a fixed rate equal to the then Business Vehicle Rate at the time of the advance for maturities up to a five year term. Included in long-term debt are two notes payable of \$33,925 and \$9,979 at August 31, 2014 that originated under this agreement. Availability under this agreement at August 31, 2014 is approximately \$456,000.

Easter Seals New Hampshire, Inc. (the sole member of Easter Seals NY and Harbor Schools), Easter Seals NY and Harbor Schools have a revolving line of credit with a bank, with available borrowings up to \$7 million (a portion of which is secured by available letters of credit of \$59,000). Outstanding advances are due on demand. The revolving line of credit has the following sub-limits which were last amended in May 2013: Easter Seals NH \$3.725 million, Easter Seals NY \$3 million and Harbor Schools \$275,000. The interest rate charged on outstanding borrowings is at LIBOR plus 2.25% (2.41% at August 31, 2014). Under an event of default, the interest rate will increase from LIBOR plus 2.25% to LIBOR plus 5.25%. The line is secured by a first priority interest in all business assets of Easter Seals New Hampshire, Inc., Easter Seals NY and Harbor Schools. The agreement requires that collective borrowings under the line of credit be reduced to \$3,500,000 for 30 consecutive days during each calendar year. The agreement also limits each borrower's ability to incur additional indebtedness in excess of \$500,000. Amounts outstanding under this revolving line of credit agreement at August 31, 2014 and 2013 were \$262,356 and \$262,356, respectively, related to Harbor Schools, \$1,935,548 and \$1,599,505, respectively, related to Easter Seals NY and \$0 and \$1,425,875, respectively, related to Easter Seals NH.

Easter Seals CT had a demand revolving line of credit with a bank with available borrowings up to \$1 million. The interest rate charged on outstanding borrowings was at LIBOR plus 2.25%. The line was secured by all business assets and property of Easter Seals CT, except for certain assets limited as to use (\$3,444,569 carrying value as of August 31, 2013). Additionally, this line was guaranteed by Easter Seals NH. The agreement also limited Easter Seals CT's ability to incur additional indebtedness in excess of \$1,000,000 related to real estate, and was cross collateralized with all Easter Seals NH borrowings at this bank. Amounts outstanding under this revolving line of credit agreement at August 31, 2013 were \$924,658 (see deconsolidation of affiliate – note 12).

NHHEFA 2004A Revenue Bonds

In connection with the NHHEFA 2004A Revenue Bonds, Easter Seals NH is required to make deposits of interest and principal of sufficient amounts to make the required interest payments and to retire the bonds when due. The 2004A Revenue Bonds require that Easter Seals NH maintain certain reserve funds with a trustee for current required principal and interest payments. Such amounts, which are included within assets limited as to use, totaled \$300,046 and \$288,778 at August 31, 2014 and 2013, respectively. This agreement also requires bank approval prior to Easter Seals NH incurring additional indebtedness. Easter Seals NH has two letters of credit securing the bonds for \$14,450,993 each (expiring and subject to renewal on March 15, 2015, and mainly to support future principal and interest repayments due under the 2004A Revenue Bonds). Easter Seals NH is required to replace or renew the two \$14,450,993 letters of credit upon their expiration or the related bonds may be subject to early redemption. Easter Seals NH pays an annual fee for the two letters of credit relating to the 2004A NHHEFA Revenue Bonds. Fees incurred on these letters of credit totaled approximately \$183,000 and \$157,000 in 2014 and 2013, respectively.

On December 1, 2010, Easter Seals NY, in connection with the Monroe County Industrial Development Corporation and RBS Citizens, issued \$5,250,000 in Series 2010 tax-exempt Revenue Bonds (the Series 2010 Bonds). The Series 2010 Bonds were used to finance the acquisition of certain property located in Irondequoit, New York, provide for improvements to a school building and an existing rehabilitation facility, and construct two residential rehabilitation facilities. Additionally, proceeds were used to refinance certain Easter Seals NY outstanding debt.

The Series 2010 Bonds are secured by a mortgage on all properties and improvements financed by the bonds, and are guaranteed by Easter Seals NH. Easter Seals NY may elect to prepay some portion or all of the outstanding bonds subject to a prepayment fee, as defined. This agreement also requires bank approval prior to Easter Seals NY incurring additional indebtedness. The Series 2010 Bonds are subject to tender for mandatory purchase at the election of the bondholder beginning June 1, 2016, and thereafter every five years through June 1, 2036.

8. Borrowings (Continued)

On December 27, 2010, Easter Seals CT entered into an interest rate swap agreement in connection with an outstanding mortgage payable of \$2,470,000 at August 31, 2013. The original notional amount of \$1,800,000 reduces ratably in conjunction with repayment of the note payable. The swap agreement effectively changed the variable rate to a fixed rate of 2.72% for the notional amounts outstanding, which is approximately 65% of the related mortgage payable (see deconsolidation of affiliate – note 12).

The fair value of the above interest rate swap agreements totaled \$3,329,813 and \$2,758,346 at August 31, 2014 and 2013, respectively, \$615,570 and \$708,132 of which was current at August 31, 2014 and 2013, respectively. 11. Fair Value of Financial Instruments

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimizes the use of unobservable factors.

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trusts, investments and the interest rate swaps, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2014 and 2013.

Investments and Assets Limited as to Use

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, money market and mutual funds and government and agency securities that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain other mutual funds and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2. Investments in certificates of deposit are at cost plus accrued interest, which is estimated to approximate fair value and are included in Level 2.

11. Fair Value of Financial Instruments (Continued)

Beneficial Interest in Trusts Held by Others

The beneficial interest in trusts held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trusts. The fair values of marketable equity securities, money market and mutual funds, government and agency securities and other asset funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities, mutual funds and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2. Investments in alternative and other asset funds are derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions, and are reflected as Level 3. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

Interest Rate Swap Agreements

The fair value for the interest rate swap liabilities is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

At August 31, 2014 and 2013, Easter Seals NH's assets and liabilities measured at fair value on a recurring basis were classified as follows:

11. Fair Value of Financial Instruments (Continued)

The table below sets forth a summary of changes in the fair value of Easter Seals NH's Level 3 assets and liabilities for the years ended August 31, 2014 and 2013:

	<u>Interest Rate Swaps</u>	<u>Alternative and Other Asset Funds</u>
Beginning balance, August 31, 2012	\$(5,135,978)	\$ 78,614
Unrealized gains, net	<u>2,377,632</u>	<u>10,220</u>
Ending balance, August 31, 2013	(2,758,346)	88,834
Unrealized loss, net	(594,854)	-
Deconsolidation of affiliate – see note 12	<u>23,387</u>	<u>(88,834)</u>
Ending balance, August 31, 2014	<u>\$(3,329,813)</u>	<u>\$ -</u>

Excluding the impact of the deconsolidation of an affiliate (see note 12), the net amounts of unrealized gains (losses) for the period attributable to the change in unrealized gains (losses) relating to the interest rate swaps still held at August 31, 2014 and 2013 were \$(594,854) and \$2,377,632, respectively. The amount of unrealized gains for the period attributable to the change in unrealized gains relating to the Level 3 investments still held at August 31, 2014 and 2013 were \$0 and \$10,220, respectively.

Easter Seals NH's other financial instruments, including cash and cash equivalents, accounts receivable from affiliates, program and other accounts receivable, contributions receivable, accounts payable, lines of credit, and long-term debt, have fair values approximating their carrying values because of the short-term nature of the financial instruments or because interest rates approximate current market rates.

12. Deconsolidation of Related Entity

On July 31, 2014, Easter Seals NH entered into an agreement with The Connecticut Institute for the Blind, Inc. d/b/a Oak Hill (Oak Hill), an unrelated entity, whereby Easter Seals NH agreed to transfer its sole member interest in Easter Seals CT to Oak Hill for no consideration. Accordingly, all of the assets, liabilities and net assets of Easter Seals CT were transferred to Oak Hill effective July 31, 2014. Easter Seals NH was concurrently released from all guarantees and other obligations related to Easter Seals CT.
