### **EXPLANATION**

The purpose is to develop a budget tracking system that will allow the Department to track the dollars earned during the State Fiscal Year compared to what was initially budgeted to ensure maximization of federal funds, and better estimation of potential lapse.

The State of New Hampshire follows a two (2) year or biennium budget lifecycle, in which there are several stages for budget approval. The budget work starts 18 months prior to the beginning of the first month of the next budget cycle. The State's current budget cycle began on July 1, 2021, and will complete on June 30, 2023. Beginning in January 2022 the Department will begin planning the budget for the State Fiscal Year 2024-2025 biennium and will need to be able to use the system by July 1, 2022. The current system of Microsoft Excel spreadsheets and Microsoft Access databases has become overly burdensome to maintain and operate and the Department is in need of a system that can effectively receive information for the budget development, track the budgeted dollars versus earned dollars and replace the federal ledgers.

The Contractor submissions were scored by a technical review team. Deloitte Consulting, LLP was the only vendor to submit a proposal. Further details are included with this letter as Attachment A.

The Department will monitor services by ensuring the Contractor meets all project milestones.

Should the Governor and Council not authorize this request, the Department will not have efficient tools available to effectively receive information for the budget development. Having a comparison of budgeted versus actual spending rates will help the Department identify additional federal dollars to be budgeted, which in turn should reduce the likelihood of lapsed of federal funds and is a more efficient use of general funds.

Area served: Statewide

Source of Federal Funds: 45.65% Federal Funds, 54.35% General Funds.

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

## REQUESTED ACTION

Authorize the Department of Administrative Services to enter into a contract with Deloitte Consulting LLP of Concord, NH (Vendor No. 174776), for an aggregate price limitation of \$10,000,000.00 among all awarded vendors, for Salesforce Professional Services. The term shall be effective upon Governor and Council approval and ending on December 31, 2023 with the option to extend for two (2) additional one-year extension terms.

Funding shall be provided through individual agency expenditures, none of which shall be permitted unless there are sufficient appropriated funds to cover the expenditure.

## EXPLANATION

The Department of Administrative Services, through the Bureau of Purchase and Property, and in collaboration with the Department of Information Technology, issued a request for proposal on February 3, 2021 with responses due on March 3, 2021. There were 11 compliant responses received.

It is the Department's intent to enter into contracts with the 10 highest scoring vendors where through a Request for Quote (RFQ) and Statement of Work (SOW) process the Department of Administrative Services, on behalf of a requesting State agency, will issue RFQ/SOW to all contractors. Each SOW will detail various requirements related to the services, planning and implementation of new projects. The project engagement will be based upon the highest scoring response. Project engagements under the agreements with a dollar value exceeding \$10,000 shall be brought before the Executive Council for approval prior to proceeding with the engagements.

and the Honorable Council

As the State's experience and expertise with Salesforce matures, it will expand its Salesforce capabilities and services offered. The production Salesforce environment is centrally managed. The State has implemented an Enterprise Government Model that seeks to establish Standard Operating Procedures (SOP) and processes on the use of third party solutions.

Through the proposed contracts, the State anticipates improvements in the following areas: automating business processes, providing prompt responses to tracking or delivering constituent needs, refining business operations based on access to insightful data, securing information within compliance of State and Federal regulations, and deploying rapid solutions throughout the State of New Hampshire's IT environment.

Enabling these capabilities will often require the use of expert resources that can assist the State to efficiently design, govern, maintain and provide ongoing management of these platforms in a secure, responsible and effective manner. Contracting mechanisms that shorten the "time to value" are needed to procure resources to work with State agencies and IT staff to supplement existing constrained resources that are needed to provide the skills necessary for the State to excel in its Digital Government Initiatives. Based on the foregoing, I am respectfully recommending approval of the contract with Deloitte Consulting LLP.

Respectfully submitted,

Charles M. Arlinghaus  
Commissioner
