REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, to amend an existing **sole source** agreement with the Foundation for Healthy Communities (Vendor #154533-B001), 125 Airport Road, Concord, NH 03301, to continue assisting Critical Access Hospitals to improve quality of care for Medicare beneficiaries and to implement quality improvement activities in thirteen (13) Critical Access Hospitals by increasing the price limitation by \$25,500 from \$481,446 to \$506,946, with no change to the contract completion date of August 31, 2021, effective upon Governor and Executive Council approval. 100% Federal Funds.

This agreement was originally approved by the Governor and Executive Council on December 20, 2017 (Item #20) and amended on May 16, 2018 (Item #9) and October 31, 2018 (Item #20).

Funds are available in the following account for State Fiscal Years 2020 and 2021, with authority to adjust amounts within the price limitation and adjust encumbrances between State Fiscal Years through the Budget Office, if needed and justified.

EXPLANATION

This request is **sole source** because the first amendment, approved on May 16, 2018 (Item #9), increased the funding by more than 10% of the total price limitation. The Foundation for Healthy Communities is currently providing financial improvement support for the thirteen (13) Critical Access Hospitals (CAHs), which has proven to be successful.

The purpose of this request is to provide additional funding for the development of a Sustainability Plan for the Claims Denials Analytics Project, designed to ensure the reduction of denied claims, improve reimbursements for care provided, and reduce the administrative burden of insurance claims.

The Claims Denials Analytics Project was initiated in January 2019 and in the nine (9) months of support, the amount of claims denied for the CAHs has decreased from approximately \$14 million to \$9 million. This significant increase in revenue for the CAHs improves their financial standing and their ability to continue providing services to the residents of New Hampshire. The development of a sustainability plan will ensure the progress made in reducing claims denials will not be lost.

New Hampshire's CAHs serve all rural area residents and visitors, which is approximately thirty-seven percent (37%) of New Hampshire's total population. New Hampshire residents in rural communities face geographic barriers to health care such as increased travel time to health care providers and hospitals. Access to oral, mental, primary, specialty and reproductive health care can be a significant challenge, especially to those without access to transportation. Ensuring the financial wellbeing of the CAHs is an integral part of maintaining essential healthcare access.

The Department will monitor the effectiveness of the Contractor and the delivery of services required under this agreement using the following performance measures:

- One hundred percent (100%) of participating hospitals receive baseline denial rates and a comparison to New Hampshire and National Critical Access Hospitals.
- At least one (1) revenue cycle management activity/project is offered during the contract period that is feasible for a member of the finance staff of each participating Critical Access Hospital to attend.
- At least fifty percent (50%) of the Critical Access Hospitals participating in revenue cycle management activities/projects show an improvement in one (1) financial indicator.

Should the Governor and Executive Council not authorize this request, the sustainability of the progress made in reducing the number of denied claims for CAHs will be at risk. Consequently, CAHs may forfeit access to financial assessments that would improve their revenue cycle management, thereby reducing their financial stability and increasing the risk of a discontinuation of essential CAH services, which would negatively impact many of New Hampshire's most vulnerable citizens.

Area served: Critical Access Hospital service areas statewide.

Source of Funds: 100% Federal Funds from the US Department of Health and Human Services, Health Resources and Services Administration, State Rural Hospital Flexibility Program; Catalog of Federal Domestic Assistance (CFDA) #93.241; Federal Award Identification Number (FAIN) U2WRH33289.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

FINANCIAL STATEMENTS

December 31, 2018 and 2017

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Foundation for Healthy Communities

We have audited the accompanying financial statements of Foundation for Healthy Communities (Foundation), which comprise the statements of financial position as of December 31, 2018 and 2017, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2018 the Foundation adopted Financial Accounting Standards Board Accounting Standards Update No. 2016-14, *Presentation of Financial Statements for Not-for-Profit Entities* (Topic 958). Our opinion is not modified with respect to this matter.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2018 and 2017

Organization

Foundation for Healthy Communities (Foundation) was organized to conduct various activities relating to healthcare delivery process improvement, health policy, and the creation of healthy communities. The Foundation is controlled by New Hampshire Hospital Association (Association) whose purpose is to assist its members in improving the health status of the people receiving healthcare in New Hampshire.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on existence or absence of donor-imposed restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Foundation. These net assets may be used at the discretion of the Foundation's management and the Board of Trustees.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity. Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities and changes in net assets. At December 31, 2018 and 2017, the Foundation did not have any funds to be maintained in perpetuity.

Cash and Cash Equivalents

For purposes of reporting in the statements of cash flows, the Foundation considers all bank deposits with an original maturity of three months or less to be cash equivalents.

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2018 and 2017

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management believes all accounts receivable are collectible. Credit is extended without collateral.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statements of financial position. Interest and dividends are included in the changes in net assets for operations.

Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful lives of each class of depreciable asset and is computed using the straight-line method.

Employee Fringe Benefits

The Foundation has an "earned time" plan under which each employee earns paid leave for each period worked. These hours of paid leave may be used for vacation or illnesses. Hours earned but not used are vested with the employee and may not exceed 30 days at year end. The Foundation accrues a liability for such paid leave as it is earned.

Revenue Recognition

Grants awarded in advance of expenditures are reported as support for net assets with donor restrictions support if they are received with stipulations that limit the use of the grant funds. When a grant restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to operating net assets without donor restrictions and reported in the statements of activities and changes in net assets as "net assets released from restrictions". If there are unused grant funds at the time the grant restrictions expire, management seeks authorization from the grantor to retain the unused grant funds to be used for other unspecified projects. If the Foundation receives authorization from the grantor, then the Board of Trustees or management internally designates the use of those funds for future projects. These amounts are reclassified from net assets with donor restrictions to internally designated net assets without donor restrictions and reported in the statements of activities and changes in net assets as "net assets released from internally designated."

FOUNDATION FOR HEALTHY COMMUNITIES

Notes to Financial Statements

December 31, 2018 and 2017

Grant funds conditional upon submission of documentation of qualifying expenditures or matching requirements are deemed to be earned and reported as revenues when the Foundation has met the grant conditions.

The amount of such funds the Foundation will ultimately receive depends on the actual scope of each program, as well as the availability of funds. The ultimate disposition of grant funds is subject to audit by the awarding agencies.

Resources received from service beneficiaries for specific projects, programs, or activities that have not yet taken place are recognized as deferred revenue to the extent that the earnings process has not been completed.

Contributions of long-lived assets are reported as support for net assets without donor restrictions unless donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long these long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Change in Net Assets from Operations

The statements of activities and changes in net assets include a measure of change in net assets from operations. Changes in net assets which are excluded from this measure include realized and unrealized gains and losses on investments.

Income Taxes

The Foundation is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code.

Recently Issued Accounting Pronouncement

In August 2016, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities* (Topic 958), which makes targeted changes to the not-for-profit financial reporting model. The new ASU marks the completion of the first phase of a larger project aimed at improving not-for profit financial reporting. Under the new ASU, net asset reporting is streamlined and clarified. The previous three category classification of net assets is replaced with a simplified model that combines temporarily restricted and permanently restricted into a single category called "net assets with donor restrictions." The ASU also imposes several new requirements related to reporting expenses. The ASU is effective for the Organization for the year ended December 31, 2018.

Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, the Foundation has considered transactions or events occurring through June 6, 2019, which was the date that the financial statements were available to be issued.

2. Availability and Liquidity of Financial Assets

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize the investment of its available funds.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Foundation considers all expenditures related to its ongoing activities and general and administration, as well as the conduct of services undertaken to support those activities to be general expenditures.

In addition to financial assets available to meet general expenditures over the next 12 months, the Foundation operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

As of December 31, 2018, the Organization has working capital of \$1,085,117 and average days (based on normal expenditures) cash on hand of 134 which includes cash and cash equivalents, and investments.

At December 31, 2018 and 2017, the following financial assets could readily be available within one year of the statement of financial position date to meet general expenditure:

	<u>2018</u>	<u>2017</u>
Financial assets:		
Cash and cash equivalents	\$ 570,277	\$ 845,942

Financial assets available at year end for current use	<u>\$ 1,423,739</u>	<u>\$ 1,869,487</u>

At December 31, 2018 and 2017, internally designated net assets represent unused grant funds to be used for other unspecified projects by management over the next 12 months. The internally designated net assets are included in cash and cash equivalents and accounts receivable, net.

3. Investments

The composition of investments as of December 31 is set forth in the following table. Investments are stated at fair value.

	<u>2018</u>	<u>2017</u>
Marketable equity securities	\$ 216,722	\$ 220,535

Net assets with donor restrictions of \$447,288 and \$476,148 consisted of specific grant programs as of December 31, 2018 and 2017, respectively. The grant programs relate to improvements to access and the delivery of healthcare services.

5. Conditional Promise to Give

During 2016, the Foundation was awarded a grant from the State of New Hampshire in an amount not to exceed \$1,800,000 to facilitate the expansion of New Hampshire's addiction identification and overdose prevention activities. Since the original award the State of New Hampshire has amended the award amount increasing the grant to an amount not to exceed \$3,851,172 as of December 31, 2018. Receipt of the grant and recognition of the related revenue is conditional upon incurring qualifying expenditures. For the years ending December 31, 2018 and 2017, the Foundation recognized program and grant support related to this award in the amount of \$941,414 and \$1,290,812, respectively.

6. Related Party Transactions

The Foundation leases space from the Association. Rental expense under this lease for the years ended December 31, 2018 and 2017 was \$48,909 and \$48,100, respectively.

The Association provides various accounting, public relation and janitorial services to the Foundation. The amount expensed for these services in 2018 and 2017 was \$155,552 and \$154,529, respectively. In addition, the Association bills the Foundation for its allocation of shared costs. As of December 31, 2018 and 2017, the Foundation owed the Association \$47,264 and \$44,660, respectively, for services and products provided by the Association.

The Association owed the Foundation \$113,330 and \$105,610 as of December 31, 2018 and 2017, respectively, for support allocated to the Foundation. 7. Retirement Plan

The Foundation participates in the Association's 401(k) profit-sharing plan, which covers substantially all employees and allows for employee contributions of up to the maximum allowed under Internal Revenue Service regulations. Employer contributions are discretionary and are determined annually by the Foundation. Retirement plan expense for 2018 and 2017 was \$43,219 and \$45,711, respectively.

8. Functional Expenses

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses allocated to general and administration include salaries and related taxes, allocated based on the underlying salaries and other operating, insurance and depreciation, allocated using bases estimating the utilization of support services. Expenses related to services provided for the public interest are as follows:

9. Concentrations of Credit Risk

From time-to-time, the Foundation's total cash deposits exceed the federally insured limit. The Foundation has not incurred any losses and does not expect any in the future.

10. Fair Value Measurement

FASB Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and expands disclosures about fair value measurements.

FASB ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Foundation's investments are measured at fair value on a recurring basis and are considered Level 1.

EXPLANATION

The purpose of this request is to provide additional funding that will fund stipends to individual staff or teams at Critical Access Hospital (CAHs) who complete quality improvement activities during State Fiscal Year 2019 upon receipt of an approved completed application to the Rural Health and Primary Care Section. These stipends will allow hospital staff members to implement a new component of the hospital's Antibiotic Stewardship Program using the specific "potential improvement actions" documented in the *Core Element Four: Action* section of the CDC publication, "Implementation of Antibiotic Stewardship Core Elements at Small and Critical Access Hospitals."

Alternatively, CAHs may identify a need for improving the care measured by other mandated Quality Improvement core measures. Quality improvement projections will assist with improving hospital processes and financial viability as well as to increase educational opportunities for hospital staff at CAHs, ensuring continued and optimal care for the New Hampshire population. These stipends are part of a strategic initiative to support quality improvement activities in Critical Access Hospitals.

In an increasingly challenging healthcare environment, CAHs need to improve care quality, improve the patient experience, and reduce costs to withstand the transition to value-based care. New Hampshire's CAHs serve approximately 37% of our total population living in rural areas. New Hampshire residents in rural communities face geographic barriers to health care such as lack of transportation and increased travel time to health care providers and hospitals. Access to oral, mental, primary, specialty and/or reproductive health care can be a significant challenge, especially to those without access to transportation.

In addition to the residents served by New Hampshire's CAHs, many New Hampshire citizens depend on these hospitals as an employer, a consumer of goods, and as a community institution. CAHs are often the largest employer in the area and help sustain local businesses that provide goods and services. In addition, all of New Hampshire's Critical Access Hospitals provide community benefits through uncompensated care, health initiatives sponsorships, and targeted care for the most pressing community needs. It is essential that rural hospitals survive the difficult economic transition of care that is taking place throughout the United States.

The Contractor must meet or exceed the following performance measures to ensure the effectiveness of the agreement, as monitored on a monthly basis:

- 100% of participating hospitals receive baseline denial rates and a comparison to New Hampshire and National Critical Access Hospitals.
- 100% of participating hospitals receive an analysis of their charge capture effectiveness and receive technical assistance to boost charge capture effectiveness.
- At least 1 revenue cycle management activity is offered during the contract period that is feasible for a member of the finance staff of each participating Critical Access Hospital to attend.
- At least 50% of the Critical Access Hospitals participating in revenue cycle management activities show an improvement in 1 financial indicator.

Notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2019, and the Department shall not be liable for any payments for services provided after June 30, 2019, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the State Fiscal Year 2020-2021 and State Fiscal year 2022-2023 biennia.

Should the Governor and Executive Council not authorize this request, New Hampshire's CAHs may forfeit access to financial assessments that would improve their revenue cycle management, thereby increasing costs of the care they provide. Additionally, should this request not be approved, there may be a discontinuation of initiatives that sustain essential services for CAHs, which would negatively impact many of NH's most vulnerable citizens.

Area served: Statewide.

Source of Funds: 100% Federal Funds from the Catalog of Federal Domestic Assistance (CFDA) #93.241 US Department of Health and Human Services, Health Resources and Services Administration, State Rural Hospital Flexibility Program. Federal Award Identification Number (FAIN) # H54RH00022.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

The purpose of this request is to continue improving hospital processes and financial viability as well as to increase educational opportunities for hospital staff at Critical Access Hospitals, ensuring continued and optimal care for the New Hampshire population.

Funds in this amendment will be further utilized to implement quality improvement stipend projects aimed to help Critical Access Hospitals improve performance and patient safety resulting in effective changes to streamline hospital processes. New Hampshire's small, rural hospitals provide local access to care for patients and act as an essential entry-point for into systems of care between Critical Access Hospitals and other community health services. This type of comprehensive care for patients helps New Hampshire meet the goals of the triple aim: better quality care, better outcomes, for a lower cost.

Specifically, the Foundation for Healthy Communities will work with Critical Access Hospitals on: Financial and operational improvement projects which will include utilizing remittances to establish baseline denial rates, analyzing charge capture effectiveness across CAHs, and providing comparative reports for benchmarking performance relative to New Hampshire peers and National peers. Once benchmarks have been established, the Foundation will provide technical assistance to hospitals for implementing best practices and changes to improve performance. This set of projects was initially approved on the December 20th, 2017 Governor and Council session, but \$260,646 in additional funds exclusive of amounts pre-designated for fiscal agency over State fiscal years 2018-2022 will enable the Foundation to complete more in-depth assistance. Technical assistance services will increase by \$4,609.50 in fiscal year 2018, \$60,577.50 in fiscal year 2019, \$76,000.00 in fiscal year 2020, \$92,861.00 in 2021, and \$6,598.00 in 2022.

The additional funds will also allow the Foundation to act as a fiscal agent to support quality improvement activities at each of the hospitals in State fiscal years 2018-2021. Hospital staff will be invited to participate in the Institute for Healthcare Improvement online learning platform through the New England Rural Health Roundtable and are eligible for reimbursements for certifications and courses upon documented completion. Funds in this area of activities will total \$100,000; with \$25,000 being allotted in State fiscal years 2018, 2019, 2020, and 2021.

The Foundation will also provide stipends to individual staff at CAHs who complete quality improvement activities during State fiscal year 2018 upon receipt of an approved completed application to the Rural Health and Primary Care Section. These stipends will allow hospital staff members to implement a new component of the hospital's Antibiotic Stewardship Program using the specific "potential improvement actions" documented in the *Core Element Four: Action* section of the CDC publication, "Implementation of Antibiotic Stewardship Core Elements at Small and Critical Access Hospitals." Alternatively, CAHs may identify a need for improving the care measured by other mandated Quality Improvement core measures. Funds dedicated to these quality improvement activities will total \$32,500, or \$2,500 for up to thirteen (13) projects.

New Hampshire's Critical Access Hospitals serve approximately 37% of our total population living in rural areas. As with most rural populations, those within New Hampshire tend to be proportionately older, are more likely to be dependent upon Medicaid or Medicare, or are uninsured, and reside in areas designated as Health Professional Shortage Areas or Medically Underserved Areas. New Hampshire residents in rural communities face geographic barriers to health care such as lack of transportation and increased travel time to health care providers and hospitals. Access to oral, mental, primary, specialty and/or reproductive health care can be a significant challenge.

In addition to the residents served by New Hampshire's Critical Access Hospitals, many New Hampshire citizens depend on these hospitals as an employer, a consumer of goods, and as a community institution. Critical Access Hospitals are often the largest employer in the area and help to bolster local businesses that provide goods and services. In addition, all of New Hampshire's Critical Access Hospitals provide Community Benefits through uncompensated care, sponsorship of health

initiatives, and targeted care for the most pressing community needs. It is essential that these rural hospitals continue to survive through the difficult economic transition of care that is taking place throughout the United States.

Exhibit C-1, Revisions to General Provisions in the original contract reserves the Department's right to extend contract services for up to three (3) additional years contingent upon the vendor providing satisfactory services, continued appropriation of funding and approval by the Governor and Executive Council.

The Contractor has made significant progress towards establishing the groundwork for implementing performance measures including selecting a subcontractor to provide financial improvement technical assistance, establishing agreement regarding assistance to be provided and baseline financial measurement requirements with sub-contractor. The Contractor will be held to the following performance measures to ensure the effectiveness of the agreement, as discussed on a monthly basis:

- 100% of participating hospitals receive baseline denial rates and a comparison to New Hampshire and National Critical Access Hospitals.
- 100% of participating hospitals receive an analysis of their charge capture effectiveness and receive technical assistance to boost charge capture effectiveness.
- At least 1 revenue cycle management activity is offered during the contract period that is feasible for a member of the finance staff of each participating Critical Access Hospital to attend.
- At least 50% of the Critical Access Hospitals participating in revenue cycle management activities show an improvement in 1 financial indicator.

The State of New Hampshire has been receiving the Medicare Rural Hospital Flexibility Grant funds to support Critical Access Hospitals since the program began in 1999. Although an application that includes a progress report is required annually, the program only requires a competitive application every five years. The governor in each state decides which entity is allowed to apply for the funding. The Department of Health and Human Services, Division of Public Health Services remains the only program designated to apply for the funds. The next competitive application will be submitted in early 2019 for funding to begin September 1, 2019.

Notwithstanding any other provision of the Contract to the contrary, no services shall continue after June 30, 2019, and the Department shall not be liable for any payments for services provided after June 30, 2019, unless and until an appropriation for these services has been received from the state legislature and funds encumbered for the State Fiscal Year 2020-2021 biennia.

Should Governor and Executive Council not authorize this Request, New Hampshire's Critical Access Hospitals may forfeit access to financial assessments that would improve their revenue cycle management, thereby increasing costs of the care they provide. In an increasingly challenging healthcare environment, Critical Access Hospitals need to improve care quality, improve the patient experience, and reduce costs to withstand the transition to value-based care. Many of our most vulnerable citizens rely on our Critical Access Hospitals to maintain and improve their health and without this funding there may be a discontinuation of initiatives that may sustain essential services for our hospitals.

Area served: Statewide.

Source of Funds: 100% Federal Funds from the Catalog of Federal Domestic Assistance (CFDA) #93.241 US Department of Health and Human Services, Health Resources and Services

Administration, State Rural Hospital Flexibility Program. Federal Award Identification Number (FAIN) # H54RH00022.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

Approval of this request will allow the vendor to provide evidence-based practices to assist New Hampshire's Critical Access Hospitals to improve their performance. This vendor will work with Critical Access Hospitals on the following enhancements: Financial and operational improvement projects to include utilizing remittances to establish baseline denial rates, analysis of charge capture effectiveness across Critical Access Hospitals, and providing comparative reports for benchmarking performance relative to New Hampshire peers. These specific activities will allow the Critical Access Hospitals to monitor their financial performance, strengthen their value in the communities they serve and assist them in sustaining access to quality healthcare in these areas.

According to the New Hampshire definition of rural, approximately 37% of the population and 84% of the landmass in New Hampshire is considered rural. As with most rural populations, those within New Hampshire tend to be disproportionately older, are more likely to be dependent upon Medicaid or Medicare, or are uninsured, and reside in areas designated as Health Professional Shortage Areas or Medically Underserved Areas. New Hampshire residents in rural communities already face geographic barriers to health care such as lack of transportation and increased travel time to health care providers and hospitals. Access to oral, mental, primary, specialty and/or reproductive health care can be a significant challenge as well. New Hampshire's thirteen (13) Critical Access Hospitals provide local care to the majority of our rural population; and keeping these hospitals financially viable is a critical to keeping their doors open to serve some of our most vulnerable citizens.

Should Governor and Executive Council not authorize this Request, New Hampshire's Critical Access Hospitals may forfeit access to financial assessments that would improve their revenue cycle management, thereby reducing the cost of the care they provide. In an increasingly challenging healthcare environment, Critical Access Hospitals need to improve care quality, improve the patient experience, and reduce costs to withstand the transition to value-based care. Many of our most vulnerable citizens rely on our Critical Access Hospitals to maintain and improve their health and without this funding there may be a discontinuation of initiatives that may sustain essential services for our hospitals.

This vendor was selected through a competitive bid process. The Department published a Request for Proposals on the Department of Health and Human Services website from August 25, 2017 through September 25, 2017. One (1) proposal was received. The proposal was reviewed and scored by a team of individuals with program specific knowledge. The Score Summary sheet is attached.

As referenced in the Exhibit C-1 of this contract and the Request for Proposal, this Agreement has the option to extend services for up to three (3) years contingent on satisfactory vendor performance, continued funding and Governor and Executive Council approval.

The Contractor shall ensure the following performance measures are annually achieved and monitored monthly to measure the effectiveness of the agreement:

- 100% of hospitals receive baseline denial rates and a comparison to New Hampshire and National Critical Access Hospitals.
- 100% of hospitals receive an analysis of their charge capture effectiveness and receive technical assistance to boost charge capture effectiveness.
- At least 1 revenue cycle management activity is offered during the contract period that is feasible for a staff member of each Critical Access Hospital to attend.
- At least 50% of the Critical Access Hospitals participating in revenue cycle management activities show an improvement in 1 financial indicator.

Area served: Statewide.

Source of Funds: 100% Federal Funds from the Catalog of Federal Domestic Assistance (CFDA) #93.241 US Department of Health and Human Services, Health Resources and Services Administration, State Rural Hospital Flexibility Program. Federal Award Identification Number (FAIN) # H54RH00022.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retrospective Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the Individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to Ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to Ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).
